Dear Tammy,

EAGLE LANE VIADUCT – PREVENTATIVE MAINTENANCE

I can confirm that TfWM will provide a capped capital contribution of £257,000 for the preventative maintenance required at Eagle Lane Viaduct in advance of Wednesbury to Brierley Hill Metro Extension works commencing in that location.

Please note the conditions for this funding as set out below:

- Reimbursement by WMCA will be the lower of the 'project spend' or the capped at the grant amount
- Project spend must be associated directly with the repair of this asset
- Project spend will be reimbursable by WMCA upon completion, following receipt of a transaction list
- Electronic copies of all individual invoices over £20k to be provided to WMCA
- Transaction list signed / approved by Section 151 or Senior Finance Officer

Can you please confirm that these conditions are acceptable to Sandwell MBC. Can you also please provide a programme for the works and anticipated timescale.

Yours sincerely,

Sandeep Shingadia
Director of Development & Delivery
Transport for West Midlands
