Link to board priorities	<p>Please include in your report how your work links to one or more of our board priorities:</p> <p>1. We will help keep people healthier for longer Good mental health is integral to overall health. On average, people with severe mental health problems die 15-20 years younger than the general population and poor mental health is both a cause and consequence of health and social inequalities.</p> <p>2. We will help keep people safe and support communities A cohesive, multi-agency approach to mental health is key to reducing the impact of poor mental health on individuals, families and communities. This includes wellbeing promotion and mental health improvement as well as ensuring that those experiencing mental health difficulties are able to access timely and appropriate care and support.</p> <p>3. We will work together to join up services The new governance arrangements for mental health services in Sandwell are an opportunity to develop a comprehensive and cohesive approach to mental health that will make the best use of available resources and community assets.</p> <p>4. We will work closely with local people, partners and providers of services The revised Community MH model will be supported by the Better Mental Health Strategy & Action Plan being co-produced via local stakeholder groups.</p>
