

Agenda

Children's Services and Education Scrutiny Board

Monday, 23 August 2021 at 5.00 pm

At Council Chamber, The Council House, Freet Street, Oldbury, B69 3DB

This agenda gives notice of items to be considered in private as required by Regulations 5 (4) and (5) of The Local Authorities (Executive Arrangements) (Meetings and Access to Information) (England) Regulations 2012.

1 Apologies for Absence

2 Declarations of Interest

Members to declare any interests in matters to be discussed at the meeting.

3 Minutes 7 - 12

To confirm the minutes of the meeting held on 2 August 2021 as a correct record

4 Additional Items of Business

To determine whether there are any additional items of business to be considered as a matter of urgency.

5 Sandwell Children's Trust Annual Review 13 - 98

Members to comment on and note the Sandwell

Children's Trust Annual Review

Information about meetings in Sandwell

If you are attending the meeting and require assistance to access the venue, please contact Democratic Services (democratic_services@sandwell.gov.uk).

If the fire alarm sounds, please follow the instructions of the officers present and leave the building by the nearest exit.

Only people invited to speak at a meeting may do so. Everyone at the meeting is expected to be respectful and listen to the discussion.

Agendas with reports with exempt information should be treated as private and confidential. It is your responsibility to ensure that any such reports are kept secure. After the meeting confidential papers should be disposed of in a secure way.

This meeting may be recorded and broadcast on the Internet. If this is the case, it will be confirmed at the meeting and further information will be provided.

You are allowed to use devices for the purposes of recording or reporting during the public session of the meeting. When using your devices they must not disrupt the meeting – please ensure they are set to silent.

Members who cannot attend the meeting should submit apologies by contacting Democratic Services (democratic_services@sandwell.gov.uk)

All agenda, reports, minutes for Sandwell Council's meetings, councillor details and more are available from our [website](#)

Minutes of Children's Services and Education Scrutiny Board

Monday 2 August 2021 at 5.00pm
in the Council Chamber, Sandwell Council House, Oldbury

Present: Councillor Shackleton (Chair);
Councillors W Gill and McVittie
Co-opted Member K Heeley (Primary School Governor
representative).

Also present: Councillors Anandou, E M Giles and Simms.

Officers: Lesley Hagger (Director – Children's Services)
Rebecca Maher (Head of Finance)
Sue Moore (Group Head for Education Support Services)
Alexander Goddard (Democratic Services Officer)
Connor Robinson (Democratic Services Officer)

18/21 **Apologies for Absence**

Apologies for absence were received from Councillors E A Giles, Hinchliff, Hughes and Smith; K Kujawa-Sogbesan (Co-opted Member Secondary School Governor representative)
C Ward-Lewis (Co-opted Member Church of England Diocese representative)

19/21 **Declarations of Interest**

There were no declarations of interest made.

20/21

Minutes

Minutes of the meeting held on the 15 March were agreed as a correct record.

21/21

Additional Item of Business

There were no additional items of business to consider.

22/21

Scrutiny Review – Special Educational Needs and Disabilities (SEND) Transport Models

The Executive Director of Children's Services delivered a presentation on the Council's statutory duties in relation to Special Educational Needs and Disabilities (SEND) Transport, and how they are met in Sandwell.

The Local Authority had a duty and powers to make particular travel arrangements for children with Special Educational Needs and Disabilities (SEND) and to facilitate their attendance at an appropriate educational setting, as set out in the Education Act 1996, and amended by the Education and Inspections Act 2006. It was noted that the 2006 Act referred to *travel* rather than transport, and therefore there was a range of options available, depending on the pupil need.

Those pupils who were eligible to receive assistance with travel were those of statutory school age with SEND, whose needs or disabilities meant that they could not be expected to walk to school. All applications for Travel Assistance were considered in line with the Travel Assistance Policy 2020/21.

The travel assistance currently provided to eligible children and young people consisted of:-

- courses in independent travel training;
- travel passes for the child or young person and an accompanying adult;

- reimbursement of mileage costs to a parent/carer;
- provision of a place in a vehicle which would transport the child or young person to school.

The Council was also required to produce a Local Offer which set out the support that families and children and young people with SEND could expect in Sandwell.

Since February 2018, the provision of passenger transport services had been arranged via a Dynamic Purchasing System (DPS) Framework process that was due to end on 31 July 2021. In total 122 different contracts had been delivered by 18 different operators. There were 659 pupils who currently accessed SEND transport, attending 82 Sandwell schools and 47 out of borough schools.

The overall cost of providing travel assistance (including parent mileage, travel passes and personal budgets) had increased by 45% from £3,528,000 in 2018/19 to a projected cost of £6,452,000 in 2021/22. Over the same period the number of SEND pupils who required travel assistance had increased from 680 to 850 with the average cost per pupil increasing from £5,188pa to £7,591pa. It was highlighted that this was not unique to Sandwell.

The Board received a brief presentation on the use of personal budgets. The use of personal budgets within Sandwell had begun in the summer of 2020 and was designed to help parents make their own travel arrangements. The amount of funding the parents received was based on the distance between their home and school. 140 families were currently receiving personal budgets.

The Board noted that there were currently 180 children attending 48 different settings out of borough. Children normally attended out of borough settings if their needs were such that they could only be met by that setting.

At its meeting on 16th June 2021 the Cabinet had deferred a decision to award transport contracts for 2021-2025, to be effective from 1st September 2021, pending a review (Minute No. 110/21 refers). It had subsequently been agreed that a joint review would be undertaken by the Budget and Corporate Scrutiny Management Board and the Children's Services and Education Scrutiny Board

to identify recommendations relating to SEND Transport and the model for the provision of that service. It was noted that the Audit and Risk Assurance Committee would also be considering the procurement processes in relation to the contracts, taking into account the findings of internal and external audit reviews.

Following comments and questions from members of the Board, the following responses were made, and issues highlighted:-

- The option of personal budgets for parents who accessed SEND transport had been communicated to them in writing on two occasions. However, the service would be reaching out again to those eligible.
- The use of personal budgets was not a one size fits all approach and instead should be regarded as an alternative option.
- The use of personal budgets would continue, however there was a concern that it may increase the number of vehicles undertaking the school. How journeys operated in the future may mean considering different options such as multiple pick-ups/carshares, this however would depend on the needs of the child or young person.
- Over the summer the service would be seeking feedback from parents who had accessed personal budgets.
- The issues around budgets and increased spending a national one and recognised by government. Focusing on particular schools was not necessarily helpful.
- Allegations around modern day slavery had been investigated by national government, the police and human trafficking organisations. No modern day slavery had been identified, however poor work practices had been discovered. Sandwell had one of the best responses to modern day slavery and was confident that the investigation had identified any issues. Those operators discovered to have poor working practices had seen additional checks and balances introduced, new contract arrangements had enabled the necessary level of quality.
- Training was being provided to operators in order for them to learn about modern slavery and understand best practice.
- A consultancy had explored alternative options around SEND transport and had engaged with parent/carers. The final report was still awaited.

The Chair of Budget and Corporate Scrutiny Management Board had requested the findings of the internal audit review into the procurement process.

A draft scoping document for the joint review was presented to the Board for consideration.

The scoping document had been updated following comments made by members prior to the meeting. The scoping document would establish the basis for the working group.

All members present indicated their desire to participate in the working group and the Chair advised that individual work streams would be assigned.

Meeting ended at 6.21pm

Report to CHILDREN'S SERVICES AND EDUCATION SCRUTINY BOARD

23 August 2021

Subject:	Sandwell Children's Trust Annual Review 2020/201 and Improvement Plan
Director:	Executive Director of Children's Services, Lesley Hagger
Contact Officer:	Lesley Hagger, Executive Director of Children's Services Lesley_hagger@sandwell.gov.uk Mandip S. Chahal, Senior Commissioning Manager for Statutory Services Mandip1_chahal@sandwell.gov.uk

1 Recommendations

- 1.1 Scrutiny Board considers and comments on Sandwell Children's Trust Annual Review 2020/21 and Improvement Plan

2 Reasons for Recommendations

- 2.1 Sandwell Children's Trust (SCT) is required to report to the Scrutiny Board twice each year as part of the obligations set out in the contract between the Council and the Trust.
- 2.2 The purpose of the item is to provide an update for consideration and discussion regarding Sandwell Children's Trust.

3 How does this deliver objectives of the Corporate Plan?

	<p>Best start in life for children and young people</p> <p>Ensuring that children have the Best Start in Life is a key driver for Sandwell Children's Trust; ensuring that children are safeguarded, protected and, when unable to live with their parents, are effectively cared for.</p> <p>SCT works with families, foster carers, schools, statutory and voluntary providers to support the achievements of vulnerable children and those in the care of the council</p> <p>SCT works to ensure that children in the care of the Council receive the support and opportunities that any parent would give their child</p>
---	---

4 Context and Key Issues

- 4.1 The contract with SCT has a comprehensive programme of governance arrangements. The contract requires that the Executive Director of Children's Services, together with council senior officers from finance and legal services, and the Chief Executive of the Trust meet on at least a monthly basis to consider performance and operational matters. In addition, each quarter, the Lead Member for Children's Services and the Chief Executive meet with the Chair of the SCT Board and the Chief Executive of SCT, at a Strategic Partnership Board.
- 4.2 The contract with the Trust specifies that representatives of the Trust should attend Council meetings when reasonably requested, specifically referencing attendance twice a year at the Children's Services and Education Scrutiny Board and at the Budget and Corporate Scrutiny Management Board if requested.
- 4.3 The contract requires SCT to provide a comprehensive annual review for consideration by the Operational Partnership Board, the Strategic

Partnership Board and then by the Cabinet. Progress against the performance indicators for the period 01 April 2020 to 31 March 2021 is set out in the Annual Review 2020/21, together with information about financial, workforce, and other performance areas.

- 4.4 On behalf of the Council, the Sandwell Childrens Trust developed an Improvement Plan in response to the Ofsted inspection findings published in January 2018. This plan was presented to Cabinet in September 2018 and covered a 3-year period.
- 4.5 Since April 2018 the Trust has received several monitoring visits from Ofsted as well as 2 assurance visits, the most recent of which was in March 2021.
- 4.6 The Trust have undertaken a refresh of the Improvement Plan, utilising the feedback provided by Ofsted during their visits and input from both the Council and Independent Improvement Board, with an aim of becoming a 'Good' or better organisation.
- 4.7 The plan is based on 4 key themes, underpinned by outcomes to be achieved. The key themes are: People, Practice, Partnership and Prevention.
- 4.8 The delivery of the improvement plan will continue to be overseen by the Improvement Board, independently chair by Mark Gurrey, and progress monitored as part of the Council's contractual monitoring processes.

5 Alternative Options

- 5.1 At its meeting on 19 October 2016, Cabinet was advised of the Government's Statutory Direction (under Section 479A of the Education Act 1996) to set up a new arrangement in the form of a children's trust to deliver children's social care services. As a result, Sandwell Children's Trust started operating on 1st April 2018. Any alternative to the current arrangement must be agreed by the Secretary of State for Education.

6 Implications

Resources:	<p>Sandwell Children's Trust receives a significant financial resource to deliver the Council's statutory responsibilities for children's social care, and also to provide targeted early help services.</p> <p>The Contract Sum amount that SCT receives is agreed annually in line with mechanisms set out in the Service Delivery Contract.</p>
Legal and Governance:	<p>The Service Delivery Contract between the Council and SCT is performance managed via a monthly Operational Partnership Board, a quarterly Strategic Partnership Board, and SCT is required to attend up to 2 Children's Scrutiny Board meetings and 1 Budget Scrutiny meeting each year. There is a partnership Improvement Board independently chaired by a DfE appointed consultant. Additionally, the Trust is required to submit its Annual Review to the Council.</p>
Risk:	<p>The council's strategic risk register identifies a red risk relevant to this report, regarding improvements required in children's social care services. This risk is regularly monitored and reported to the Council's Audit and Risk Assurance Committee. In the most recent review, the risk assessment has increased from 12 (red) to 16 (red) as a result of Covid-19 and the impact this is having on the improvement plan and the delivery of Childrens social care services being assessed as 'Requires Improvement' and 'Good' as stipulated in the Service Delivery Contract.</p>
Equality:	<p>An Equality Impact Assessment screening is not required for this report. However, the improvement in children's services will have a positive effect on the lives of vulnerable children, young people and families in Sandwell, including those with protected characteristics</p>
Health and Wellbeing:	<p>SCT continues to support children and families in Sandwell and as the quality of service that they deliver</p>

	improves so does the impact they have on improving the health and wellbeing of children and families.
Social Value	SCT supports children to achieve, feel safe, be supported and access opportunities. SCT supports care leavers to access education, employment and training. Having strong governance and oversight supports SCT to achieve service improvement and better support children and families in Sandwell.

52	Section (l) Such other matters that the Parties may agree from time to time.

Foreword

We are very pleased to present Sandwell Children's Trust's third annual review report, which details our progress over the last year. The Trust was set up in April 2018 to improve services for the most vulnerable children and families in Sandwell and we are proud of the progress we have made year on year, particularly in the face of the COVID-19 pandemic. We have done our very best for our children and families under these enormously challenging circumstances and our staff have shown great dedication and resilience in keeping children safe during a very difficult period.

This report forms part of our contractual arrangements with Sandwell Metropolitan Borough Council, and is a 'look backwards' to all our continued successes and challenges within our third year of operation. This report is a review of the financial year 2020/21, throughout which we have had to align our resources as necessary to respond and adapt to the pandemic. The report will show how we have worked together with our partners and particularly colleagues from Sandwell Metropolitan Borough Council, our commissioners to do our best for children despite the challenges brought from the pandemic. In doing so we demonstrate our financial performance against the contract sum, our medium term financial plan, and how we have managed this against our demand for providing services to the children and young people of Sandwell. We set out our financial challenges and present a summary of our end of year accounts.

We also show the progress we have made on our improvement journey, against all aspects of our improvement plan, and highlight what others have said about us in a year where external regulators have sought assurance from us. We present the findings of surveys and feedback from children and families, and the themes of quality assurance activity. Finally, we set out where we have made joint changes to our contractual arrangements with the council.

We have continued to develop and mature as an organisation and have a clear vision for how we will strengthen the few areas where improvement is needed and also to build on our successes to become even better in the areas where we have improved. Our overall aim has not changed, which is to provide good services to children and families by 2022 and better services beyond this.

As we said last year, we see the annual review as one of three key strategic documents, the others being our Improvement Plan, and our Business Plan. Each year, the annual review is a useful opportunity to take stock, reflect on our journey and allows us to see the progress we have made.

We continue to be proud of the family we have created in the Trust which includes a dedicated team of social workers, administrators, support services staff, social care assistants, personal advisors and managers with a shared goal of improving and delivering excellent services for children and young people. We want to place on record our admiration and thanks for their efforts at such a challenging time.

The Right Honourable Jacqui Smith
Chair of Sandwell Children's Trust

Emma Taylor
Chief Executive of Sandwell Children's Trust

Executive Summary

Sandwell Children's Trust went live in April 2018 as a new and distinct legal entity commissioned to provide children's social care services in Sandwell on behalf of Sandwell Metropolitan Borough Council; created a result of a statutory direction from the government, and for the period of this intervention the Department for Education assigns a representative to act on behalf of the secretary of state, who has a range of powers in relation to the governance of the Trust.

The Trust has day-to-day operational independence in the management and delivery of these services, has the aim of providing 'Good' services to our children and families' by 2022 and is governed by a Board of Directors, chaired by the Rt. Hon. Jacqui Smith, and is comprised of the Executive Directors, Independent Non-Executive Directors and council-appointed Non-Executive Directors.

Financial Context

The finances provided by SMBC to the Trust in 2020/21 is £65,328,000 and our 'third party' income was £7,149,794

We had an opening deficit of £5,814,000. The deficit for 2020/21 is subject to audit but provisionally stands at £1,861,144, making the cumulative deficit £7,675,144.

As outlined in our Medium Term Financial Plan our aim is to make financial savings over the next three years (with this year being the second year), and expect to deliver a cumulative breakeven by the end of 2023/24.

Improvement

In addition to managing our financial position, the Trust came into being to provide better services to the children and families of Sandwell. It is fair to say that traditional improvement activities slowed whilst all staff were responding to the pandemic. However, we believe that improvements are always found and made through necessity, and we have therefore strengthened some of our infrastructure and created greater strength and resilience amongst our leaders.

Some of our key, specific achievements within this financial year are:

- Continued practice improvement in all areas as outlined within our audits
- Continued strengthening of performance analysis
- Infrastructure to strengthen permanence and matching
- Improved oversight and challenge by Independent Reviewing Officers and Child Protection Conference Chairs (through midpoint reviews and threshold discussions)
- Continued development of services for exploited children
- Development of relationships across the partnership, for example housing, to put into place joint working protocols for homeless children
- Life work officers are in place to promote best practice in this area

There is more to do, which is why we have refreshed our improvement plan, in line with our aims to become good and outstanding in the achievable future.

Coronavirus

The impact of the pandemic has been significant, and we have risen to the challenge of maximising children's safety and welfare, whilst also balancing the safety and welfare of our staff. This has not been without its challenges, and we have had to be resolute in the face of changing guidance, emerging issues and new developments as they arise. It cannot be understated how our staff at all levels adapted. This report will outline all of the specific business continuity arrangements, risk assessments and mitigating actions we put into place to make SCT as safe as we could.

External Inspections

Despite remaining under DfE intervention and having the badge of 'Inadequate', we did not have formal monitoring visits or a full inspection from Ofsted. However, we did receive inspectors in November 2020 for a fostering assurance visit, and then in March 2021 for a wider assurance visit. Both visits were positive, praised our approach to managing services during the pandemic, and confirmed the areas we knew we need to focus on as part of our improvement journey.

Introduction

The Annual Review is a contractual obligation of Sandwell Children's Trust in its reporting to the Council and interested parties such as the senior civil servant (while a Statutory Direction is in force). First and foremost, the aim of the review is to look back over the previous 12 months and understand how far we have achieved our specified goals within that year. The review should therefore be the first strategic document of the year, that informs our business plan and our improvement plan.

This year in **Section (a)** we begin with a summary of our actions to respond to the coronavirus pandemic.

The Service Delivery Contract allows for the Trust to be 'relieved of its obligations to provide such part of the Services and from any liability for not providing such Services and/or for any consequences of such non-performance to the extent required as a result of the Relief Event'. Once it was clear that the pandemic would have a significant effect on how services could be delivered in line with Coronavirus regulations it was agreed with the Council that the Relief Event clauses were applicable. This has meant that for the duration of the relief event, currently to the end of September 2021, that performance would continue monitored in line with the relief event clauses of the Service Delivery Contract.

Schedule 3 of the Service Delivery Contract outlines the matters that are to be reported on as part of the Annual Review. These are addressed in the following sections:

- Section (b)** the Improvement Plan (where applicable);
- Section (c)** performance of Services against the Performance Targets in the preceding Contract Year;
- Section (d)** the thematic findings of any Audits and Surveys carried out by the Trust during the previous Contract Year;
- Section (e)** the outcome of any Ofsted monitoring visits and/or Ofsted inspections;
- Section (f)** performance against budgets in the preceding Contract Year;
- Section (g)** demand analysis in respect of the Services against assumptions and models in respect of the preceding Contract Year;
- Section (h)** the outcome of any Agreed Action Plan and/or Rectification Plan that was agreed in the preceding Contract Year;
- Section (i)** any Changes to the Agreement agreed between the Parties in the preceding Contract Year pursuant to the Change Control Procedure;
- Section (j)** any proposed changes to the Services Specification, the Financial Mechanism and/or the Performance Indicators for the following Contract Year;
- Section (k)** the contractual governance arrangements set out in Schedule 19 (Governance); and
- Section (l)** such other matters that the Parties may agree from time to time.

Section (a) – Our response to the coronavirus (COVID-19) pandemic

This has been our highest priority this year and we have been resolute in the face of this extended crisis. In their assurance visit in March 2021, Ofsted inspectors noted this as a clear strength and representatives from the DfE have commented that our response has been as good as anyone nationally.

Our leadership team has remained strong throughout the pandemic. Our management and governance structures have been robust and stable and virtual working throughout the breadth of the organisation has become business as usual – we have not suffered any significant breaks in the chain of command because of COVID-19. We have made measured and considered decisions with every challenge we have faced, we have been able to continue to work safely and did not have to significantly change the service and support provided to children, young people and families. We considered the flexibilities in legislation and only some have been adopted in exceptional circumstances.

Robust organisational structures, effective partnerships and resolute officer commitment have ensured that the organisation has repeatedly met the challenges posed by COVID-19. The organisational pillars of ICT, communications, HR, Finance, Performance, Business Support and others, have provided a stable platform from which front line staff have continued to support young people. We have played a crucial role in local partnerships, often leading the way in key strategic and operational meetings.

Frontline service practice has remained under constant review, and we have maintained a register of instances where we have significantly amended practice.

Risk registers and Business Continuity Plans were approved by the Executive Management Team on 11 March 2020 and additional risks have been added to the register relating to the pandemic. In addition to their standard business continuity plans, SCT managers had also developed several Business Continuity “Plans on a Page” (PoPs) and then subsequently ‘surge plans’ examining the potential for a swell in demand across service areas linked to the national picture of lockdowns, local arrangements and school closures. These documents provided a snapshot of key functions for individual service areas and assured Directors and managers of function resilience. These live working documents continue to be reviewed and updated by their owners on a 3-4 weekly basis, during the pandemic.

A fundamental tenet of our work has been that we should continue to visit children and families face to face based upon their needs and the safety of staff. In order to do this, we created a pre-visit risk assessment for social workers to use prior to any visit, which has been an evolving document taking into account evolving legislation and national guidance. Despite the initial national shortage of Personal Protective Equipment (PPE), by working closely with SMBC and suppliers throughout the pandemic, the Trust managed to acquire sufficient stock to meet its needs. Equipment was checked to ensure that it meets the quality levels defined by Public Health, usage is monitored weekly and plans are in place to reorder when only 8 weeks of stock remain, to allow for a continuity in visits for children and families. Formal processes were established for the allocation of PPE, which also evolved over time based upon availability and staff need.

Regular communication and meaningful engagement with staff has been of the utmost importance, and we believe we have risen to the challenge of making decisions and delivering advice and direction to staff consistent with ever changing government guidance, in consultation with Sandwell Metropolitan Borough Council (SMBC), with engagement with staff and trade unions every step of the way. Some of the ways in which we have tailored our approach in this area are:

- An ‘Ask Us’ facility for staff and an evolving frequently asked questions section on the intranet for staff reference.
- Daily COVID-19 message from the Chief Executive eventually was replaced with a midweek blog and an ‘end of week’ round up from Directors
- Engagement via several “stocktake” events where the Chair, Chief Executive and Directors talked about our journey since becoming a trust and how the pandemic has impacted us all, and a reflective session, focusing upon the need for staff to give themselves permission to ‘take a moment’
- At the “Keeping yourself and others safe” sessions, the Chief Executive and Directors talked about how everyone can play their part in keeping colleagues and the children, young people and families we work with safe
- Staff have been invited to vaccination information sessions with a Public Health Consultant
- Staff have been invited to individual sessions with Educational Psychologists
- Teams have had advice and information sessions from Occupational Health

A key opportunity for staff engagement and feedback is the Practitioner Improvement Board. This is a group of staff from across all services within the Trust who meet monthly and have acted as a forum for consultation, particularly in regard to our approach to the pandemic. It has been immensely useful in developing practical ways of implementing our strategic aims. An example of this is when PPE became more available, this group suggested a more efficient and trusting way of distributing it to staff.

All Trust buildings were initially closed in response to the pandemic, with the sole exception of Oldbury Council House which hosted MASH/SAAT. A small admin team was maintained in the Council house to provide core functions that allowed the wider service to operate remotely. This team was available to process incoming and outgoing mail, print and send out necessary documentation of ICPC and review meetings, support staff to access ICT equipment and issue PPE as required.

