

Agenda

Audit and Risk Assurance Committee

Tuesday, 28 June 2022 at 6.00 pm
At Council Chamber - Sandwell Council House, Oldbury

This agenda gives notice of items to be considered in private as required by Regulations 5 (4) and (5) of The Local Authorities (Executive Arrangements) (Meetings and Access to Information) (England) Regulations 2012.

1 Apologies for Absence

2 Declarations of Interest

Members to declare any interests in matters to be discussed at the meeting.

3 Minutes 7 - 16

To confirm the minutes of the meeting held on 17th March 2022 as a correct record.

4 Urgent Business

To consider any urgent business.

5 Strategic Risk Register Update Report 17 - 42

To note and comment on the Strategic Risk Register Update Report.

6 **Council Improvement Plan** 43 - 220

To receive the Improvement Plan and the accompanying risk register.

7 **Improvement Plan Risk Register** 221 - 230

To receive a report on the Improvement Plan Risk Register.

Kim Bromley-Derry CBE DL
Managing Director Commissioner
Sandwell Council House
Freeth Street
Oldbury
West Midlands

Distribution

Councillor Preece (Chair)
Councillors Ager, Anandou, Choudhry, L Giles, Hinchliff, Khatun, Melia and
Hussain

Information about meetings in Sandwell

If you are attending the meeting and require assistance to access the venue, please contact Democratic Services (democratic_services@sandwell.gov.uk).

If the fire alarm sounds, please follow the instructions of the officers present and leave the building by the nearest exit.

Only people invited to speak at a meeting may do so. Everyone at the meeting is expected to be respectful and listen to the discussion.

Agendas with reports with exempt information should be treated as private and confidential. It is your responsibility to ensure that any such reports are kept secure. After the meeting confidential papers should be disposed of in a secure way.

This meeting may be recorded and broadcast on the Internet. If this is the case, it will be confirmed at the meeting and further information will be provided.

You are allowed to use devices for the purposes of recording or reporting during the public session of the meeting. When using your devices they must not disrupt the meeting – please ensure they are set to silent.

Members who cannot attend the meeting should submit apologies by contacting Democratic Services (democratic_services@sandwell.gov.uk)

All agenda, reports, minutes for Sandwell Council's meetings, councillor details and more are available from our [website](#)

Minutes of Audit and Risk Assurance Committee

**Thursday 17 March 2022 at 5.00 pm
at Council Chamber, Sandwell Council House**

Present: Councillor M Gill (Chair)
Councillors Akpoteni, Allen, Anandou, Z Hussain and O Jones.
Mr Ager (Independent Member).

Also present: Mark Stocks (Audit Manager - Grant Thornton).

Officers: Simone Hines (Director of Finance), Surjit Tour (Director of Law and Governance and Monitoring Officer), Elaine Newsome (Service Manager – Democracy), Peter Farrow (Audit Services Manager), Narinder Phagura (Business Partner – Audit, Fraud, Risk and Insurance), Oliver Knight (Counter Fraud Lead).

11/22 **Apologies for Absence**

Apologies were received from Independent Member J Hussain.

12/22 **Declarations of Interest**

There were no declarations of interest.

13/22 **Minutes**

The Committee received the minutes of the meeting held on 11 January 2022.

In reference to Minute No. 10/22, members requested that the word “staff” in the first paragraph, be changed to “individuals”.

Members queried the accuracy of Minute No. 9/22. Members were of the view that a recommendation that the Cabinet commission an independent review was missing from the resolution.

The Senior Democratic Services Officer advised that her contemporaneous notes showed that, whilst there was a discussion around such, no specific motion had actually been moved recommending the Cabinet to commission an independent review. In response to a suggestion by the Committee, she also advised that, as the discussion had taken place in private session, there was no recording available to refer to.

The Director of Law and Governance advised that it was the Committee’s role to determine the accuracy of the minutes and the Senior Democratic Services Officer’s notes was the most contemporaneous record available to support the accuracy of the draft minutes now presented.

Resolved that the minutes of the meeting held on 11 January 2022 are approved as a correct record, subject to replacement of the word ‘staff’ with ‘individuals’ in paragraph one of Minute No.10/22.

14/22 **Urgent Business**

The Chair agreed that the matter referred to at Minute No. 23/22, (Update on the Implementation of Resolutions of 18 March 2021 (Audit and Governance Assessment Panel Update)) be considered as an urgent additional item of business.

The Chair felt that the matter was urgent because this was the final scheduled meeting of the 2021/22 municipal year and it was possible that the membership of the Committee could change in 2022/23, so it was important that resolution of outstanding actions could be discussed at this meeting.

External Audit Report – Value for Money Governance Review and Improvement Plan

The Committee noted the contents of the Value for Money Governance Review, issued by Grant Thornton on 3 December 2021. The report contained three statutory recommendations that the Council was legally required to respond to. The Council had therefore received the report at its meeting on 18 January 2022 and approved an Improvement Plan, which set out how the Council would respond to the recommendations (Minute No. 9/22 of the Council refers).

The external auditor noted that, since the publication of the report, the Government had announced that it was considering whether intervention was necessary.

A key concern identified by external auditors was the poor relationship between officers and members. A breakdown of trust had led to a lack of focus on a number of governance issues and an inability to move forward. It was recognised that progress had been made towards resolving matters, particularly since the appointments of the current Interim Chief Executive and the new Leader of the Council. However, it was highlighted that the focus needed to shift from past issues on to embedding sustainable change and service improvement, which would take time.

The Improvement Plan was a living document that mapped out actions that were already in place and new actions to address any emerging gaps. The Council had also recently undergone an LGA Peer Review and a financial management review by the Chartered Institute for Public Finance and Accountancy (CIPFA). The findings of all three reviews would be incorporated into a single improvement plan, which would be reported to this Committee and the Council as appropriate.

If Government decided to intervene, then Grant Thornton would discuss with Government what actions needed to be undertaken and the frequency of monitoring activity.

The Director of Finance reported that a corporate performance management framework was being developed, which would include a comprehensive set of key performance indicators to monitor performance and improvement, and would be reported and monitored through the appropriate committees.

16/22 **External Audit Annual Audit Letter**

The Committee received the annual letter from the Council's external auditors, Grant Thornton, for the financial year ending 31 March 2020.

The letter had only been issued recently due to delays in finalising the 2019/20 financial statements. It set out the issues encountered in finalising the 2019/20 accounts. The external auditors had issued a qualified value for money conclusion, mainly due to uncertain position with regards to Sandwell Children's Trust.

17/22 **Internal Audit Progress Report**

The Committee considered an internal audit progress report, which detailed matters arising from internal audit work undertaken between April 2021 and January 2022 outlining the progress made against the delivery of the 2021/22 Internal Audit Plan.

The Committee noted the audits carried out and the level of assurance given. A number of reviews were still underway and would be reported upon to a future meeting.

Most reviews of key financial systems had resulted in reasonable assurance being given. However, a review of Capital Accounting systems had resulted in no assurance, because of the delay in the finalisation and sign off of the 2020/21 accounts, the Council not yet having received any of the valuations for 2021/22, and with work still being in progress regarding the revaluation of assets, in year disposals and capital spend. Therefore, the planned Capital Accounting review was unable to be undertaken.

It had been noted however, that the Council was at present, looking to procure a new system that would provide a more integrated asset management system that would help to provide relevant information to both Finance and Strategic Asset Management.

The 2021/22 audit of the Council's accounts receivable module had highlighted that that recommendations made in the previous year had still to be fully implemented and this would continue to be monitored.

Members were advised that the Strategic Risk Register was the appropriate place to document risks in relation to the impact of the increase in utility costs, on both council buildings and residents.

18/22 **Internal Audit Plan 2022/23**

The Committee received the Internal Audit Plan for 2022/23 for consideration.

The Plan was based on, amongst other criteria, management's risk priorities, as set out in the Council's own risk analysis/assessment. The plan had been designed to, wherever possible, provide assurance against those areas assessed with the highest need, which determined the frequency of audits. This ensured that key themes and areas were looked at on a frequent basis.

The Plan included a high-level review of Procurement and contracts, as previously recommended by the Committee.

Also, as previously requested by the Committee (Minute No. 5/22 of 11 January 2022), representatives from Riverside Housing Association would be asked to attend the next meeting to discuss the implementation of recommendations arising from recent audits.

Following the pandemic, it was proposed to recommence the cyclical review of the governance and financial procedures for council maintained schools. However, this would be subject to government guidance around the continued management of covid-19.

The Audit Services and Risk Management Manager, undertook to review the way narrative summaries were presented to Committee, in order to incorporate reference to the Three Lines of Defence Model wherever appropriate.

Resolved that the Internal Audit Plan 2022/23 is approved.

19/22 Counter Fraud Update

The Committee noted an update on the activities of the Counter Fraud Team.

The Council continued to take part in the National Fraud Initiative programme, which was a two-yearly data matching exercise led by the Cabinet Office.

It also referenced to pre-and post-payment checks undertaken in relation to covid-19 grant and support payments. This had identified £65,000 in overpaid grants which were now the subject of recovery action, and a further £530,000 worth of ineligible or potentially fraudulent claims had been prevented.

Some of the work carried out by the Counter Fraud Unit had been recently featured on the BBC One TV series, Fraud Squad.

A fraud awareness bulletin had been issued to all schools to provide them with knowledge and advice from the lessons that had been learnt from a previous fraud investigation conducted by the council, as well as serving as a reminder for general good practices to avoid fraud and misuse of school funds.

Strategic Risk Register Update

The Committee was updated on the profile of the key risks currently faced by the Council, and any new risks which had emerged since the risk register was last reported in November 2021.

The risk register was a live document and reflected the Council's risk profile at the time of writing in February 2022. The risks were subject to ongoing review to ensure they remained appropriate and were correctly assessed in order to aid informed decision making and resource allocation.

The register currently contained 21 strategic risks, 11 of which were rated Red, six Amber and four Green.

Risk 55 (Implementation of External Review) and Risk 59 (Corporate Governance) had been consolidated into a new risk 59a (Improvement Plan) to reflect the consolidation of recommendations from the Grant Thornton Value for Money Governance Review, the CIPFA review of Financial Management, and the LGA Peer Review.

The assessment of Risk 56 (Towns Fund) had reduced from Red to Amber, as a result of the work done in developing and progressing the business cases for the 16 projects which were all on track for submission to government by the deadline of 24 March 2022.

The rating of Risk 60 (Health and Safety) had been reduced from Amber to Green, due to the embedment of the ongoing measures in place to manage this risk.

In addition to Risk 59a, two further risks had been added to the register – Risk 62 (Climate Change) and Risk 63 (Interim and Future Management of Nine of the Council's Leisure centres).

The Committee noted the measures in place to mitigate risks.

In relation to Risk 21a, which related to compliance with data protection legislation, the Director of Law and Governance assured

members that the Council was compliant, however, application of the Data Retention Policy approved by Cabinet in February 2022 was taking place and robust processes were being developed to ensure that the Council only held historical data where there was justification. The risk therefore remained red in recognition of the ongoing work. The Director Law and Governance undertook to report to a future meeting on how the Council was carrying out its obligations under data protection legislation.

In relation to Risk 4 (Children’s Social Care) it was reported that the covid-19 pandemic meant that the full OFSTED inspection which was expected in 2020 did not take place as a result of all Ofsted inspections being suspended. There had therefore been a variation to the contract with the Trust, which now required a “Requires Improvement” rating by 2022 (as opposed to 2020). Consequently, the target date to be rated OFSTED “Good” had also been moved to 2024.

Preparation for a full review of the Service Delivery Contract between the Council and the Trust in 2023 was also in hand. This was being led by the Director of Children’s Services and involved the whole leadership team as well as the Trust. It was also noted that a report was due to be presented to the Cabinet on a proposed way forward for the recruitment and retention of social work staff, in light of national pressures.

In relation to Risk 42a (Cyber Security) members were assured that progress was being made to mitigate this risk on an ongoing basis, however, it remained Red on the register due to the ongoing need to review the measures in place to ensure any new threats were being addressed.

21/22

Cabinet Forward Plan

The Committee noted the Cabinet’s Forward Plan, which set out the key decisions that the Cabinet was due to take at forthcoming meetings. The Plan was presented for information and to give the Committee an opportunity to contribute to any items or raise any issues with the Executive.

Exclusion of the Public and Press

Resolved that the public and press be excluded from the rest of the meeting to avoid the possible disclosure of exempt information under Schedule 12A to the Local Government Act, 1972, as amended by the Local Government (Access to Information) (Variation) Order 2006 relating to information which is likely to reveal the identity of an individual.

Update on Implementation of Previous Recommendations

The Committee received an update on the implementation of the resolutions made at its meetings held on 18 March 2021 (reconvened on 18 May 2021) (Minute No 21/21 refers) and 24 June 2021 (Minute No 25/21 refers).

In respect of resolution (3) of Minute No. 25/21 (of 24 June 2021) the Director Law and Governance reported that it had not been possible to agree a suitable date with the Chair for the additional meeting to take place.

The Committee received an update on the matter.

Resolved that, in reference to Minute No. 21/21(3) of the meeting held on 18 March 2021, (reconvened on 18 May 2021), the Committee feels that it has come to an impasse with officers in relation to this matter, which is preventing further progress; and therefore recommends that the Executive commissions an external review into the matters raised in relation to alleged racism and whether it is appropriate for the Council to issue an apology to the individuals concerned.

Meeting ended at 7.22 pm.

Audit and Risk Assurance Committee

28 June 2022

Subject:	Strategic Risk Register Update Report
Director:	Director of Finance Simone Hines
Contact Officer:	Audit Services Business Partner Narinder Phagura Narinder_phagura@sandwell.gov.uk

1 Recommendations

- 1.1 To note and comment on the strategic risks.

2 Reasons for Recommendations

- 2.1 Effective risk management is a key element of good corporate governance, as noted in the council's [Code of Corporate Governance](#), and is essential to the overall performance of the council in meeting its corporate plan objectives. Good risk management will ensure that resources are used efficiently and effectively and that assets and resources are protected against risk in the most efficient way.
- 2.2 The role of the ARAC is to provide assurance to the Council that it has a system of governance, risk management and internal control in place and that the adequacy and effectiveness of these arrangements continue to inform decision making throughout the emergency and recovery period.

3 How does this deliver objectives of the Corporate Plan?

	Best start in life for children and young people
	People live well and age well
	Strong resilient communities
	Quality homes in thriving neighbourhoods
	A strong and inclusive economy
	A connected and accessible Sandwell
	The report details the key strategic risks that need to be managed to ensure that they do not negatively impact on the delivery of the Corporate Plan objectives.

4 Context and Key Issues

- 4.1 This report updates the Committee on the profile of the key risks currently faced by the Council since they were last reported in March 2022.
- 4.2 The risk register is a live document and reflects the Council’s risk profile at the time of preparing this report in June 2022. The risks undergo ongoing review to ensure they remain appropriate and are assessed in order to aid informed decision making and resource allocation.
- 4.3 The Strategic risk register does not include all of the risks faced by the Council. Other risks are captured within directorate, programme and project risk registers in line with the Council’s risk management framework.
- 4.4 The review and assessment of each strategic risk, has been discussed with the risk owners and discussed with the Leadership Team and Cabinet Members. A summary of the strategic risk register is included at appendix A. The following changes are noted since the last update to the Committee:

- Risk 6b- Business Continuity Management has increased due to the further actions required as a result of the learning from the recent incident within the ICT room which resulted in the temporary loss of access to council systems and in particular to SBS.
- Risk 56 – Towns Fund Programme- this risk reflected the risk of not meeting the deadline for the submission of full business cases for all of the projects within the programme by the due date in March 2022. Following the timely submission of all business cases, this risk is being closed. A new risk to reflect the next phase of the programme will be considered once ministerial decisions have been made and funding secured.
- Risk 59a – Council’s Improvement Plan has reduced as a result of the requirement being met (as set out in the Directions from the Secretary of State for levelling Up, Housing and Communities) for the development and implementation of an improvement plan by 22 June 2022 and the appointment of two Commissioners.
- Risk 63 – Interim and Future Management of Nine of the Council’s Leisure Centres – this risk has reduced from red to green as a result of an agreement being reached between the council and Sandwell Leisure Trust in respect of the provision of services during the interim period, while arrangements are put in place to secure the delivery of a sustainable future leisure model.

