1 PURPOSE OF THE REPORT

- 1.1 The purpose of this report is to consult constituent authorities on the now prepared Governance review (Appendix A) and Scheme (Appendix B) for the proposed governance model of the West Midlands Fire Service (under the Mayoral West Midlands Combined Authority) prior to going out for formal public consultation.

2 IMPLICATIONS FOR THE COUNCIL’S VISION

- 2.1 The proposals support the council’s vision and the 10 ambitions.

3 BACKGROUND AND MAIN CONSIDERATIONS

- 3.1 In response to the Policing and Crime Bill (2016) consultation, the West Midlands Fire and Rescue Authority (WMFRA) set out a direction seeking the future sustainability of services under a Mayoral WMCA model of governance.
- 3.2 In recognising the need for an independent review of the possible future governance options, WMFRA commissioned an appraisal panel in April 2016. The Groups outcomes and conclusions are detailed in the attached Governance Review (Appendix A).
- 3.3 The outcomes of the group were then built upon through a public consultation undertaken during December 2016 to January 2017, seeking public and partner opinion regarding the future strategy to deliver risk-based services across the West Midlands. A Reformed Fire Authority (RFA) and Mayoral Combined Authority were identified as the 'desirable' options for the future governance of West Midlands Fire Service (WMFS).
- 3.4 Accepting the findings of both the Group and the public consultation, considering these against the Strategy of WMFS, the priorities of the WMCA and the expectations of government, the route to future Mayoral WMCA governance was agreed by WMFRA on the 20 February 2017.
- 3.5 The WMCA supported the WMFRA's broad proposal for the transfer of its functions to the Mayoral Combined Authority on 3rd March 2017.
- 3.6 Alongside this, work is underway to implement a RFA as an interim measure until WMFRA functions are transferred to and assumed by the Mayoral Combined Authority.
- 3.7 On the 8 September 2017 the WMCA board noted the timeline for the mayoral governance route and approved the development of a governance review and scheme, for Mayoral Combined Authority governance of WMFS pursuant to Sections 111 and 112 (1d) of Local Democracy, Economic Development and Construction Act 2009. The Scheme is detailed in Appendix B. The timeline referred to here is provided in this report in paragraph 3.13.
- 3.8 The benefits of the Mayoral WMCA governance model provides huge opportunities for the joint transformation of public services to West Midlands communities, providing value for money in the delivery of public safety. These opportunities have been detailed in the Governance Review.

- 3.9 The Governance Review in Appendix A provides a review of existing governance arrangements and functions, this includes the proposed new model under the Mayoral combined authority.
- 3.10 The Scheme detailed in Appendix details the roles, accountabilities, and powers required by each individual /body in the proposed governance model.
- 3.11 Following constituent authority consultation on the Governance Review and Scheme, the Scheme must enter a formal public consultation in adherence to section 113 (3) Local Democracy, Economic Development and Construction Act 2009.
- 3.12 The Government will use these documents and the results of the consultation to approve the model and create an order to amend existing legislation, in order to confer the necessary powers on the Mayoral WMCA to carry out the functions currently exercised by the WMFRA.