An ongoing dialogue has been maintained with SMBC Facilities Management and Health and Safety colleagues regarding new ways of working, to consider current and future strategies. The Trust is a member of the council's weekly accommodation group and is aligned to the council's approach on all matters relating to accommodation. In consultation with staff from across the Trust, we have responded to this evolving situation by maintaining essential services. However, we prioritised the recommencement of Family time, ensuring staff, children, carers and families were safe and supported as the Hollies family centre was reopened. The services that were office based are:

- The Wellman Building being opened once a week to allow staff to collect equipment and resources, enabling them to work at home, and latterly to pick up PPE and Christmas presents for children.
- Safe indoor family time at the Hollies.
- A community venue (Windmill Community Centre) and latterly Unity Walk was reopened to undertake Parent Assessment Manual (PAMS) assessments.
- Family time at the Hollies, extended to the Metsec Building to allow additional capacity while maintaining safety for all participants
- Weekly access to the Wellman building to allow staff to collect equipment, to facilitate remote working, and the collection of bulk PPE supplies
- Unity Walk was reopened to allow the continuation of some direct work with young people and court directed PAMS assessment
- Utilisation of both the Wellman and Metsec for the roll out of an organisational wide ICT refresh
- Use of the Wellman building in December 2020 to distribute Christmas presents to all children in care.

Mechanisms were put in place to ensure all expenditure incurred specifically due to the pandemic were recorded, with this information being shared with the Council, fortnightly. This allowed the Trust to make a claim against the additional COVID related funding that had been provided by central government.

With the arrival of COVID-19, the HR team refocused their attention on workforce tracking and planning. Project work ceased whilst the team gathered and built data sheets ensuring that it was clear which staff was unavailable due to either having contracted Covid or having to self-isolate in line with government guidance. Key data was fed to the Performance Team, assisting with the planning of cases/activity. Recruitment and retention remained a key focus during the pandemic. Market conditions saw a fall in both agency and permanent applicants.

Policies were kept under review and amended in line with national guidelines, with a particular focus on staff welfare and support during the pandemic. We undertook individual staff risk assessments which identified 13 individuals whose work activities required special consideration. In addition to this we asked 21 individuals to remain shielding after central government ceased this, and 1 individual who had identified care concerns. The HR Team has maintained support for individuals who are identified as high risk, shielding and who have caring responsibilities with monthly welfare calls.

In February 2021, following active engagement with Public Health Sandwell and the local CCG, staff were able to access the vaccination hub in Walsall. HR continues to monitor vaccination uptake to assist resource planning.

At the beginning of 2021, due to increasing resource concerns caused by a spike in COVID-19 absence, increased agency leavers, long-term sick, maternity leaves and a static recruitment market, several additional measures were implemented to ensure that children and young people's cases were appropriately managed. These included, the HR team meeting daily with each of the operational teams to understand resources. The information gathered is then shared with the Quality and Operations team who make sure that cases are appropriately re-allocated. The business continuity process was initiated, with the creation of a pool of social workers from within the Quality & Performance team. Resources were moved from the

SAAT team to care management. In addition, a Brief Intervention Team was created to swiftly progress timely intervention and the safe closure of some of our children in need.

The Trust's transfer to working virtually rested firmly upon the quality and resilience of its ICT infrastructure. A significantly strengthened ICT infrastructure was needed and arrangements were put in place to make sure that SCT staff had the equipment necessary to work from home and that this equipment worked consistently:

- To ensure that the Front Door remained open, a review of its telephony was required.
- The evolution of Liquidlogic systematic forms, case notes, hazard markers and banners, as well as quick reference guides for staff were undertaken as the pandemic began.
- A review of mobile telephone capability took place to improve front line workers engagement with service users via the most appropriate devices and new handsets were provided.
- It was also agreed to bring forward SCT's Hardware Refresh and Technology Modernisation Programme and all staff received a new Windows 10 device by November 2020.

For the first few months of the pandemic, the performance team worked on several new developments relating to COVID-19, which meant that new processes were implemented, increasing the amount of manual reporting. For example, children's attendance at school – datasets that have not been linked before.

In order to respond quickly to the need for pandemic-related management information, a COVID-19 dashboard was created, which brought together information to identify which children were flagged as highest risk, being visited face to face or virtually, which children had a recent management oversight, and which children had a recent pre-visit risk assessment or education status form. This has been invaluable in identifying those teams that are performing well and those who required additional support, it also allowed managers to identify those children who were most vulnerable and required more immediate actions.

Throughout the pandemic, we have needed to invoke business continuity arrangements on three separate occasions, where staff in particular areas were sick, self-isolating or where staff had handed in their notice. This included the redeployment of staff, particularly qualified social workers, to visit and undertake discrete pieces of work related to safeguarding children. This was achieved through a dynamic 'pool' of staff with a central senior manager co-ordinating this.

Intervention through visiting and the impact of COVID-19 on visiting

Throughout the pandemic, our approach has been that we visit children and young people face to face, based upon presenting needs of children, and staff safety, utilising PPE. It can be seen that we have maintained good levels of visiting both virtually and face to face, after an initial drop in face to face visits in May / June. Consistently, the new DfE return evidences that the Trust is doing well, when compared to statistical neighbours, and regionally and nationally, in relation to children being seen or contacted by their SW within a 4-week period.

Practitioners are continuing to seek to see children alone during virtual visits, through the use of video messaging; the oversight and assurance of this happening is more of a challenge but where possible, the participation and involvement of children continues. There is increasing evidence of the use of direct work seen on children's case files; however, this is variable and inconsistent. It is recognised that practitioners working with children who are non-verbal need alternative ways of communicating with children and further exploration, although there are some very good examples of innovative ways of communication with these children, more work is needed in this area.

The use of video messaging has increased as a result of COVID-19 and creativity in ensuring the voice of the child. However, this has led to an acknowledgment that for some children, using technology as a means of participation is more successful and is preferred. Whilst it should not, and does not, replace face to face statutory visiting expectations, practitioners are recognising the use of technology as a further means of effective communication with children and young people, who often prefer to be involved in their care planning through this medium.

- Some of the barriers here have been:
- Multi-agency working has been more restrictive, services only working virtually, professionals not completing home visits and children not attending school
- Due to the lack of services completing direct work, this impacted upon plans for children moving forward and at times, Social Workers have been the only professional visiting the home

- Reduced the access of the Local Offer to families in Sandwell. Many provider agencies are having difficulty recruiting staff to provide social activities in the local community. This has resulted in families struggling to access resources via the Local Offer making referrals to social care for an assessment for support services, therefore, having an impact on the Trust considering paying for services outside of the Local Offer
- The overnight short breaks unit Norman Laud closed December 2020, leaving 10 children and families without short breaks for several months. To address this, the team identified and sourced other short breaks units to cover the children without a resource.

Nevertheless, we have prioritised children at highest risk, ensuring all children have had the intervention they need based on their level of risk; we have progressed care planning to ensure safeguarding needs are met and we have been able to review families that could access support in other services – enabling us to work with only those who meet our threshold.

Review of plans

CP Conferences took place via telephone conference, enabling them to be recorded, and then used to produce minutes. Whilst it is accepted that moving to virtual methods of meetings was not ideal, it ensured that despite the pandemic, plans for children were being reviewed. There was some feedback to suggest that some families preferred this mechanism of meeting, and some young people engaged more fully in their process. Others have felt more isolated using these methods. Part of the work moving forward into the next year will be to review all of the methods of interventions and engagement and ensure families are able to use the methods most suited to their needs. It is clear that partner agencies have found it easier to engage in virtual meetings as this has reduced the time they are spending travelling to and from meetings, it has also improved engagement from professionals that would normally struggle to attend meetings e.g. GP's. As we move to a position of considering how meetings can return in person, the lessons learnt from virtual meetings will still be taken forward.

The review of children's plans has been a significant factor in the work of the safeguarding unit, and there has been scrutiny throughout the year on those plans that have been in place for a long time, or appear to be drifting. The recent Ofsted assurance visit (March 2021) questioned the evidence on some children's files of the impact of the IRO or Conference Chair on progressing plans and challenging drift and delay. This is an area of practice that will be a high priority in the coming year and part of the future improvement plan. Since the launch of the revised Challenge and Resolution process in October 2020, IROs and CPCCs have more consistently utilised informal challenges, working with operational staff and trying to build relationships to bring about resolution, rather than formal challenges.

The quality of plans and planning has been an area of work throughout this year. There have been task and finish groups that have included managers and practitioners from within the service, and also work undertaken within the service to develop and trial a Plan on a Page – which aims to be a document that is simple and clear for parents and children to understand and refer to. This has now been used by a few IROs and a CPCC and the aim is to take this into the next year and into the improvement plan with a view to full roll out. Service User feedback on the few cases has been very positive in helping families to understand their plans and importantly what they need to do and what will help to make things better for the child. This work will go alongside plans now to reduce the record of meetings to succinct summaries and analysis and focus more of improving the quality of plans and planning.

The Trust made changes to the reporting expectations for Review Child Protection Conferences (RCPC) and it became an expectation that an updated assessment was completed in advance of all RCPCs. The compliance in this area is variable and this has been recognised as an area for improvement. Managers have reflected on this and consider that the communication to staff about this expectation may not have been as robust as it could have been and currently, discussions are taking place for a "re-launch" of this expectation.

Some of the barriers here have been:

- Not having direct/in person contact for some families has been challenging and this at times has led to taking more gradual steps to include and involve them. Some service users may have felt disengaged by not being able to meet people talking about them or their children.
- Reduction in visits has meant that some children have not been seen as regularly as we would have liked or have become harder to reach.
- Ensuring a more collaborative way of working with all partners and SWs – who is seeing a family – and co-ordination of contacts to minimise risk of infection whilst ensuring that children are safe and their plans have progressed.

- Greater support to children in their placements to avoid movements and changes for them.

However, our work has:

- Ensured meetings have taken place so their plans have been reviewed
- Brought in Threshold discussions to ensure that only those children who have needed an ICPC go through that process
- We have engaged some children and families who had felt marginalised from being in rooms of professionals (engaging them in their home or virtually for some has increased their engagement)
- We have reduced the number of multiple moves for looked after children
- We have maintained and improved the stability of placements over 2 years for looked after children
- We have been systematically reviewing those children on CP Plans and have reduced these numbers by nearly 200 in the last 12 months, utilising other services and supporting families in a relationship based way

Section (b) - The Improvement Plan

We have come a long way in the last three years since we began as a Trust, and have made some good improvements within that time, including ensuring the resilience of our infrastructure when responding to the challenges of the COVID-19 pandemic, which has laid quality foundations for future improvements. Coming out of the pandemic, we are ready for the next stage of our journey, so at the end of this financial year it was the right time for us to refresh our improvement plan with the aim of becoming a 'Good' or better organisation.

It is fair to say that traditional improvement activities slowed whilst all staff were responding to the pandemic. However, we believe that improvements are always found and made through necessity, and we have therefore strengthened some of our infrastructure and created greater strength and resilience amongst our leaders.

Some of our key, specific achievements within this financial year are:

- Continued practice improvement in all areas as outlined within our audits
- Continued strengthening of performance analysis
- Infrastructure to strengthen permanence and matching
- Improved oversight and challenge by Independent Reviewing Officers and Child Protection Conference Chairs (through midpoint reviews and threshold discussions)
- Continued development of services for exploited children
- Development of relationships across the partnership, for example housing, to put into place joint working protocols for homeless children
- Life work officers are in place to promote best practice in this area

Our new improvement plan and governance

We know there is still a lot for us to do in a challenging field, with staffing and demand pressures regionally and nationally. The landscape for children's services following the pandemic is ever-changing, so our approach is with this in mind. We have also had several visits from Ofsted and have taken advantage of practice improvement partners from Doncaster, Essex and Camden to provide external validation of our work. We know the areas where we need to improve to achieve our aims, which are People, Practice and Partnerships:

People

Ensuring we recruit and retain good quality staff through:

- Comprehensive and supportive induction that prepares staff to do the job they came to do
- Offering genuine opportunities for career development and progression from within
- Developing the best managers and senior leaders
- A good learning and development offer for all levels of staff

Practice

We will ensure that:

- When we intervene with families, this is done with the benefit of high-quality analytical assessments which balance children's wishes and needs with parental capacity and motivation to change
- Intervention with families are proportionate, and we minimise delays in decision making
- Where we can, we prevent needs and risks increasing and empower families and communities to build on their strengths and meet their own needs
- When we work with families we do so in a relationship-based way, understand the impact of trauma on children and families, build on strengths and address the root causes of needs and risks
- We routinely analyse practice and trends, we know the value and impact of our interventions and can provide evidence for this
- We have a culture of genuine reflection and promote a cycle of learning and practice improvement, which can be evidenced

Partnership and Prevention

We will ensure that:

- We work with partners so that Early Help promotes prevention at every level
- Ensuring the most relevant partners are integral in every child's assessment and plan, actively support families and where decisions are made on behalf of children
- Capitalising on the six towns in Sandwell to ensure that a localised community approach is taken, helps to identify and intervene early and swiftly, building relationships and empowering families
- There is a robust, safe and efficient interface between levels of need
- Work with early help partners so that they can adopt aspects of our practice framework and model
- Targeted Services provided by SCT manage risk effectively and contribute towards a whole Sandwell approach to Early Help

As a result of our latest self-evaluation, our performance data, quality assurance activity and intelligence, bolstered by external feedback, we know where more specific improvements need to be made. These are set out below:

Enablers

Good progress has been made in these three categories of the previous improvement plan, and we believe these key enablers provide a strong foundation for our next stage of improvement. They are:

Leadership: Strong leadership ensures that we maintain progress as all services and all staff have a shared understanding of our vision and expectations, there is a culture of accountability for the work that we do and staff feel safe to learn, improve and innovate.

Efficient use of resources: An efficient service lends itself to being a good service as staff are focussed on the right things for children and families, are not overly distracted or burdened by meaningless activity and have the space to be creative.

12 Reasons to work for Sandwell Children's Trust: Our workforce strategy and delivery programme is key to deliver most, if not all of the improvements within this plan, as we are reliant upon good quality staff, social workers and managers to deliver the best for our families. The 12 reasons also set out our commitment to equality, diversity and inclusion.

People

- 1) *Embed a culture of staff wellbeing and respond to the long-term impact of the pandemic*

After the last 12 months when staff have had to respond to the crisis of the COVID-19 pandemic, we believe it is crucial to ensure that our staff are offered the best emotional and practical support possible to be able to give their best to children and families, throughout the remainder of this crisis and beyond. This will include:

- Evolving our working style to meet staff and business needs
- Ensuring our accommodation and technology needs are met following the pandemic
- Ensuring staff have access to emotional wellbeing services broadly and individually
- Ensuring staff welfare is at the forefront of any service decisions
- Continue to engage with staff, listen to their feedback, and respond in a timely way

2) Workforce, recruitment, retention and career development

Referred to within the key enablers, having a good quality and stable staff base is essential in ensuring continued improvements can be made, as staff who leave take their learning elsewhere and new staff may need investment of training and development. Instability within teams and services also contribute to instability for children and families, drift and delay, and 'start again syndrome'.

- Offering genuine opportunities for career development and progression from within, with clearly articulated pathways
- Ensuring our financial and overall package is attractive to new and existing staff, and competitive in the local market
- Ensuring we explore every avenue to obtain quality social workers and other support staff and do all we can to sell ourselves
- Ensuring there is a comprehensive and supportive induction that prepares staff to do the job they came to do
- Developing the best managers and senior leaders through established leadership programmes
- Ensuring we maintain a good learning and development offer for all levels of staff
- The embedding of the social work academy in Sandwell and maintaining a stream of interested students and ASYE's to bolster our future

Practice

3) Embed good quality practice and standards using our practice framework and model

Our practice framework and model underpins everything we do for children and families, as such it is important that all staff are equipped with a consistent way in which to practice, informed by research and helps maximise the success of our interventions.

- Ensuring when we intervene with families, this is done with the benefit of high-quality analytical assessments which balance children's wishes and needs with parental capacity and motivation to change
- Intervention with families are proportionate, and we minimise delays in decision making
- Where we can, we prevent needs and risks increasing and empower families and communities to build on their strengths and meet their own needs
- When we work with families we do so in a relationship-based way, understand the impact of trauma on children and families, build on strengths, and address the root causes of needs and risks
- We routinely analyse practice and trends, we know the value and impact of our interventions and can provide evidence for this
- We have a culture of genuine reflection and promote a cycle of learning and practice improvement

4) Embed our participation strategy

We are proud of our 'Four I's' participation strategy (Invest, Inform, Involve and Influence) and are well on the way to be accredited for our work in this area. Having services designed in collaboration with children gives us the opportunity to see things from their point of view. Engaging children in a meaningful way, at every step of the way, is of the utmost importance to us and allows us to tailor our interventions for maximum success.

- Ensuring meaningful participation of children and young people in decision making meetings
- Ensuring our staff are equipped to engage with children and young people of all ages and developmental needs
- Ensuring children and young people are involved in our QA processes and help us to learn
- Ensuring we obtain feedback from children and young people wherever we can
- Ensuring services are developed with children and young people

5) Improve the quality of our assessments across the Trust, paying particular attention to cultural competence

We are a diverse borough in Sandwell. Our families have wide range of ethnic backgrounds, religious beliefs, ages, sexualities and gender identities, often layered on top of each other. As such, each family has its own culture, often complex and with its own cultural norms, which we have to understand if we are going to get our interventions right for them. Staff also need to understand their own experiences, values and identities and how these might affect the way in which they practice. Therefore, our aim is for all staff should be culturally competent.

- Ensuring we have clear diversity policies, statements of intent and expectations are communicated to all staff
- Ensuring cultural competence throughout all levels of the organisation, no matter what the role, and that it is a key consideration of assessing and intervening with families
- Ensuring we considering diversity and culture within all the work we do

6) Strengthen children's planning and plans

Without a good analytical assessment and a clear plan, setting out clear expectations for all involved our interventions with children and families are less likely to be a success. We know we have not yet done all we can to improve the quality of our plans, so this priority area is an essential in the first year of this plan, to be further built on beyond that.

- Ensure we have a fit for purpose design for SMART plans that is well understood, used to drive quality interventions that address the root causes of problems
- Develop plans that help families to know what is expected of them, relevant and drive good quality and meaningful intervention
- Ensure that staff know what a good plan looks like and develop a bank of good practice examples
- Progress made in line with children's plans are measurable and analysed

7) Embed robust management oversight, and IRO resolution and challenge (risk management and risk aversion)

Without strong, proportionate management oversight, clear direction and independent challenge, children are less likely to receive consistent and effective interventions. Delays, poorer practice and potential problems are not foreseen or identified quickly enough and in turn are not resolved quickly enough.

- Intervening in a child's life should be proportionate to their assessed need, and when risks are reduced, decisions are made for a more appropriate intervention in a timely way
- We have a consistent and shared approach to risk
- Ensure managers understand their own performance and know their strengths and areas for improvement
- Ensure managers identify potential problems as soon as possible and rectify any problems immediately
- Ensure the footprint of IRO's and CP Conference Chairs are routinely seen, and challenge and resolution has a positive impact on children's outcomes
- Scrutiny, challenge and reflection takes place at every level of management

8) Ensure our interventions meet assessed need and have the desired impact, including for children with particular circumstances

Whenever we work with children and families, everything we do should be meaningful, purposeful and our interventions make a difference to a child's life. Our social workers and practitioners are agents of change in their own right and are crucial in helping families to reduce risk or better meet need – taking advantage of specialist resource where the need arises. We also have a range of children with specialist circumstances in Sandwell, including those where their immigration status is unresolved (Unaccompanied Asylum-Seeking Children and those with No Recourse to Public Funds), those who are at risk of exploitation, and those where their disability necessitates a service. For these children, we need to tailor our interventions, making best use of the skillset of our staff.

- Ensure there is a good support infrastructure and clear performance reporting for staff who work with children with disabilities, so that practice is consistent for all children requiring a service due to their disability
- Ensure that the strong work of the exploitation teams in Sandwell continue to be developed

- Consolidate our intervention with Unaccompanied Asylum-Seeking Children, those with No Recourse to Public Funds and those who require British citizenship, ensuring consistent practice for these children and families

9) Strengthen our practice in all aspects of pre-proceedings and care proceedings

Where care proceedings are a possible outcome of our involvement with a family it is essential that we enter into clear dialogue with parents through the Public Law Outline. We know that our work in this area has been variable, with some good pockets of work identified by courts and our regulators. However, on average, children spend too long in Care Proceedings in Sandwell, and our assessments and evidence does not always lead to the outcomes we seek in court.

- We should do whatever it takes for a child to remain safely within their family, which means family options are explored at the earliest opportunity
- Review and ensure processes for pre-proceedings are robust, that parents are well-informed and expectations are clear to them from the outset
- Incorporate pre-proceedings and court processes into case management systems and utilise performance reporting to maintain an accurate tracker of this activity
- Address the historic delay within existing care proceedings and ensure there is a mechanism to review and drive progress for those children who entered into care proceedings more recently
- Engage with the judiciary and CAFCASS and ensure we maximise our influence in regional forums so Special Guardianship can be considered as a viable permanence option

10) Ensure permanence for children is considered at the earliest possible point with plans swiftly progressed and children are matched

Children deserve to know where they are going to live permanently as soon as possible, and these permanent placements should be made without delay, as part of an informed decision from a senior manager. In Sandwell, we need to consistently achieve this for our children.

- We should do whatever it takes for a child to remain safely within their family, which means family options are explored at the earliest opportunity
- Ensure that children in our care have a plan for permanence at the earliest opportunity
- Ensure that initial placements for children are made with due consideration of their needs, and their profile
- Ensure that children's long-term placements are made with robust matching considerations and decisions to maximise the success of these placements

Partnerships

11) Strengthen our services for children in care and care leavers paying particular attention to their emotional health and wellbeing

Children in Sandwell have access to a range of support for their emotional and mental health, but the effectiveness of these services is not as well understood as it could be. We need to be able to influence and develop clear pathways for emotional and mental health support for our children, in particular those for whom we have or have had parental responsibility.

- Develop clear performance analysis and reporting in this area
- Respond to the 2021 review of mental health services for care leavers to ensure good quality transition to adult mental health services
- Improve relationships and partnership working in this area to improve outcomes for our most vulnerable children
- Commission services that meet the emotional needs of our children in care and care leavers, where a mental health service threshold is not met

Prevention

12) Strengthen and influence preventative work with children and manage transitions between services

- We work with partners so that Early Help promotes prevention at every level

- Ensuring the most relevant partners are involved in every child's assessment and plan, they actively support families and contribute to decisions made on behalf of children
- Capitalising on the six towns in Sandwell to ensure that a localised community approach is taken, helps to identify and intervene early and swiftly, building relationships and empowering families
- There is a robust, safe and efficient interface between levels of need
- Work with early help partners so that they can adopt aspects of our practice framework and model
- Targeted Services provided by SCT manage risk effectively and contribute towards a whole Sandwell approach to Early Help

Demonstrating impact

We know we need to measure our progress through a range of methods, which include performance metrics, intelligence, feedback from children, families and our partner and most importantly our quality assurance activity. We do this through our single overarching plan / impact workbook which is governed through our Practice Improvement Board.

Quantitative Measures

- A greater percentage of the workforce is permanent and staff turnover, sickness and vacancies reduce.
- We take less time to appoint staff and improve satisfaction with our induction programme, which leads to improvements in practice.
- A greater percentage of staff have one to one supervision within the month and managers are providing quality direction to social workers
- Our re-referrals and repeat plans decrease, indicating interventions are longer lasting and are likely to have been more successful.
- More staff utilise assessment tools, research and direct work tools to engage with children and families.
- Children are subject to a Child in Need or Child Protection plan for less time, where intervention in their lives is more purposeful.
- Plans are updated in a more timely manner, are reviewed in collaborative forums with families and key professionals and focus on reducing risk.
- We understand where exploitation activity takes place, and can evidence disruption actions are reducing exploitation, with a trajectory of reducing risk over the long term once the baseline is understood.
- Agency, Parent and Child attendance at MACE meetings increase.
- There is a greater proportion of children with a plan of permanence, and who are formally matched to their long-term carer. Where adoption is in children's best interests this takes place as soon as possible.
- The average length of Care Proceedings decreases and there is evidence of purposeful work with front-loaded evidence.
- More children who become looked after do so in a planned way where carers are able to meet their needs from day 1.
- Foster Carer recruitment activity shows a greater number of mainstream fostering assessments are being undertaken, leading to a greater number of mainstream foster carers being approved.
- A greater percentage of Children in Care have had good quality life work and where appropriate have Life Story Books.
- More children leave care safely to return to their families, where appropriate, and a greater percentage of children who cease care do so through Special Guardianship.
- More care leavers have access to adult mental health services should they need to and more children and young people known to SCT can access therapeutic support and in a more timely way.