4.5 An update on these risks, including the measures in place to mitigate them are included within appendix A.

5 Alternative Options

5.1 Whilst this report does not require a decision and therefore, alternative options do not need to be considered, when measures are being considered for the mitigation of each of the strategic risks, this takes into account any alternative options available.

6 Implications

Resources:	The authority's budget planning process incorporates financial and other resources required to manage the authority's risks and deliver the priorities within the corporate plan.
Legal and Governance:	There are numerous standards applicable to the management of risk within the local authority sector. Included amongst these is guidance from CIPFA/Solace, the British Standards Institute (BSI) and a set of joint standards published by the Institute of Risk Management (IRM), Alarm (The public sector risk management association) and AIRMIC (Association of Risk Managers in Industry and Commerce). Evidence that robust management of the authority's strategic risks is being undertaken demonstrates compliance with these standards.
Risk:	The report itself is an update of the key risks facing the Council.
Equality:	As a decision is not being sought in this report, it is not necessary to undertake an Equality Impact Assessment. However, when measures and decisions are being considered for the mitigation of risks, risk owners must take into account any equalities impact and whether an equalities impact assessment is required. The Council recognises that its workforce is instrumental in assisting the organisation in managing the strategic risks noted within this report (as set out in Appendix A) and thereby delivering the Council's priorities. As such, the Council must ensure that equalities implications and how they affect the workforce as well as the wider community are considered and underpin all decisions and risk mitigating actions.
Health and Wellbeing:	The management of risk takes into account where appropriate, the implications on health and wellbeing of our communities.
Social Value	The actions and decisions that are being considered for the mitigation of the strategic risks, will take into account the meeting of the Council's social value commitments.

7. Appendices

Appendix A – Strategic risk register summary as at June 2022

6b 04/18	<p>Business Continuity Management (BCM)</p> <p>If the Council does not develop, review, monitor and test plans and capabilities that seek to maintain the continuity of key functions in the event of an unplanned disruptive incident, then it will be unable to perform critical business functions which will impact the provision of Council services and result in potential financial loss and loss of public confidence in the Council.</p> <p>Risk Area – All Council services Risk owner – Director of Borough Economy Objectives impacted: All</p>	9 (amber)		12 (red)	6 (green) Dependent upon the actions required following the lessons learned report	<p>Current and Ongoing Controls</p> <ul style="list-style-type: none"> Business continuity plans are in place to mitigate the denial of; staff (e.g. illness, industrial action), ICT (e.g. software failure, cyber attack), facilities (e.g. building closure), stakeholders (e.g. suppliers, partners). These plans identify the criticality of each council service and the arrangements in place to restore services in the event of an unplanned incident. The pandemic has continued to provide some assurances around the robustness and effectiveness of the continuity of key functions over the last 18-24 months, through a shift to working remotely. Following an incident in the ICT suite in May 2022 (as a result of which the risk assessment has increased to red), the council is revisiting its resilience arrangements- in particular in relation to its Oracle business system, to ensure robust measures are in place to reduce both the likelihood and impact of a similar risk materialising in the future. This also includes a review of the arrangements in place in respect of the management and supervision of the council's contractors. <p>Further actions</p> <ul style="list-style-type: none"> A lessons learned report will be prepared following the May 2022 ICT incident and will be shared with Leadership Team. A set of actions including consideration of an offsite server) will be agreed to mitigate this risk further. All directorate business plans need to be reviewed and updated as appropriate to reflect any learning from the recent incident. 27 06/09	<p>Medium Term Financial Plan (MTFP) and Resource Allocation</p> <p>Local Government continues to operate in an uncertain financial environment arising from reducing central government funding, increasing demand for services and Covid-19. If the Council is unable to identify sufficient savings and put in place the necessary policies, processes and actions to manage pressures and manage its plans, then this will impact on the Council's ability to effectively discharge its statutory responsibility to set a balanced budget for future years.</p> <p>Risk Area – Finance & Resources Risk owner- Director of Finance Objectives impacted: All</p>	12 (red)		12 (red)	8 (amber)	<p>Current and Ongoing Controls</p> <ul style="list-style-type: none"> Local government settlement announced for one year only. A balanced budget for 2022/23 was approved by Council on 1 March 2022 and includes savings totalling £14.6m for implementation in 2022/23. Directorate and service business plans in place. The recent review by CIPFA on the Council's financial management and governance arrangements, noted that the Council is a progressive two-star (out of five) authority. The review also looked at financial resilience and concluded that the Council is financially stable and in recent years has been able to contribute towards reserves through achieving a balanced budget or an underspend. A fundamental review of the MTFP (in line with the CIPFA recommendations), is being undertaken to ensure the council understands the challenges ahead and to ensure that the MTFP matches the ambitions of the corporate plan and regeneration plans for Sandwell. The review will also include an assessment of the impact the high levels of inflation currently being experienced, are having on the MTFP. The MTFP will be presented for approval by Cabinet in early summer. This will also form the basis for the 2023/24 budget and the transformation work required for the council's improvement journey. <p>Further actions</p> <ul style="list-style-type: none"> Further details on central government's proposed funding reform and consultations are awaited and this, alongside the impact of 	Budget and Corporate Scrutiny Board External Audit CIPFA financial management review

Grant Thornton – Value for Money Governance Review 2021 CIPFA Financial Management and Governance Review 2021 LGA peer Review 2022

Report to Audit and Risk Assurance Committee

28 June 2022

Subject:	Improvement Plan
Director:	Managing Director Kim Bromley-Derry
Contact Officer:	Strategic Lead – Service Improvement Kate Ashley Kate1_ashley@sandwell.gov.uk Senior Lead – Service Improvement Rebecca Jenkins rebecca_jenkins@sandwell.gov.uk

1. Recommendations

- 1.1. That Audit and Risk Assurance Committee receive the Improvement Plan agreed by Council on 7 June 2022 and the accompanying risk register as a basis for work planning during 2022-23.

2. Reasons for Recommendations

- 2.1 On 22 March 2022 the Secretary of State for Levelling Up, Housing and Communities announced an intervention package and a set of Directions to ensure the council was able to comply with its best value duty under Part 1 of the Local Government Act 1999. These Directions were in-part influenced by the Grant Thornton report following their Value for Money Governance Review of December 2021.

- 2.2 On 7 June 2022 Council approved an Improvement Plan that combines the actions to address not only the Grant Thornton Review, but also the findings of the CIPFA Financial Management Review (January 2022) and the LGA Corporate Peer Challenge (March 2022). The Improvement Plan provides the organisation with a clear direction for its improvement journey that will enable the continued delivery of the strategic priorities in the Corporate Plan 2021-2025. As the Improvement Plan is a response to the statutory direction of the Secretary of State, it is the responsibility of Council to formally approve the Plan.
- 2.3 The Improvement Plan includes mechanisms for governance and assurance. These mechanisms will enable senior officers and members to manage the successful delivery of the Improvement Plan, whilst also providing all staff, members, the public and other stakeholders with assurance on the progress of our improvement journey. It is recognised that the Improvement Plan will be a living document, one that will need to evolve over time to respond to emerging intelligence and situations.

3. How does this deliver objectives of the Corporate Plan?

- 3.1. Sandwell Council's Improvement Plan focuses on the governance arrangements of the council and areas of improvement across the organisation. The underpinning objective of the Improvement Plan is to ensure that the council is able to deliver on the aims and priorities as set out in the Corporate Plan. The deliverables set out in this Improvement Plan will achieve long-term sustainable improvements in how the council operates and is able to make effective decisions focused on improving outcomes for residents and experiences of service users. Therefore, this impacts on the council's ability to deliver all the objectives in the Corporate Plan.

	Best start in life for children and young people
	People live well and age well

	Strong resilient communities
	Quality homes in thriving neighbourhoods
	A strong and inclusive economy
	A connected and accessible Sandwell

4. Context and Key Issues

4.1. Background

- 4.1.1. For a number of years, the council has experienced ongoing governance issues that have hindered the organisation from both moving forward and seizing opportunities, despite the desire and ambition to do so.
- 4.1.2. As well as successfully responding to the COVID-19 pandemic to support our residents and businesses, the council has continued to deliver high quality services over the period leading up to the Grant Thornton Value for Money Governance Review and beyond. Significant progress has been made on delivery the strategic priorities set out in the Corporate Plan, as reported to Cabinet on 23 March 2022.
- 4.1.3. Since May 2021, a number of key changes have moved the council forward on its improvement journey including the refresh of the strategic framework in the light of the pandemic, the appointment of an interim Chief Executive in August 2021, and a new Leader in November 2021. The new permanent leadership team structure is now resulting in tangible strides forward and greater stability which was recognised in all of the external reviews.

4.2 Value for Money Governance Review

- 4.2.1 The council's external auditor Grant Thornton conducted a Value for Money Review into the council's governance arrangements over the

period August to October 2021 and reported their findings to Full Council in January 2022. The report is attached at Appendix 1.

4.2.2 Grant Thornton recognised that over the preceding few months, the council has made progress towards resolving matters and improving the governance arrangements in place, and it is important that these changes are embedded.

4.2.3 Grant Thornton identified three statutory and five key recommendations that relate to the overarching governance of the organisation. A further 37 improvement recommendations were identified which related to the individual key lines of enquiry of the review.

4.2.4 In response to the Grant Thornton review Council approved an Improvement Plan in January 2022 to address all 45 recommendations in the report as well as reporting mechanisms to ensure progress is managed effectively.

4.2.5 The first quarterly progress report of the Governance Improvement Plan was made to Cabinet on 13 April 2022. This report demonstrated that the council had taken action to address the urgent issues highlighted in the Grant Thornton review, and were establishing the mechanisms to secure longer-term improvement.

4.2.6 Since the publication of the Improvement Plan to address the recommendations of the Grant Thornton Value for Money Governance Review, the council has also received the findings of the CIPFA Financial Management Review (January 2022) and LGA Corporate Peer Challenge (March 2022).

4.3 CIPFA Financial Management Review

4.3.1 CIPFA were commissioned by the council to undertake a review of the financial management and governance arrangements using the Financial Management Model. The intention of the review was to contribute to the development of the council's financial management operation and arrangements. It assessed the council's financial management capability, its internal processes, and operations. It also examined how the council plans its future financial management.

4.3.2 The report from CIPFA (Appendix 2) set out that the council at present is financially stable and in recent years has been able to contribute towards reserves through achieving a balanced budget or an underspend, but that the authority has previously lacked ambition and innovation and has a very traditional approach to financial management.

4.3.3 The scoring process generated an overall star rating between one and five, five being the highest. Sandwell achieved an overall rating of two stars and is considered to be a progressive two-star authority with an encouraging direction of travel. CIPFA made 14 recommendations which have been incorporated into the formation of the single Improvement Plan.

4.4 LGA Corporate Peer Challenge

4.4.1 The council invited the LGA to conduct a Corporate Peer Challenge in late January/early February, focused around five areas which are recognised as critical to councils' performance and improvement:

- Local priorities and outcomes
- Organisational and place leadership
- Governance and culture
- Financial planning and management; and
- Capacity for improvement

4.4.2 The Peer Challenge Team also took an in-depth look at children's services and the place agenda.

4.4.3 The review found that there is much to be excited about in Sandwell. It recognised that our local operational relationships are well developed, and that these have been reinforced and strengthened during our response to the pandemic. The review also emphasised the positive changes that had already been achieved.

4.4.4 The Peer Challenge report (Appendix 3) included nine recommendations, and raised a series of improvement points for longer term consideration. As with the recommendations of the other reviews, these have been incorporated into the development of the single Improvement Plan.

4.5 Government Intervention

4.5.1 On 22 March 2022 the Secretary of State for Levelling Up, Housing and Communities announced an intervention package and a set of Directions to ensure the council was able to comply with its best value duty under Part 1 of the Local Government Act 1999. The Directions and an explanatory memorandum are at Appendix 4 and 5 respectively.

4.5.2 The intervention package included the requirement for the development and implementation of an Improvement Plan within the first three months following the Directions notice and the appointment of two Commissioners:

- A Managing Director Commissioner, whose responsibilities include, but are not limited to, giving direction and leadership to the delivery of the improvements which the council is required to make; and
- an Assistant Commissioner whose responsibilities include, but are not limited to, overseeing the cultural change necessary at the council.

4.5.3 The Commissioners have powers to make sure that the council “*has made sufficient improvement within the next two years to be able to comply with its best value duty on a sustainable basis*”. The Commissioners will be providing six-monthly reports to the Secretary of State on the progress that the council is making.

4.5.4 The government’s intervention package requires the preparation and agreement of an Improvement Plan that will:

- deliver rapid and sustainable improvements in governance, leadership and culture in the council;
- secure improvement in relation to the proper functioning of the scrutiny and associated audit functions; and
- secure continuous improvement in all services.

4.5.5 The Statutory Directions set out that the council may draw upon improvement plans that have been prepared before the date of intervention.

4.5.6 There are several factors that will inform any decision by the Secretary of State to end the period of government intervention at Sandwell Council, and this decision will be based on reports received from the Commissioners. Some of these factors include:

- That the council can demonstrate sustainable improvements in governance and scrutiny of decision making;
- That a permanent Chief Executive has been successfully appointed; and
- The Council has reached a decision on whether to implement a four-yearly election cycle.

4.5.7 Actions to address these areas are incorporated within the Improvement Plan.

4.6 Specific Recommendations from External Reviews relating to Audit

4.6.1 The Statutory Directions set out that the Council must secure improvement in relation to the proper functioning of the scrutiny and associated audit functions.

4.6.2 In the Value for Money Governance Review, Grant Thornton set out specific recommendations relating to audit as follows:

- **Key Recommendation 7:** Members in key statutory roles, in particular in relation to Cabinet, scrutiny, standards and audit, need to be provided with effective development training and support. The Member development programme should be reviewed to ensure corporate governance forms part of the training for members with governance roles
- **Improvement Recommendation I4:** Officer and Member Relationships – the forward plan of the Cabinet should be shared with the Audit Committee and Scrutiny Board to help structure their agenda planning
- **Improvement Recommendation I34:** Audit Committee – now that the Audit and Risk Assurance Committee has agreed the action to bring this long-standing matter to resolution [*review into the Wragge Report*], it will be important that – as the Audit and Governance Panel recognised – the Council manages its position

so that the matter does not resurface, so that it can move on and focus on its corporate objectives

4.6.3 The CIPFA Financial Management Review and LGA Corporate Peer Challenge did not make any direct recommendations around the role and function of audit.

4.7 Development of the Improvement Plan

4.7.1 The Improvement Plan attached at Appendix 6 has been built on:

- the recommendations from all three external reviews set out in paragraphs 4.2, 4.3 and 4.4;
- the actions already identified within the Governance Improvement Plan approved by Council in January 2022; and
- the specific requirements set out in the statutory Directions to form a single Improvement Plan.

4.7.2 Following a review of all the recommendations from the external reviews, key themes have been identified that set the focus for the council's improvement journey:

- Organisational Culture
- Corporate Oversight
- Strategic Direction
- Decision Making
- Procurement and Commercial
- Partnerships and Relationships

4.7.3 Each theme has a clear set of objectives, milestones, deliverables, and measures of success which will be used to track our progress against expected timescales and achievements.

4.7.4 Supporting each theme is a detailed delivery plan setting out activity to achieve the deliverables, responsible officer and timescales. The delivery plan also sets out how specific actions address recommendations in the various external reviews, thereby enabling direct reporting for different audiences as required.

4.7.5 In recognition that there are elements of activity that require more design before confirming our approach, that there will be other issues arising that will feed into the Improvement Plan, and the need for more detailed engagement, a phased approach has been taken to developing the Improvement Plan:

- The Phase One Improvement Plan - captures the known actions and deliverables to date and provides a foundation for the council's improvement. This is the Improvement Plan that was submitted to Council and approved on 7 June 2022.
- The Phase Two Improvement Plan – will build on the Phase One Plan and identify additional areas for improvement that arise. It will be informed by engagement with staff and members and include detailed deliverables and milestones to embed the desired organisational culture. The approach and timescales for this workstream is set out in the following section.

4.8 Audit Actions within Improvement Plan

4.8.1 The Improvement Plan contains a workstream focusing on the role and function of scrutiny and audit within the decision-making theme.

4.8.2 In relation to audit, the Improvement Plan sets out actions around managing the position on historic issues through Officers working with the ARAC Chair, and the completion of ARAC recommendations in relation to governance issues raised around SEND Transport.

