

Rewilding Inquiry

Presentation to the Economy, Skills, Transport and Environment Scrutiny
Committee – 25 June 2020

Rewilding Inquiry – next steps

- By default (not cutting our verges) rewilding has started to happen. Do we leave our verges to rewild?
- In addition to verges consider larger open spaces, which again have begun to rewild;
- Wildlife Trust to visit previously agreed sites and comment on those that of the most interest;
- Hold a “virtual” Inquiry Day and consider and agree sites;
- Provide a further report back to a future meeting on progress.