Qualitative measures

- Staff are routinely providing feedback, which is constructive and positive and results in tangible actions where appropriate.
- More of our work is rated as Good or better in all categories.
- Learning from a range of feedback, including children and families, is used as the basis of continued improvement, and feeds into learning and development.
- Children's voice is more evident in planning for them, more children attend meetings and have a say in decisions made on their behalf.
- Managers consistently demonstrate their day to day support and direction to ensure the work we do with children is purposeful and appropriate.
- There is an IRO / CP Conference chair footprint evident and Dispute resolution is used proportionately, ensuring that intervention for children is not delayed.
- Private fostering arrangements are better known and are assessed as safe for children.

- Children placed in interim approved placements are safeguarded, and allegations are handled in a timely and robust way.

Section (c) - The Trust's performance of the Services against the Performance Targets in the preceding Contract Year

Over the course of the year, we have reported our key contract performance and are pleased to say that despite the pandemic having an impact on our work, we have maintained good performance in many areas. Over the course of the year, eight of the fifteen Key Performance Indicators have improved or been maintained above our target, three have remained broadly the same but below target, and four have declined or oscillated between failure and tolerance. Particular areas of improvement / maintenance are:

- Timeliness of contacts, referrals and Initial Child Protection Conferences and children in care reviews
- Outcome of random case file audits
- Unallocated children

Those that have declined are:

- Timeliness of visits to children
- Management supervision

On 21st July 2020 SMBC agreed that coronavirus pandemic constituted a relief event, which stipulated that the Trust would be free of any performance consequences or liability in specified areas of the contract. Namely, PI6, PI10, PI11 and PI13, and the relevant parts of the service specification. This relief event was extended to the end of the financial year by letter on 20th October 2020.

Already discussed earlier within this report, two particular concerns that arose due to the pandemic were staffing (i.e. staff sickness, self-isolation and shielding), and spikes in demand / surges. This will be a theme across many of the performance indicators.

Below is the individual performance of the key performance indicators specified within the contract:

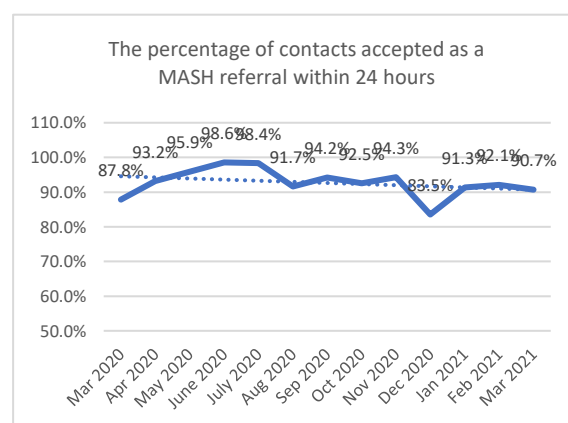

PI1 - The percentage of contacts accepted as a MASH referral within 24 hours

Target: > 75%

Tolerance: > 65%

Failure: < 65%

This measure is important as it shows how efficiently our front door is operating and how quickly we are responding to referrals where threshold is not immediately clear. We have been consistently above our target in this area for several years, although there was a dip in performance in December 2020 (caused by a technical problem with our case management system).

PI2 - The rate of Children who are the subject of a Child Protection Plan (per 10,000) of our child population.

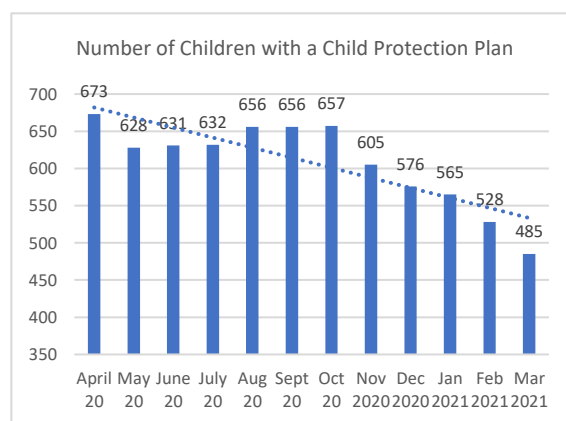

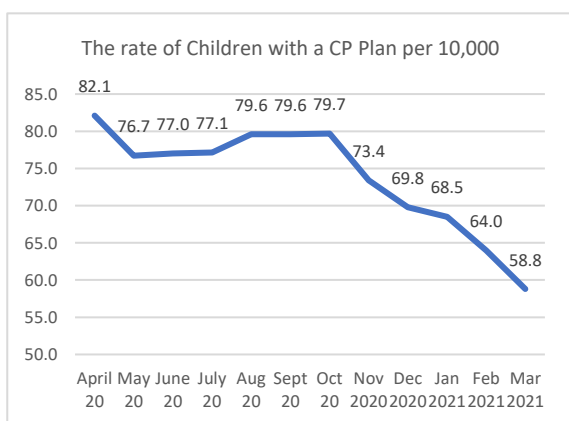

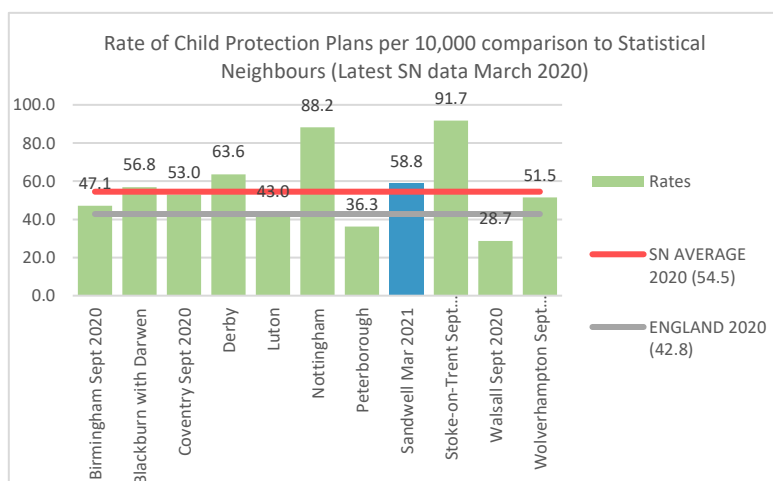

Target: < 65 children per 10,000

Tolerance: < 80 children per 10,000

Failure: > 80 children per 10,000

This measure gives us a sense of our demand, how we are handling this demand and how we are applying our thresholds for children where there are child protection concerns. Our statistical neighbour average is 54.5 and the England average is 42.8 (measured at March 2020).

Throughout the year we have worked hard to ensure that the threshold for child protection was consistent, and this is now much more in line with our SN average, and positively at the lowest rate for 2 years.

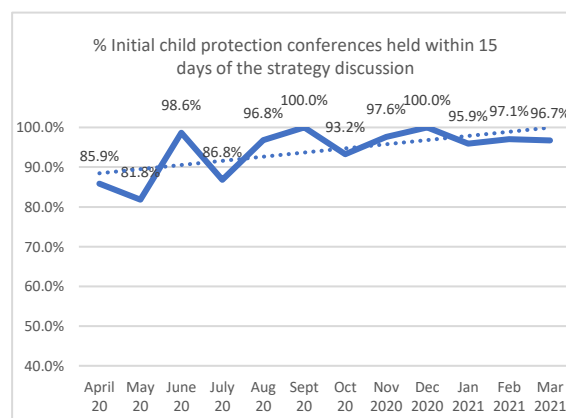

PI3 – The percentage of Initial Child Protection Conferences (ICPC's) held within 15 working days of the strategy discussion that agreed S47 enquiries were necessary.

Target: > 80%

Tolerance: >65%

Failure: < 65%

This measure shows how timely we are when we are completing S47 enquiries and organising Initial Child Protection Conferences for children. It gives us a sense of how we are managing demand in this area and how quickly we can bring together a group of professionals to make decisions for children who are potentially at risk of significant harm.

Performance in this indicator has been sustained above target since February 2020 and is consistently above our comparators for 2020 (England 77.7%, West Midlands 77.6% and Statistical Neighbour 78.4%).

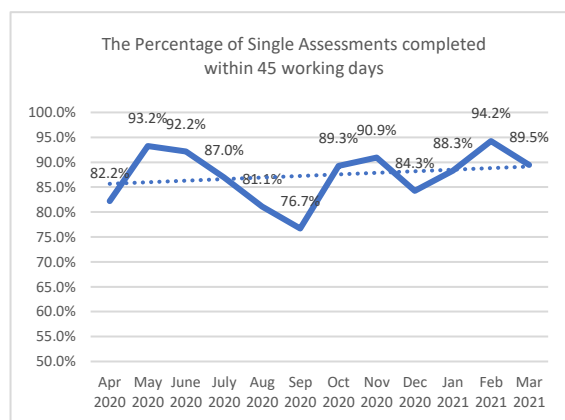

PI4 - The percentage of Single Assessments completed within 45 working days

Target: > 85%

Tolerance: >75%

Failure: < 75%

This measure shows how timely our Single Assessments are for children (in line with the statutory maximum expectation of 45 working days). Most Single Assessments are completed by Social Workers within the Safeguarding and Assessment Teams (SAAT), but a significant amount are completed across other service areas as part of updating/review assessments for children.

We saw a dip in performance mid-year, which coincided with increased demand in this area but also a period of time when staff were self-isolating and shielding.

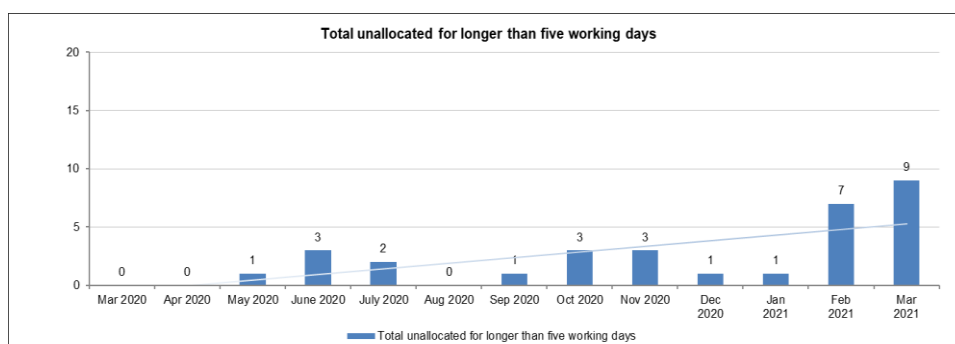

PI5 - The number of children unallocated for longer than 5 working days

Target: < 10

Tolerance: <30

Failure: >30

This measure helps to demonstrate how well we have oversight on every child's situation, and how well we are handling throughput at the

Front Door and other transfer points. Poor performance in this area would mean children do not have a social worker for lengthy periods of time, which could be a dangerous situation. There are circumstances where having children unallocated for a short period of time is reasonable, but this should be kept to a minimum.

As can be seen our performance in this area has consistently been better than our target this year. As at end March 2021, we had nine children unallocated for longer than 5 working days, which is higher than we wanted, and acted as an early warning to us for later problems we experienced from April 2021 onwards (outside the scope of this report).

Nevertheless, the day to day processes we have in place for allocations and transfers work and have been sustained. However, the difficulty in recruiting SWs to our vacant positions has affected our performance in this area, which is discussed elsewhere in this report.

PI6 - The percentage of Children subject to a CP Plan visited within 2 weeks

Target: > 80%

Tolerance: >70%

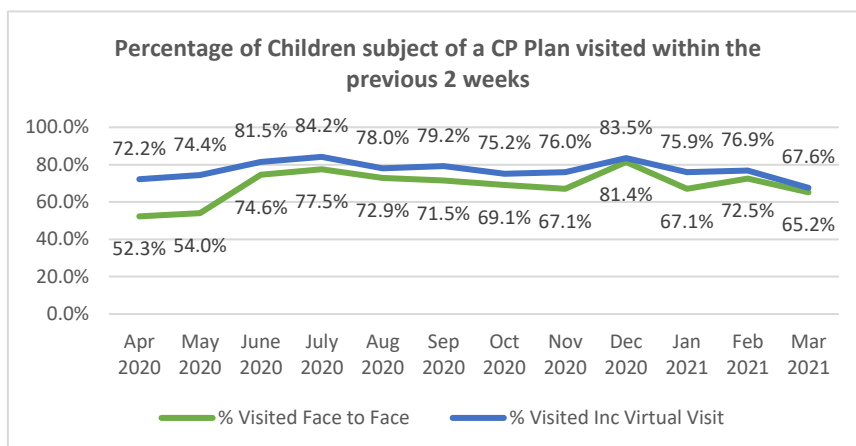

Failure: < 70%

This measure provides part of our understanding of how well we are interacting with children and families under Child Protection. The frequency of visiting children under these circumstances is locally defined, and in Sandwell we expect social workers to visit children subject of a Child

Protection Plan at least every 2 weeks. Alongside this measure, it is important to understand the quality of these interventions through auditing and management oversight. Good performance in this area contributes to demonstrating purposeful intervention and safeguarding.

Throughout the pandemic, we have measured both face to face and virtual visits (i.e. through video calls), recognising a need to utilise available tools and technology as imaginatively as possible.

It is clear that at the start of the year (and the pandemic), that the use of virtual visits was higher, although as the year progressed the 'gap' reduced. This was because staff became more confident in visiting children face to face with the development of our pre-visit risk assessments, and also as the national response evolved. The drop in performance at the end of the year is accounted for by increasing staffing fragility within the Care Management service, which has since developed.

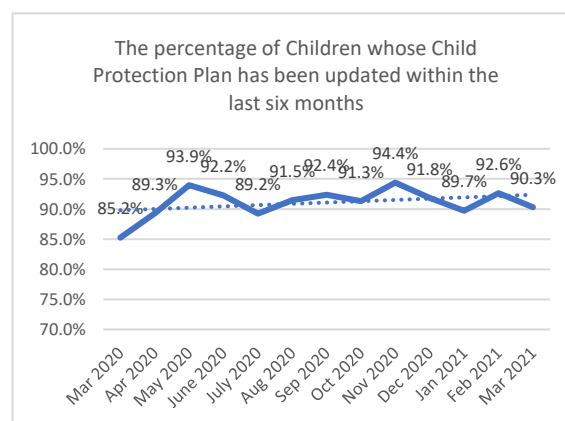

PI7- The percentage of Children whose Child Protection Plan has been updated within the last six months

Target: > 95%

Tolerance: >85%

Failure: < 85%

This indicator shows how often we are reviewing and discussing children's plans and our interventions. Good performance in this area would help to show we are ensuring our interventions are having the desired impact, and making changes where warranted. Plans that are not updated are normally an indicator of drift and delay within our interventions.

This measure is linked to how often Social Workers are holding / recording their Children's Core Group Meetings and Conference Chairs their Review Child Protection Conferences, which has been a priority focus over the last 12 months.

Performance has been relatively consistent – between 85 and 95% throughout the year. However, this falls below our target of 95%.

PI8 – Of all children subject of a Child Protection Plan, the percentage who have evidence of formal case supervision within the previous 4 weeks

Target: > 65%

Tolerance: >50%

Failure: < 50%

This measure helps to demonstrate formal management oversight for this cohort of children. Good performance in this area shows that Team Managers are regularly considering progress in these cases and providing social workers the opportunity for reflection on a case by case basis. We have consistently performance above our target in this measure save for December 2020 and March 2021.

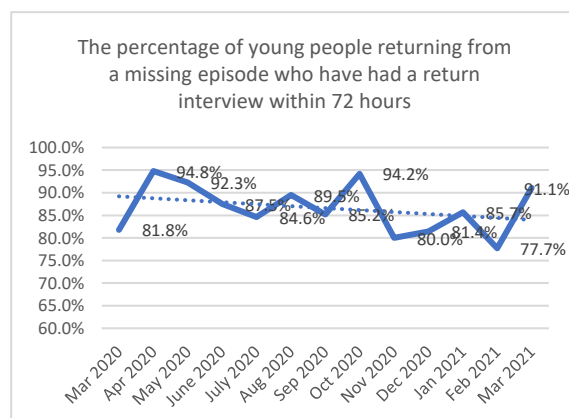

PI9 - The percentage of young people returning from a missing episode who have had a return interview within 72 hours

Target: > 70%

Tolerance: > 50%

Failure: < 50%

This measure helps to understand how well we are responding to children at risk of exploitation after they return from being missing. Good performance would mean we are gathering information / intelligence from children at the earliest opportunity that would help us safeguard them better in the future and build more accurate intelligence.

Our performance in this area has been good, although the relatively small sample sizes per month mean there can be variance month to month.

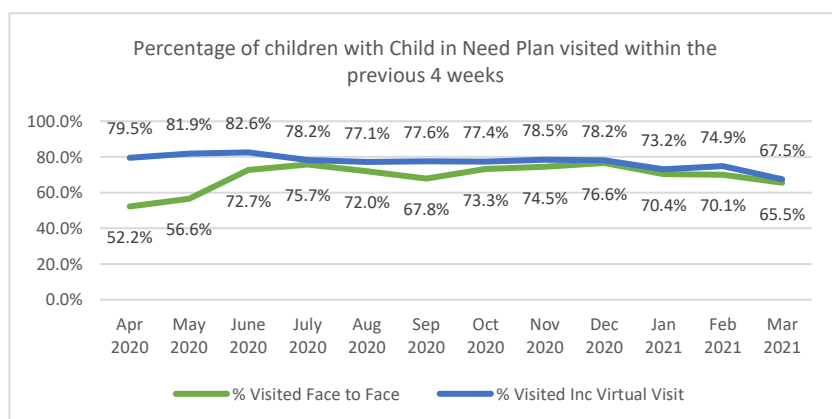

PI10 - The percentage of Children subject to a Children in Need Plan visited within the previous four weeks

Target: > 73%

Tolerance: > 58%

Failure: < 58%

This measure provides part of our understanding of how well we are interacting with children and families under Child in Need. The frequency of visiting children under these circumstances is locally defined, and in Sandwell we expect social workers to visit children subject of a Child in Need Plan at least every 4 weeks. Alongside this measure, it is important to understand the quality of these interventions through auditing and management oversight.

As with other measures relating to visits, we have measured virtual visits alongside face to face and see the same pattern where the use of virtual visits waned after the first few months of the year.

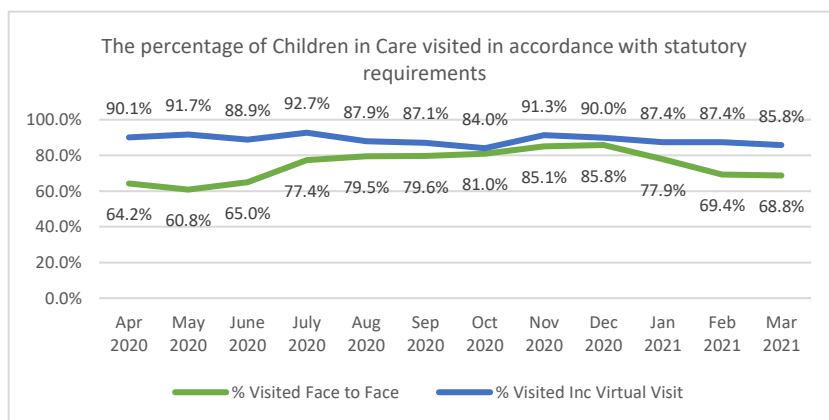

PI11 – The percentage of Children in Care visited in accordance with statutory requirements

Target: > 90%

Tolerance: > 80%

Failure: < 80%

This measure provides part of our understanding of how well we are interacting with Children in Care. The frequency of visiting children under these circumstances is defined through statute. Good performance helps to show we have established relationships with our Children in Care, know their needs and meet their needs.

Many Children in Care are placed in stable situations, and are secure with their carers. Therefore, we have felt more able to make use of virtual visits, a flexibility outlined within the Adoption and Children (Coronavirus) Amendments 2020. However, we see the same pattern of virtual visits being used at the start of the year and then again at the end of the year following the second national lockdown. The slight drop in performance was another early indicator of staffing difficulties within Care Management, referred to elsewhere.

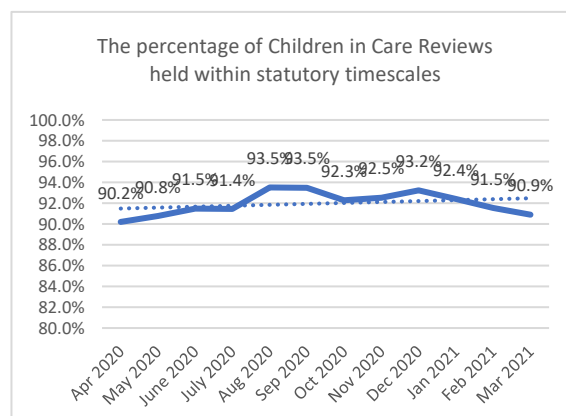

PI12 - The percentage of Looked After Children's Reviews held within statutory timescales

Target: > 80%

Tolerance: > 70%

Failure: < 70%

This measure shows the timeliness of Looked After Children reviews, and contributes to our understanding of how well we monitor the progress of Looked After Children's plans, and ensure that we are doing what we say we will. Good performance in this area will show that we independently review children's plans on a regular basis, at least every 6 months. This is a cumulative measure across the financial year starting in April each year.

Our performance in this area has been consistently good, above our target, although our aim is higher.

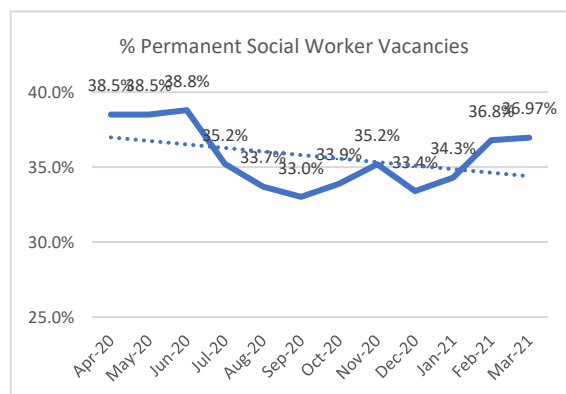

PI13 - The vacancy rate of permanent front line Social Workers

Target: < 32%

Tolerance: < 37%

Failure: > 37%

This measure helps us to determine the stability of our case holding workforce. Whilst agency social workers are essential for an organisation to quickly meet fluctuations in demand, a stable, permanent workforce is also critical for long term improvement.

It is clear that we made progress in this area in the summer of 2020, but towards the end of the financial year we saw the opposite trend. This has been one of our bigger challenges going into the 2021/22 financial year, which will be covered in later sections.

PI14 - Average caseloads across the service

Target: < 18.5

Tolerance: <23%

Failure: > 23%

This measure helps us to understand the changing demand within our organisation so that we can target our recruitment and retention activities, and adjust our establishment.

It can be seen that average caseload has gradually increased over the course of the year, which is representative of the evolving staffing shortage we have against our demand. This will be covered in more detail in the next sections.

PI15 - The percentage of case file audits that are rated Requires Improvement or better

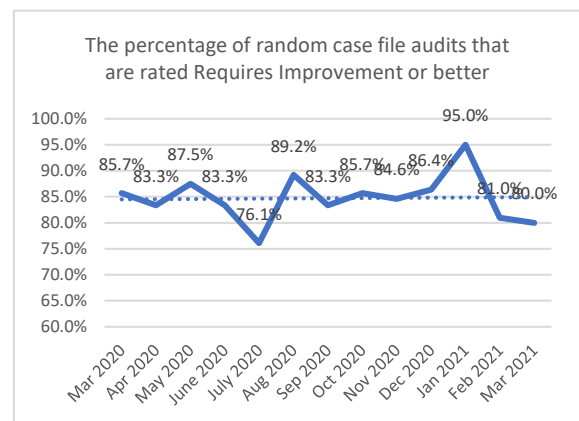

Target: > 55%

Tolerance: > 40%

Failure: < 40%

This is a very important indicator as it shows the progress of practice improvement across audited case files. Good performance is an indication that our assessments, plans and interventions with children and families are improving.

The quality of our work has been consistent according to our random monthly audits, despite the challenges we have faced, which should be seen as a positive.

Section (d) - The thematic findings of any Audits and Surveys carried out by the Trust during the previous Contract Year

Quality Assurance and Auditing

Alongside knowing ourselves from a performance perspective, we continue to work to ensure we are interrogating the quality of our own practice. We utilise performance intelligence to develop lines of enquiry, and deploy resource to test these out through dip sampling and direct work with service areas. Learning from auditing and the resultant activity to ensure practice improvement are key to making sure the work we do is as good as it can be now and in the future.

We have a contractual obligation to audit 90 random case files every three months (which is 360 every year).