4.8.3 A measure of success within the Improvement Plan is for there to be evidence that audit input is driving assurance and improvement across the Council.

4.9 Governance and Assurance Mechanisms

4.9.1 Effective programme management arrangements, robust monitoring processes, and clear roles and responsibilities will be key to Sandwell's successful delivery of this Improvement Plan and achievement of sustainable change. A Programme Management Office has been established to manage the delivery of the programme on a day to day basis.

- 4.9.2 Progress will be monitored monthly by Leadership Team through considering progress of the actions and milestones within the delivery plan, and management of risks, issues, and dependencies. A focus on embedding sustainable improvement will be maintained through the ongoing capture of evidence of success.
- 4.9.3 Members will have oversight of progress through formal reporting to Cabinet quarterly. This will continue until all actions within the plan have been completed and government intervention has been lifted.
- 4.9.4 Existing member-led committees, such as the Governance and Constitution Review Committee, Audit and Risk Assurance Committee and Scrutiny Committees, will be used for decision making and maintaining oversight of the actions and implementation of the Improvement Plan.
- 4.9.5 The Improvement Plan is intended to be a live document updated to take account of progress and relevant changes. These changes will be tracked through the programme management mechanisms and may include the addition of new workstreams or objectives, or the amendment of timescales for delivery of actions. Cabinet will retain oversight of these changes through the regular formal reporting of progress.
- 4.9.6 External assurance will also play a part in our improvement journey. Grant Thornton, CIPFA and the LGA will be invited back in Autumn 2022 to monitor our progress in addressing the recommendations in their reviews. Any recommendations from these checkpoint reviews will also offer a steer for the next phase in our improvement journey.
- 4.9.7 A risk register will be maintained for the duration of the Improvement Plan which will underpin the council's strategic risk relating to the council's Improvement Plan (59a 02/22). This will be reported monthly to Leadership Team and quarterly to Cabinet. The current risk register is attached as Appendix 7
- 4.9.8 The main risks are associated with:
- **Resources** – for delivery of key components of the plan including the performance management framework, asset management system implementation and culture change programme. The

financial resources required have been identified and were approved by Council in June.

- **Organisational Culture** – If the organisational culture doesn't change, this will limit the improvements that can be made. A theme within the Improvement Plan focuses on organisational culture. It includes plans for a comprehensive engagement programme with staff and members to define a collectively owned culture. We will then embed the conditions for this culture to thrive.
- **Communication** – to ensure everyone is aware of their respective roles and responsibilities. A detailed communication plan will be developed to ensure effective and timely communication with stakeholders
- **Governance Policies and Procedures** – key corporate governance documents are being reviewed and once approved, will provide an important foundation for improvement.
- **Performance Management Framework** – to ensure that we can effectively monitor progress and evidence improvement. Each theme includes an outline of how success will be evidenced. Processes for monitoring progress and evaluating evidence of improvement will be developed.
- **Historic Issues** – if there is a continued focus on and resource directed towards historic issues this will hinder improvement. The improvement plan contains actions to bring historic issues to a conclusion and embed lessons learnt.
- **Progress Monitoring and Risk Management approach** – if assessment of progress and risk assessment contains optimism-bias, this will prevent an accurate and realistic view of progress. Assurance mechanisms will help manage this risk

5 Implications

<p>Resources:</p>	<p>Resources to deliver the Improvement Plan have been allocated from within existing commitments in the majority of cases. Where one-off funding is required to deliver improvements, this will either be funded from the Improvement and Capacity Fund or from earmarked reserves created from 2021/22 underspend position. Where funding is required for longer-term change, this will be incorporated into the Medium-Term Financial Strategy.</p>
--------------------------	--

	<p>There are no land or building implications associated with the Improvement Plan as a whole.</p>
<p>Legal and Governance:</p>	<p>On 22 March 2022, The Secretary of State for Levelling Up, Housing and Communities issued Directions under Section 15(5) and (6) of the Local Government Act 1999 (the 1999 Act) in order to ensure that the council can comply with the requirements of Part 1 of the 1999 Act. Failure to comply with these Directions may lead to further intervention measures for the council.</p> <p>The development and approval of this Improvement Plan will mean that the council has achieved one of the elements within the Directions within the specified timescales.</p> <p>The delivery of the Improvement Plan and achievement of the desired outcomes will meet the remainder of the Directions.</p> <p>Ultimately, the changes made through the Improvement Plan will enable the council to effectively deliver its strategic priorities and ensure it is delivering value for money for Sandwell.</p>
<p>Risk:</p>	<p>If the Council fails to take appropriate action to meet the requirements set out in the government Direction, or the Commissioners appointed by the Secretary of State do not have sufficient confidence that appropriate actions are being taken to implement and sustain the required improvements, then the council risks not having appropriate arrangements in place to comply with its best value duty under Part 1 of the 1999 Act. This could lead to further government intervention, increased costs and damage to reputation.</p> <p>A risk register will be maintained for the duration of the Improvement Plan which will underpin the council's strategic risk relating to the council's</p>

	Improvement Plan (59a 02/22). This will be reported monthly to Leadership Team and quarterly to Cabinet.
Equality:	The successful delivery of this Improvement Plan will require the development and review of many of the council's policies and procedures. These changes will build in consideration of the impact on equalities throughout the development and will include an Equality Impact Assessment where appropriate.
Health and Wellbeing:	The underpinning objective of the Improvement Plan is to ensure the council is able to achieve the strategic priorities as set out in the Corporate Plan. These priorities focus on improving the health and wellbeing of our residents and tackling health inequalities in a multi-faceted way. Therefore, any improvements to the council's governance structures will strengthen the council's ability to deliver services that will improve the health and wellbeing of Sandwell.
Social Value	Within the Improvement Plan, the council is committed to developing its Social Value Policy in conjunction with the refresh of the Procurement & Contract Procedure Rules. Through strengthening our asks of contractors through this Social Value Policy and linking them to the Corporate Plan objectives, the council will be able to maximise its social value return.

The contents of this report relate only to those matters which came to our attention during the conduct of our normal audit procedures which are designed for the purpose of completing our work under the NAO Code and related guidance. Our audit is not designed to test all arrangements in respect of value for money. However, where, as part of our testing, we identify significant weaknesses, we will report these to you. In consequence, our work cannot be relied upon to disclose all irregularities, or to include all possible improvements in arrangements that a more extensive special examination might identify. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Introduction

Context, background and scope of the review

Context to our VfM approach

Sections 20 and 21 of the Local Audit and Accountability Act 2014 (the Act) require auditors to be satisfied that the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. This is known as the Value for Money (VfM) conclusion.

Our VfM work is carried out in line with the Code of Audit Practice (the Code) which is prepared by the National Audit Office (NAO) under the Act, and its supporting statutory guidance: Auditor Guidance Note 3 (AGN 03).

A revised Code came into force on 1 April 2020, after being approved by Parliament. The Code requires auditors to structure their VfM commentary on arrangements under three specified reporting criteria:

- Improving economy, efficiency and effectiveness: how the Council uses information about its costs and performance to improve the way it manages and delivers its services;
- Governance: how the Council ensures that it makes informed decisions and properly manages its risks; and
- Financial sustainability: how the Council plans and manages its resources to ensure it can continue to deliver its services.

Background to this review

In our 2019/20 Audit Findings Report we noted that a number of governance issues had come to our attention during 2021. We considered that there was insufficient evidence to confirm that these matters impacted 2019/20 and as such noted that they will be dealt with as part of the 2020/21 audit.

We have continued to monitor Sandwell Metropolitan Borough Council's (the Council) ongoing governance arrangements, including member-officer relationships and have become increasingly concerned at the Council's ability to look forward and manage the challenges and opportunities that all local authorities currently face.

There is an increasing perception of poor progress in resolving service and governance issues, a lack of trust between key individuals charged with governance, of a significant amount of time being spent responding to allegations and complaints, and of reviews being reopened, such as the reopening of previous standards reviews. We feel that until these significant issues are resolved that the Council is at risk of not having adequate governance arrangements in place to ensure that it can effectively discharge its statutory responsibilities and maintain its financial sustainability.

Under the NAO Code, we are required to consider whether the Council has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. The auditor is no longer required to give a binary qualified / unqualified VfM conclusion. Instead, auditors report in more detail on the Council's overall arrangements, as well as key recommendations on any significant weaknesses in arrangements identified during the audit.

The purpose of this work has been to draw conclusions on the key lines of enquiry (KLOEs) identified as part of our scope, and if necessary determine the extent to which further action is required by the Council. This review, along with other VfM related activity, has been undertaken in order for us to consider whether there are any significant weaknesses in the Council's arrangements.

As already noted, our work is undertaken in accordance with the Local Audit and Accountability Act 2014, sections 20 and 24 and may result in Statutory Recommendations or a Public Interest Report.

Overview of the scope

Determining how much work to undertake on arrangements to secure VfM is a matter of auditor judgement. The focus of our review has been on the effectiveness of the Council's governance arrangements and how they are impacted by the matters detailed above.

We have identified seventeen KLOEs to assess the Council's governance arrangements, which are set out in the table below.

Whilst the focus of this review is on governance arrangements, where appropriate we will highlight findings in relation to the two other reporting areas set out in the Code.

	SERVICES & MANAGEMENT
A1	The Children's Trust
A2	Sandwell Leisure Trust
A3	Providence Place
A4	Special Educational Needs Transport
A5	Sandwell Land and Property Company
A6	MADE festival
A7	Waste service
A8	Governance and legal support re DPH
A9	Lion Farm
A10	Introduction of new ERP system (Oracle)

Our approach

Overview of the scope (cont'd)

	MEETINGS, COMPLAINTS & RELATIONSHIPS
B1	Chief Officers
B2	Senior Leadership
B3	Complaints
B4	Officers and members relationships
B5	Standards Committee
B6	Audit Committee
B7	Financial Reporting

Our approach

Our work in relation to this review was undertaken between August and October 2021.

Stage 1 – Review of key documents

We submitted an information request for key documents and then undertook a desk top review to reach an initial conclusion on the nature of further work required.

Stage 2 – Further Analysis and Clarifications

We then undertook interviews with key stakeholders in relation to each KLOE to clarify issues identified during stage one and to undertake more detailed analysis in relation to specific KLOEs. A total of 75 stakeholder interviews have been undertaken, representing a total of 122 discussions on individual KLOEs.

Our approach is designed to assess:

- Governance arrangements in place in relation to our scope;
- Council performance against these arrangements; and
- Identify any significant weaknesses and risks.

CfGS Governance Risk and Resilience Framework

We have drawn on the Centre for Governance and Scrutiny's (CfGS) Governance Risk and Resilience Framework, published in March 2021, to structure our work in relation to KLOE B4 - officer and member relationships. This Framework includes seven characteristics of good governance that have a particular focus on behaviours.

Acknowledgements

We would like to take this opportunity to record our appreciation for the assistance provided by council officers, council members, and external stakeholders with whom we have engaged during the course of our review.

Additional VfM Code Work

As already noted, we have identified governance arrangements as an audit risk. This requires additional work to inform our auditor's judgement on VfM. The work has been undertaken in line with the requirements of the Code and associated auditor guidance. This review helps us discharge our responsibilities under the Code and will include the reporting of any significant weaknesses in arrangements and other points for improvement identified during the review. Any fee variation is subject to approval from Public Sector Audit Appointments Ltd (PSAA) which is responsible for appointing auditors and setting audit fees for relevant authorities that have chosen to opt into its national scheme of auditor appointments.

Key Findings

Note: KLOE A8 has not yet concluded and will be reported separately.

Overview

Overview

The Council has seen deteriorating senior officer and senior member relationships over a number of years. This has resulted in a breakdown in trust, respect and confidence between those holding governance roles. This has limited the Council's ability to look forward and manage the challenges and opportunities it faces. This breakdown in relationships between senior officers and senior members is central to the governance issues identified by this review.

There has been poor progress in resolving service and governance issues, with a significant amount of time being spent responding to internal allegations and complaints. There is evidence of reviews and issues being reopened. This has impacted on the Council's ability to focus on service improvement.

The Council has been insular and siloed. Its focus has been on responding to external service-based challenges as well as managing the fallout from previous decisions or investigations. Senior officers and senior members have historically been unable to make the changes required to move away from this organisational culture and focus.

We note that since the appointment of the interim Chief Executive in August 2021, working with the then new Leader of the Council, that many of these matters are being resolved. The Council's senior leadership team, the majority of whom are recent external appointments, recognise the challenges and issues set out in this report and are supporting the interim Chief Executive on an improvement journey.

These 'green shoots' are positive and we have tried to reflect the improvements in this report. Without these changes we would have had concerns with regard to the Council's ability to manage and govern itself, and intervention by the Government may have been necessary.

Inevitably these changes are not yet embedded, and the Council will need to manage the transition to a permanent Chief Executive well, alongside maintaining continuity and stability of the wider leadership team, so that the new Chief Executive, working with the leadership team, continues to support the service and cultural changes that are being put in place and that momentum is maintained.

Due to the issues identified we have determined that it is appropriate to raise the following statutory recommendations under Section 24 of the Local Audit and Accountability Act:

Statutory recommendations

We have made a number of statutory and key recommendations which are set out page 12. Other improvement recommendations are made throughout the detailed findings of this report and are summarised in the Appendix.

Our statutory recommendations are:

- **It is imperative that senior officers and senior members take effective corporate grip of long-standing service issues highlighted by the findings in this report (including SLT, SCT, the waste service, the ERP system, and Lion Farm) and prioritise corporate effort in managing the issues identified, and embed the solutions into the Council.**
- **The Council must ensure that the learning in relation to commercial decisions, procurement and contract management highlighted in this report are understood through the organisation.**
- **Senior leadership, both officers and members, must demonstrate that they can continue to work together effectively, that they operate in line with the Council's values, codes, policies and procedures, and that there is zero tolerance to inappropriate behaviours. This includes changing the organisational culture in relation to complaints so that they restore balance and proportionality.**

Key findings

KEY FINDINGS

Corporate grip

Understandably COVID-19 has significantly impacted the leadership and organisational focus of all local authorities over the past eighteen months. Even taking account of this impact we consider that until recently the Council has failed to take an effective corporate grip on key issues facing the Council.

We note that it is hindered in taking a corporate grip by the lack of a clear performance management framework and agreed key corporate indicators, although we note recent progress has been made on this. This has impacted on the ability of the Leadership Team and Cabinet to have a single line of sight and single version of the truth. This has contributed to a culture of silo working, resulting in a lack of corporate ownership and accountability. This has, in turn, resulted in a lack of ownership and grip on key challenges and issues and an absence of intervention and decision making.

In failing to take ownership and seeking resolution, lessons have not been learned. This has resulted in a number of instances whereby the Council has repeated actions leading to similar outcomes. For example, the Wragge report continues to be an area of mistrust between members and between officers and members.

Procurement and commercial decision making

Our review has identified repeated instances where commercial decisions or procurement decisions have contributed to a number of key legacy challenges facing the Council, which have not been resolved.

These included legacy property related decisions such as those relating to Lion Farm, Providence Place and Sandwell Land and Property Company where there was either a lack of appropriate expertise and advice or failure to consider all appropriate options.

There are also more recent examples of poor procurement decisions relating to waste management and recycling, the Council's enterprise and resource planning (ERP) system and SEND Transport. In each case the procurements have either been poorly specified, did not provide adequate timescales, or those responsible for decision making have not been fully aware of the context and detail.

These property transactions and procurement decisions have created future service or delivery challenges. In some cases, they have impacted negatively on the Council's reputation. In each instance, until recently, the decisions have not had effective corporate ownership to allow appropriate management or resolution.

Contract management

Our review identified a number of key contracts having been impacted by either poor specification during procurement, a lack of clear contract management responsibility, or poorly defined approaches to contract management. These related to Sandwell Leisure Trust (SLT), Serco, Inoapps and Sandwell Children's Trust (SCT) and we note that the interim Chief Executive has recently commenced more effective engagement with these key suppliers and partners.

At varying times relationships between the Council and these key partners have been fraught with the lack of senior leadership grip significantly contributing to a deterioration of these relationships. A lack of clear corporate ownership has meant that issues with these contracts have not been resolved in a timely manner. This is particularly the case for SLT, Serco and Inoapps.

We also note that some key contracts such as SLT and SCT, have not previously had key performance indicators reviewed since the contracts were let, whilst others have not had appropriate focus on service quality (such as SEND Transport) or outcomes (such as SLT and Serco).

OTHER THEMES

Lack of longer-term planning

The insularity and short-term focus previously noted has meant that the Council has not had the necessary time and space to consider the long-term. Recent changes to the Council's leadership have seen a re-emphasis on longer-term planning, with time invested in a refresh of the Corporate Plan, which has now been approved by full Council.

However, as mentioned earlier, the lack of a corporate performance framework has meant that the Council has not received management information on key corporate indicators. We also note that the Leadership Team had not been receiving regular monthly budget monitoring reports and have not been effectively engaged in the budget setting process or medium-term financial planning. We understand that processes are being put in place to resolve these issues.

Key findings (cont'd)

Officer empowerment and decision making

The scheme of delegation and the involvement of senior members in key decision making has resulted in a lack of empowerment of officers in decision making and the agility of the Council to make, where necessary, prompt decisions. An example of which is the delay to taking a decision in relation to the rescheduled MADE Festival, which had been due to take place in August 2021. We consider that this reflects the lack of trust between senior members and senior officers at the time.

Capacity, experience and skills

The prevalence of interim and acting up arrangements in senior officer roles has in some places not seen effective back-fill arrangements put in place, resulting in capacity challenges for some key officers and teams such as Finance. These temporary arrangements have contributed to confusion over some key roles and responsibilities, such as those in relation to SLT and Oracle Fusion, impacting on effective contract management.

More generally, the lack of corporate ownership, again already discussed, has left some officers exposed in managing key service challenges and relationships without appropriate senior officer support and direction.

The impact of changes to senior officers and members

The Council has been through a period of significant change to its leadership, both in terms of senior officers and senior members. Following the local elections in May 2021 a new Leader was elected, who appointed a new Cabinet with effect from June 2021. Many of these Cabinet members had not previously held a Cabinet role, and some were fairly new to the role of councillor. There was a further change to the Council Leader in late November 2021, as we were finalising this report.

An interim Chief Executive has been in role since August 2021 and there has been significant changes to chief officers over the past year, with vacancies being filled by either external interims, or Council officers in acting up roles. These changes were driven in large part by a senior management review which concluded in October 2020, although we note that some chief officer departures were caused by unrelated circumstances.

Other than the Chief Executive there are currently ten chief officer roles, of these four are recent external appointments, and two other external appointments have been made with these officers starting in November 2021. Three officers remain from the previous leadership team, two in the same role and one appointed to one of the new roles created by the review.

Two roles remain vacant: the Chief Executive and the Deputy Chief Executive, with the recruitment of the former recently initiated. The Council has decided to not recruit the Deputy Chief Executive and to review the need for this role. In addition there is a Director of HR, which is not a permanent role and is being held by an external interim.

The impact of this recent period of change has been instability and uncertainty for the organisation. Whilst external interims are recognised positively for the experience they bring from working with other councils and having a “fresh pair of eyes” on some of the service challenges being faced, the wider organisation considers the use of interims as maintaining a holding pattern before permanent chief officers join. The Council will reach the position of having all roles filled by a permanent officers during November 2021, other than the two vacancies noted above.

The changes to key senior roles have led to a loss of corporate knowledge and history among senior officers and senior members. This has contributed to historic issues resurfacing and senior members making the initial decision to progress a major project or initiative not being the same group of members taking further decisions during the project's implementation, such as the SEND Transport procurement.

The current position

The themes set out in this section illustrate how the Council's recent behaviours and legacy issues impact on good governance and decision making.

The recent widespread changes at chief officer level and the election a new Leader and appointment of a new Cabinet, provide a significant opportunity for the Council to move away from this position. Indeed, there is a consensus that senior officers and members are in a much stronger, more effective and constructive position than in the recent past. There is also a clear desire to make the improvements required, and a greater understanding of roles and responsibilities.

The current Leader and interim Chief Executive have a positive working relationship and between them have introduced changes to manage some of the legacy issues noted above. These include the Leadership Team attending informal Cabinet, the introduction of “star chambers” as part of the budget setting process, enhancing the training programme for members, and a review of the Council's constitution including the scheme of delegation. Other changes are planned.

Key findings (cont'd)

Page 67

The current position (cont'd)

Many of these changes took place during the course of this review so it is too soon to judge if they are yet embedded. Key stakeholders we met during this review recognised that the Council is at the start of a necessary improvement journey.

Failure to maintain and embed current and planned changes will have a significant impact on the Council being able to realise its strategic ambitions and provide effective governance.

Whilst we recognise that recent changes have been positive, we remain concerned about the lack of trust across the wider organisation and continuing poor behaviours, for example, the leaking of the review into the Wragge report to local media in October 2021. It will take time for the wider organisation to regain trust in the senior leadership, see the stability required, and believe in the changes that have begun.

There was a change to the Council's Leader as we were finalising this report. This has highlighted the need for stability and continuity. The new Leader must use the platform for improvement which has been created to ensure a strong and positive working relationship both with the current Interim Chief Executive and the subsequent permanent Chief Executive.

The direction of travel is a necessary and positive one, but there is no quick fix for the challenges facing the Council. For these "green shoots" to deliver the widespread transformation and changes required, the Council's leadership needs to be relentless in its focus in delivering and embedding sustainable change, and use its past history as a reference point when focusing on improvement.

Recommendations and detailed findings

We now set out our statutory and key recommendations, followed by the detailed findings in relation to each individual KLOE.

We consider that these matters represent significant weaknesses in the Council's arrangements for ensuring that it makes informed decisions and properly manages its risks. We have also identified several improvement recommendations, which are summarised at Appendix A. Further details on the types of recommendations we make are set out at Appendix B.

Statutory and key recommendations

Statutory and key recommendations

Improvement recommendations are made throughout this report and these are summarised in the Appendix. Our statutory and key recommendations are summarised below.

Page 66	Recommendation
	Statutory recommendations
1.	It is imperative that senior officers and senior members take effective corporate grip of long-standing service issues highlighted by the findings in this report: (including SLT, SCT, the waste service, the ERP system, and Lion Farm) and prioritise corporate effort in managing the issues identified, and embed the solutions into the Council.
2.	The Council must ensure that the learning in relation to commercial decisions, procurement and contract management highlighted in this report are understood through the organisation.
3.	Senior leadership, both officers and members, must demonstrate that they can continue to work together effectively, that they operate in line with the Council's values, codes, policies and procedures, and that there is zero tolerance to inappropriate behaviours. This includes changing the organisational culture in relation to complaints so that they restore balance and proportionality.
	Key recommendations
4.	The Council's leadership needs be relentless in its focus in delivering and embedding sustainable change, and use its past history as a reference point when focusing on improvement.
5.	Critical to embedding the transformation and change required will be the appointment of the right permanent Chief Executive. The Council must ensure an effective recruitment process, including attracting a pool of appropriate candidates.
6.	The Council should ensure that a corporate performance framework is agreed so that the implementation of the Corporate Plan can be effectively monitored, and there is collective corporate responsibility rather than silo working.
7.	Members in key statutory roles, in particular in relation to Cabinet, scrutiny, standards and audit, need to be provided with effective induction and ongoing development, training and support. The member development programme should be reviewed to ensure corporate governance forms part of the training for members with governance roles.
8.	The Council should develop and agree an action plan in relation to the statutory, key and improvement recommendations included in this report, ensuring that they are specific, measurable, attainable, realistic and time-bound.

Management responses to these and the improvement recommendations are included in a separate Council report.

Detailed Findings

KLOE B4: Officer and member relationships

The purpose of this KLOE was to consider whether relationships between senior officers and senior members are appropriate in supporting good governance.

Introduction

We have set out our findings in relation to this KLOE before any of the other KLOEs due to the overarching importance of senior officer and senior member relationships for the discharging of effective governance and decision making.

We have drawn on the Centre for Governance and Scrutiny's (CfGS) Governance Risk and Resilience Framework, published in March 2021. The framework is designed to promote good governance practice and:

- recognises good governance is everyone's responsibility, and whatever their role, officers and councillors are likely to carry out work that intersects with the Council's governance framework every day;
- considers roles and responsibilities including those of the Council's statutory officers and political leadership
- includes a focus on behaviours;
- sets out seven characteristics for considering governance risk and management, designed to reflect and supplement the broader CIPFA/SOLACE: "Delivering good governance in local government" framework (2016).

We have structured our findings by the seven characteristics, which are:

- The extent of recognition of individual and collective responsibility for good governance;
- Awareness of political dynamics;
- How the council looks to the future to set its decision-making priorities;
- Officer and councillor roles;
- How the Council's real situation compares to its sense of itself;
- Quality of local / external relationships; and
- The state of member oversight through scrutiny and audit.

Twenty-five meetings were held with individual senior officers and senior members of the Council in relation to this KLOE, and our findings are based on our judgement of these key stakeholders' observations.

The extent of recognition of individual and collective responsibility for good governance

The Council is coming out of a period where there has been a breakdown in the trust, confidence and respect between senior officers and senior members, which has been characterised by:

- a perceived blame culture contributing to the siloed approach to directorates, with senior officers protecting their areas of responsibility and a lack of peer challenge within the Leadership Team and a risk of not giving bad news to members.
- a lack of collective responsibility and accountability in the absence of a corporate focus on key performance indicators and risks, weak corporate involvement in strategic financial planning, budget monitoring, and transparency.
- a lack of clarity on roles and responsibilities between officers and members.
- an inconsistent approach to the Council's scheme of delegation, including relatively low spending thresholds, and an overly bureaucratic approach to decision making, leading to unnecessary delays.

The characteristics set out above are a significant risk to good governance. However, we note that there have been recent improvements. We discuss these below.

The recent widespread changes at chief officer level and the election of a new Leader and appointment of a new Cabinet, provide a significant opportunity for the Council to move away from this position. Indeed, there is consensus that senior officers and members are in a much stronger, more effective and constructive position than in the recent past. There is a clear desire to make the improvements required, and greater understanding of roles and responsibilities.

The current officer and member leadership team have introduced changes to manage the legacy issues noted above, including the Leadership Team attending informal Cabinet, the introduction of "star chambers" as part of the budget setting process, enhancing the training programme for members, and a review of the Council's constitution including the scheme of delegation. All of these are positive actions.

Embedding the changes that have been made and that are planned will be critical if the Council is to realise its strategic ambition and provide effective governance. Whilst early indications are positive, the test of whether these changes become effectively embedded will be how the council's senior leadership manage legacy issues should they surface, and that they continue the work of the interim Chief Executive through the appointment of a high quality permanent Chief Executive.

An enhancement of the induction programme to new members of Cabinet, including on local government finance and their governance roles is recommended.

KLOE B4: Officer and member relationships (cont'd)

09
10

Awareness of political dynamics

The Council has recently updated its Code of Member Conduct, incorporating updates to the Local Government Association (LGA) Model Code of Conduct. A member development programme is ongoing in relation to the Code and related areas such as gifts and hospitality, and arrangements for dealing with complaints under the Code. The Council has also commissioned the LGA to provide a mentoring programme for senior members.

There was consensus from our interviews that senior officers fully understood the need to act with neutrality when operating in a political environment. However, the recent history of the Council means that some senior officers remain impacted by the blame culture which was perceived to be in place. This, for example, has manifested itself in senior officers taking personally criticism of their service area, impacting on behaviours in meetings.

Whilst having in place effective codes, policies and procedures is good practice, it will be behaviours that determine whether the Council is able to successfully move away from its recent history. However, as already noted, the senior officers and members of the Council believe that there has been significant progress made in relation to how they operate and work together.

These changes in behaviour are recent and will need to be sustained to become embedded, so that the wider organisation - and external stakeholders - see and have confidence in this change.

The Council should consider how it provides appropriate support to those Chief Officers who were in role prior to the recent changes to senior officers, Leader and Cabinet. The Council should also ensure that corporate governance training is provided to members of the Cabinet and other members in governance related roles.

How the council looks to the future to set its decision-making priorities

There was consensus that the Council has not provided appropriate time and space to think clearly about the long-term, to horizon scan and undertake the strategic thinking required.

It was recognised that this was because the Council has spent recent years “fire-fighting” both in terms of managing day-to-day operational issues, as well as having an insular focus responding to internal allegations and complaints. There is also evidence of reviews and issues being reopened.

A Corporate Plan (Vision 2030) has been in place but there has been a lack of clarity about how the Plan’s ambitions, priorities and outcomes should be delivered. This has been recognised, and the Council has recently invested significant leadership time in a refresh of the Corporate Plan, including external consultation. More work needs to be done including the establishment of Directorate Plans and Service Plans which will set out how corporate priorities will be delivered, including KPIs. The Leader has recently restructured Cabinet portfolios to better reflect the updated Corporate Plan.

The Council should ensure that corporate KPIs are agreed so that the implementation of the Corporate Plan can be effectively monitored.

The forward plan of the Cabinet should be shared with the Audit Committee and Scrutiny Board to help structure their agenda planning.

There has been an ineffective approach to budget monitoring and budget setting with:

- monthly budget reports not being reported to the Cabinet or the Leadership Team, and
- Directors and Portfolio Holders not being effectively engaged in budget setting discussions.

This has been recognised and star chambers for Cabinet members and chief officers have been introduced to support the budget setting process. The Director of Finance has also introduced regular Cabinet briefings and monthly budget reporting to Cabinet.

The Leadership Team should agree key medium-term financial objectives and principles. There should be effective ownership of the principles that underpin the budget setting process, for example the Council’s approach to reserves, contingency and Minimum Revenue Provision (MRP).

KLOE B4: Officer and member relationships (cont'd)

Officer and councillor roles

As already noted there has been a breakdown in trust and mutual respect between senior officers and members in recent years, which is recognised by those in senior officer and senior member roles. However, in general, those in these roles felt that working relationships, including trust and respect, had improved in recent months and were currently no cause for concern. Nonetheless it was also recognised that a cultural shift needs to become firmly embedded, and that stability and continuity is required from those in these roles.

The Council has agreed the following values to define how people do things and are reflected in the way people behave:

- Trust – show respect, make personal impact, being open and honest.
- Unity – focusing on customers, working with a team, communicating effectively.
- Progress – being open to change, focusing on performance, getting team results.

Senior officers and senior members must lead by example to ensure that the “tone from the top” consistently reflects these values and behaviours. This is critical in ensuring that the wider organisation recognises that changes have been made and that all people are confident in adopting these values and behaviours. This should build on recently introduced staff briefings to include a programme of staff engagement including “pulse” checks to benchmark and monitor progress on the organisation’s wellbeing.

As with all councils, it was recognised that members come from different backgrounds, bringing different skills and capabilities. A member development programme is in place, with the Council being supported by the Local Government Association (LGA) in its update and delivery, and member personal development plans have been introduced, which is good practice.

The Council should ensure that the review of the member development programme is appropriate. In particular, thought should be given to how members with special responsibility roles are developed and supported. This should include succession planning for these roles.

How the council’s real situation compares to its sense of self

It was felt that Members have a good understanding of their communities’ needs and what outcomes are required to meet these needs, particularly in relation to their wards. However, it was recognised – as already mentioned – that the Council needs to ensure that these needs and outcomes are reflected in corporate priorities and outcomes and delivery is effectively monitored. Similarly, while improvements are being made in relation to public consultation on the Corporate Plan there remains no visible consultation on the Council’s budget setting priorities.

A key area of weakness is the lack of a performance management framework to manage corporate progress against key performance indicators. More also needs to be done to change the siloed approach to managing service delivery. We note that there has not been a structured or effective “early warning” system in place for the Council’s Leadership Team to identify key risks and issues.

This has been recognised and arrangements are being put in place so that the Leadership Team reviews strategic risks, budget monitoring and other performance data. **However, further work is required to establish a formal performance management framework and agree a set of key corporate indicators for the Leadership Team to collectively manage, receive appropriate management information to monitor progress, and set out clear lines of accountability, responsibility, and delegated authority.**

The Council has not had a consistent approach to financial benchmarking and so has had an absence of unit costs and financial trend data. The new Director of Finance has recently introduced financial benchmarking, which is good practice. **This will need to be sustained to create a culture of curiosity in services in how nearest statistical neighbours are performing, to support savings identification and to drive improvements.**

The recent restructuring of Council departments has resulted in a lack of clarity as to which department some services sit in, with the architects of the restructuring no longer working for the Council. Finance and services are currently working through such service allocations, but until this work is completed, financial reporting will not be fully aligned to departmental structures.