Our quality assurance and practice learning activity comes from a range of sources, which include: Audits, direct feedback, learning from complaints / compliments, independent scrutiny from outside of our organisation and from within the safeguarding unit.

We also have a practice learning team arm of the Beyond Auditing Service, who deliver one to one and group practice learning on specific topics, hold reflective discussions and help develop best practice guidance for areas of practice improvement. This team also contributes to the design and delivery of services where they need to be improved.

During the first lockdown and until July 2020, some of our Quality Assurance activities (monthly and thematic audits), were scaled down to support the operational services to cope with additional pressures due to restrictions of lockdown. All audits were suspended for managers across the Trust. However, the QA/BA and WFD teams continued to undertake a small amount of Learning and thematic audits to ensure we met our contractual requirements of 90 Audits per quarter. In addition, the QA/BA and Workforce Development Team also undertook Focussed Brief Audits to ensure the initiatives and work undertaken during lockdown was safe and in line with government guidelines to promote wellbeing and opportunities for children and young people. From the Summer of 2020, a new pattern of auditing was established, whereby managers would undertake six audits per year on alternative months.

Audit Activity and Overall Trajectory

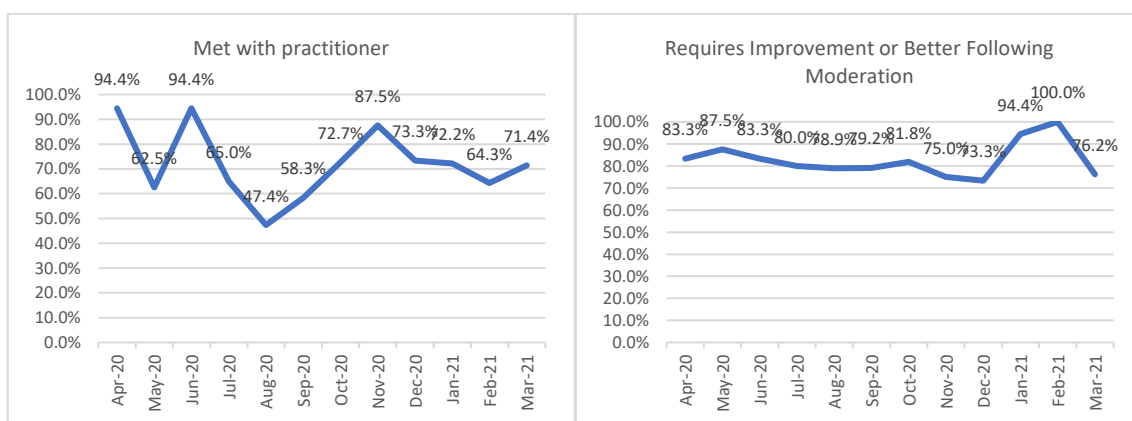

Between 1st April 2020 and 31st March 2021, we undertook:

- 218 learning audits (of which 195 were moderated) across the child's journey.
- 134 thematic audits
- 176 Focussed brief audits
- 61 significant incident dip samples (pre-birth and under 1's)
- 17 individual learning audits
- 18 multi-agency audits

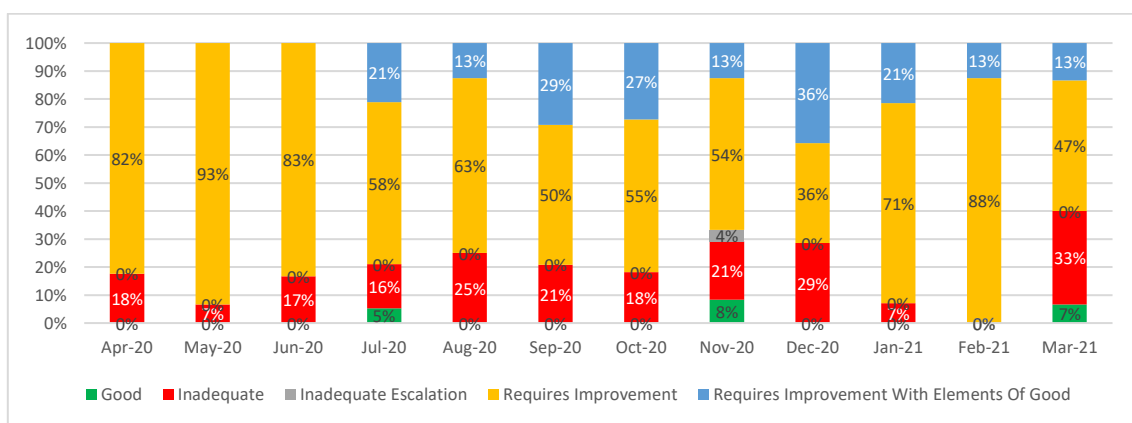

A total of 624 audits within the year, which represents a spread of approximately 15% across our children. Through all of our Quality Assurance activity across the year, our work has been consistently Requires Improvement or better, despite the impact of the COVID-19 pandemic:

This year, the focus of our audits have moved from on compliance and solely measuring impact on children to a genuine opportunity for learning and improving. As such, we have promoted the importance of discussions with the most relevant practitioner or manager during the audit process and afterwards, our progress has been good.

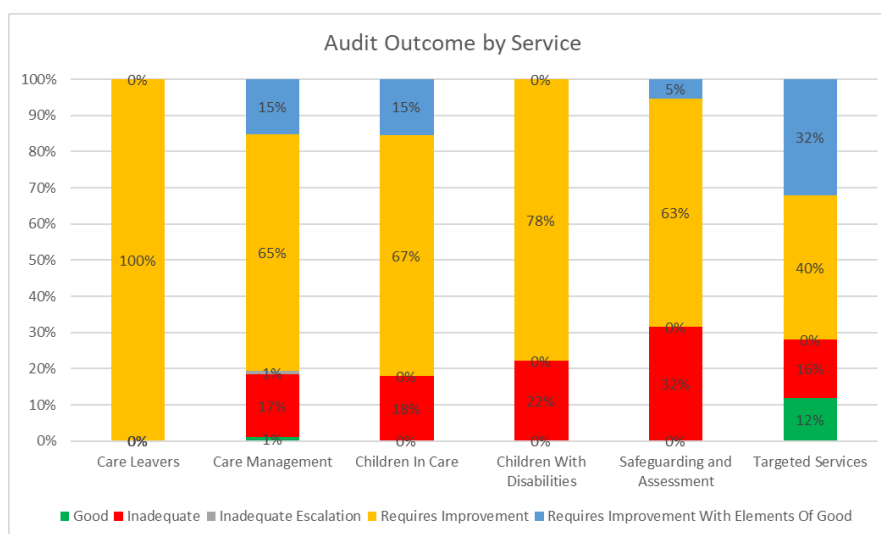

Our random learning case file audits are important as we expect all social work qualified and front-line managers to undertake six audits per year. This helps them to understand what good looks like and encourage them to have learning discussions, which they will take into their own practice, we call this 'a window back into practice'.

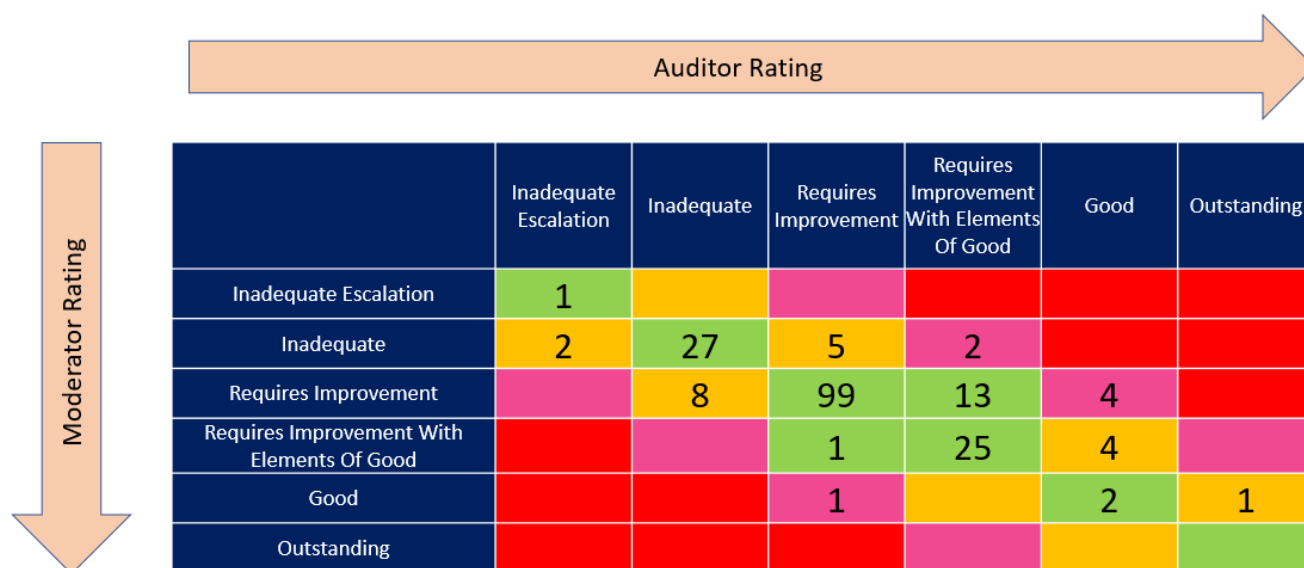

It is worth noting that this year we introduced the category of 'Requires Improvement with Good features' so we can better judge our progress. Below is the month by month distribution of audit outcomes, where it is clear there is an increasing amount of Good practice, but there still remains some inadequate practice:

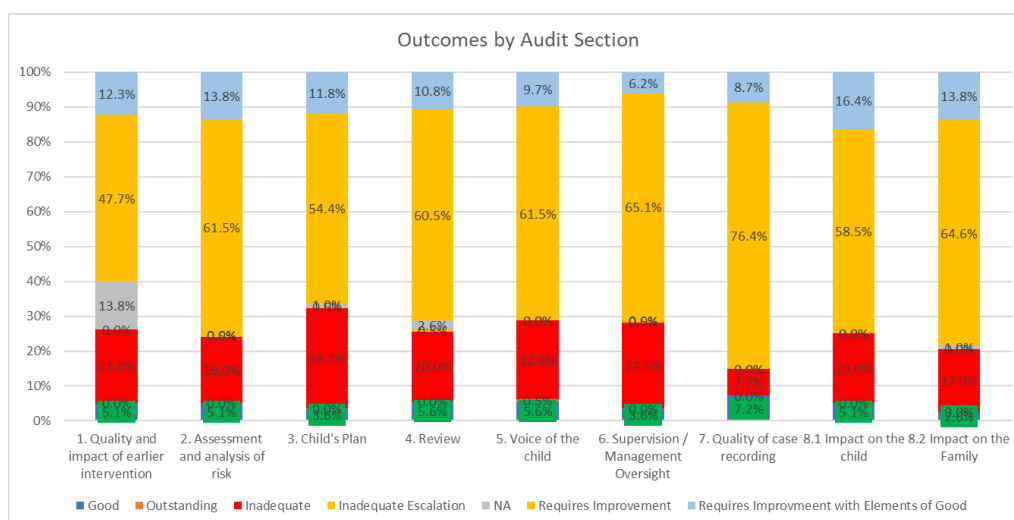

Looking at this on a service by service perspective, it can be seen that Targeted Services has the biggest proportion of good work, and Safeguarding and Assessment Service has the most inadequate work. It is worth noting that Children with Disabilities and Care Leavers services have had fewer audits, which has meant the audit data is less likely to be completely representative of the work undertaken.

Where audits are submitted on time, all have been moderated, and the below chart shows the difference between auditor judgement and moderator judgement. The vast majority of audit judgements are broadly agreed and where there is disagreement, the moderator tends to moderate 'down' – demonstrating very small pockets of individual optimism. Where this is the case moderators hold reflective conversations with auditors.

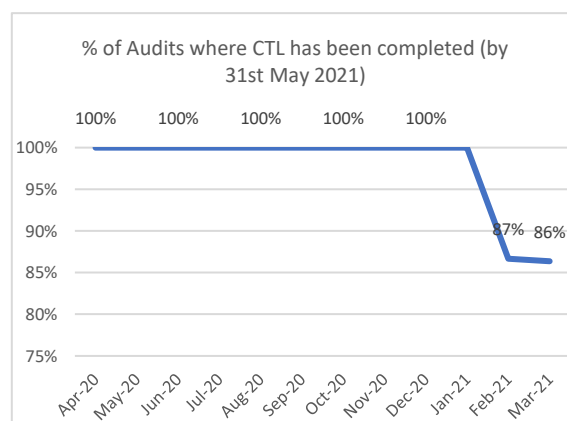

Our learning case file audits are completed with judgements in nine categories, which are set out here:

The graph shows a consistent element of good work in each category, particularly around the quality of assessments and perceived impact for the child. However, between 20-25% of our work remains rated as inadequate, with higher prevalence within children's planning and management oversight, this continues to inform our improvement plans and activity.

Team Managers are required to 'close the loop' wherever there are actions identified within an audit. The senior QA Auditor monitors this and ensures that the actions and findings find their way into case file supervisions.

Learning from Compliments and Complaints

Over the course of the year we have had x compliments from a range of sources including Children/Young People, Court, CAMHS, Foster Carers, School, Parents, Health, Local Authority, and family members. It is important that we learn from positive feedback and share where we are getting things right.

The themes of our compliments are:

- Communication, including treating young people with respect
- Delivering objectives
- Quality of Practice, including Relationship Based Practice with our partner agencies, foster carers, families and young people.
- Quality of Service
- Support
- professional development
- teamwork

In addition to this a recurring theme made by our partners has been the recognition to the improvements in the way we are now working, in comparison to the past.

Complaints

During 2020/21 we received 214 complaints, of which 204 have been completed / resolved. The complaints received over the course of the year cover the following themes:

- Access to services (1)
- Accuracy of Assessment/Reports (10)
- Actions / Conduct of Worker (70)
- Change in Social Worker (1)
- Contact Arrangements (14)
- Decision Making (26)
- Delays in receiving services (6)
- Delay in Providing Documentation (5)
- Financial Assistance (15)
- Inappropriate Disclosure of Information (6)
- Issue with carer (1)
- Lack of support (16)
- Not feeling listened to (6)
- Placement Change (7)
- Poor Communication (17)
- Quality of Service (9)
- Social Work Process (3)
- Support with Social Media (1)

This year, representatives from the complaints and QA services have ore regularly attended team and service meetings to share and discuss the themes and learning from complaints. We also held a series of learning events, targeted at managers and practitioners, with the focus on the themes of complaints, learning and service improvement activity. Learning from complains contributed to our core training offer and the targeted practice learning work.

Key learning from complaints include:

1. A need to ensure that children, young people and families understand why we become involved in their lives.

2. Before meetings take place with families and professionals, that important information is shared with parents before the meeting and that information is fully explained to them to ensure they understand what is being discussed.
3. To ensure that applications for citizenships and passports are progressed in a timely way.
4. For expectations to be made clear to parents.

Children and Young People's Participation

The Participation Team has continued to engage with children and young people during the pandemic. Face to face forums have had to be put on hold, but the team have found creative ways to engage. Virtual meetings were established immediately, and despite the limitations of the software available (young people don't like to use Skype) alternative tools were employed to stay connected. The use of Zoom and WhatsApp enabled the Trust to keep in touch using communication platforms that young people were comfortable with. In between the national lockdown and the localised Sandwell restrictions, officers were twice able to meet with some of our care leavers, socially distanced in a local park.

Partner organisations have continued to support the Trust and its young people. Colleagues from Kooth, the HOME Programme, Brook Sexual Health, REES Foundation as well as several internal services have engaged virtually throughout the pandemic. Officers have also hosted regular quizzes which have proved popular. Virtual meetings have been noted and the discussions shared with the wider 'Voice of Sandwell' and 'Care Leaver's Forum' groups, which have well established WhatsApp groups.

Ensuring their voice is heard, children and young people have maintained their involvement in activities that support the Trust, including recruitment (Social Worker, Managers, Targeted Support Workers, Service Managers and Independent Reviewing Officers) and inductions for new social workers, frontline students and ASYE social workers.

From the beginning of lockdown in March until the end of July 2020, the Trust worked closely with Sandwell Council to provide daily food parcels for children, families and care leavers (including their own children). The Trust helped to support over 400 children and young people via the local food hub, ensuring that Sandwell's most vulnerable children and families were supported during the most difficult period of lockdown.

In addition to supporting our most vulnerable with food parcels, the Trust has also been involved in the distribution of DfE laptops. Both engagements afforded the Trust the opportunity to catch up with its children and young people. When it has not been possible for the Participation Team to see young people in person, then the team have made welfare calls and checked in.

Unaccompanied minors have been contacted to seek their views on a national transfer. This is paving the way for a local forum of Unaccompanied Asylum-Seeking Children (UASC) which will complement the Trust's existing groups.

Our young people have helped develop and chair two Corporate Parenting Board meetings, as well as providing feedback to the Trust's Board on the issues that are important to them.

The Participation Team have been working on several initiatives that will enhance engagement. The Voice of the Child group has reconvened with a specific focus on the How Can I Help You Participation Strategy. Mind of My Own training has been regularly delivered, with the engagement leads for Mind of My Own hosting sessions for our IROs and Managers. Officers have contributed to a 'flagship' submission to the National Youth Agencies 'Hear by Right' accreditation scheme. The Trust has engaged with a range of external and national partners. For example, a presentation to the National Care Leaver's Benchmarking Forum and working with the West Midlands Participation Leads Group, supporting the development of a regional participation strategy and young people's forum.

All complaints, whether formal or informal are monitored by the Participation Team, who contact each child or young person to make sure that they have the support they need. Officers work closely with the Customer Experience Team to refine the organisations processes. The Participation Team are co-leading on the Trust's first 'feedback fortnight' which seeks to gather the views of as many children and young people as possible.

By November 2020, work had begun to engage unaccompanied minors (UASC) and Children with Disabilities with the participation team supporting the relevant service areas, ensuring that the 'four I's' of the participation strategy are considered. Work with the care leavers forum and Voice of Sandwell group continued virtually, with many of our young people participating virtually in activities related to the Trust.

National Care Leaver's Week was celebrated with a full programme of activities – interview techniques, wellbeing, a 'raising aspirations' panel and a 'lockdown heroes' celebration event.

The participation team supported the development of a regional participation strategy, again championing the use of the 4 'I's of Inform, Invest, Involve, Influence.

Autumn drew focus on Mind of My Own, with the participation team working with several groups including IROs, Team Managers and COG staff. This engagement, along with the promotion of Mind of My Own, saw an increase in the number of statements received from across the service.

Care Leavers participated in an equality and diversity seminar with the Trust's Board, where they shared powerful stories of their own experiences and those around them.

A newsletter was developed for our Care Leavers, and the team are working with the Leaving Care and Trust Comms teams to ensure that each care leaver receives a present at Christmas.

The Voice of the Child Board was reinvigorated towards the end of the 2020, with a focus on the four I's of the participation strategy. The Participation Manager presented an overview of activities undertaken to the Trust's Executive Management Team and will be attending the Trust Board to do the same.

In January 2021, the Participation Team entered a submission for the National Youth Agency 'Hear by Right' accreditation scheme.

Significant and serious incidents:

During the initial lockdown, there was a national rise in the in number of significant incidents to children, in particular very young children. During the COVID-19 lockdown period we have had 6 such significant incidents, which is a disproportionate number. The Sandwell Children's Safeguarding Partnership determined that 5 of the 6 met the criteria for Childrens Safeguarding Practice Reviews (CSPR).

We determined early on that 4 out of 6 significant incidents were of particular concern that warranted early quality assurance, self-assessment and learning. This was with the aim of assuring ourselves that there were not systemic issues within our service, and to ensure that we identify and respond to early learning from the incidents. We are confident that there are no serious or widespread systemic issues, but there were areas for learning, which has fed into our overall quality assurance conversations and improvement plans.

Learning that resulted from this work:

- Timely pre-birth assessment as early into pregnancies as possible
- Early identification of connected care and when a placement is unregulated
- Ensuring that Strategy Discussions/Meetings identify and respond to safeguarding need in babies and toddlers
- Ensuring that historic information impacts on the analysis and decision making within assessments
- Robust management oversight in relation to Children in Care who are high risk of offending

- Ensuring robust interventions and decision making where we step down to Targeted Services and parents refuse to engage

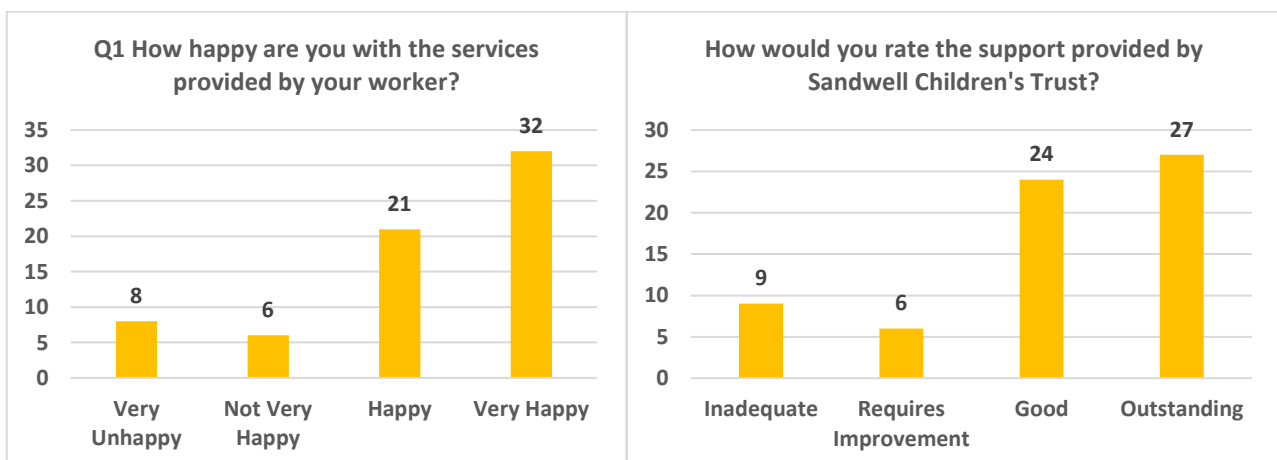

Actions that resulted from this work:

- A programme of training and reflective work provided to specific workers and offered through the BA practice learning team
- Unregulated Placement Event for all Managers/IROs/Conference Chairs
- Learning the Lessons from significant incidents event for all staff
- 7-minute briefing note
- Learning session for IROs/Conference Chairs to ensure that the IRO/CC role for Pre-birth and connected carer assessments is robust and challenging, and actively prevents drift and delay for children.
- A new Birth Plan Form for unborn babies, the pre-birth protocol updated, and regional procedures disseminated
- Improvements have been made to the Children in Care Updating Assessment by making the assessment more child friendly

Audits have consistently identified improvements in quality of overall work in the Trust. Good practice is noted across all areas, with approximately 80% or more audits being rated as RI and above. Our Practice Framework and Model supports us to work in a relationship based, strength based and Trauma informed manner. QA/BA and operational service have worked together to learn from past experiences, understand ongoing challenges, and embrace new ideas and improvements. Under the new arrangements of the CSRs multi-agency focus is also on early learning and progression of identified actions to impact practice directly.

Feedback from Children and 'Feedback fortnight'

In the Trust, we understand that feedback from our children, young people, family and carers, and partners allows us to measure how well we are doing. We secure regular feedback via our customer relations service, however, in quarter 3 we decided to secure feedback using an event we called 'Feedback Fortnight'. This was held between 5th and 18th October 2020, when we reached out to all children, young people, families, carers and professionals using snap surveys to gather feedback. We used a variety of mechanisms like text messages, social media pages, and our internet page to engage our stakeholders. A total of 169 surveys were completed by stakeholders during the fortnight, which was analysed, and learning has been widely shared across the Trust, and also published on our social media and internet pages. The feedback that was received has been extremely positive, and both children and families, and professionals have confirmed that our services are child centred and are supporting children and families in Sandwell effectively. The following figures show some of the responses that we received:

In total, Children and families completed 67 surveys of which 39 surveys expressed their wishes on how to improve the quality of service delivered by the Trust. Of the 39 comments, 20 children and young people stated that they would change nothing about the services. They were largely satisfied with the quality and timeliness of our service delivery, with special mention for the great services delivered by our COGs. COGs appear to be delivering high quality, person centred services using a relationship-based approach. Some quotes are:

“Due to how COVID-19 as affected how all organisations are run I think everyone has done a really good job on making it work so well considering the challenges due to the current pandemic.”