More generally there is good evidence that many senior officers are engaged in their respective professional bodies, which includes sharing learning, and that the Council is corporately engaged with the LGA.

KLOE B4: Officer and member relationships (cont'd)

Quality of local / external relationships

The quality of local / external relationships is mixed. The Council works with a variety of local public, private and third sector bodies, and these relationships vary by service. It is recognised that the pandemic has enhanced relationships with some local public sector organisations, such as the NHS and police, and with local voluntary and community organisations, and that the Council should ensure that these gains are maintained.

However, the Council has had an insularity in recent years, which in particular has impacted its engagement with businesses, and sub-regional bodies such as the LEP and the West Midlands Combined Authority. This is recognised by the current political leadership of the Council and there are signs of a move to more active participation in key sub-regional bodies. Rebuilding these key strategic relationships will take time for the Council to realise any benefits and “punch at its weight” as the 34th largest council in England. **It will be important that this more outward looking approach is sustained.**

The insularity of the Council has also meant that its communications to external organisations has been weak, for example resulting in a lack of external clarity on the Council’s key strategic priorities. This is also reflected in a passive approach to communicating to local residents and businesses. This too has been recognised and the Council is investing in its central communications team and aims to be more proactive in managing the narrative on the Council, including greater communication of positive news stories.

When investing in the communications team, the Council should also use this as an opportunity to ensure more effective internal communications, including with back-bench members.

The Council has a number of key external partners for the delivery of services such as waste and recycling, children’s social care, and leisure. These relationships are covered in separate KLOEs.

The state of member oversight through scrutiny and audit

The role that scrutiny and audit should play in holding a council’s decision-makers to account makes these roles fundamentally important to the successful functioning of local democracy and good governance. Effective scrutiny helps secure the efficient delivery of public services and can drive improvements within the Council. Conversely, poor scrutiny can be indicative of wider governance, leadership and service failure.

The effectiveness of the Scrutiny Boards and the Audit and Risk Assurance Committee were viewed as needing improvement by those interviewed and, in particular, by senior officers.

The Labour Party has been in control of the Council since 1979 and for many years had not had an official opposition. The position changed at the May 2021 local elections when the Conservative Party gained nine seats (having previously held no seats). From a governance perspective this was welcomed by both the senior officers and senior members who we met during the course of our review.

However, whilst areas of effective activity were recognised, the long period of having no opposition has meant that the audit and scrutiny functions have not always effectively held key decision makers to account. This was a widely held view amongst officers we interviewed.

There is a need to ensure that members of scrutiny and audit committees are aware of their governance roles including how to interrogate reports and ask the right questions. This is recognised by the Council who are working with the LGA to develop and provide a member training programme for members with scrutiny and audit roles.

KLOE A1: Sandwell Children's Trust

The purpose of this KLOE was to consider actions undertaken by the Council to secure improvement in children's social care outcomes.

Background

Following an inadequate / requires improvement Ofsted inspection in June 2015, at its meeting on 19 October 2016, Cabinet was advised of the Government's Statutory Direction (under Section 479A of the Education Act 1996) to set up a new arrangement in the form of a children's trust to deliver children's social care services. As a result, Sandwell Children's Trust (SCT) started operating on 1 April 2018. Any alternative to the current arrangement must be agreed by the Secretary of State for Education.

A 10-year service delivery contract (SDC) between the Council and SCT commenced 1 April 2018, setting out the requirements for the provision of children's social care. The SDC obligation was to reach an Ofsted judgement of 'Requires Improvement' by 2020 and to secure an Ofsted judgement of 'Good' by 2022. However, due to the impact of COVID-19 and the cessation of full inspections by Ofsted in 2020, a full Ofsted inspection may not take place in 2021 but is more likely to be in early 2022.

The Ofsted Inspection carried out in November 2017 and reported in January 2018 noted that most of the recommendations from the Ofsted 2015 inspection had not been fully met and some services have declined in effectiveness.

Our Audit Findings Report for 2019/20 noted that we had completed a risk-based review of the Council's value for money arrangements and concluded that the Council had proper arrangements in place to secure economy, efficiency and effectiveness in its use of resources except for its arrangements around children's services which have been rated as 'inadequate' by Ofsted.

We concluded that there were weaknesses in the Council's arrangements for delivering services for children in need of help and protection, children looked after and care leavers. These matters were considered evidence of weaknesses in proper arrangements for understanding and using appropriate and reliable financial and performance information to support informed decision making and performance management. This led to a qualified 'except for' value for money conclusion for 2019/20.

KEY FINDINGS

Governance arrangements

There is a robust governance framework in place for the Council and other stakeholders to monitor the performance of SCT.

The contract requires that the Director of Children's Services, together with Council senior officers from finance and legal services, and the Chief Executive of the Trust meet on at least a monthly basis to consider performance and operational matters at an Operational Partnership Board (OPB). The Council's Lead Member for Children's Services and the Chief Executive meet quarterly with the Chair of the Trust Board and the Chief Executive of the Trust, at a Strategic Partnership Board (SPB).

The contract also requires the Trust to provide a comprehensive annual review for consideration by the OPB and the SPB and then by the Cabinet. Progress against the performance indicators for the period 1 April to 31 March is set out in an Annual Review, together with information about financial, workforce, and other performance areas.

On behalf of the Council, the Trust has developed an Improvement Plan in response to the Ofsted inspection findings published in January 2018. This plan was presented to Cabinet in September 2018 and covered a three-year period. The Trust has undertaken a refresh of the Improvement Plan. The delivery of the improvement plan is overseen by an Improvement Board, which is independently chaired, with representatives from the Council, Trust and Department for Education attending.

DfE appoint the Chair of the SCT Board, carry out six-monthly monitoring visits, are invited to attend OPB and meet regularly with the Chair and CEO of the Trust. They also attend the Improvement Board and have provided approximately £7m of improvement funding to the Trust over the past three years, to address specific improvement areas.

The Trust is required to report to the Council's Scrutiny Board twice each year as part of the obligations set out in the SDC. At the meeting of 23 August 2021, reports in respect of the annual review, the improvement plan, the pandemic response and the adoption service were presented to the Children's Services and Education Scrutiny Board. The Council's Audit and Risk Assurance Committee and Cabinet also received reports on the Trust, and the Cabinet approves the Trust's business plan.

KLOE A1: Sandwell Children's Trust (cont'd)

The purpose of this KLOE was to consider actions undertaken by the Council to secure improvement in children's social care outcomes.

Page 73

Governance arrangements (cont'd)

In addition to the above, SCT activity also features in wider children's services governance arrangements, the Children's Safeguarding Partnership and the Children and Young People Commissioning Partnership.

In summary, there are comprehensive governance arrangements in place relating to SCT. Given the complexity of these governance arrangements we recommend a review to ensure that officers and members with roles on the various governance bodies are clear on their responsibilities, to avoid duplication and ensure effective communication between those holding governance roles and that there is a collective understanding of the performance of SCT and how risks and issues are being managed.

Contract management

The SDC includes a set of 15 Key Performance Indicators (KPIs) which are monitored by the Council. We have been advised that when the SDC initially went live that this KPIs were not agreed, rather they were agreed during the first quarter of the Trust's operation. They have not been revised subsequently.

An officer with formal responsibility for managing the SDC was not appointed until Spring 2021, previously this role was spread across a number of different officers.

As part of contract management arrangements there is provision to negotiate the Council's annual funding with SCT (the contract sum) which feeds into Council's annual budget setting process.

The SDC sets out the steps and timing of the negotiation of the contract sum, which includes reviews by OPB, SPB, and the Council's Cabinet and Scrutiny Board.

The following contract sums have been agreed:

- 2018/19: £58,229,695
- 2019/20: £64,043,000
- 2020/21: £65,828,000
- 2021/22: £68,028,000

A request for additional £500,000 has been made by SCT during this financial year, which the Cabinet has approved and is being funded via a COVID-19 reserve. This will form a contract variation to the 2021/22 contract sum.

The Council has sought to reduce the contract sum since the creation of the Trust, seeking improvement and transformation from SCT. This has not happened and has negatively impacted on relationships during some annual contract sum negotiations. This was particularly the case during 2020 when the Council and SCT were unable to agree the contract sum. As a result, DfE became involved and the then Children's Minister supported mediation. DfE funded specialist financial support to provide assurances to the Council that SCT's contract sum request was reasonable. This led to the Council approving the contract sum. Such an impasse has not happened subsequently.

SCT financial performance

SCT has a track record of annual overspends and not achieving planned savings targets. The overspend in 2020/21 was approximately £2m, however one-off government COVID-19 funding resulted in the final outturn being an underspend. The Council has worked with SCT to re-profile the Trust's underlying overspend over the three years of the Council's current Medium-Term Financial Plan (MTFP).

Children's social care has significant demand pressures nationally, which have been exacerbated by COVID-19, and SCT has seen increased costs such as for placements for looked after children.

SCT did not deliver £250k of their planned savings target in 2020/21. SCT has a savings target of £1.8m in 2021/22. We have been advised that £1.3m of the planned £1.8m savings are on target to be achieved, with plans in place to deliver the remaining £500k. The savings primarily relate to staffing and placement costs, with the latter sensitive to increased demand.

SCT has Service Level Agreements (SLAs) to buy back services from the Council for specified back-office services. These SLAs total £2.1m for 2021/22 and represent an income to the Council.

KLOE A1: Sandwell Children's Trust

The purpose of this KLOE was to consider actions undertaken by the Council to secure improvement in children's social care outcomes.

Page 74

Council management of financial risks

The Council's main source of monitoring the financial performance of SCT is via SCT reports to monthly meetings of OPB and quarterly meetings of SPB. SCT provides updates on forecast overspends and mitigations.

Given the financial pressures on SCT, the Council has set aside the following reserves and contingencies:

- High-cost placements reserve of £1m (£500k for 2022/23 and £500k for 2023/24) with SCT having to submit evidence should they claim for an additional contract sum.
- Earmarked COVID-19 reserve of £1.9m for 2020/21 which SCT claims against on a quarterly basis by demonstrating need. The additional £500k contract sum already mentioned was funded via this reserve.
- General contingency of £1.6m for 2021/22

Leadership and relationships

The CEO of SCT and the Council's Director of Children's Services (DCS) are key roles and their working relationship is critical to the effectiveness of SCT delivery. There had been stability in both roles until this year, with the Council's DCS leaving in August and a change to the SCT CEO in March. Since the DCS left the Council in August, an officer is acting up in the role of DCS, supported by an external interim. A new, permanent DCS is due to start in November 2021. The working relationship of the CEO of SCT and the Council's new permanent DCS will be critical going forward

This is particularly the case as the Council did not transfer all children's services to SCT, retaining direct provision of services such as education, SEND transport and children's centres. The Council is also responsible for other services such as housing and has a key role in supporting SCT in relation to early intervention and prevention, and in reducing demand for children's social care. This includes how the Council and SCT work with children and families and other local agencies such as the police. We note that the Children and Young People Strategic Partnership has not yet agreed an early help plan and associated performance framework. The role of the DCS will be critical in collaborating with partner organisations to reach agreement on this plan.

SCT workforce

There have been a number of changes to SCT senior management including the Finance Director role and a restructure which reduced the number of Directors from three to two. However, the key workforce issue for SCT relates to operational roles with significant recruitment and retention challenges with social workers. SCT has invested in a recruitment campaign called 12 reasons to work in Sandwell but this has not been effective in resolving recruitment and retention issues, which we note is an issue for the West Midlands and children's social care nationally. The workforce are also initiative weary, which reflects the actions resulting from repeated Ofsted reviews.

Nonetheless, the use of agency staff to cover vacant roles, and staff sickness levels, pose a significant risk to the continuity and quality of service delivery, along with increasing costs for the Trust, which in turn is likely to impact on Council budgets.

Risk management

The Council has SCT on its strategic risk register, and updates on this are provided to the Audit and Risk Assurance Committee. SCT is also included in the Children's Services departmental risk register.

SCT have adopted a risk management framework and maintain a risk register which is reviewed quarterly and is reported to the Trust's Audit Committee. SCT management report to OPB on key risks facing the trust such as those relating to financial, performance and quality risks. SCT management discuss key risks with Council management outside the monthly OPB meetings. However, SCT does not share its full risk register with the Council.

KLOE A1: Sandwell Children's Trust (cont'd)

The purpose of this KLOE was to consider actions undertaken by the Council to secure improvement in children's social care outcomes.

Page 75

Outcomes for children

Ofsted inspections were suspended during COVID-19. The most recent focused visit was undertaken by Ofsted in March 2021 which was reported in May 2021, which noted:

- Both the Council and SCT have risen to the challenge of the COVID-19 pandemic.
- The impact of the third lockdown and rising COVID-19 rates have had a significant impact on staffing, with increased staff turnover and sickness.
- The Trust continues to have serious weaknesses in some areas identified in previous inspections. Decisions that help to secure the living arrangements of children on a long-term basis are not timely, and placements are not always well matched. There is a lack of effective oversight and challenge to poor practice from team managers and independent reviewing officers. Support services to meet the mental health needs of care leavers are still not routinely in place.
- In some practice areas, not all managers have fully understood the full breadth of the issues, and this has impacted on the progress and pace of improvement. Many of the identified areas of weakness are longstanding and pre-date the pandemic. An understanding of practice deficits has not led to timely improvements and solutions for many children. The leadership team has plans in place to drive the required changes but has been slow to implement these successfully, and there is little evidence of impact.

During our review, in August 2021, Ofsted reviewed the fostering service which was rated Good. This was the first Good rating received by SCT and indicates positive progress is being made in relation to this service area. It also provides SCT with an opportunity of moving the narrative on its improvement trajectory, for example in relation to recruitment and retention issues.

Conclusion and recommendations

Whilst the recent Ofsted rating of fostering services demonstrates some positive progress, it is clear from the March 2021 Ofsted focus visit that some areas of significant improvement are still required. Staff turnover and quality of practice remain a risk to safeguarding children and the quality of their outcomes.

It is positive that Ofsted have reported the success of SCT and the Council's response to COVID-19, and we note that demand led pressures and recruitment and retention challenges are not unique to Sandwell.

However, during its time of operation SCT has struggled to move away from day-to-day firefighting and has not been able to invest in early intervention and prevention, or improve and transform to the extent required by the Council. Looked after children numbers and social worker caseloads, whilst both are reducing, remain high.

The statutory responsibility for children's social care sits with the Council via the role of the DCS. As such there is joint accountability for the successful delivery of services and outcomes for children. Relationships between the Council and SCT have on occasion been an "us and them" culture with a lack of collaborative approach and joint accountability.

The Council's senior leadership – both officer and member – should prioritise corporate effort and develop a clear strategy for working with SCT to ensure it remains on its improvement trajectory. This should include:

- **working with SCT to progress a multi-agency early intervention and prevention strategy.**
- **ensuring SCT has an appropriately resourced and skilled placements team in place to effectively manage the care market.**
- **conducting a review of KPIs to ensure they are effective for current circumstances.**
- **undertaking financial benchmarking in relation to children's social care, and take a realistic and pragmatic view on the level of funding required.**
- **reviewing the governance roles of officers and members in relation to SCT so that they are clear on their responsibilities, avoid duplication, ensure effective communication and that there is a collective understanding of the performance of SCT and how risks and issues are being managed.**

KLOE A2: Sandwell Leisure Trust

The purpose of this KLOE was to consider the Council's management of the contract with SLT and to understand the impact of recent industrial action.

Background

Sandwell Leisure Trust (SLT) was formed by the Council in 2004 due to underperformance of the in-house leisure service. SLT was contracted via a Management and Funding Agreement (MFA) for a 30-year period: 2004 to 2034, and SLT is currently in the 18th contract year (1 April 2021 – 30 March 2022). SLT manage all Council leisure facilities apart from one site, for which the Council has contracted with Places Leisure.

Funding for SLT was agreed for the first five years of the contract, which was extended in 2009 and 2011. Thereafter the annual management fee paid to SLT has been based on the approval of a rolling three-year business plan. The Council remains responsible for maintaining and investing in the leisure assets managed by SLT.

When SLT was created Council staff transferred to the Trust under the Transfer of Undertakings (Protection of Employment) Regulations 2006 (TUPE). A deed of variation was agreed in 2013 which permitted SLT to implement a separate single status agreement and move their staff from council terms and conditions of employment.

A deed of variation was agreed in 2016 that in the event of a new leisure facility being built in Smethwick to replace existing Smethwick facilities, SLT would be the operator. To that end SLT have been working with the Council as the assumed operator of the forthcoming Sandwell Aquatics Centre, which is being constructed as a venue for the 2022 Commonwealth Games.

OUR FINDINGS

Contract management

The MFA requires SLT to provide quarterly monitoring reports to the Council which is followed by a contract review meeting. The MFA sets out the KPIs for monitoring the contract. There have been attempts by the Council to update the KPIs during the delivery of the contract, for example to include outcomes such as contribution to the health outcomes in the borough, which has largely been unsuccessful. The key performance indicators are based on throughputs, such as the total number of visits, with a target to increase visits by 1% each year of the contract.

The contract with SLT stipulates an authorised officer from the Council should manage the contract and make decisions relating to the delivery of the contract. The long-standing officer in this role was seconded in January 2018 and a more junior officer was seconded to the authorised officer role. This has led to confusion within the Council and with SLT as to who is in the authorised officer role, due to more senior officers supporting the officer in the authorised role. This in turn has impacted on the agility of decision making by the Council and its effective working relationship with SLT.

SLT Business Plan

The MFA sets out that SLT should have at any one time a business plan agreed for a three-year period, which the Council agrees on a rolling annual basis. The business plan for 2021/22 has been agreed, but the Council has not yet agreed the business plan covering 2022/23 to 2023/24, which should have been approved by end of March 2021.

If the Council and SLT fail to agree a business plan the contract resolution approach is instigated. The Council is currently seeking external legal advice to clarify the resolution process. If resolution can't be reached either party can terminate the contract.

The current impasse has resulted from the Council wanting, over a number of years, to significantly reduce the management fee for the contract, in the context of ongoing funding reductions to the Council, and the Trust demonstrating progress towards achieving financial sustainability and less reliance on Council funding. The Council and SLT have not been able to agree the level of funding for 2022/23 and 2023/24.

As part of this process the Council has sought various clarifications on the draft business plan submitted by SLT and has engaged, via Sport England, a consultant to review the Trust's financial position. A feature of recent business plan discussions has been the Council seeking details and clarifications from SLT relating to its financial position, such as the Trust's financial and management accounts, and the Trust's approach membership data and marketing plans. Both the Council and SLT feel there have been delays in the responsiveness from the other party during this period.

On 2 August 2021 SLT sent the Council an early warning letter highlighting financial concerns and a £750k worse than expected financial position for 2021/22 and 2022/23. SLT suggested that the impact of any changes were likely to increase the management fee requested for 2021/22.

The Council management met SLT management on 11 August 2021 and the Council confirmed areas of outstanding information and clarification. The Trust advised that their audited 2020/21 accounts would be presented to the SLT Board on 14 September 2021, and thereafter be shared with the Council. SLT management also advised that by reprofiling their budgets the £750k was no longer being sought.

At the time of concluding this review the business plan and funding agreement for 2022/23 and 2023/24 had not been approved. Typically, the process for negotiating the 2024/25 business plan would have recently started, to conclude by the end of March 2022.

KLOE A2: Sandwell Leisure Trust (cont'd)

The purpose of this KLOE was to consider the Council's management of the contract with SLT and to understand the impact of recent industrial action.

Industrial relations

SLT in line with the 2013 deed of variation with the Council, went through a process of withdrawal from the National Joint Council (NJC) staff pay and conditions, which are those used by the Council, and which had transferred with staff when they TUPEd to SLT from the Council in 2014.

This decision was taken in November 2020, with staff needing to agree to the new terms and conditions. Council management have reported they felt they were not involved in this decision, whilst SLT management have advised the decision was taken to reduce costs, an issue which formed part of business plan negotiations.

SLT management negotiated with trade unions and the Advisory, Conciliation and Arbitration Service (ACAS) were brought in by SLT to help mediate. The trade unions sought industrial action to reverse the decision, which has led to two episodes of strike action during 2021.

GMB have ceased industrial action, whilst Unison have continued. 16 Unison members have taken strike action out of a total SLT workforce of over 400, and the most recent Unison ballot for strike action was due to conclude on 13 October 2021.

We understand that all SLT staff have now agreed to the new terms and conditions, which SLT management have confirmed will not be reviewed until April 2022.

The strike action has seen one leisure facility close on one occasion, with some services impacted at other leisure facilities.

Conclusion and recommendation

The Council has sought over many years, via the annual business planning and funding agreement process, for SLT to become more commercially innovative in its operations, and to reduce its reliance on Council funding. This has not been successful, and relationships between the Council and SLT have now broken down, reflected in the significant delays in approving the 2022/23 to 2023/34 business plan and associated funding agreement.

The ultimate responsibility for the operation of leisure services sits with the Council as the commissioner of SLT and, as with SCT, the Council has at times appeared to lose sight of this joint responsibility and an "us and them" culture has been in evidence.

At the time of finalising our report the Council has triggered the contract escalation procedure and written to SLT management for the Leader of the Council and the CEO of SLT to meet and agree a definitive timescale for resolution.

The Senior Leadership - both officer and member - must take ownership of this issue, prioritise corporate effort and take urgent steps to either resolve the current position with SLT or consider the options for alternative provision should either party decide to terminate the current contract, to ensure the continuity of future leisure service provision and associated reputational impacts.

KLOE A3: Providence Place

The purpose of this KLOE was to consider the potential loss to the Council arising from the proposed sale of Providence Place.

Background

In 2007 the Council signed a 15-year Strategic Partnership Agreement with BT for the provision of various support services. As part of this arrangement BT agreed a pre-let from a company called Stofords, the long-leaseholders of 1 Providence Place (Providence Place) for a term of 15 years at a rent of £1.2m per annum. Following the demise of this Strategic Partner Agreement the Council decided to take an assignment of this lease, thereby becoming tenants and inheriting the lease obligations. Simultaneously the Council sub-let part ground, first and fourth floors to BT on flexible terms (with breaks) at a rent starting at £605k per annum (with uplifts).

In July 2014, Cabinet subsequently approved the purchase of the long leasehold interest in Providence Place at a cost of £23.558m. This purchase price was supported by an open-market valuation by DTZ of the long leasehold interest. The valuation reflected the guaranteed income stream.

In June 2019, the Department for Education (DfE) approved the provision of a new, 750 place secondary free school in West Bromwich, to be delivered in partnership with Shireland Academy and the City of Birmingham Symphony Orchestra (CBSO). It was proposed that the Council sell the freehold interest of Providence Place with vacant possession, along with a development plot to the DfE. DfE would invest up to £17m in converting the building into a school, with a provisional completion date of September 2023. The Council considered that the building of the Academy and the basing of the CBSO in the area would have significant economic and cultural benefits.

The Council undertook an assessment of its property needs, reviewing its office estate and space requirement for office workers. It was decided that the Council no longer required the capacity offered by Providence Place and on 22 July 2020, the Cabinet approved that Providence Place was surplus to the Council's office accommodation requirements.

A receipt of £8.46m was generated from the sale of Providence Place to DfE, which was significantly below the acquisition price of £23.558m in 2014. This is because the building is being sold with vacant possession, without the benefit of a secure income stream. The sale price is based on a valuation report by Lambert Smith Hampton dated 17th March 2020. It is possible that the Council could have achieved the acquisition price if it had sold with a long-term tenant. The Council is still committed to making the loan and interest payments related to the initial purchase. The total remaining loan and interest (for the period 2021 to 2055) are £31.69m.

As part of our 2019/20 financial statements audit we considered the actions taken by the Council in both 2014 and 2020. When viewed separately the actions do not appear unreasonable. The 2014 decision to purchase the asset with a long leasehold interest was based on external valuations at market value. Similarly, the sale to DfE was at the current market value based on there being no long leasehold in place.

However, when viewed together it is clear that the Council made a significant loss on the basis of these decisions. We estimated that the direct loss against the 2014 purchase price of Providence Place was c. £15m (Purchase price £23m, sale price £8.46m). We also noted that future loan and interest payments of £31m need to be made (against which only the capital receipt arising from the sale of £8.46m can be set). In effect the total loss to the Council is c£22.5m. This is a significant loss. We note that the Council has received rents from BT totalling £5.386m and it has also had beneficial occupation of part ground, second and third floors since 2014. However, it would also have incurred maintenance and running costs for the building.

Our 2019/20 audit findings report (AFR) considered the reasons for such a significant loss. Whilst difficult to determine we considered that:

- greater challenge should have been applied to the original purchase price, especially as the price paid appears to reflect a long leasehold period but break clauses existed in the leases.
- the original purchase was intended to support the Council's Office Accommodation Strategy. It was envisaged that by 2017, the Council's workforce would reduce by 20-30% and the premises could then be used to accommodate more staff from less efficient buildings, thereby rationalising the use of council assets. The later change in the estates strategy with Providence Place being considered to be surplus has significantly undermined the original basis on which it was purchased.

We noted that, as Providence Place was being sold at its current market value and the decision to purchase it was made in 2014 we do not consider that the sale impacts on our 2019/20 VfM conclusion. However, due to the significance of the loss we have raised this matter with the Chief Executive to ensure that future purchases or sales of land and property are clearly aligned with a long-term estate strategy. Our AFR recommended that management should ensure that all purchases and sales of assets are clearly aligned with the Council's accommodation strategy.

KLOE A3: Providence Place (cont'd)

The purpose of this KLOE was to consider the potential loss to the Council arising from the proposed sale of Providence Place.

Page 9

FINDINGS

The purchase and disposal of Providence Place went through the Council's governance and decision-making processes in place at these times, drawing on external property consultants and valuations advice.

Following the approach by DfE, and the Council determining there was no longer a use for Providence Place for office accommodation, an options appraisal was undertaken which was reported to Cabinet and Scrutiny. This options appraisal considered options in relation to Providence Place such as disposing of the site on the open market, retaining and leasing the property, and the Council funding the school instead of DfE.

The Council has a statutory duty to provide appropriate levels of school places, but the options appraisal did not consider alternative options for the location of the Academy outside of West Bromwich. Similarly, the options appraisal also did not represent a formal cost-benefit-analysis between alternate sites outside of West Bromwich. We note that other sites suggested by the DfE within West Bromwich would have impacted the highway network and / or led to financial loss by the Council.

We note that if an alternative site was approved, the Council could have continued to utilise the building or alternatively may have been able to lease the building on a long-term basis thereby reducing the loss incurred.

The Council's post pandemic workplace vision and strategy supported the Council's decision that it no longer had a use for Providence Place for office accommodation. Providence Place would then become solely a commercial property investment, and it is not clear how the decision taken to dispose of Providence Place formed part of the Council's property strategy including an asset disposal strategy.

British Telecom Lease

The Council agreed to dispose of Providence Place in August 2020 and contracts were exchanged with DfE provided that the Council agreed to the surrender of BT's lease by 30 June 2021 in order to vacate the building. BT held the lease until 2026 and had no contractual obligation to move. On 6 June 2021 Cabinet agreed to the terms of BT surrendering their lease at Providence Place.

These terms included the Council having no obligation to provide BT with alternative accommodation, the Council would pay BT a surrender premium equivalent to one year's rent of £446.4k + VAT, BT would be waived liability for dilapidation and decommissioning works and the Council would be liable for BT's legal costs for surrender. Contracts would be exchanged by the end of June 2021 and BT's surrender date be 31 December 2021 to satisfy the Council's obligations with DfE. The costs to the Council would be funded via a sinking fund for Providence Place to cover unforeseen costs.

Conclusions and recommendations

As stated as part of our 2019/20 financial statements audit we considered the action taken by the Council in both 2014 and 2020. Viewed separately the actions do not appear unreasonable. The 2014 decision to purchase the asset with a long leasehold interest was based on external valuations at market value. Similarly, the sale to DfE was at the current market value based on there being no long leasehold in place. However, when viewed together it is clear that the Council made a significant loss on the basis of these decisions.

Property transactions such as those relating to Providence Place are complex. **Where the Council considers similar transactions in future, those charged with making decisions must satisfy themselves that they fully understand the detail of the options being proposed. Council officers and their advisors have a responsibility to ensure that members making decisions do so having fully understood these complexities and risks.**

The Council should ensure that all future property or land acquisitions and disposals are clearly aligned with relevant Council property related strategies.

KLOE A4: SEND Transport

The purpose of this KLOE was to consider the circumstances relating to the recent procurement of SEND Transport and the Council's current approach to concluding the procurement.

Background

The Council's Special Education Needs and Disabilities Passenger Transport (SEND Transport) contract expired at the end of August 2021. Currently 19 operators deliver 122 contracts which are in place to meet the Council's statutory duty under Section 508B and Schedule 35B of the Education Act 1996, whereby local authorities are under a statutory duty to provide free school transport to eligible children.

The Council's budget for the provision of SEND Transport was significantly under pressure with a forecast spend of £6.1m in 2020/21 against a budget of £2.5m. This was caused by a combination of factors, in particular increasing demand.

The Council undertook a procurement exercise, pursuant to its Procurement and Contract Procurement Procedure Rules in relation to a new SEND Transport Contract for 2021-25 (the new Contract) to award a new contract – at a potential total cost of £22m over four years. The Council sought to achieve greater economies of scale and value for money alongside addressing new and emerging issues within the sector including the risk of modern-day slavery, and improving the overall delivery of the service.

In August 2020, the Council's Cabinet approved the establishing of a new Dynamic Purchasing System (DPS) for the new Contract. A DPS was used for the existing SEND Transport contract. Following stage one of the new DPS, a closed bidder tender process was undertaken as stage 2 in March and April 2021. An evaluation of the proposals took place and a Cabinet Report was prepared setting out the conclusion of the evaluation, and the recommended awarding passenger transport related contracts via the new DPS effective as from 1 September 2021.

The Council's Cabinet, at its meeting on 16 June 2021, considered the award of four lots as the outcome of the procurement, which would have provided a £300k saving on the previous contract as well as improving service quality. The Cabinet deferred the matter following various concerns being raised over the process which had been raised following the publication of Cabinet papers prior to the meeting taking place.

An internal audit fact finding exercise regarding the proposed award of the SEND Transport Contracts for 2021-25 was then undertaken.

The Council took external legal advice on the options available, and an emergency Cabinet meeting took place on 21 July 2021 which agreed to continue to use the existing contracts with providers for the continued provision of SEND transport until 23rd February 2022, in order that the Council meets its statutory duties.

KEY FINDINGS

Internal Audit review

Internal Audit undertook a review, reporting in June 2021, which examined the background to and decision making relating to the 2021-25 contracts, compliance with the Council's procurement and contract rules, the approach adopted to supplier inclusion to DPS and the associated tender, how the outcome of the tender evaluation was reported to Members, and considered if any inappropriate or fraudulent activity had taken place. This report noted:

- Some of the concerns raised related to the identity of the owner of the two companies initially selected as the successful bidders, and the fact he was a former employee of the Council and the son of a former Deputy Leader, who was investigated into a series of land sales involving the Council (known as the Wragge report). As neither individual had any known current role or association with the Council they did not form part of the scope of the review.
- Many of the concerns were raised by current suppliers of this service to the Council that have not been successful in the latest procurement exercise, so there would be an element of potential disappointment and disgruntlement behind parts of them. However, each of the concerns were dealt with objectively, and in certain cases they were found not to be fully accurate in their interpretation. For example, a number of officers from both procurement and the service area were involved in the assessment process.

The internal audit report concluded:

- The procurement was undertaken with the correct intentions.
- Some concerns and issues raised have an element of substance.
- A number of issues regarding the quality of certain information provided by bidders in support of their applications
- A number of key Council processes were not followed. In particular the need for officers involved in the exercise to formally declare if they have any potential conflict of interests, the completion of a Starting a Procurement form which captures key information from the outset, and to respond to bidder's applications within agreed timescales. However, while internal procedures within service areas had not always been followed, none of these were in themselves a direct breach of the Council's Procurement and Contract Procedure Rules.

KLOE A4: SEND Transport (cont'd)

The purpose of this KLOE was to consider the circumstances relating to the recent procurement of SEND Transport and the Council's current approach to concluding the procurement.