“I have no concerns so far. My daughter's worker has been professionally excellent and caring towards all of the family.”

We have also analysed the areas of improvements during the qualitative analysis of feedback we received. The main areas of improvements that were suggested are:

- Building stronger partnerships and more face to face meetings
- Reducing staff turnover, and better communication when staff is changed
- More activities for children and young people in community, and better support for homeless young people and families

QPP and Multi agency audits

The QA service continues to represent SCT in our partnership meetings with the Sandwell Childrens Safeguarding Partnership (SCSP), and in particular with the i.e. Quality and Performance (QPP) Sub-Group of the Partnership. We have worked collaboratively together to develop the multi-agency performance scorecard for the QPP, and actively participated in the new form of multi-agency auditing process. Findings from QPP have also been included in the QA reports for dissemination, wider learning and improvements. The multi-agency audits have provided us greater insight into the effectiveness of our partnership working such as core groups, The multi-agency audits have again provided necessary evidence to demonstrate that there are no systemic issues in the way the Trust delivers its services to children and families, and that this is also in line with the quality of service provided to children and families by our partner agencies.

What we know about practice

During the 6 months (April-Sept'20) the QA Service supported the Trusts understanding of the quality of practice during the covid pandemic. The service developed and implemented a Focussed Brief Audit (FBA) specifically to be able to meet this need. the COVID focussed QA work has assured the Trust that there has been a robust approach taken to staff safety and wellbeing, and that children were safe during lockdown. These FBAs have provided us with crucial information around risk assessment being kept up to date, PVRAs being undertaken

before each visit, ensuring children receive the best possible support via face to face (or virtual) visits and direct work, and Education risk assessments being completed in a timely manner. This has helped shape our efforts to keep our staff and children safe, and make improvements were needed.

The Significant Incident QA work has ensured that the service has been assured that there are not systemic issues within the service in relation to practice, but where there was key learning that the Trust has taken an 'early learning approach' to practice and made changes to support improved practice.

The auditing programme continues to offer a robust, good quality 'window back into practice' for auditors and the service alike. Practitioners are reporting that they like the 1:1 reflective session about the audits, and that they feel very proud when their practice is identified as having 'good features'. Seeking feedback from children and families at the end of audits helps to triangulate the quality of both the intervention with the child and their family as well as the quality of the auditing. This helps and supports a strengths-based inclusive approach being taken to quality assurance and learning from good practice.

There is evidence that there is growing confidence in the auditing process in the Trust and that the practice is rated accurately, which gives assurance both internally to the Trust as well as externally – Ofsted also agree with the robustness of the QA process. The lifting up and improving rate of practice means that children are receiving a better service from the Trust.

The multi-agency audits have provided us greater insight into the effectiveness of our partnership working such as core groups, The multi-agency audits have again provided necessary evidence to demonstrate that there are no systemic issues in the way the Trust delivers its services to children and families, and that this is also in line with the quality of service provided to children and families by our partner agencies.

Impact of Quality Assurance on Practice

- Improvement in quality of audits and auditors - via training and moderations, embedding an understanding of what good looks like, which managers take into their own practice
- Relentless focus on including practitioners whilst auditing for increased learning impact
- Embedding Practice Framework and Model using a practical approach as a window back into practice
- Increased focus on 'Impact and intervention' rather than process
- Strong Leadership - audits inform practice and service improvement plans and SEFs
- Feedback from children and families evidence real impact on outcomes

Section (e) - The outcome of any Ofsted monitoring visits and/or Ofsted inspections

The table below outlines the outcome of Ofsted's Visits and Inspections in 2020/21:

xxx – Outcome of Ofsted Inspection and Monitoring Visits		
Inspection / Visit	Date	Judgement
Overall Assurance Visit	3 rd March 2021	No judgement for assurance visits https://files.ofsted.gov.uk/v1/file/50162853
Fostering Assurance Visit	20 th October 2020	No judgement for assurance visits https://files.ofsted.gov.uk/v1/file/50158180

Children's Social Care

Ofsted inspectors visited us on 3rd and 4th March 2021 for their assurance visit. Due to the two-week lead time for this visit, this visit felt like a full inspection for most. Feedback from inspectors was as expected, we have areas of strength and areas for continued improvement (all of which we already knew):

Positive feedback

- Children are safe
- Good response to the pandemic – children and staff well supported
- Good partnership links
- Evidence of good work and practice in each service
- Good quality audits and moderation with a positive audit framework
- Good work from education services and schools
- Leadership – we know ourselves well

Improvements to be made

- Child Protection Planning and Intervention
- Pre-proceedings and court work
- Permanence and Matching for children
- Some managers and IROs could identify issues sooner and could be more successful in resolving them
- Our children's emotional wellbeing and CAMHS offer (including for care leavers)

Fostering service (IFA)

We received inspectors on a 'no-notice' basis on 20th October 2020 to seek assurance about our fostering services throughout the pandemic. We expected this and had factored the preparation for this into our weekly Ofsted Preparation meetings with the fostering service. The visit was not without its difficulties, particularly with staff getting used to demonstrating our good work virtually to inspectors. Feedback was that inspectors did not identify any widespread or serious concerns in relation to the care and protection of children and was largely positive. However, there were two regulatory requirements set out in the letter, which were:

- *The fostering service provider must provide foster parents with such training, advice, information and support, including support outside office hours, as appears necessary in the interests of children placed with them. (Regulation 17(1))*

- *Within 16 weeks of the date on which the old agency ceases carrying out the functions of a fostering agency, the fostering service provider in relation to a new fostering service ("the new fostering service provider") must, unless it is not reasonably practicable to do so, carry out an assessment of any foster parent for whom it has assumed responsibility by virtue of regulation 33(2) or (3) (a "transferred foster parent") and decide whether to approve them as a foster parent, in accordance with the provisions of regulations 26 and 27, with the modification that regulation 27(1) does not apply. (Regulation 34(1))*

In particular, this relates to completing the process for all foster carers who transferred from the local authority when the agency was set up.

The latter of these requirements had a deadline for 31st March 2021. We successfully reviewed each of the remaining foster carers who this regulation applied to by the end of the financial year, and informed Ofsted.

A full training package for foster carers has been available since the summer of 2019, but our promotion and drive for foster carers to attend was felt to have room for improvement. Since the assurance visit, we have slightly improved in this area, with an increase of 6% of all foster carers completing their Training, Support and Development portfolio within the previous three years. Core training also increased by an average of 10%.

Section (f) - The Trust's performance against budgets in the preceding Contract Year-

Financial Context

The finances provided to the Trust consists of funding from SMBC (the Contract Sum) and contributions from third parties. The basic contract sum was £65,328,000 and the 'third party' income was £7,149,794, which consisted of

- CCG health contribution
- Education funding for placements
- DfE improvement grant
- Troubled Families claims

In addition to this we drew upon a high cost placement reserve from SMBC of £500,000, and COVID-19 funding of £1,920,398. This makes a total income of £75,398,192.

We also had an opening deficit of £5,814,000. The deficit for 2020/21 is subject to audit but provisionally stands at £1,861,144, making the cumulative deficit £7,675,144.

Medium Term Financial Plan

The Medium Term Financial Plan is a rolling three-year strategy to manage our finances whilst addressing our deficit. We can review this on an annual basis in line with the review of our business plans.

The key aspects of the Medium Term Financial Plan are:

- Introducing more efficient ways of working
- Ensuring that we manage the demand of our work as efficiently as possible
- Ensuring we get best value for money for the services in which we commission
- Ensuring we take advantage of invest-to-save initiatives
- Delivery of savings aligned to our improvement journey

The cost-saving work outlined within this plan can be broken down to specific areas, such as the cost of children's placements, reducing the number of placements we need to utilise, ensuring that our service by service demand aligns with our establishment, and making sure the work we do is necessary – reducing drift and delay. The MTFP aims in the next three years to address our cumulative deficit and is largely due to staffing costs (agency premium), and high demand for services to be provided for Children in Care.

For the year 2020/21 we aimed to achieve a draft deficit position of £1,613,469. This would be achieved through the delivery of cost savings totalling £2,600,000 compared with the previous year.

Year-end position

Income totalling £75,398,192 was received for 2020/21, and expenditure was £77,259,336, meaning the Trust has incurred a £1,861,144 provisional deficit, which was £247,675 above the aims outlined within the Medium Term Financial Plan. This was due to continued demand pressures on high cost placements and continued reliance of agency staffing in some areas.

This deficit is expected to be mitigated throughout the course of the next three years due to the development of a well governed cost savings plan tackling demand, supplier management and staffing permanence.

The below table highlights the provisional full-year outturn for - 2020/21.

Provisional full-year outturn	2021
	£
Income	75,398,192
Expenditure	(77,259,336)
Operating deficit	(1,861,144)
Deficit before taxation	(1,861,144)
Tax on deficit	Nil
Deficit (Loss) for the Financial year	(1,861,144)

This year, some of the key points are:

- We received £2.1m of DFE Improvement Grant funding to fund some of our improvement initiatives.
- We drew upon the high cost placement reserve of £500k paid by SMBC.
- We received emergency COVID funding from SMBC of £1.92m to offset increased costs caused by COVID-19. Examples of this (non-exhaustive) are: Cost incurred not being able to step children down from their placements; increased Independent Living Allowance for Care Leavers (in line with increases to Universal Credit) and additional resources to cover staff who are sick, shielding or self-isolating as a result of covid-19.
- Other third-party income received was £1.0m less than budgeted in the MTFP.
- Key cost pressures remain within staffing (requirement for agency staff to fill front-line roles) and placements (particularly external residential provision).

Section (g) - Demand analysis in respect of the Services against assumptions and models in respect of the preceding Contract Year

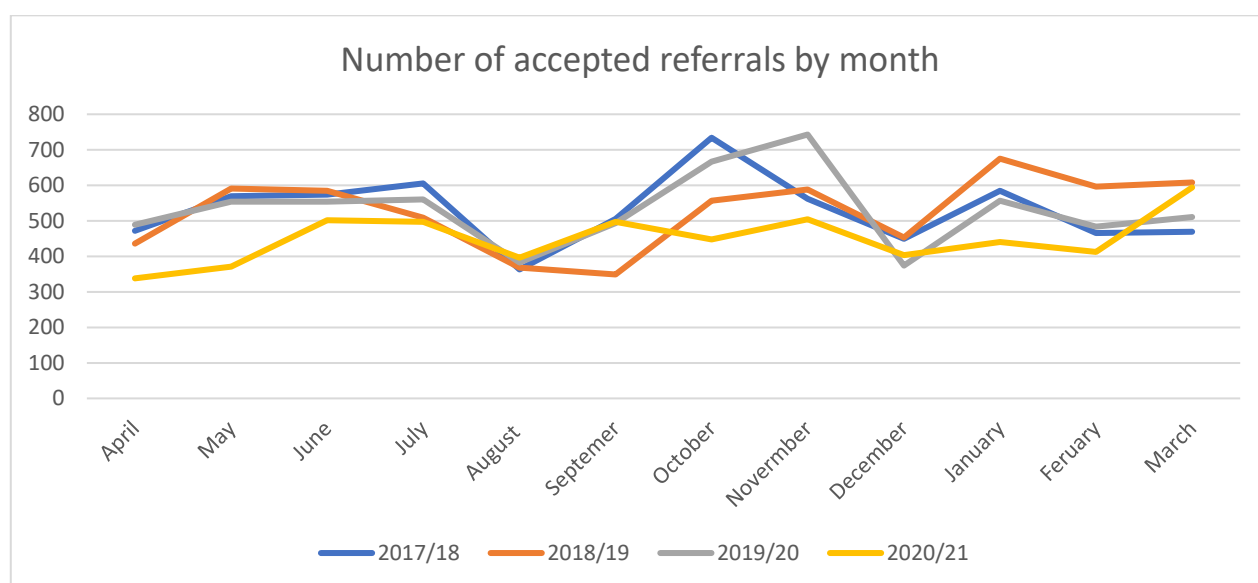

Our contacts / referrals

The more contacts we receive from our partners, the public or directly from families, the more resource we need to screen to determine whether they meet our threshold for intervention. Whilst we do not want to dissuade anyone from contacting us, particularly members of the public and families, we do need to strike the right balance with partners as to what constitutes appropriate referrals. As such, we maintain close strategic and operational relationships with partners to ensure a shared understanding of the threshold for access to our services. We received 27,938 contacts during the year, of which 36% were from Police, 16% from Health and 10.7% from Education. We saw a drop in referrals from education services during the pandemic, which we believe is largely due to schools being closed. However, we received more contacts overall than last year.

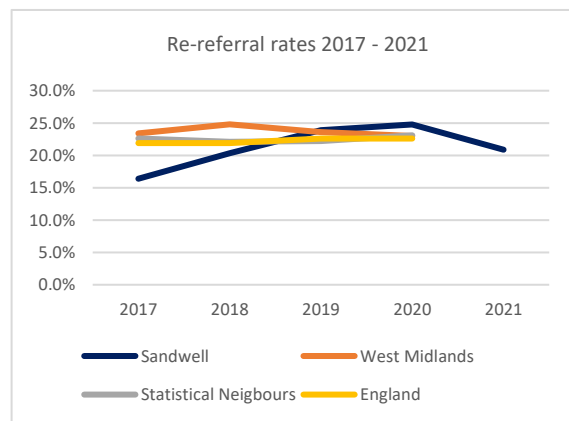

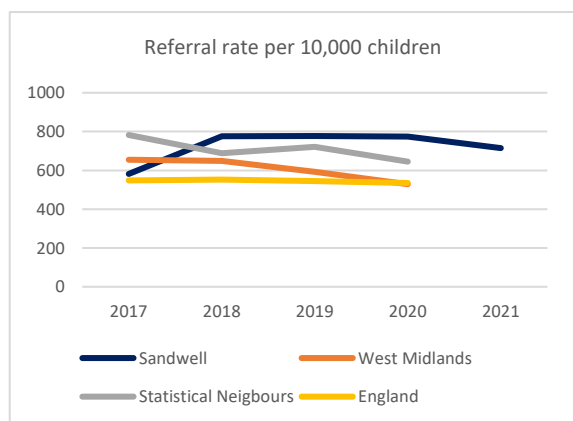

Total Contacts for 2020/21 by source

Contact Source Categories	Total	%
Health	4468	16.0%
LA	2416	8.6%
Police	10045	36.0%
Education	2988	10.7%
Other	3034	10.9%
Prison and Probation	857	3.1%
Self / Relative / Friend	1944	7.0%
Voluntary Organisation	1105	4.0%
CAFCASS, Central Government and Legal	838	3.0%
Anonymous	243	0.9%
Total	27938	

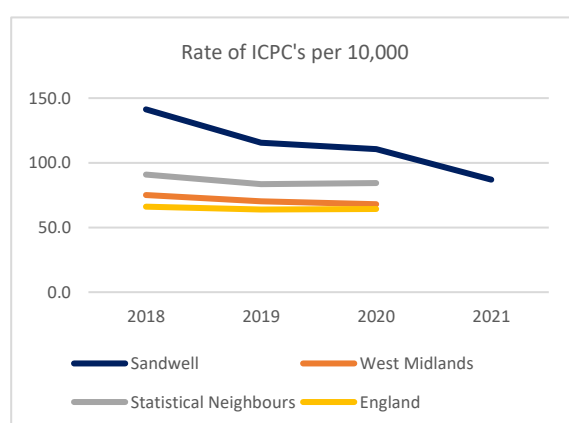

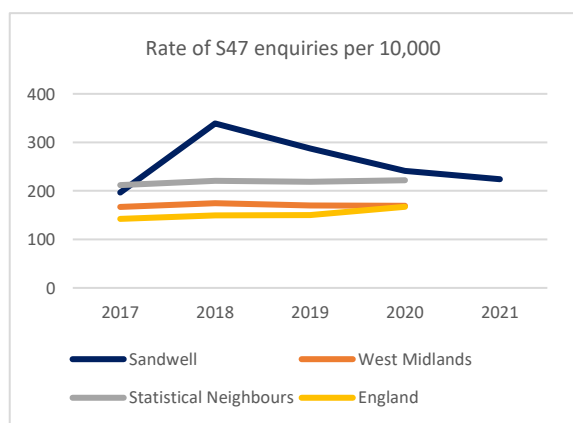

The number of referrals we accept serves as an indicator for how many children and families we are likely to work with over the longer term. We accepted a total of 5,402 referrals across the year, which was lower than the previous three years (6,364), but this still represents more referrals per 10,000 children than our comparators. This year 19.3% of contacts led to a referral, which is a reduction of five percentage points.

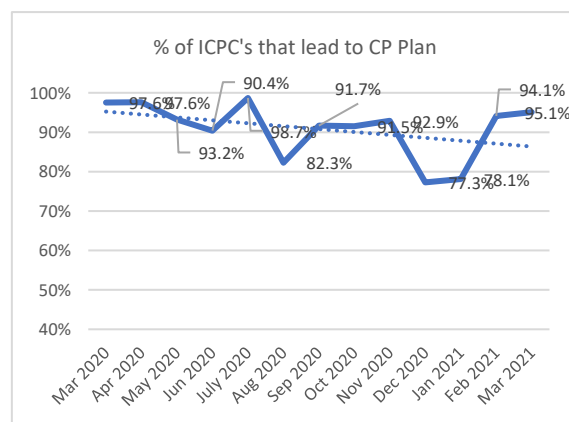

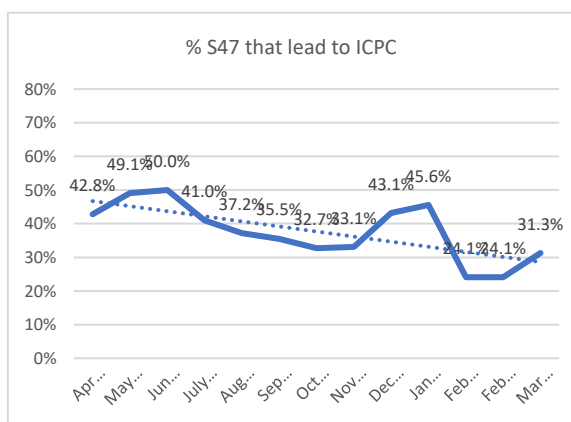

We have seen a decrease in re-referrals (where we were involved with the family less than 12 months prior), in 2018/19 the re-referral rate was 23.9% , last financial year the rate was 25%, but this year our rate is 20.9%. This is now 2.8% higher than our statistical neighbour comparators for 2018/19.

The rate of S47 enquiries per 10,000 has further reduced this year to 224, which brings us more in line with our Statistical Neighbour average rate of 222. In addition, the rate of Initial Child Protection Conferences per 10,000 has reduced to 87 this year (from 110.70 in the previous year), bringing us closer to our Statistical Neighbour average rate of 84.4. This shows we are more confident and purposeful when we are faced with deciding whether to proceed with S47 enquiries and holding Child Protection Conferences

The conversion rate of S47 enquiries leading to Child Protection Conferences is lower this year, and a reducing trajectory can be seen. However, where we choose to hold an Initial Child Protection Conference, this tends to lead to a Child Protection Plan.

It is clear there is still work to do to reduce demand at our front door, thus our

Our children in Sandwell Children's Trust

As of 31st March 2021, we had 856 children with a Child in Need Plan, 485 children with a Child Protection Plan and 888 Children in Care. We have more children in care on average than our statistical neighbours:

Table X – Comparison with Statistical Neighbours (CP / CIC)

	Sandwell (31 st March 2021)	Statistical Neighbour Average 2019/20	England Average 2019/20
Assessments undertaken	755 per 10,000	672.6 per 10,000	553 per 10,000
Children with a Child Protection Plan	58.8 per 10,000	54.5x per 10,000	42.8 per 10,000
Children in Care	107.6 per 10,000	94.3 per 10,000	67 per 10,000
Children with a Child in Need Plan	103.8 per 10,000	No comparators	

This continues to highlight our challenge in ensuring improvement whilst working with significantly more children and families than our neighbours, within a fragile marketplace for social workers within the region and nationally.

Children in Need

The graph below shows that we began the year with 1066 children in need, with a downward trend across the year, ending with 807. Interventions with families through a Child in Need Plan are intensive, purposeful and kept under constant review as it is very easy for plans to drift.

The majority of these children are held within the Care Management service, although some older children are provided services through the Children in Care service under a Child in Need Plan.

Children with a Child Protection Plan

We began the year with 673 children who were subject of a Child Protection Plan, and across the course of the year this decreased to 485, with the most significant decrease in Quarters 3 and 4.

Children in Care

We began the year with 873 children in care and saw a gradual increase to 888, with a variable level of children coming into care but a more consistently low number of children leaving care across the year.

Demand for -Staff

It is important to acknowledge that Sandwell Children's Trust employs nearly 600 staff, of which around half are social workers. If not for the range of specialist and support staff within the Trust, social workers would not have the foundation and infrastructure to work effectively with children and their families. Nevertheless, our focus continues to be to ensure we have a stable 'case holding' workforce, as it is the consistency and skill of this workforce that will bring about the improved outcomes we expect for our children and families.

There are a range of models we can use to determine how many social workers we need to work with our families, some more complex than others. However, we continue to have a very simple calculation for this, which is:

1. For social workers working with Children in Need and those with a Child Protection Plan (within the care management service), an average of 18 children.
2. For social workers working with long term Children in Care (within the Children in Care Service), an average of 15 children.
3. For Social Workers in their Assessed and Supported Year of Employment (ASYE), there is a reduction of 20% within these average caseloads (although this is profiled across the year).

Case-holding Social Workers

We have an agreed establishment of 222.5 Full Time Equivalent social workers, based upon our current demand, and considerations within the Medium Term Financial Plan. This is made up of permanent social workers, agency social workers and those within their Assessed and Supported Year of Employment (ASYE's).

Staffing Levels (Permanent SWs, ASYE and Agency)

Social Workers in their Assessed and Supported Year of Employment (ASYE)

The Trust, along with all children's services nationally, has a reliance on newly qualified social workers in their first year of employment (ASYE). During this year, social workers are required to complete a range of training, practice based learning, observations and a portfolio under the supervision of an experienced social worker. The benefits of maintaining a significant cohort of newly qualified social workers are clear, as it enables us to keep a steady flow of social workers into our organisation, contributing to a stable workforce. However, there have been challenges associated with managing this group of staff, in our first year, which has included the ability to provide appropriate support and supervision and protecting caseloads.

Clearly, the more newly qualified social workers we have, the more pressure there is on our experienced workforce, not only in relation the support they need to provide, but also the proportion of cases allocated to them.

The number of ASYE cases has remained consistent at around 23 over the course of the year but has coincided with number of total social workers in the organisation reducing from 201.85 to 187.43.

Safeguarding and Assessment Service (Assessments of Children and Families)

The Safeguarding and Assessment Team are responsible for undertaking assessments that arise from new referrals. This work is short-term and should not exceed 45 working days, aiming to meet the intervention needs of the family within the 45-day timescale where possible. In the event that further work is required, SAAT may identify longer term needs and transfer the families to Care Management, or where necessary, to Children in Care; or alternatively may step down families to Targeted Early Help in instances where further support work is required.

Average Caseload SAAT

	Apr 2020	May 2020	June 2020	July 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020	Dec 2020	Jan 2021	Feb 2021	Mar 2021
Number Cases SAAT	524	563	716	744	780	730	761	767	762	745	721	875
Total Caseholders SAAT FTE	23.80	22.80	24.80	27.80	29.80	29.80	27.80	23.80	27.80	24.80	25.80	28.80

The average number of cases within the SAAT service has increased across the year from 23.8 to 28.8 with a particular spike in the summer of 2020.

Medium and Longer-Term Intervention (Care Management and Looked After Children)

Most of our casework take place within these two services, whether children are subject of Child in Need Plans, Child Protection Plans or Children in Care.

We have a target of 18 children per social worker in the Care Management Service. We began the year with an average caseload of 18.77 children, saw peaks in July 2020 and February 2021, and finished the year with a higher average caseload of 21.18.

Average Caseload Care Management and Children with Disabilities Service

	Apr 2020	May 2020	June 2020	July 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020	Dec 2020	Jan 2021	Feb 2021	Mar 2021

The work undertaken by the Children in Care service is to ensure that children who are to remain in the care of Sandwell Children's Trust are protected from significant harm, live as fulfilled a life as possible, achieve their potential and become independent members of society. These children need stability in their arrangements and benefit from good relationships with their social workers, carers and key professionals.