KEY FINDINGS (cont'd)

- Sufficient documented consideration does not appear to have been given to both financial modelling and the risks, particularly around resilience, associated with the potential placing of all four large contracts with just two companies, who in themselves come under the ownership of one individual.
- None of the officers interviewed indicated that they had been placed under any pressure by any other officer or elected member as part of the procurement exercise.
- While the significant reduction in lots would see a subsequent reduction in the number of companies the Council would be contracting with, from the evidence available to them, Internal Audit found nothing to suggest that the reduction of competition was undertaken with the sole aim of benefitting two particular companies. Similarly, they came across no evidence to suggest that any inappropriate or fraudulent activity had taken place.

The Internal Audit report concluded that the issues identified in the review in all likelihood will necessitate a need to revisit the procurement exercise. In particular the way in which use was made of the DPS including restricting the number of lots available, how initial decision making was considered, agreed and recorded, and how information and the lack of detail thereof, was relayed back to the Cabinet in order for them, and later Scrutiny, to make an informed decision, on what is in effect a £20m contract award.

Other reviews

The Council's Corporate and Budget Scrutiny Board and the Children's Services and Education Board have agreed to jointly examine existing and proposed arrangements for SEND transport provision. The Council's Audit and Risk Assurance Committee Chair is undertaking a fact-finding exercise into the original procurement exercise. Both activities had not been concluded during the course of our review.

The Council sought to commission an independent review of the original procurement. This review planned to assess the compliance and probity of the original procurement, including re-running the evaluation stage. This did not proceed due there being only one bidder, and the cost being deemed not best value.

Financial management

Since 2018 the overall cost of providing travel assistance including parent mileage, travel passes and more recently the offer of personal travel budgets has increased by 45% from £3m in 2018/19 to a projected cost of £6.4m for 2021/22. Over the same period SEND pupils requiring travel assistance has increased from 680 to 850 with the average cost per pupil increasing from £5.1k pa to £7.6k pa. This situation is not unique to the Council.

The pressure on the SEND Transport budget has been managed over recent years by using carried forward underspends in the Education Directorate budget or using one off contributions from reserves. These were fully utilised by the end of March 2021 and the Council agreed additional funding for 2021/22 with the budget increased to £5.6m. A projected budget pressure of £800k remains, which excludes the impact of continuing with the existing DPS framework from September 2021 to February 2022.

The Council's approach to managing the overspends prior to 2021/22 mean that the base budget for SEND Transport did not reflect the true cost of providing the service. This led to some of the criticisms in relation to the value of the planned procurement award.

The extension of the original DPS contract by six months has seen an increase in forecast costs for the service

Delegation and communication

Cabinet approved the procurement approach at its meeting in August 2020, delegating the detailed design, including lot structure, to the Travel Assistance Service team, working with the procurement and legal teams, with the procurement team managing the overall procurement process

A key change to the existing DPS framework, which focused on costs, was to introduce a greater focus on quality in the new DPS framework, in relation to children's safeguarding, and employment practices.

KLOE A4: SEND Transport (cont'd)

The purpose of this KLOE was to consider the circumstances relating to the recent procurement of SEND Transport and the Council's current approach to concluding the procurement.

Delegation and communication (cont'd)

Whilst the teams involved in developing the new contract design were aware of the planned service quality benefits, such as improved safety standards, reliability and quality of the service, more could have been done to ensure key decision makers were aware of the reasons for the change and the planned benefits when the new procurement approach was discussed and agreed in August 2020, and prior to the planned approval in June 2021, noting the significant changes to members of the Cabinet between these two dates.

A comparison between providers used on the current contract with those who were being proposed to be awarded contracts via the new DBS framework may have also helped managed a more effective contract award discussion.

The publication of the proposed award

The Council chose to include the recommendations for the award of the new DPS contracts on the public part of the agenda papers for the Cabinet meeting on 16 June 2021, including the results of the evaluation. This was the direct cause of challenges being made to members of Cabinet prior to the meeting taking place. It is unusual for such potentially commercially sensitive information being made public in advance of a decision being made on the award of a major contract.

The outcome of the June Cabinet meeting has significantly impacted on the Council's reputation, including the matter being raised in Parliament, and has further impacted on the relationship between officers and members including levels of trust. The pausing of the procurement has also increased the level of expenditure on the services placing further pressure on the Council's budget, and creates risks for the Council such as accusations of suppliers canvassing members during the intervening period.

Conclusion of the procurement

The procurement of the contract was initially paused, pending the outcome of the various reviews being undertaken. However, in order to not have to further extend the current DPS contract, work has been undertaken, including obtaining external legal advice, to review the structuring of the lots, and to consider whether the new DPS framework will be used. A report is planned to be presented to Cabinet on 3 November 2021 to agree how to proceed.

Conclusions and recommendations

The focus of service quality in the new DPS framework represents important and positive progress for the Council in managing a major contract of this type. However, weaknesses have been identified by Internal Audit in some aspects of the procurement approach, although these did not represent a breach of the Council's Procurement and Contract Procedure Rules.

The manner of the pausing of the procurement has damaged the Council's reputation, put further strain on officer and member relationships, and created uncertainty and risks over how the conclusion of the procurement will be viewed and opened the Council up to potential legal challenges.

The Council already uses a DPS for commissioning travel assistance services, so has familiarity with the approach, as do providers. Whilst not the only procurement option, DPS is considered an appropriate procurement approach for a public sector organisation procuring services of this type. Operators can bid to be appointed to lots on the framework, and if unsuccessful continue to try do so by meeting the Council's service standards. When the Council requires a service, operators on the DPS framework are asked to tender for the work.

This was a major and complex procurement. An Invitation to Tender was advertised on 12 March 2021, with a closing date of 2 April 2021, for the contract to go live on 1 September 2021. This time frame was inadequate for such a large and complex contract.

The Council's senior leadership – both officers and members – must place priority on agreeing the outcome of the SEND Transport procurement exercise to ensure a further contract extension is not required. This should include:

- **Not losing the significant progress made on the contract specification's focus on service quality.**
- **Greater support, involvement, dialogue and oversight with the officer teams with responsibility for progressing the procurement.**
- **Ensuring the contract provides the Council with effective management and oversight of the personal transport market.**

KLOE A4: SEND Transport (cont'd)

The purpose of this KLOE was to consider the circumstances relating to the recent procurement of SEND Transport and the Council's current approach to concluding the procurement.

Recommendations (cont'd)

For the conclusion of the SEND Transport procurement and for all future major procurements, the Council should ensure that:

- **Record keeping and declarations of interest are undertaken in line with Council policies and procedures.**
- **Decision making does not create real or perceived risks in relation to inappropriate procurement decisions.**
- **Procurement timescales provide adequate time for both suppliers to submit high quality bids, and the Council to undertake appropriate evaluation, scrutiny and decision making. This timescale should include appropriate time in advance of the procurement for the council to undertake the necessary strategic thinking and planning required, and mitigate the risk of not making an award in the planned timescale**

KLOE A5: Sandwell Land and Property

The purpose of this KLOE was to consider the background to the establishment of the company, actions undertaken by the Council to ensure the company complies with legislation, and delays to winding down the company.

Background

Sandwell Land and Property (SLaP) was incorporated on 14 January 2011 as a limited company. SLaP was established by the Council as a vehicle for protecting the freehold of the Council's schools and related sites. SLaP is a non trading company and has no employees.

The Council is the sole shareholder of the company. SLaP is the freeholder of 99 education assets and leases them to the Council for a nominal sum of £1 per year in the form of ground rent, with the Council responsible for the maintenance of the assets as a condition of the lease.

Our 2019/20 Audit Findings Report noted that we have had extensive discussions with officers around the accounting for SLaP property and around the history and purpose of the company.

We agreed with management's view that the company should be wound up as soon as possible and that Council representatives should discuss with the Directors of the company the ongoing purpose of the company and whether it could continue in its current form. We requested additional assurances around the security of schools' assets should the company be wound up before a decision is made on the future of the company, with the company expected to be wound up during 2021/22.

KEY FINDINGS

Reason for creating the company

At the time of establishing SLaP, the Council understood that new legislation relating to academy schools created a risk that schools converting to academy status could take over the freehold of the Council's education assets. On taking external legal advice after establishing SLaP it was confirmed the freehold of education assets would not pass to academies.

Given the cost and additional complexity of managing an arm's length company arrangement, it is unclear why the Council has not sought to take education assets back in house sooner.

KEY FINDINGS

Compliance with legislation

The company and its Directors are governed by Company Acts law. There is evidence that the Directors of the company were not familiar with their legal responsibilities in relation to proper record keeping and failing to meet statutory deadlines for example submitting company accounts.

A number of Council members and officers have been appointed to company Director roles during the period of the company's operation, with one Director in place at the time of this review.

SLaP has never formally appointed a company secretary. A former Council Chief Executive, when a Director of the company, undertook the company secretary role informally. When they left their Director role in January 2019 it has been unclear who has subsequently delivered this role.

The administration of the company's business has been undertaken by officers of the Council, such as legal and finance, supporting members in company director roles, including an understanding of their company roles and obligations. We have not been able to confirm if formal guidance and training has ever been provided to company Directors. This has created a risk that Directors have not fully understood their legal responsibilities, including the distinction between the Council as shareholder and leaseholder, and SLaP as freeholder of the education assets.

The company was created without secretary of state consent, the Council has subsequently sought counsel advice that broadly indicated that if no government challenge had arisen, it was not likely to occur.

The company's accounts have been qualified in relation to asset valuations and ownership. We note that shares in the company were not issued in accordance with the relevant legislation.

Council's governance arrangements

SLaP is a risk on the Education Service risk register, but has not had a profile with the Council's senior leadership, and nor has there been a senior individual, since the former Chief Executive left the Council, with effective understanding and organisational oversight of the company.

KLOE A5: Sandwell Land and Property (cont'd)

The purpose of this KLOE was to consider the background to the establishment of the company, actions undertaken by the Council to ensure the company complies with legislation, and delays to winding down the company.

Current position

The Council has appointed external legal advisors to advise on the winding up of the company. The legal advisors are advising both the Council as shareholder and leaseholder, and the company in the form of the company director.

In October 2021 the Cabinet acting as shareholder of the company approved instruction to the SLaP director to pursue voluntary liquidation. An insolvency practitioner has been engaged to administer the winding up of the company. The insolvency practitioner has appointed a tax advisor to advise on any tax implications and has advised the Council that due to the nature of the company and the company's assets, they are able to transfer the assets to the Council on the basis of their indemnity as liquidator, ensuring they are not responsible for any liabilities identified during the winding up process.

The Council's legal team is reviewing the legal title and beneficial interests of each asset to ensure the Council will have legal title when transferred from SLaP, and whether beneficial interests sit with the Council or, for example if this should be transferred to another body such as a governing body of a school. Should such examples be identified, the beneficial interests should have been transferred prior to the asset being transferred to SLaP.

The winding up process had not concluded at the time of our review.

Conclusions and recommendation

The Council has incurred additional costs to set up, administer and wind up SLaP when the purpose of establishing the company proved to be unnecessary.

There has been significant weaknesses in the understanding of roles and responsibilities, between those acting on behalf of the Council and those acting on behalf of the company. There has been a lack of consistent senior leadership oversight of the company, highlighted by delays in progressing its winding up. There are a number of instances where the relevant legislation has not been followed, such as the issue of shares.

The Council should ensure that when considering establishing an arm's length company in the future there is a clear purpose for doing so and that those officers / members of the Council in company director roles are clear of their role and responsibilities in relation to that company.

Where arms length companies already exist the Council should gain assurances that company directors fully understand their company roles and responsibilities, that the company administration is properly resourced and appropriate training is provided to company directors. The purpose of the company should be revisited on a regular basis to determine whether the company continues to be of benefit to the Council.

KLOE A6: MADE Festival

The purpose of this KLOE was to consider the governance arrangements and decision making relating to the Council hosting this festival.

Background

The Council was approached by the organisers of the MADE music festival, for the potential to use Sandwell Valley, a Council owned site, as the venue for the festival, to be held in August 2020. MADE festival was established in 2014 with aims of celebrating West Midlands contemporary music, creative arts and street food.

The Council agreed to host the event, recognising its alignment to the Council's ambition to strengthen Sandwell Valley's identity as a 'destination gateway' into the Sandwell / West Midlands region, and as part of the wider proposals for establishing Sandwell Valley as future major festival site. The event would generate income for the Council of £18,000-£20,000 for hosting the festival.

Due to the subsequent outbreak of COVID-19 the festival was postponed in 2020, to take place on 31 July and 1 August 2021. The ongoing pandemic during 2021 and uncertainty regarding the timing of changes to government guidelines led to a late decision not to allow the festival to take place on the rescheduled dates. This led to a breakdown in relationship with the festival promoter, who considered legal action against the Council, a situation which was resolved with the festival ultimately taking place on 18 and 19 September 2021.

KEY FINDINGS

The original decision to host the festival was made by the then Leader of the Council on 15 January 2020. The Council's events team managed the planning for the event, including liaising with other relevant statutory bodies such as the police, via the Council's Statutory Advisory Group (SAG). SAG also had a role to ensure the Council's statutory responsibilities were met in relation to issues such as safety, traffic management and licencing permissions.

In the months and weeks prior to the rescheduled 2021 event taking place SAG received updates on all events due to take place in the borough, those hosted by the Council and those hosted by other bodies. During this period there remained uncertainty over the timing and nature of the government's four stage road map for easing COVID-19 lockdown restrictions, and because of this there were delays in formally approving that the MADE festival could take place as planned, with government delaying until 19 July when all legal limits on social contact in England would be removed.

The Council's Strategic Incident Management Team (SIMT) which was set up to consider various COVID-19 related activities, considered the viability of the rescheduled 2021 event. This included infection rates and vaccine take up in the borough, and the risks associated with the high level of visitor numbers expected to attend the event. SIMT comprised the majority of Directors on the Council's Leadership Team and relevant Heads of Service.

SIMT raised concerns about the viability of holding the event on 31 July and 1 August which were shared with event organisers and promoter at a meeting on 23 June 2021.

The event promoter advised the Council that should restrictions lift on 19 July 2021 and the event was not permitted to go ahead it would have serious consequences on the future sustainability of the event.

On 30 June at a further meeting the Council advised the organisers that the Council was not able to grant permission for the event to proceed as scheduled, until the Council had seen and interpreted the revised government regulations and guidance after 19 July 2021 and assess the COVID-19 safety of the event. The Council advised the organisers that these timescales meant it would be unwise for them to advance their current plans and a later date should be considered for the event.

The Council received a COVID-19 risk assessment from the organisers on 6 July which was reviewed by the Director of Public Health and discussed with the portfolio holder for Strong and Resilient Communities. Both raised concerns about holding the event on the planned days. The organisers requested the opportunity to submit a revised proposal for the event to take place on 18 and 19 September 2021.

On 13 July the Council became aware that tickets were being advertised by the promoter for the event on the planned event days and queried with the organisers why the event was being promoted. The Council then received a letter from the promoter's solicitors seeking Council justification for the decision to postpone, believing the Council had approved the event booking. The Council sought counsel advice, as the event booking form had a disclaimer in relation to COVID-19 and, in its view, the organisers had not provided all relevant documentation, for example, in relation to road closures.

The organisers also undertook negotiations with an alternative site outside of the borough which proved unsuccessful. The promoter advised the Council that the financial impact of not holding the event as planned could result in bankruptcy and he would consider taking legal action against the Council seeking recovery of costs.

The Council met the organisers on 22 July to discuss alternate September dates and the promoter announced the postponement of the event the following day.

KLOE A6: MADE Festival (cont'd)

The purpose of this KLOE was to consider the governance arrangements and decision making relating to the Council hosting this festival.

Pages
88

KEY FINDINGS (cont'd)

SAC met on 26 July to consider the alternate September dates and confirmed with the organisers on 29 July approval for the new dates, subject to satisfactory finalisation of all relevant plans and compliance with terms and conditions of booking.

The event took place on 18 and 19 September 2021.

Conclusions and recommendations

There was uncertainty on the timing and detail of government regulations relating to the staged removal of lockdown restrictions being faced by all organisations and individuals during this period. However, the Council demonstrated a lack of decisiveness and clarity of decision making with the organisers of the event, with the governance around this decision making unclear.

The strategic reason for originally making the decision to host what was planned to be an annual event was its alignment to the Council's ambition to strengthen Sandwell Valley's identity as a 'destination gateway' into the Sandwell / West Midlands region, and as part of the wider proposals for establishing Sandwell Valley as future major festival site. We note that the Council's relationship with the organisers has been negatively impacted by how the decision making process was managed. There is a risk that the organisers may not seek the borough as a venue for future events.