To provide enough time for these relationships to develop, we have a target of 15 cases per worker in the Children in Care service.

We began the year with approximately 21.36 children per social worker, which decreased to 18.15 in the autumn of 2020, and the increased across the remainder of the year to 22 children per social worker, which is significantly above our aspirational target of 15.

Average Caseload Children in Care Service

	Apr 2020	May 2020	June 2020	July 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020	Dec 2020	Jan 2021	Feb 2021	Mar 2021

The Fostering Service

The new staffing establishment for the Fostering Service was put into place at the start of this year, and is based on modelling of 16.5 fostering households per Supervising Social Worker, and circa 6 assessments at any one time for an assessing social worker. This is based on recent benchmarking with local and national comparators.

Average Caseload Fostering Teams

	Apr 2020	May 2020	June 2020	July 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020	Dec 2020	Jan 2021	Feb 2021	Mar 2021

Demand for Foster Placements for Children in Care (Internal and External)

A priority for SCT within the last two years has been to understand and model, where we can, the number of foster care placements we need as there are clear links between children's placement and financial modelling (outlined in Section (a)).

The number of Children in Care who need a placement is the biggest contributor to our resource deficit outlined in Section (a). First and foremost, we need to ensure that all our children in care are in the right placement for them, and wherever possible we must be getting best value for money from these placements. 35% of our total placement spend is represented by 7% of children's placements.

Entry into care

In previous sections we have articulated that the number of children in our care have remained static. Over the past two years we have averaged around 200 entries and exits per year, which is lower than our Statistical Neighbour comparators entering care (247), and in line with England Average of 206 over the two-year period (April 2018-March 2020). This is similarly the case for Children Ceasing Care we are lower than the Statistical Neighbour Average of 232 and in line with England Average 194

Over the previous three years we have tended to have a greater proportion of children aged between 0 and 9 than our comparators. Where we need to act to protect a child, the sooner we do this the better, and younger children are more likely to be found good quality permanent placements through adoption. Outcomes for younger children in our care are also better on average.

Last year we had a drop in the use of Police Protection and Emergency Protection Orders, although we have found this year to have seen an increase in both areas. We have also seen a reduction in the use of Section 20 accommodation on entry into care.

Initial Legal Status (at point of entry)	2018/19	2019/20	2020/21
Accommodated with breaks (no care episodes recorded)	0	1	0
C1 Missing Legal Status	1	0	0
Care Order	13	0	0
Emergency Protection Order	3	0	2
Interim Care Order	165	100	116
On remand, or Committed for Trial or Sentence and Accommodated by LA	10	9	9
Police Protection and in LA accommodation	41	18	35
Single Period of Accommodation under Section 20	116	65	55
Grand Total	349	193	217

The table below shows where our Children in Care have been placed since 1st April 2019, focused on those settings that have the highest resource implications.

Children ceasing care

The majority of children ceasing care across the previous three years have been those turning 18, and those children between 1 and 4 years old.

Over the course of the last three year we have seen an increase in the use of special guardianship and a consistent flow of children being reunified to their family.

Ceased Care Reasons	2018/19	2019/20	2020/21
Adopted	34	30	36
Care Order Discharged	0	10	5
SGO	10	20	25
Reunification	57	47	41
Independent Living	81	79	74
Child Arrangement Order	6	7	4
Supervision Order	5	13	17
Other	19	24	9
Total	212	230	211

Our current cohort

In Sandwell, more children have been in our care between 2 and 10 years than the England average. This goes some way to demonstrate that we are still managing the legacy of children who required protection from the tie we were deemed inadequate.

Over the last three years, a smaller proportion of children have been placed within our own foster care placement, and we have seen increased use of external foster carers and children who are placed with parents. However, our use of residential homes is lower than the England average in 2020.

Approved Foster Carers

As a Trust, we are registered as an Independent Fostering Agency. However, we are no different from a Local Authority fostering service in that we provide support for both mainstream and connected carers, alongside commissioning agency foster care placements.

As at 31 March 2021, we had 331 children placed with 225 internal foster carers (106 mainstream and 119 Family and Friends), which is 37.4%. 325 children were placed with external agency foster carers, which is 36.7%. Finally, our use of connected carers has increased by 10.

Most of our carers are of White British ethnicity, and 34 out of 103 (33%) mainstream foster carers are aged over 60, and are therefore more likely to retire within the next five years. This, alongside a reduction of children's placements with internal foster carers represents a sufficiency challenge for us.

Residential Placements

We do not operate any residential children's homes and are therefore whenever we need to place a child outside of a family setting we do this through a commissioned agency. External residential placements represent our highest cost placements, and are a clear area for ensuring we are making the best use of resources. Whilst there will always be a need to accommodate children with complex needs, often there are more appropriate 'family settings' for these children, which we have explored.

A further pressure for us is independent accommodation for older Children in Care and Care Leavers, which often is supported and comes at a significant cost.

Section (h) - The outcome of any Agreed Action Plan and/or Rectification Plan that was agreed in the preceding Contract Year

There were no formal action plans or rectification plans in the Contract year 2019/20, owing to the agreements pertaining to the Relief Event agreed on 21st July 2020, which remains in place.

Section (i) - Any Changes to the Agreement agreed between the Parties in the preceding Contract Year pursuant to the Change Control Procedure

Changes to Service Delivery Contract

There were no changes to the Service Delivery Contract during this financial year.

Changes to Support Services Agreements

There were no changes to the support services agreements during the year.

Other significant changes

On 23rd November 2020, Pauline Turner was removed as a company director, on 31st March 2021 Frances Craven was removed as a company director and on 30th March 2021 Emma Taylor was added as a company director (effective from 12th April 2021).

Section (j) - Any proposed changes to the Services Specification, the Financial Mechanism and/or the Performance Indicators for the following Contract Year

There are no proposed changes to the Services Specification, Financial Mechanism or the Performance Indicators in the next contract year. However, we enter into constructive conversations about these matters to coincide with the Contract Review of next year.

Section (k) - The contractual governance arrangements set out in Schedule 19 (Governance)

There are no comments to be made about the contractual governance, (change controls).

Section (I) - Such other matters that the Parties may agree from time to time

There are no additional matters in this report that have been agreed by both parties.

This page is intentionally left blank

Improvement Plan 2021-2024

**The Right Honourable Jacqui Smith,
Chair of Sandwell Children's Trust**

"As we enter our fourth year here in Sandwell Children's Trust, we do so in the knowledge that we have done our very best for our children and families under the enormously challenging circumstances brought about by the COVID-19 pandemic. Our staff have shown great dedication and resilience in keeping children safe during a very difficult period. Now is the right time for us to reflect on our progress, consolidate all we have done and plan for the future.

I am therefore very pleased to present our latest improvement plan, which underpins our aim to invest in our people, practice and partnerships to provide excellent services for children and families in Sandwell."

**Emma Taylor – Chief Executive of
Sandwell Children's Trust**

"I am really excited to join Sandwell Children's Trust - the Sandwell Family - at this crucial juncture. I can see the good work undertaken by staff at all levels and the difference this has made to how we work with our children and families. I have sensed the passion and willingness from our staff to strive for excellence and it's important that we do this based on our Sandwell Family values. We know what we need to work on to improve even more - our Improvement Plan sets out how we are going to do this, and how we will know we've succeeded."

Ieasha Hamrahi

"We are very happy to have contributed to Sandwell Children's Trust new improvement plan and we look forward to seeing changes being made that makes a difference to children and families in Sandwell."

India Purewal

"We think it is important that there is a dedicated place for the Chief Executive to review progress and make sure the improvements in this plan are the biggest priority, and are glad that we are able to be involved in this."

**Co-Chairs of Sandwell Care Leavers'
Forum**

Our Approach to Improvement in 2021 and beyond

We have come a long way in the last three years since we began as a Trust, and have made some great improvements within that time, including ensuring the resilience of our infrastructure when responding to the challenges of the COVID-19 pandemic, which has laid quality foundations for future improvements. Coming out of the pandemic, we are ready for the next stage of our journey, so it is the right time for us to refresh our improvement plan with the aim of becoming a 'Good' or better organisation.

We know there is still a lot for us to do in a challenging field, with staffing and demand pressures regionally and nationally. The landscape for children's services following the pandemic is ever-changing, so our approach is with this in mind. We have also had several visits from Ofsted and have taken advantage of practice improvement partners from Doncaster, Essex and Camden to provide external validation of our work. We know the areas where we need to improve to achieve our aims, which are People, Practice and Partnerships:

People

Ensuring we recruit and retain good quality staff through:

- Comprehensive and supportive induction that prepares staff to do the job they came to do
- Offering genuine opportunities for career development and progression from within
- Developing the best managers and senior leaders
- A good learning and development offer for all levels of staff

Practice

We will ensure that:

- When we intervene with families, this is done with the benefit of high-quality analytical assessments which balance children's wishes and needs with parental capacity and motivation to change
- Intervention with families are proportionate, and we minimise delays in decision making
- Where we can, we prevent needs and risks increasing and empower families and communities to build on their strengths and meet their own needs
- When we work with families we do so in a relationship-based way, understand the impact of trauma on children and families, build on strengths and address the root causes of needs and risks
- We routinely analyse practice and trends, we know the value and impact of our interventions and can provide evidence for this
- We have a culture of genuine reflection and promote a cycle of learning and practice improvement, which can be evidenced

Partnership and Prevention

We will ensure that:

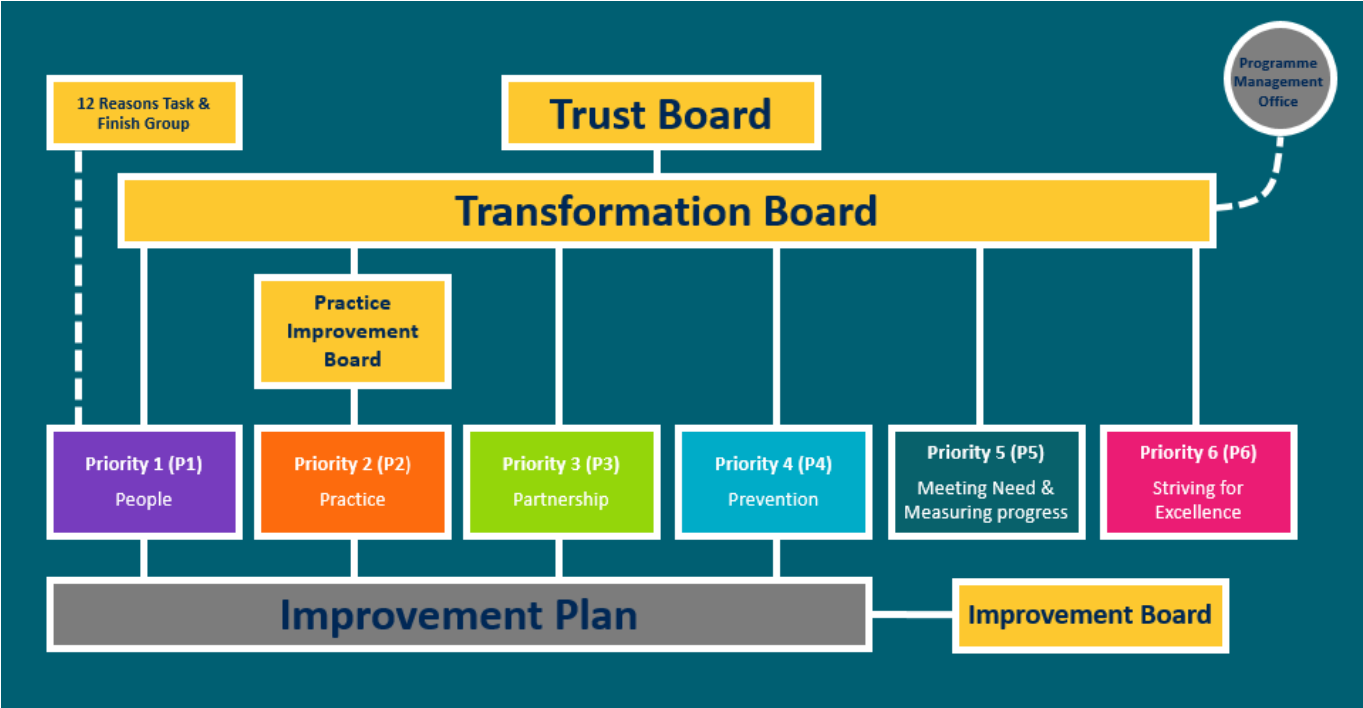

- We work with partners so that Early Help promotes prevention at every level
- Ensuring the most relevant partners are integral in every child's assessment and plan, actively support families and where decisions are made on behalf of children
- Capitalising on the six towns in Sandwell to ensure that a localised community approach is taken, helps to identify and intervene early and swiftly, building relationships and empowering families
- There is a robust, safe and efficient interface between levels of need
- Work with early help partners so that they can adopt aspects of our practice framework and model
- Targeted Services provided by SCT manage risk effectively and contribute towards a whole Sandwell approach to Early Help

Delivery and Governance

Leaders in Sandwell Children's Trust are accountable to the Trust Board for all of the work they do, which includes the improvement programme. As children's services in Sandwell was rated by Ofsted as Inadequate in 2017, we remain under the statutory intervention of the Department for Education, which means we have an independent improvement board chair and adviser Mark Gurrey. Furthermore, our contractual relationship with Sandwell MBC adds a layer of scrutiny and

governance from the Director of Children’s Services. A further key forum for improvement across the partnership is the Sandwell Safeguarding Children’s Partnership, also chaired by the DCS.

The improvement programme fits within SCT’s strategic transformation programme, which sets out our priority areas for transformation over the next three years. Priorities one to four are addressed through this improvement plan, of which ‘Practice’ is the single biggest area.

All services within Sandwell Children’s Trust are expected to follow a cycle of planning, doing and reviewing; with constant practice analysis throughout our improvement journey. This allows each Head of Service (and in turn their management team) to demonstrate impact against our improvement priorities on a 12-weekly basis.

The Director of Quality and Performance is the key senior leader responsible for the improvement programme, holding, alongside the Chief Executive, a fortnightly Practice Improvement Board with key staff across the Trust to demonstrate progress against ‘practice’ (Priority 2).

The programme is led and monitored by the Business Improvement and Change Manager, and progress is validated against our Performance and Quality measures and findings in consultation with the Principal Social Worker. This aims to create a balance between strategic planning and practice improvement to achieve positive outcomes for children, which is measurable and can be evidenced.

Our plan to get to good

As a result of our latest self-evaluation, our performance data, quality assurance activity and intelligence, bolstered by external feedback, we know where more specific improvements need to be made. These are set out below:

Enablers

Good progress has been made in these three categories of the previous improvement plan, and we believe these key enablers provide a strong foundation for our next stage of improvement. They are:

Leadership: Strong leadership ensures that we maintain progress as all services and all staff have a shared understanding of our vision and expectations, there is a culture of accountability for the work that we do and staff feel safe to learn, improve and innovate.

Efficient use of resources: An efficient service lends itself to being a good service as staff are focussed on the right things for children and families, are not overly distracted or burdened by meaningless activity and have the space to be creative.

12 Reasons to work for Sandwell Children's Trust: Our workforce strategy and delivery programme is key to deliver most, if not all of the improvements within this plan, as we are reliant upon good quality staff, social workers and managers to deliver the best for our families. The 12 reasons also set out our commitment to equality, diversity and inclusion.

People

1) *Embed a culture of staff wellbeing and respond to the long-term impact of the pandemic*

After the last 12 months when staff have had to respond to the crisis of the COVID-19 pandemic, we believe it is crucial to ensure that our staff are offered the best emotional and practical support possible to be able to give their best to children and families, throughout the remainder of this crisis and beyond. This will include:

- Evolving our working style to meet staff and business needs
- Ensuring our accommodation and technology needs are met following the pandemic
- Ensuring staff have access to emotional wellbeing services broadly and individually
- Ensuring staff welfare is at the forefront of any service decisions
- Continue to engage with staff, listen to their feedback, and respond in a timely way

2) *Workforce, recruitment, retention and career development*

Referred to within the key enablers, having a good quality and stable staff base is essential in ensuring continued improvements can be made, as staff who leave take their learning elsewhere and new staff may need investment of training and development. Instability within teams and services also contribute to instability for children and families, drift and delay, and 'start again syndrome'.

- Offering genuine opportunities for career development and progression from within, with clearly articulated pathways
- Ensuring our financial and overall package is attractive to new and existing staff, and competitive in the local market
- Ensuring we explore every avenue to obtain quality social workers and other support staff and do all we can to sell ourselves
- Ensuring there is a comprehensive and supportive induction that prepares staff to do the job they came to do
- Developing the best managers and senior leaders through established leadership programmes
- Ensuring we maintain a good learning and development offer for all levels of staff

- The embedding of the social work academy in Sandwell and maintaining a stream of interested students and ASYE's to bolster our future

Practice

3) *Embed good quality practice and standards using our practice framework and model*

Our practice framework and model underpins everything we do for children and families, as such it is important that all staff are equipped with a consistent way in which to practice, informed by research and helps maximise the success of our interventions.

- Ensuring when we intervene with families, this is done with the benefit of high-quality analytical assessments which balance children's wishes and needs with parental capacity and motivation to change
- Intervention with families are proportionate, and we minimise delays in decision making
- Where we can, we prevent needs and risks increasing and empower families and communities to build on their strengths and meet their own needs
- When we work with families we do so in a relationship-based way, understand the impact of trauma on children and families, build on strengths, and address the root causes of needs and risks
- We routinely analyse practice and trends, we know the value and impact of our interventions and can provide evidence for this
- We have a culture of genuine reflection and promote a cycle of learning and practice improvement

4) *Embed our participation strategy*

We are proud of our 'Four I's' participation strategy (Invest, Inform, Involve and Influence) and are well on the way to be accredited for our work in this area. Having services designed in collaboration with children gives us the opportunity to see things from their point of view. Engaging children in a meaningful way, at every step of the way, is of the utmost importance to us and allows us to tailor our interventions for maximum success.

- Ensuring meaningful participation of children and young people in decision making meetings
- Ensuring our staff are equipped to engage with children and young people of all ages and developmental needs
- Ensuring children and young people are involved in our QA processes and help us to learn
- Ensuring we obtain feedback from children and young people wherever we can
- Ensuring services are developed with children and young people

5) *Improve the quality of our assessments across the Trust, paying particular attention to cultural competence*

We are a diverse borough in Sandwell. Our families have wide range of ethnic backgrounds, religious beliefs, ages, sexualities and gender identities, often layered on top of each other. As such, each family has its own culture, often complex and with its own cultural norms, which we have to understand if we are going to get our interventions right for them. Staff also need to understand their own experiences, values and identities and how these might affect the way in which they practice. Therefore, our aim is for all staff should be culturally competent.

- Ensuring we have clear diversity policies, statements of intent and expectations are communicated to all staff
- Ensuring cultural competence throughout all levels of the organisation, no matter what the role, and that it is a key consideration of assessing and intervening with families
- Ensuring we considering diversity and culture within all the work we do

6) *Strengthen children's planning and plans*

Without a good analytical assessment and a clear plan, setting out clear expectations for all involved our interventions with children and families are less likely to be a success. We know we have not yet done all we can to improve the quality of our plans, so this priority area is an essential in the first year of this plan, to be further built on beyond that.

- Ensure we have a fit for purpose design for SMART plans that is well understood, used to drive quality interventions that address the root causes of problems
- Develop plans that help families to know what is expected of them, relevant and drive good quality and meaningful intervention
- Ensure that staff know what a good plan looks like and develop a bank of good practice examples
- Progress made in line with children's plans are measurable and analysed

7) Embed robust management oversight, and IRO resolution and challenge (risk management and risk aversion)

Without strong, proportionate management oversight, clear direction and independent challenge, children are less likely to receive consistent and effective interventions. Delays, poorer practice and potential problems are not foreseen or identified quickly enough and in turn are not resolved quickly enough.

- Intervening in a child's life should be proportionate to their assessed need, and when risks are reduced, decisions are made for a more appropriate intervention in a timely way
- We have a consistent and shared approach to risk
- Ensure managers understand their own performance and know their strengths and areas for improvement
- Ensure managers identify potential problems as soon as possible and rectify any problems immediately
- Ensure the footprint of IRO's and CP Conference Chairs are routinely seen, and challenge and resolution has a positive impact on children's outcomes
- Scrutiny, challenge and reflection takes place at every level of management

8) Ensure our interventions meet assessed need and have the desired impact, including for children with particular circumstances

Whenever we work with children and families, everything we do should be meaningful, purposeful and our interventions make a difference to a child's life. Our social workers and practitioners are agents of change in their own right and are crucial in helping families to reduce risk or better meet need – taking advantage of specialist resource where the need arises. We also have a range of children with specialist circumstances in Sandwell, including those where their immigration status is unresolved (Unaccompanied Asylum-Seeking Children and those with No Recourse to Public Funds), those who are at risk of exploitation, and those where their disability necessitates a service. For these children, we need to tailor our interventions, making best use of the skillset of our staff.

- Ensure there is a good support infrastructure and clear performance reporting for staff who work with children with disabilities, so that practice is consistent for all children requiring a service due to their disability
- Ensure that the strong work of the exploitation teams in Sandwell continue to be developed
- Consolidate our intervention with Unaccompanied Asylum-Seeking Children, those with No Recourse to Public Funds and those who require British citizenship, ensuring consistent practice for these children and families

9) Strengthen our practice in all aspects of pre-proceedings and care proceedings

Where care proceedings are a possible outcome of our involvement with a family it is essential that we enter into clear dialogue with parents through the Public Law Outline. We know that our work in this area has been variable, with some good pockets of work identified by courts and our regulators. However, on average, children spend too long in Care Proceedings in Sandwell, and our assessments and evidence does not always lead to the outcomes we seek in court.

- We should do whatever it takes for a child to remain safely within their family, which means family options are explored at the earliest opportunity
- Review and ensure processes for pre-proceedings are robust, that parents are well-informed and expectations are clear to them from the outset
- Incorporate pre-proceedings and court processes into case management systems and utilise performance reporting to maintain an accurate tracker of this activity
- Address the historic delay within existing care proceedings and ensure there is a mechanism to review and drive progress for those children who entered into care proceedings more recently
- Engage with the judiciary and CAFCASS and ensure we maximise our influence in regional forums so Special Guardianship can be considered as a viable permanence option

10) Ensure permanence for children is considered at the earliest possible point with plans swiftly progressed and children are matched

Children deserve to know where they are going to live permanently as soon as possible, and these permanent placements should be made without delay, as part of an informed decision from a senior manager. In Sandwell, we need to consistently achieve this for our children.

- We should do whatever it takes for a child to remain safely within their family, which means family options are explored at the earliest opportunity

- Ensure that children in our care have a plan for permanence at the earliest opportunity
- Ensure that initial placements for children are made with due consideration of their needs, and their profile
- Ensure that children's long-term placements are made with robust matching considerations and decisions to maximise the success of these placements

Partnerships

11) Strengthen our services for children in care and care leavers paying particular attention to their emotional health and wellbeing

Children in Sandwell have access to a range of support for their emotional and mental health, but the effectiveness of these services is not as well understood as it could be. We need to be able to influence and develop clear pathways for emotional and mental health support for our children, in particular those for whom we have or have had parental responsibility.

- Develop clear performance analysis and reporting in this area
- Respond to the 2021 review of mental health services for care leavers to ensure good quality transition to adult mental health services
- Improve relationships and partnership working in this area to improve outcomes for our most vulnerable children
- Commission services that meet the emotional needs of our children in care and care leavers, where a mental health service threshold is not met

Prevention

12) Strengthen and influence preventative work with children and manage transitions between services

- We work with partners so that Early Help promotes prevention at every level
- Ensuring the most relevant partners are involved in every child's assessment and plan, they actively support families and contribute to decisions made on behalf of children
- Capitalising on the six towns in Sandwell to ensure that a localised community approach is taken, helps to identify and intervene early and swiftly, building relationships and empowering families
- There is a robust, safe and efficient interface between levels of need
- Work with early help partners so that they can adopt aspects of our practice framework and model
- Targeted Services provided by SCT manage risk effectively and contribute towards a whole Sandwell approach to Early Help

Demonstrating Impact: what are our qualitative and quantitative measures?

We know we need to measure our progress through a range of methods, which include performance metrics, intelligence, feedback from children, families and our partner and most importantly our quality assurance activity. We do this through our single overarching plan / impact workbook which is governed through our Practice Improvement Board.

Quantitative Measures

- A greater percentage of the workforce is permanent and staff turnover, sickness and vacancies reduce.
- We take less time to appoint staff and improve satisfaction with our induction programme, which leads to improvements in practice.
- A greater percentage of staff have one to one supervision within the month and managers are providing quality direction to social workers
- Our re-referrals and repeat plans decrease, indicating interventions are longer lasting and are likely to have been more successful.
- More staff utilise assessment tools, research and direct work tools to engage with children and families.
- Children are subject to a Child in Need or Child Protection plan for less time, where intervention in their lives is more purposeful.
- Plans are updated in a more timely manner, are reviewed in collaborative forums with families and key professionals and focus on reducing risk.
- We understand where exploitation activity takes place, and can evidence disruption actions are reducing exploitation, with a trajectory of reducing risk over the long term once the baseline is understood.
- Agency, Parent and Child attendance at MACE meetings increase.
- There is a greater proportion of children with a plan of permanence, and who are formally matched to their long-term carer. Where adoption is in children's best interests this takes place as soon as possible.
- The average length of Care Proceedings decreases and there is evidence of purposeful work with front-loaded evidence.
- More children who become looked after do so in a planned way where carers are able to meet their needs from day 1.
- Foster Carer recruitment activity shows a greater number of mainstream fostering assessments are being undertaken, leading to a greater number of mainstream foster carers being approved.
- A greater percentage of Children in Care have had good quality life work and where appropriate have Life Story Books.
- More children leave care safely to return to their families, where appropriate, and a greater percentage of children who cease care do so through Special Guardianship.
- More care leavers have access to adult mental health services should they need to and more children and young people known to SCT can access therapeutic support and in a more timely way.

Qualitative measures

- Staff are routinely providing feedback, which is constructive and positive and results in tangible actions where appropriate.
- More of our work is rated as Good or better in all categories.
- Learning from a range of feedback, including children and families, is used as the basis of continued improvement, and feeds into learning and development.
- Children's voice is more evident in planning for them, more children attend meetings and have a say in decisions made on their behalf.
- Managers consistently demonstrate their day to day support and direction to ensure the work we do with children is purposeful and appropriate.
- There is an IRO / CP Conference chair footprint evident and Dispute resolution is used proportionately, ensuring that intervention for children is not delayed.
- Private fostering arrangements are better known and are assessed as safe for children.
- Children placed in interim approved placements are safeguarded, and allegations are handled in a timely and robust way.

Sandwell Children's Trust Children Services and Education Scrutiny Board

23 August 2021

Emma Taylor – Chief Executive
Tara Malik- director of Resources

Introduction

- Context
- Update on our progress over the past 12 months (Annual Review) - key highlights
- Impact and Response to Covid
- The future – our ethos, our six strategic priorities (Transformation Programme) and continued drive to deliver practice improvement across all of our services

Context: Trust to date- brief overview

- Full inspection in 2017- Inadequate
- 15 visits / inspections from our regulators
- Assurance visit- 3rd March 2021
- Fostering Regulatory Inspection July 2021
- Full inspection expected in late 2021/ early 2022

Annual Review 2020/21 – Looking back over the last year

Key areas of focus 2020-21

- Managing Covid- crisis response
- Working differently
- Keeping children safe
- Workforce- stability and well-being
- Partnerships
- Preparing for full inspection
- Addressing key areas where practice weakest
- Covid recovery

Our People

- '12 Reasons' to work in Sandwell- recruitment and retention of frontline workers
- Pandemic- further impacted on staffing- shielding, self-isolating, caring responsibilities
- Overall- noticeable reduction in permanent and agency staff – national, regional, local challenges
April 2020 and 31 March 2021
 - SW permanent headcount has increased by 5.29 to 140.23 (v establishment total of 222.5)
 - SW agency headcount has decreased by 22.8 to 47.2 (21% of actual)
- Care management-impacted hardest- range of factors- number of decisive actions taken
 - Strengthened leadership capacity
 - Re-establishment of the Peripatetic team from across the Trust (13 SWs and 4 non-qualified)
 - Creation of a Brief Intervention Team (1 Team Manager and 7 SWs)
 - Covid funding of £500k secured to recruit an additional 6 Managers, 6 Social Care Assistants and 6 Business Support to increase the support provided to social work activity
- Noticeable increase in stability within other service areas

Our Practice- some key headlines

- Continued visits to children- virtual and face to face increasing incrementally
- Practice quality- evidenced via audits- 83% Requires Improvement
- Steady performance against the contract KPIs in most areas
- 85-90% assessments completed on time (better than our comparators)
- Initial Child Protection Conferences timeliness- consistently high
- Short and long term placement stability continues to improve
- Key issues- permanency planning; Care proceedings; Pathway Plans & Personal Education Plans completion rates

Our Practice – Ofsted Assurance Visit

Positives:

- No child found to be at risk of harm
- Good response to the pandemic – children and staff well supported
- Evidence of good work and practice in each service
- Good quality audits and moderation with a positive audit framework
- Good work from education services and schools
- Leadership – we know ourselves well

Areas for improvement

- Child protection planning and intervention
- Pre-proceedings and court work; permanency for children
- Oversight and identification of issues and action to resolve them
- Children's emotional wellbeing and available help for our care leavers

Response to Covid & Financial Impact

Our Response to Covid

- Continuous evaluation, including external oversight- Improvement Adviser, DfE
- Children at the heart of everything in spite of the challenges
- Sandwell has been amongst the areas 'hardest hit'- personal impact on staff
- Leadership approach to manage emerging situations- business continuity plans and clear communication through the Trust – staff safety and children safety our priority
- Despite challenges- face-to-face visits a starting point for all our children, early identification and regular review of our most vulnerable

Financial Impact - Covid Expenditure

Summary

Page 93

	2020/21 Full Year	2021/22 Q1 only
	£'000	£'000
Staffing Costs	227	293
Placement Costs	1,323	191
Overheads	370	30
Total Funding Received	<hr/> 1,920	<hr/> 514

Financial Impact – Summary

Staffing

- 2020/21 – additional capacity to cover Trust staff who were self isolating / unable to work
- 2021/22 – additional capacity to support Care Management

Placements

- 2020/21 – to manage increased demand from children needing to be in our care or for whom step down to lower cost alternatives was delayed
- Increased IILA payments in line with the increase in Universal Credit
- 2021/22 – managing demand & increased costs from providers due to Covid . Also shortage of suitable available placements, eg foster carers unable to care due to Covid risk.

Overheads

- 2020/21 – PPE and hand sanitisers for all staff ; technology to enable staff to work remotely
- 2021/22 – Continued IT costs to allow phased transition back to office working incorporating socially distanced working, additional cleaning, hybrid meetings, larger meeting rooms

Focus on the Future

Transformation Programme

Underpinned by our ethos

Six Strategic Priorities

Priority 1 (P1)

People

Priority 2 (P2)

Practice

Priority 3 (P3)

Partnership

Priority 4 (P4)

Prevention

Priority 5 (P5)

Meeting Need
& Measuring
progress

Priority 6 (P6)

Striving for
Excellence

Improvement Plan – Overview

People and Practice

- Strengthen staff recruitment, retention and career development of, including wellbeing
- Assessments and plans, including permanence planning
- Management oversight, IRO challenge and resolution
- Strengthen services for children in care and care leavers- emotional health and wellbeing

Partnerships and Prevention

- Early help and prevention- every level- right interventions at the right point

Meeting Need and Measuring Impact

- The 'value of care'- right plan for child as well as 'value for money'

Striving for excellence

- Transforming the future
- Embracing flexible working
- Culture of creativity, continuous learning and improvement

Opportunity for Discussion

LJR 1008

Report to CHILDREN'S SERVICES AND EDUCATION SCRUTINY BOARD

23 August 2021

Subject:	Adoption@Heart Annual Report 2020/2021
Director:	Executive Director of Children's Services, Lesley Hagger
Contact Officer:	<p>Lesley Hagger, Executive Director of Children's Services Lesley_hagger@sandwell.gov.uk</p> <p>Mandip S. Chahal, Senior Commissioning Manager for Statutory Services Mandip1_chahal@sandwell.gov.uk</p>

1 Recommendations

- 1.1 Receives the Adoption@Heart Annual Report 2020/21;
- 1.2 Considers the performance of the second year of the Regional Adoption Agency (RAA) and provides summary feedback to the next meeting of the Corporate Parenting Board.

2 Reasons for Recommendations

- 2.1 At its meeting on 7 January 2019 it was agreed that the performance of the new arrangement for Adoption@Heart the Regional Adoption Agency would be reported to and scrutinised by the Children's Services and Education Corporate Parenting Board.
- 2.2 Adoption@Heart has been operational since 1 April 2019 and a performance report was presented to the Scrutiny Board in November 2020 covering the first year of operation

2 1.3 The second full year of performance is now set out in Adoption@Heart's Annual Report 2020/21.

3 How does this deliver objectives of the Corporate Plan?

	<p>Best start in life for children and young people</p> <p>Ensuring that children have the Best Start in Life is a key driver for Adoption@Heart; ensuring that children are safeguarded, protected and, when unable to live with their parents, are effectively cared for.</p> <p>High quality adoption services improve the life chances of vulnerable children and young people and ensure that all children are offered an equality of opportunity in the way that they are matched with an adoptive family. Adoption offers children a new start in life.</p>
---	--

4 Context and Key Issues

- 4.1 The provision of an adoption service is a statutory requirement and the council is required to monitor the provision of adoption services. The government agreed that all local authorities (LAs) would be expected to deliver their adoption services through an RAA by 2020 and funding was provided by the Department for Education (DfE) to cover the costs of setting up these new arrangements.
- 4.2 On 12 December 2018, Sandwell Council's Cabinet gave approval to transfer adoption services to the new Regional Adoption Agency: Adoption@Heart. These arrangements were considered by the Scrutiny Committee at its meeting on 7 January 2019 when it was also agreed that the Scrutiny Committee would undertake the role to scrutinise these arrangements and report its findings to the Corporate Parenting Board, which is chaired by the Lead Member for Best Start in Life.

- 4.3 The RAA for the Black Country local authorities is called Adoption@Heart. The arrangement is a 'hosted' model, whereby the adoption service is hosted by Wolverhampton City Council on behalf of the four Black County local authorities and commissioned on their behalf via Dudley Council. Contractual arrangements are in place for all partners. The adoption service has an operational interface with each local authority children's service; in Sandwell, this is Sandwell Children's Trust.
- 4.4 Adoption@Heart has now been operating for just over 2 years. The number of children adopted in the 12-month period 2020/21 has increased by 25% on the previous year performance.
- 4.5 In the first year of operation, forty one percent of children placed were from Sandwell and consequently numbers placed for the other three partners were considerably lower. This was because more Sandwell children were waiting on Placement Orders at the point the service became operational. In 2020/21 this has levelled out with twenty-eight percent of children placed being from Sandwell.
- 4.6 Key areas of focus for the second year, as set out in the Annual Report, have been on adoption support, early permanence in placing children, adopter recruitment, and increasing adopter engagement and consultation.
- 4.7 Panels have approved 69 Adopters and matched 124 children in the year 2020/21.
- 4.8 Adoption@Heart has adapted well to the challenges imposed by the pandemic and has continued to perform well, this is shown in the performance data contained in the annual review.

5 Alternative Options

- 5.1 The provision of an adoption service is a statutory requirement and the council is required to monitor the provision of adoption services. The

government agreed that all local authorities (LAs) would be expected to deliver their adoption services through an RAA by 2020.

6 Implications

Resources:	At the inception of the Regional Adoption Agency, the financial contributions were based on the budgets already in existence in the four individual local authorities. Sandwell's budget for 2019/20 was £1.22m, which equates to 24.4% of the budget. The budget has remained the same in 2020/21. This is monitored quarterly by the Strategic Commissioning Board.
Legal and Governance:	<p>A contract is in place between the four Black Country local authorities to commission Adoption@Heart, and the organisation is hosted by Wolverhampton Council. A Strategic Commissioning Board meets on a quarterly basis to monitor the contract. The commissioning process is managed via Dudley Council. The Strategic Commissioning Board is chaired by Sandwell Council.</p> <p>An Operational Board meets monthly to ensure high quality oversight of the operational business. A further meeting is also in place to ensure the successful interface between Adoption@Heart business and the social care practice in each local authority/Trust.</p> <p>Annual scrutiny and assurance is provided in Sandwell via the Children's Services and Education Scrutiny Board, which then makes its comments available to the Corporate Parenting Board. In Dudley, Walsall and Wolverhampton, the scrutiny and assurance process takes place within the Corporate Parenting Board meeting.</p>
Risk:	The corporate risk management strategy has been complied with and has concluded that there are no significant risks that require reporting and that suitable measures are in place to mitigate the risks identified to acceptable levels.
Equality:	An Equality Impact Assessment screening is not required for this report. However, Adoption@Heart undertakes its

	own equality impact assessments. Ensuring that diversity and equality has a prominent focus is a key feature of the RAAs work
Health and Wellbeing:	The impact of COVID-19 on the performance of Adoption@Heart are set out in the Annual Report. It will be important to continue to monitor the impact via the Strategic Commissioning Board
Social Value	Adoption@Heart supports children to achieve, feel safe, be supported and access opportunities. Adoption@Heart supports community resilience through the recruitment of local residents as adopters

7. Appendices

Adoption@Heart Annual Report 2020/21

8. Background Papers

Cabinet report -12 December 2018

Scrutiny reports – 7 January 2019, 11 November 2019, 19 November 2020

This page is intentionally left blank

Report title: **Adoption Service Report**

01 April 2020 to 31 March 2021

Date of report: 2 August 2021

To: **Sandwell Council**

Produced by: Mark Tobin
Head of Service

Service: Adoption@Heart

1. Introduction and Purpose of the Report

This report fulfils the obligations in Adoption National Minimum Standards (2011) and Adoption Service Statutory Guidance (2011) Adoption and Children Act 2002, to report to the “executive side” of the local authority. This has guided the structure and information set out in the report below.

The report jointly covers the full year 2020/21.

It is important to note that data and information within this report is accurate as of 31 March 2021.

Adoption@Heart is a Regional Adoption Agency, providing adoption services on behalf of Sandwell, Dudley, Walsall and Wolverhampton Councils. The service is hosted by Wolverhampton City Council and became operational 1 April 2019.

2. Number, type and age of children waiting for adoption and length of time waiting

As at 31 March 2021:

There were 30 children subject to placement orders, but not yet placed for adoption. 3 had already had a change of plan away from adoption and for 7 their foster carer was in the process of being considered to adopt them therefore family finding was on hold. A further 3 children were linked to adoptive parents and awaiting matching panel with a view to being placed.

The remaining 17 were the subject of active family finding,

Of these 17 children 13 were part of the same sibling group and the timescales these children had been waiting since their placement order was granted are set out below.

Less than 3 months:	8
Between 3 and 6 months:	0
Between 6 and 12 months:	3
Between 12 and 24 months:	6
Children waiting over 2 years:	0

2.1 Children Made Subject to Placement Orders:

Full year 2020/21 As at 30 September 2020

Apr	May	June	July	Aug	Sep
0	2	2	6	0	1

Oct	Nov	Dec	Jan	Feb	March	Total
5	1	3	0	5	4	29

2.2 Children Subject to Should be Placed for Adoption (SHOBPA) decisions:

As at 31 March 2021 there were 30 children with the decision to be placed for adoption (SHOBPA), but not yet subject to a placement order.

2.3 Number of Children who had a SHOBPA during the period:

For the full year 2020/21

Apr	May	June	July	Aug	Sep
2	1	5	1	1	3

Oct	Nov	Dec	Jan	Feb	March	Total
2	3	0	3	2	4	27

2.4 The Number of Children who had a Change of Plan in the Period:

There were 5 children subject to a change of plan away from adoption during the 12 month period to 31 March 2021.

2.5 Number of Children Placed for Adoption during the period:

For 12 months to 31 March 2021:

Apr	May	June	July	Aug	Sep
1	5	6	3	5	2

Oct	Nov	Dec	Jan	Feb	March	Total in year
2	4	2	2	3	0	35

Children Placed in Previous Years:

Financial Year:	17/18	18/19	19/20
Children Placed:	35	36	41

3. Number of Children Adopted

The number of children legally adopted by their adoptive parents in the full year 2020/21 was 35

Number of children adopted in the three previous years is below:

Page 4 of 18

Adoption Service Report
01 April 2020 to 31 March 2021

Financial Year:	17/18	18/19	19/20
Children Adopted:	35	36	31

Due to the time delay in a child being placed and adopted, court delays caused by Covid-19 and the impact on the courts, will be a contributory factor in delaying the adoption of children placed. The numbers of children leaving care nationally via adoption has reduced continuously since 2017. Despite this numbers of children placed by Sandwell for adoption along with the number adopted have remained consistent over a four year period. Numbers of S

Adoption Scorecard Performance:

In 2014, as part of its' Adoption Reform Agenda, the government introduced Adoption Scorecards to track local authority performance and to tackle delay in the adoption system. Scorecards are produced for a 3-year rolling average, with the latest data being published for April 2018 - March 2019 (Published April 2020).

The current indicators are:

A10 – number of days between a child entering care and moving in with their adoptive family. The current threshold is 426 days.

A2 – the number of days between receiving court authority to place a child for adoption and the Agency decision about a match to an adoptive family. The current threshold is 121 days.

A10: Average time (in days) between a child entering care and moving in with its adoptive family adjusted for foster care adoptions:				
2019 average days: 420	2019 England average: 363	Average time in 2019 was longer than in 2018	2016-19 average days: 407	2016-19 England average: 376

A10: Average time (in days) between a child entering care and moving in with its adoptive family adjusted for foster care adoptions:

2019:		2016-19:	
LA average days:	Stats neighbours average:	LA average days:	Stats neighbours average:
420	423	407	440

A10: Single year and three year average performance are within threshold but above England average

A2: Average time (in days) between a local authority receiving court authority to place a child and the local authority deciding on a match to an adoptive family:

2019 average days: 233	2019 England average: 170	Average time in 2019 was shorter than in 2018	2016-19 average days: 227	2016-19 England average: 178
----------------------------------	-------------------------------------	---	-------------------------------------	--

A2: Average time (in days) between a local authority receiving court authority to place a child and the local authority deciding on a match to an adoptive family:

2019:		2016-19:	
LA average days:	Stats neighbours average:	LA average days:	Stats neighbours average:
233	222	227	236

A2 performance for both single year and three year average is significantly above threshold and national average, evidencing a delay from the point of obtaining a legal order to matching children with adopters.

3.1 Early Permanency

There were 6 Sandwell children placed in early permanence placements via Foster for Adopt.

4. Recruitment of Adopters

4.1 New Enquiries:

For the period from 1st April 2020 to 31st March 2021, 638 new enquiries were received by the Adoption@Heart Recruitment Team.

This is in comparison to 349 enquiries received last year.

4.2 Information Events:

157 attendance at information events and 52 phone consultations (mix of single and joint applicants).

4.3 Registrations of Interest:

The number of Registrations of Interest to adopt received were as below:

Full year 2019/20	64
Full year 2020/21	117

4.4 Adopter Approvals:

The service approved 69 adopters in the full year, an increase of 19 over the 50 approved in 2019/20.

5. Marketing Report

Between 1st April 2020 and 31 March 2021 there were:

- 638 enquiries
- 52 phone consultations and 157 virtual information events attended
- 23,169 website visits, made up of 17,938 unique visits
- 442 Twitter followers
- 2,133 Facebook likes

Marketing brief:

Due to the Covid-19 pandemic, a lot of marketing activities, including the Adoption@Heart one year anniversary campaign, had to be put on hold. However, a summer campaign took place across July and August, which featured a digital campaign with The Metro, a Free Radio Black Country campaign across 4 weeks and a series of blog posts from Adoption@Heart social workers detailing their working week from home. A myth busting social media campaign took place across Facebook.

Face-to-face information events were put on hold and Adoption@Heart changed the format of these and delivered them virtually instead. Virtual information events were launched in June

and attendance has been higher than previously. During October, the first event took place where adopters appeared on camera, alongside Social Workers. This format has been much more engaging, enabling adopters to interact with the agency and have their questions answered.

Regular meetings have taken place with the Communications Leads for the four partner agencies. The meetings are used to discuss marketing activity, how the other communications leads have been supporting Adoption@Heart, utilising the knowledge of their areas and resources, what support is needed and how the partnership can work going forward.

LGBT+ adoption and fostering week took place in March 2021. Adoption@Heart had support from LGBT+ adopters to share their stories across multiple platforms, including video, social media, blog posts, news articles and radio interviews. A video shared online featuring Jen and Lisa has currently been viewed over 6,000 times and has reached 14,400 people.

Whilst the national You Can Adopt campaign took place between September and December 2020 (and aimed to bust myths around who is eligible to adopt, as well as exploring what the adoption process involves), the service continues to use its own material provided by the campaign for marketing activity. Content is regularly shared via social media, to ensure the campaigns key messages are highlighted within recruitment activity, as well as across the partner agencies.

A national siblings group campaign commenced in April 2021. The campaign will continue to empower potential adopters with the confidence that #YouCanAdopt instils. The campaign focused on sibling groups and was driven by the latest data and by concerns about the number of sibling groups still waiting to be adopted. As well as this, the campaign also continued community engagement work, to target prospective adopters from Black, Asian and Ethnic Minority backgrounds.

Sadly, an Adoption@Heart approved adopter lost her life due to Covid-19 early 2021. Her husband wanted to honour his wife by offering a charitable contribution in her name to an adoption agency and Adoption@Heart worked closely with Adoption Focus (VAA) on a joint campaign. This attracted television and radio coverage in the West Midlands and aimed to promote greater awareness of adoption within Black, Asian and Minority Ethnic communities.

6. Requirements on the Preparation of Adoption Report Regulations

6.1 Complaints:

There have been two formal complaints about the service since 1 April 2019.

One of these was from adopters in stage one of the recruitment process, where a decision was made by the agency not to progress their application. Their complaint related to this decision

and delays in communicating this in a timely way. The complaint was partly upheld due to the delay, but the decision not to invite to stage two was not changed. Learning has been identified and discussed with the relevant staff.

A second formal complaint was received in the previous year from an individual who made an enquiry to adopt but was not invited to proceed to registration of interest, due to significant vulnerabilities identified at initial visit. A meeting took place between this individual and the Head of Service in Autumn 2019, however, the complaint escalated to stage two and was referred to the Local Government Ombudsman. The LGO found that there had been fault on the part of service for undertaking initial assessment work with the individual prior to inviting her to formally register her interest to adopt. No fault was found with the decision not to progress the applicant into stage 1 of the assessment process or any aspect relating to the grounds for that decision.

Practice in the adopter sector widely is not in line with statutory guidance in this area. Most adoption agencies take the view that it would be poor use of resources and misleading to potential adopters not to undertake an initial consideration of their circumstances and suitability. In order to effectively meet the needs of children in need of adoptive families, the adoption agency must focus its resources strategically, in assessing those individuals most likely to become approved adopters. Adoption@Heart's practice reflects common and best practice in the sector. The Head of Service has been working closely with the DfE in relation to the difference between best practice and the Statutory Guidance.

Despite this, the Council accepts that it should have been made clear to the complainant that she was entitled within the statutory guidance to submit a Registration of Interest to agency, albeit, the outcome of this process would not have been any different in relation to the outcome for the applicant. A small change has been made to the agency's procedure in relation to terminology and information given to potential adopters at this stage of the process.

The LGO have indicated that they intend to issue a Public Interest Report on this matter in July 2021. The report will highlight the fault found against Adoption@Heart, whilst also highlighting the wider issue about practice in the sector and the statutory guidance. Full communication with Directors in each Local Authority has taken place.

6.2 Staffing:

The service employs 32 qualified Social Workers on a permanent basis, along with six agency Social Workers, who are providing additional capacity due to vacant posts, sickness, maternity leave and additional demand created by Covid-19. Two agency Social Workers have been funded by the partner agencies for twelve months, to provide additional family finding capacity.

There are three Team Managers, with one each covering the thematic service areas. One of these posts (Family Finding) was vacant until September 2020, but a seconded Manager in that role was permanently appointed in quarter three. The panel team have two Panel Advisors along with a Panel Co-ordinator and three Panel Administrators, one of which is currently vacant.

Management capacity has been increased with the addition of a Service Manager, funded within existing budget. This role was in the process of recruitment at year end and subsequently, recruited to on an interim basis, pending a permanent appointment.

The Business Support Team have an additional post of Senior Business Support Officer, which has been created and recruited to in the year.

Vacancy rates have remained low since the service went live and despite Covid-19, sickness and absence rates have been minimal during the full year period of 2020/21.

6.3 Referrals to the Independent Review Mechanism (IRM):

There have been no referrals to the IRM in either period.

7. Development of Adoption@Heart

7.1 Practice Development:

Since February 2020, a programme of Practice Development Work has addressed the developmental needs of the service. From this work additional practice guidance has been developed and agreed across the partnership.

Adoption Support:

Increasing the range of services available to adopters with in the adoption support offer for the region, as well as improved services for adopted adults.

Early Permanence in placing children:

Raising awareness and knowledge about early permanence and embedding the early permanence policy, practice and delivery in house and across partner organisations, through opportunities for training and development, to ensure that knowledge is up to date and is widely shared.

Increasing adopter engagement and consultation:

To influence service delivery through the development of an Adoption Advisory Board. Adopter Voice is commissioned to support A@H with this work. Increased communication with adopters through their journey by the development adopter database and a plan of regular communication.

7.2 Family Finding Activity:

The tables below contain the total numbers of children placed by the service during the year 2020/21.

1 April 2020 to 31 March 2021 – Children placed in year:

LA/ Trust	In House	Interagency	Total placed
Sandwell	11	24	35
Wolverhampton	14	24	38
Walsall	20	17	37
Dudley	10	4	14
Total	55	69	124

For comparative purposes, the performance of each LA / Trust in placing children is in the table. 35 Sandwell children were placed with adoptive parents in the year.

Early Permanence:

In the full year 2019/20, five children were placed via Foster for Adoption.

As per the table below, 26 children have been placed via Foster for Adoption in the full year 2020/21, six of these were Sandwell children.

1 April 2020 to 31 March 2021 – Children placed via Foster for Adoption in year:

LA/ Trust	In House	Interagency	Total
Sandwell	3	3	6
Wolverhampton	4	5	9
Walsall	5	1	6
Dudley	3	2	5
Total	15	11	26

Inter-agency usage for children placed via Foster for Adopt regulations is 42 percent.

Analysis:

The overall number of children placed in the year 2020/21 has increased pro rata by over twenty percent, compared with the previous year performance, despite the impact of Covid-19 on children's transitions.

In the first year of operation, forty one percent of children placed were from Sandwell and consequently numbers placed for the other three partners were considerably lower. This was due to the fact that more Sandwell children were waiting on Placement Orders at the point the service became operational. In the full year 2020/21 the distribution of placements across the partnership is more even with Walsall and Wolverhampton having more placements than Sandwell but very similar performance. This has levelled out with thirty three percent of children placed being from Sandwell.

The number of children placed by Dudley is lower than in the previous year and this should be seen in the context of the numbers of children with adoption plans and SHOBPA decision (sections 2.3 and 2.5 of this report).

Inter-agency usage has remained high during the year at fifty six percent of children placed externally across the partnership as a whole. It is positive that only twenty eight percent of Dudley children were placed with inter-agency adopters. The increased numbers of adopters entering the process in the same period would indicate that the number placed in house should increase, as these adopters become approved during quarters three and four of the current year.

Foster for Adopt usage has significantly increased during the full year. This increase is the result of development work done within the service and across the partnership.

7.3 Adoption Panels:

Adoption Panels met were held on fifty occasions during 2020-2021. There are at least four panels a month for adoption matters to be heard. There is also flexibility within the panel system, allowing for extra and special panels to be arranged in order to enable additional cases and emergency matters to be heard, as and when directed by the courts. The service aims to avoid delay for children and ensures matters are dealt with in a timely manner.

The service has three adoption panel chairs, due to one chair leaving during the year. A fourth chair is in the process of being recruited. The three chairs in post are those who were transferred to the service in 2019.

The Agency Decision Makers from Wolverhampton make all the decisions regarding the suitability for approval of all prospective adopters. The SHOBPA decisions remain in the three Local Authorities and the Trust. Agency Decision Makers are very flexible with regard to early decisions with regard to matches, in order to enable transitions that work best for the child, for example using school holidays.

Panels have made positive recommendations on sixty-nine adopter approvals and one hundred and twenty-four matches in the period. All recommendations made by panel have been positive and all have been supported by the ADM.

Panel continues to be supported by a very committed group of staff. There are 1.5 Panel Advisors, 1 part time Panel Co-ordinator and 2 full time equivalent Panel Administrators.

Panel continues to offer individual feedback to Social Workers, regarding quality of the paperwork and to the Local Authorities and the Trust, regarding delay for children. Panel are also open to constructive observations regarding their performance.

Feedback is also sought from adopters attending panel, which this is largely positive and includes comments such as 'panel were warm & welcoming' 'panel members put us at ease'.

In April 2020 Covid-19 restrictions led to the need for panels to be run virtually, rather than face to face. Despite initial challenges in moving to this new way of working, the panel team and Chairs worked effectively together, in ensuring panels were able to run smoothly via Microsoft Teams. Consideration is currently being given to the benefits of the virtual panel system and to what extent the system might remain virtual, once restrictions are lifted. There have been clear benefits regarding adopter attendance and reducing regional travel for professionals.

7.4 Partnership Working:

Considerable progress was made during the year in strengthening engagement and communication across the partnership. This has improved the interface between the service and partners and improved understanding of roles and responsibilities between the service and Local Authority partners.

Practice workshops were held in all partner services during the year and specific training was delivered in relation to the quality of Child Permanence Reports.

Adoption@Heart managers are attending key meetings relating to children's care planning and tracking.

Virtual working has improved engagement and communication, due to reduction in travel and impact on time.

The establishment of an Operations Group has improved operational communication at Head of Service and Service Manager level.

A partnership event took place in November 2020 with a focus on key areas of practice and strengthening communication and engagement within the partnership. Over one hundred and twenty staff attended and a further partnership event is planned in June 2021.

8. Adoption Support

Adoption@Heart's Adoption Support Team model changed during 2020/21, subsequently, recruitment, assessment, linking and support to adopters pre order, remain in the Recruitment and Assessment Team, this offers ongoing support by a worker known to adopters and is common practice across the sector.

As a result of this model change the Adoption Support Team now specialises in all key provision of post adoption support, and now supports families pre and post order. The team also commissions therapeutic services via applications to the Adoption Support Fund, plus post adoption contact, access to records and birth parent support.

It is recognised that early life adversity impacts children developmentally, emotionally, cognitively and socially and requires therapeutic support in order for children to thrive. Adoption@Heart operates a graduated approach, offering universal access to an adoption training programme and support groups delivered by staff; enhanced support includes an assessment of need and parenting support, individually or in groups and targeted support includes commissioning of specialist therapeutic intervention. We utilise the service of an Adoption Support Therapist employed by Adoption@Heart, as well as commissioning private and independent therapeutic services.

The number of adoptive families seeking adoption support continues to rise and this presents a challenge for the service. Additionally, families require support over a sustained period, and we continue to support a significant number of legacy cases transferred at the time of the launch of the RAA in 2019.

The type of support requested by adoptive families differ with support relating to emotional health and wellbeing, to help the child to develop more positive behaviours, improve family life and relationships and parents and carers to develop skills in therapeutic parenting; to help the family bond together; to help the child's engagement with learning and to address child to parent violence.

The Adoption Support Fund was established in 2015 by the Government to help adoptive families access support and settle into their new lives following adoption. The Government committed ongoing funding for 2020-21 financial year in advance of the spending review settlement.

300 ASF applications were made by the service during April 2020 - March 2021, this is an increase in applications.

The table below identifies that adolescence can be a particularly challenging time for adoptive families and we see the largest cohort of families accessing adoption support with children aged 13-19 years old. Young people are likely to face challenges relating to identity and self-concept, attachment and security and we are experiencing unsolicited contact by adoptees or birth parents which have the potential to destabilise adoptive families.

Covid 19 Adoption Support:

The DfE allocated £8 million from the Adoption Support Fund for adoptive families to meet needs arising from the coronavirus outbreak, we used our share of funding to pay for therapies to help adoptive families, including online counselling and couples therapy, virtual peer-to-peer support, plus specialist webinars through The Adopter Hub and National Association of Therapeutic Parents.

Post Adoption Contact:

Adoption@Heart is responsible for post adoption contact arrangements on behalf of Sandwell Council. There are three full-time Family Support Workers who are responsible for administering the service. They offer support to adoptive parents and birth relatives. The service has continued remotely during Covid 19, albeit there has been delay in the exchanges at this time as access to post is limited to once a week.

Access to Records:

The provision of birth records counselling and access to information is of vital importance in enabling adopted adults to understand the circumstances of their adoption and enhance their sense of identity.

Future Developments:

Practice development work, as below, is currently being undertaken with a view to improving the support offer to adoptive families in the region.

- Review and transformation of the planning and management of Adoption contact
- Development of a multi-agency, multi-professional service delivery model with Child and Adolescent Mental Health Services and Virtual Schools
- Regional Approach to offering support to birth parents at risk from repeat removals
- Regional commissioning framework for ASF providers
- Development of Psychological and therapeutic services
- Transracial Training
- Closer working with MASH to support understanding about the impact of trauma in adoptive families.
- Transitional support for older aged adoptees

9. Accountability

Management board:

The service has continued to have in place two key layers of governance with a Management Board attended by Assistant Directors and a Strategic Commissioning Board attended by Directors of Children's Service.

The Strategic Commissioning Board has continued to meet quarterly, supported by the commissioning lead from Dudley. The Chairing of this board has remained with Sandwell during the year 2020/21.

In May 2020 an Operations Group was established, with a view to increasing engagement, oversight and operational involvement of Heads of Service and other managers from each partners service. This group has continued to meet monthly, chaired by the Head of Service for Adoption@Heart. Consequently, the Management Board has met bi-monthly, given part of its function is now delegated to this group. Management Board is chaired by the Deputy Director for Children's Social Care in Wolverhampton, as host Local Authority for Adoption@Heart.

Report completed by:

Mark Tobin
Head of Service

Service Update

- Service now established for over two years
- Clear Service Identity / Aim & Vision
- Improved partnership / engagement
- Stable Workforce (very low staff turnover)
- Adopter sufficiency performance improving
- Twenty four percent increase in children placed in year two.
- Adoption Support reaching adopters based on targeted assessments of need
- Part of National RAA development work

Performance – Children

- 35 Sandwell children placed in 12 months (124 total for partnership)
- 41/36/35 Sandwell children placed previous 3 years. (Overall 100 in 19/20)
- Increased Early Permanence usage (26 - 2020/21) (6 Sandwell)
- At 31 March 2021 30 children with legal order to be placed for adoption (17 in active family finding). 23 at 31 March 2020 with 20 in active family finding.
- Inter- agency usage at 56 percent (2019/20) (70 percent Sandwell)
- 35 children adopted in year 2020/21. 31/36/35 previous 3 years
- Scorecard Timeliness: Full year 2019/20 :
 - A10 within threshold at 420 (426). Single year. 3 year average also within.
 - A20 outside threshold at 233 (121) single year. 3 year average also outside.
- No significant reduction in SHOBPA numbers in Sandwell or the region (Sandwell 27 in year / 31 previous year)

Performance – Adopters

- 51 adopters approved in the first year - 2019/20
- 69 adopters approved 2020/21
- Increased enquiries and interest in adopting during Covid 19, but low conversion rates.
- Service priority - reduced inter-agency usage in 2021/22
- 31 percent increase in Registrations of Interest in year 2
- Regional Marketing & Communications strategy in place
- Joint engagement between communications teams regionally
- National recruitment campaign – You Can Adopt

Report to Children's Services and Education Scrutiny Board

Monday 23 August 2021

Subject:	Pandemic response and impact on children
Director:	Executive Director of Children's Services Lesley Hagger
Contact Officer:	Executive Director of Children's Services Lesley Hagger lesley_hagger@sandwell.gov.uk

1 Recommendation

- 1.1 That the Children's Services and Education Scrutiny Board consider and comment on the Pandemic response and impact on children presentation – using it as a baseline for the Scrutiny Review into the impact of the lockdown on children and families.

2 Context and Key Issue

- 2.1 The Children's Services and Education Scrutiny Board will receive a presentation which provides an up to date position on the recovery activity across children's services and education functions response to the pandemic over the past 18 months.

3 How does this deliver objectives of the Corporate Plan?

	Best start in life for children and young people	Recovering from the COVID-19 pandemic with our communities, stakeholders and partners will have a positive impact on all ambitions contained in the Vision.
	People live well and age well	
	Strong resilient communities	
	Quality homes in thriving neighbourhoods	
	A strong and inclusive economy	
	A connected and accessible Sandwell	

Executive Director Children's Services – Lesley Hagger

Children's Services and Education Scrutiny Board

23rd August 2021

Pandemic response and impact on children –
consolidated (April 2020-August 2021)

Overview

- Excellent engagement between early years providers, schools/academies, Sandwell College and the local authority regarding:
Risk assessments, PPE provision, information and advice, self-isolation, remote learning arrangements, attendance, funding, staff wellbeing, managing CEV, Xmas closure dates, Free School Meal arrangements during school holidays, INSET arrangements, Lateral Flow Testing and contact tracing requirements, information for parents, liaison with unions.
- Services have continued to operate throughout the pandemic including social care services, education psychologists, inclusive learning services, admissions and appeals, school improvement, virtual school, Connexions, children's centres, and a daily detached youth work programme in each town. All services continued to be very busy. Many staff volunteered to assist other response functions including the daily early morning schools' support helpline. Absence has been low; staff who were self-isolating generally continuing to work.
- Additional resources have been put in place for services to support emotional health and wellbeing, domestic abuse, internet safety training for parents and school staff, family support, Supporting Families Against Youth Crime programme, Free School Meals provision during school holidays and 1800+ IT devices for vulnerable children who haven't accessed DfE devices.
- The council has enabled Sandwell Children's Trust to access its various Covid grants to support increased costs and has fast-tracked agile IT for social workers.

Overview

- Many services have been innovated during this period and have continued to improve performance, for example, virtual admissions appeals, the school attendance team has developed a Return to School Support Strategy, focusing on welfare and also encouragement to parents/carers that may not be sending vulnerable children to early years provision or school, and Vulnerable Children's Group established.
- Sandwell Council was the winner of the Innovation in Children's Services Award 2020 from the MJ, and finalists for the CYP Now Children in Care Award 2020. The SAFL inspection in October and individual school inspections have recognised successful channel shifts to remote learning. A member of staff won the national NSPCC Award, recognising outstanding practice in the implementation of the Graded Care Profile 2 (Neglect programme), and another member of staff received the MBE in recognition of work in school inclusion for children with SEND.
- Our Corporate Parenting Board has continued to ensure that children in care and care leavers have been effectively supported during the pandemic, and direct engagement with young people has continued via virtual platforms.

Early Years and families

Page 132

- Financial support provided to early learning and childcare providers to ensure the sustainability of their businesses where they continued to be operational for key worker children and vulnerable children, or where occupancy had reduced significantly due to Covid19.
- Children's Centre programmes continued to support families virtually, and then resumed on a 121 basis after the first lockdown.
- More than 7000 households with children accessed the Winter Support Grant which helped with the cost of utilities, food and other essentials.
- Ofsted visits to settings continued.

School Years

STEPS

- 160 home learning packs delivered to International New Arrival children; 950 wellbeing follow-up calls made to check progress and resolve issue (split families, families sofa-surfing, financial and safeguarding)
- Centre opened fully on 8th March 2021

EHE

- 557 end of January half-term;
- EHE Advisory Teacher and team and half-termly newsletters;
- Food (FSM) and supplies.

SCHOOLS

- Schools have remained open in challenging circumstances; Daily letter from director to Easter and then weekly;
- Ofsted visits to schools

Vulnerable Children

- Average of 254 contacts per week since start of pandemic (includes telephone calls, visits and e-mails)
- Average of 357 meals delivered per week
- 1334 Learning Resource Packs delivered
- 751 Newsletters delivered for EHE/CME
- 86 children living in hostels supported with Learning Resource packs & food parcels
- Supported AP Providers to monitor 200 pupils
- Delivery of laptops
- Support for “return to school strategies” September 2020 and March 2021 (see planned surveys / data collection and letters plus www.sandwell.gov.uk/backtoschool.)

Children in Care

PLACES

Page 135

- Closing the gap in recent years, and the rate of progress greater than national – three year upward trend in RWM – specific programmes of intervention
- Guidance issued to social workers and head teachers in March 2020 to establish lines of responsibility/accountability
 - RAG rated children to ensure the most vulnerable were clearly in sight
 - Attendance monitoring and wellbeing calls
 - Work with pre-school children and additional support in Reception
 - Analysis of PEPs to identify gaps in learning and develop targeted responses, plus materials to support learning
 - Recovery planning for transition Yr6 to Yr7
 - Continued close work with head teachers
 - Virtual training sessions for professionals and foster carers
 - Virtual events and activities, including half-term for children and carers

Vulnerable children - impact

Page 136

- Free School Meals eligibility increased by over 27%;
- Significant increase in domestic abuse;
- Impact on children's emotional wellbeing and mental health;
- Impact on learning and achievement;
- Digital exclusion;
- Impact on young people's jobs;
- Increase in demand for education, health and care assessments;
- Increase in significant safeguarding incidents.
- pressures emerging eg SEND assessments

All children - impact

Page 137

- Disrupted formal education
- Home learning in strained environments
- Exams and qualifications
- Jobs and training shortages
- Lack of safe space and trusted support
- Loneliness and isolation – fears about the future
- Online pressure and risk
- Risk of harmful behaviours
- Disrupted family services and psychological support
- Challenging family relationships
- Increase in domestic abuse
- Low personal risk of direct Covid but high long-term social and economic exposure
- Increase in FSM of 17.5% and rising (now 29% of pupils)

COMMUNICATION AND INFORMATION

- Sitrep (including Sandwell Children's Trust), Reset and Recovery Board, Vulnerable Children's Group meetings, SIMT, Vulnerable People Cell meetings
- With partners (education providers, safeguarding partnership)
- Several times weekly with DfE and Ofsted and meetings with Ministers
- Regional and national meetings and actions
- Voices of children, young people and families
- Staff meetings and other support, including staff conferences
- Brexit planning (School admissions, QTS status, Food suppliers, Medicines for children, Planning school trips to the EU, Data protection, Employing staff from the EU, Families in EU Settlement scheme, Children in care and care leavers' status, Cross-border child protection arrangements)

FOCUS FOR NEXT 12 MONTHS

- Page 139
- Catch-up/recovery in education and child development
 - Social care recovery
 - Continued planning for surge response
 - Delivery of emotional health and wellbeing support
 - Managing increased demand for education, health and care assessments
 - Transition to BAU
 - Supporting staff welfare

This page is intentionally left blank

Work Programme 2021/22

Children's Services and Education

Scrutiny Board

Meeting Date	Item	Links with Strategic Aims	Notes
23 August 2021	<p>Sandwell Children's Trust Annual Review</p> <p>Regional Adoption Agency Monitoring Annual Report</p> <p>The impact of the lockdown on Children and Families - Review Scoping</p>		<p>Lesley Hagger (Executive Director for Children's Services)</p> <p>Emma Taylor (CEO of SCT)</p>
15 November 2021	Youth Facilities Review - Update		
10 January 2021	TBC		
21 March 2021	TBC		

Items to be scheduled

- Report on outcome of trial of 16+ provision at the Westminster School and The Meadows.
- SEND – Support, and access to – Feedback from SEND Operational Board and Parent and Carers Board
- Discussion with Cabinet Member for Connected and Accessible Sandwell on options for the replacement of the Youth Bus.
- Elective Home Education Review - Report and Recommendations

Scrutiny Review

The Impact of the lockdown on children and families

The review will look at educational attainment and narrowing the gap, the wider impact on families (increase in FSM) and support and opportunities to address.

The following items set out key decisions to be taken by the Executive in public session:-

Title/Subject		Cabinet Portfolio Area	Decision Date	Pre-decision Scrutiny to be carried out? (Board and date)	List of documents to be considered
1	Sandwell Children's Trust Annual Review 2020/21 and Improvement Plan Contact Officer: Mandip Chahal Director: Lesley Hagger, Executive Director of Children's Services	Best Start in Life (Cllr Simms)	1 September 2021	Scrutiny Board will meet with Sandwell Children's Trust on 23 August 2021	Report Annual Review 2020/21 Report Improvement Plan

Title/Subject		Cabinet Portfolio Area	Decision Date	Pre-decision Scrutiny to be carried out? (Board and date)	List of documents to be considered
2	Sandwell Children's Invest to Save Proposal Contact Officer: Mandip Chahal Director: Lesley Hagger, Executive Director of Children's Services	Best Start in Life (Cllr Simms)	1 September 2021	N/A	Report Invest to Save Proposal from Sandwell Children's Trust

Title/Subject		Cabinet Portfolio Area	Decision Date	Pre-decision Scrutiny to be carried out? (Board and date)	List of documents to be considered
3	Contract for the Supply of Liquid Fuels – Appointment of Contractor Contact Officer: Neil Whitehouse Director: Nicholas Austin – Interim Director of Borough Economy	Connected and Accessible Sandwell (Cllr Taylor)	1 September 2021		
4	Q1 Budget Monitoring 2021/22 Contact Officer: Charlie Davey Director: Rebecca Maher – Acting Director of Finance	Finance, Council Sustainability & Transformation (Cllr Ali)	1 September 2021	No	Report

Title/Subject		Cabinet Portfolio Area	Decision Date	Pre-decision Scrutiny to be carried out? (Board and date)	List of documents to be considered
5	Use of Local Council Tax Support Grant 2021/22 Contact Officer: Sue Knowles Director: Rebecca Maher Acting Director of Finance (Section 151 Officer)	Finance, Council Sustainability & Transformation (Cllr Ali)	1 September 2021	No	Report
6	Consultation on the Future of Walker Grange Contact Officer: Helen Green/Colin Marsh Director: Rashpal Bishop – Director of Adult Social Care	Living and Ageing Well (Cllr Hartwell)	1 September 2021		

Title/Subject		Cabinet Portfolio Area	Decision Date	Pre-decision Scrutiny to be carried out? (Board and date)	List of documents to be considered
7	Schools Capital Programme Contact Officer: Martyn Roberts Director: Lesley Hagger, Director of Children's Services	Best Start in Life (Cllr Simms)	1 September 2021		Report to Cabinet Appraisal Report
8	Black Country Ultra Low Emission Vehicle Strategy Contact Officer: Oliver Ford Director: Tammy Stokes – Interim Director for Regeneration and Growth	Connected and Accessible Sandwell (Cllr Taylor)	1 September 2021		Black Country ULEV Strategy

Title/Subject		Cabinet Portfolio Area	Decision Date	Pre-decision Scrutiny to be carried out? (Board and date)	List of documents to be considered
9	West Midlands E Scooter trials – West Bromwich Trial Zone Contact Officer: Oliver Ford Director: Tammy Stokes – Interim Director for Regeneration and Growth	Connected and Accessible Sandwell (Cllr Taylor)	1 September 2021		
10	Premises 106/107/108 High Street, West Bromwich Contact Officer: Stefan Hemming Director: Tammy Stokes – Interim Director for Regeneration and Growth	Strong and Inclusive Economy (Cllr I Padda)	1 September 2021		

Title/Subject		Cabinet Portfolio Area	Decision Date	Pre-decision Scrutiny to be carried out? (Board and date)	List of documents to be considered
11	Award of a Framework Agreement for the Provision of Tree Maintenance & Arboricultural Services Contact Officer: Jayne Weaver Director: Nicholas Austin – Interim Director of Borough Economy	Strong and Resilient Communities (Cllr Crompton)	1 September 2021	No	Report
12	B2022 Commonwealth Games Live Site Contact Officer: Jane Lillystone/Chris Jones Director: Nicholas Austin – Interim Director of Borough Economy	Strong and Resilient Communities (Cllr Crompton)	29 September 2021	No	Cabinet Report

Title/Subject		Cabinet Portfolio Area	Decision Date	Pre-decision Scrutiny to be carried out? (Board and date)	List of documents to be considered
13	Extension of contract for a non-executive director of Sandwell Children's Trust Board Contact Officer: Mandip Chahal Director: Lesley Hagger, Executive Director of Children's Services	Best Start in Life (Cllr Simms)	29 September 2021	N/A	Report
14	SEND Transport – Future Arrangements Contact Officer: Sue Moore Director: Lesley Hagger, Executive Director of Children's Services	Best Start in Life (Cllr Simms)	29 September 2021	Scrutiny Review