As part of the planned review of the scheme of delegation the Council should ensure that there is clarity of decision making on hosting events, and that the governance arrangements relating to such decisions are effective and clearly communicated.

KLOE A7: Waste service

The purpose of this KLOE was to consider the performance of the waste service, the Council's management of the contract with Serco, and understand the impact of recent industrial relations issues.

Background

The Council chose to outsource its waste and recycling service and in November 2010, following a procurement exercise, the Council confirmed the appointment of a consortium led by Serco to deliver a 25 year, £650m integrated waste and recycling services contract. Council staff were transferred to Serco under the Transfer of Undertakings (Protection of Employment) Regulations 2006 (TUPE).

Serco are responsible for the collection of household food and garden waste and recycling, street cleansing, the associated vehicle fleet, and the household recycling centre (HRC).

During the course of COVID-19 the Council has become increasingly concerned about the performance of a number of aspects relating to the delivery of the contract.

Service delivery has also been impacted by industrial action from some of the Serco workforce.

KEY FINDINGS

Contract management

The contract includes 34 Key Output Targets (KOTs) which are the basis for contract performance management. The contract is self-monitoring and Serco provide the Council with monthly performance data. Penalty points are accrued for failure to meet KOTs and these are reviewed each month by the Council, with financial penalties based on penalty points accrued each month. Failure to regularly meet KOTs over a twelve-month period can trigger a contractual default. There have been no defaults during the contract to date.

There had been formal contract monitoring meetings every six months between the Council and Serco in the form of a Waste Management Board. The Council Leader and relevant portfolio holder attend these board meetings and the Board is the formal decision making body. The Board meetings were suspended as a result of the onset of COVID-19 but have been subsequently re-introduced on a three-monthly basis.

The KOT in relation to recycling rates sets out a sliding scale of annual improved rates, with 60% being the target for 2021 and the actual rate being 32%. This is calculated on the tonnage of recycling against refuse collected. Serco have failed to meet these annual targets and may incur financial penalties of up to £1.2m per year. The reasons for under achievement of the target are considered to be household behaviour and weekly collections, the latter forming part of the original contract specification. The Council has provided Serco with a letter of comfort reducing this target and reducing the annual financial penalty.

The Serco contract was the first major outsourcing of its type undertaken by the Council. There is a perception that the approach to managing the contract did not adequately change from the way these services were managed when the Council operated a direct labour organisation model. Over the past ten years of the contract there have been a limited number of contract variations and requests made for additional services were not effectively specified.

The KOTs are considered well defined, but they are generally based on annual quantity rather than frequency and service quality. The Council is intending to engage an external consultant to review the KOTs to determine whether these contract specifications can be amended.

The vehicle workshop is operated by the Council and the Council maintains the vehicles through a separate maintenance contract with Serco. The contract terms meant that Serco were to replace fleet vehicles after 8 years of the contract (five years for smaller vehicles) which did not happen. This was identified during 2018 and discussions were held between the Council and Serco on whether the Council would borrow to fund the capital expenditure. The Council took external legal advice which confirmed such an action would represent state aid. A Fleet Board was introduced in May 2021 for Serco and the Council to progress a fleet replacement programme and Serco have committed to replace 18 refuse collection vehicles with delivery due in December 2021, as well as investing in mixed domestic recycling trucks. Serco have also hired newer sweeper vehicles, pending their replacement.

Financial management

Serco submit a monthly bill in line with the contract payment mechanism.

In recent years the Council's budgets for waste management has underspent and an underspend is forecast for 2021/22. The underspend is a result of financial penalties incurred by Serco, and income the Council receives from recycle sales. The prices for the latter are dependent on market fluctuations. The underspend is used to maintain a reserve, currently £3.5m, which is used to manage fluctuations in disposal market rates and contract fees.

KLOE A7: Waste service (cont'd)

The purpose of this KLOE was to consider the performance of the waste service, the Council's management of the contract with Serco, and understand the impact of recent industrial relations issues.

Page 89

Service performance

COVID-19 impacted on service delivery – which was common across the sector – as the workforce were impacted by absences, for example due to self-isolation via shielding or because of other COVID-19 regulations, as well as social distancing measures introduced for those who were at work. Garden and food waste collection were suspended during the first lockdown and the HRC was closed. Serco is still not operating a full service in particular food waste collection.

The pandemic has impacted on both waste collection and street cleansing, with street cleansing staff backfilling waste collection roles. Vehicle reliability has also contributed to service performance.

The pandemic shone a light on working practices and performance at Serco, contributing to service performance issues. During 2021 Council management have taken action to work with Serco to ensure necessary improvements are introduced. We understand, that as a result Serco's performance management of poor performing crews has improved, which has led to suspension of some staff and others leaving. This has contributed to industrial relations issues.

In early October the 100% in-day completion of waste collection rounds was achieved for the first time in approximately 9 months.

Serco have developed a waste and recycling recovery plan, and a recovery plan for street cleansing. At the time of this review they were being appraised by Council officers and were to be approved by the Waste Management Board.

Industrial relations

Council staff were TUPE'd to Serco on the council's terms and conditions for the first ten years of the contract. Industrial relations issues arose in May 2021 when trade unions (Unite, Unison and GMB) raised issues with Serco management in relation to staff grievances, salary benchmarking, health and safety concerns and staff complaints relating to bullying.

We understand that Serco management have investigated the complaints and have concluded that the staff complaints related to management seeking to improve working practices and did not represent bullying. Serco management have also investigated staff grievances and health safety concerns and believe these to be resolved. Unite and Unison agree, but GMB believe they remain unresolved.

The Advisory, Conciliation and Arbitration Service (ACAS) are involved in arbitration with GMB. At the time of this review strike action was planned and GMB introduced a 2-month overtime ban for their members. 120 of the 300 workforce are GMB members. Serco's senior management continue to engage GMB to try to bring resolution to the dispute.

Leadership and staff continuity

There have been changes to the senior officers at the Council with the relevant Executive Director and Director leaving in the past twelve months. An interim Director has been in role since May 2021 with a permanent Director due to start in November 2021. Until the interim Director was in role there was inadequate senior officer involvement in relation to the contract at time when this was needed to manage Serco's contract performance during the pandemic. The interim Director has brought focus to the situation including engaging with senior management of Serco.

The Council's contract manager has been in role for seven years. There had been similar stability in this role at Serco until there were changes in early 2020. More generally there have been a high number of management changes at Serco over the past year including the regional manager, regional managing director, operations manager and the senior contract manager. These changes have led to a lack of continuity in relationships with the Council and impacted on effective partnership working. In August 2021 a new senior contract manager and operations manager started but both left in September. The Serco managing director has introduced a new structure responding to concerns raised by the Council, and has instigated a programme of staff engagement. Serco are also taking steps to better manage poor performing staff, which is also leading to some further staff changes.

As noted elsewhere in this report, the Council's Leadership Team has not received effective corporate monitoring information on key council service indicators, which includes the Serco contract. This has been recognised and changes are being made to address the situation.

KLOE A7: Waste service (cont'd)

The purpose of this KLOE was to consider the performance of the waste service, the Council's management of the contract with Serco, and understand the impact of recent industrial relations issues.

Other findings

The performance issues associated with the Serco contract have seen an increase in complaints from residents, and increased enquiries to the Council's contact centre. Fly tipping has increased in the borough and the closure of, and then waiting time delays at, the household recycling centre are considered a contributory factor.

There is a need to review enforcement of public realm issues so the Council is clearer if the ownership sits with Serco or Council services such as parks, housing and grounds maintenance.

On 22 July 2021 the Council's Economy Skills Transport and Environment Scrutiny Board agreed to carry out a review of Waste Services and the Cleanliness of the Borough. The working group undertaking the review had not reported at the time of producing this report

Conclusions and recommendations

Serco have not brought the innovation and investment expected by the Council, and the culture of the workforce has impacted on Serco's ability to deliver the contract. Whilst there are issues relating to Serco management, it is only recently that Council management have taken a robust approach to managing poor contract performance, which has led to some performance improvement. Serco remains on an improvement journey.

The Council should prioritise corporate effort to ensure that the recovery plans are approved and appropriate senior management oversight is given to monitoring their effective delivery.

The Council should ensure robust contract management arrangements are in place, and review the Key Output Targets (KOTs) and work with Serco to ensure they are line with Council expectations and the data is available to allow effective monitoring of contract outcomes.

The Council should ensure that the investments specified in the contract with Serco are made, such as a new vehicle fleet.

KLOE A9: Lion Farm

The purpose of this KLOE was to consider the Council's governance arrangements and decision making in relation to the Lion Farm development.

Background

Following approval of the Asset Management Land Disposal Cabinet Committee (AMLDC) at its meeting on 19 December 2012, the Council entered into an option agreement with a local developer in respect of the proposed development of Lion Farm Playing Fields in Oldbury (Lion Farm). The proposed development related to a premium designer outlet centre, which could support significant economic, environmental and social benefits to the borough and wider region. The minutes of the AMLDC were received by Cabinet on 9 January 2013 and full Council on 5 March 2013.

An option agreement is a legally binding agreement that gives a potential developer a period within which to investigate the development of a site and the owner of the site agrees to sell the land to the developer at a future point. Any costs incurred by the developer during the option period are at the developer's risk.

The option agreement was dated 21 May 2013 and the developer paid the Council an option fee of £245k plus a contribution to the Council's legal costs. The option agreement gave the developer the option to acquire the freehold of the Lion Farm site should planning permission be granted.

The agreement gave the developer 12 months to undertake pre-development activity with an option to extend for a further 12 months. The agreement also provided for a secondary option agreement to be entered into by the Council and the developer.

After the initial 12-month period in 2014 the Council approved the request to extend the agreement by a further 12 months. In 2015, before the second 12-month period had concluded the Council confirmed that the developer had complied with their obligations and the parties began discussing the secondary option agreement.

In 2017 the developer was made aware of a rival premium designer outlet scheme in Cannock that had received full planning permission. The developer approached the Council for approval to progress the development. On 15 November 2017 the Cabinet approved variation to the existing option agreement with conditions including resident consultation, re-provision of current football pitches, undertake an economic impact assessment, submit a full planning application, and the site should be developed as a premier retail/leisure development which will attract high-end outlets.

In 2018 the Council sought counsel advice on whether the options agreement was legal with the QC confirming in August 2018 that the options agreement was a legally binding decision.

Governance relating to the original decision

A review by the Council in 2018 identified governance weaknesses in relation to the original decision to grant the option agreement and made the following recommendations:

- Enhanced member training to improve awareness on declaration of interests.
- The need to ensure resolutions are enacted in a timely way – the original AMLDC decision requested a follow up report on progress which was not progressed until 2017 with a report to Cabinet.
- A clearer record of the decision-making process to support recommendations being made to members
- A new protocol for the disposal of Council owned land and buildings is developed.

External review

The Council engaged a consultancy firm to review the governance and decision making in relation to Lion Farm and three unrelated property transactions. They reported in January 2020. The report was not made available to us until we commenced this review.

We have reviewed the findings of the report but under the terms of its agreement with the Council we are unable to quote from this report. We are considering the powers available to us under the Local Audit and Accountability Act 2014 to require the release of the report. However, to ensure the timely release of our report we have set out our overall conclusions below.

Current position

The Council's procurement regulations do not apply to property transactions, and so there is no legal requirement to publicly advertise the granting of an option to purchase a piece of land.

The principal senior officers and senior members involved in the initial agreement are no longer Council employees or a member of the Council. We note that there were weaknesses in record keeping, which means the current senior officers do not have access to all the information relating to the original decision.

KLOE A9: Lion Farm (cont'd)

The purpose of this KLOE was to consider the Council's governance arrangements and decision making in relation to the Lion Farm development.

Page 92

Current position (cont'd)

The secondary options agreement has not concluded and the developer has not yet submitted a planning application.

As a result of the 2013 options agreement, the asset will be valued following planning approval, before its disposal.

Conclusions and recommendations

The original sale of the option to develop Lion Farm with a limit of 12 months to put a development forward appears reasonable. Subsequent decisions to extend the secondary option negotiations without an end date were ill-judged. It has meant that the Council has little recourse with the developer.

There has been a lack of recent engagement with the developer and the situation has been allowed to drift with the senior leadership of the Council not placing priority on seeking to agree resolution and a way forward. We understand that the Interim Chief Executive has recently re-started dialogue with the developer and is placing priority on resolving the impasse, and an options appraisal is being prepared for the Cabinet to consider.

The Council must ensure that the recent re-engagement with the developer results in agreeing a clear way forward, including an action plan and timescale so there is clarity on the responsibilities for the Council and developer in order to progress the finalisation of the secondary option agreement, or to be clear on the legal process for both parties extricating themselves from the agreement and the associated terms.

The Council must ensure that it has taken all necessary steps to ensure that arrangements are in place so that issues identified in the external review are appropriately mitigated and managed.

The Council should review its procurement regulations and consider updating them to include land sales, including options agreements, to ensure that best value can be achieved.

KLOE A10: Introduction of new ERP System

The purpose of this KLOE was to consider the Council's management of the introduction of Oracle Fusion and understanding implementation delays and their impact.

Background

The main Enterprise and Resource Planning (ERP) business system currently used by the Council is Oracle E-Business Suite (EBS), which provides a range of key functions that support various service areas, including Finance, Human Resources, Payroll, and Procurement. The Council's EBS is also used by maintained schools in the borough, Sandwell Children's Trust and the West Midlands Fire Service. It has been in place since 2003.

The current version of EBS used by the Council will become unsupported from 31 December 2021. Remaining on unsupported software is considered an unacceptable risk to the Council due to the loss of support patches from Oracle. The Council agreed to replace EBS in 2019. This decision followed an options appraisal, which concluded that a new cloud-based ERP system would be the preferred option.

The Council decided that Oracle Corporation UK Ltd were the only suitable available provider – their Oracle Fusion product. An exemption from conducting a formal tender process, to allow negotiation with Oracle for purchase of the appropriate licences, was considered permissible under the provision of the Public Contracts Regulation 2015. The Council published a voluntary ex-ante notice to inform the market of its intention to conclude these negotiations with Oracle and meet its obligations for compliance with the 2015 Regulation.

The Council also agreed to engage an implementation partner on the basis that the Council did not have capacity or relevant expertise to transition to the new system. The Crown Commercial Services framework was used to identify suitable implementation providers and it was determined that only Inoapps could meet all requirements for implementation partner services. The Council contracted with Inoapps for this role for £1.2m. Inoapps had provided managed services to the Council since July 2016 and were a platinum Oracle partner. The appointments of Oracle and Inoapps were approved by Cabinet on 9 October 2019.

The contract with Oracle was for five years, with an option to extend to seven years at £700k per annum. The overall cost of the project, for the duration of the five-year contract with Oracle, including implementation partner costs, was estimated to be £5.64m.

There have been repeated delays to the implementation with changes to the go live date for the new system, which will not now go live before EBS becomes unsupported at the end of 2021.

KEY FINDINGS

Business case for change

An options appraisal and financial appraisal were used to make the decision on the future of the Council's ERP system. Whilst these would form part of a business case, no outline or full business case for change was developed and approved. We would have expected a business case to have been developed for a project of such strategic importance and cost. Failure to do so has impacted on the implementation stage of the project.

Transformation potential

The introduction of a new ERP system is typically used to support wider organisational transformation, improvement, efficiencies and savings. Indeed, one of the reasons for replacing EBS was long-term user dissatisfaction with reference to inefficiencies, inadequate reporting functionality and prolonged processes to access necessary data, with inefficient "work around" solutions being applied.

The lack of a formal business case has meant that benefits relating to the transformation potential of the new system have not been clear and have not been at the forefront of the implementation. This has been compounded by a lack of corporate ownership of the project and engagement by services, with the project seen as Finance or HR related, and not an enabler for organisational transformation and improvement.

Instead a "lift and shift" approach has been adopted minimising the opportunities for change and improvement and the use of the functionality of the new system. Once the new system has gone live there is an intention to undertake "development sprints" to identify transformation opportunities. However, the system will have already been implemented by this time, limiting the potential for such improvements without incurring additional costs in enhancements to the system. The Council has also used funding set aside for these sprints to fund cost overruns during the implementation stage.

KLOE A10: Introduction of new ERP System (cont'd)

The purpose of this KLOE was to consider the Council's management of the introduction of Oracle Fusion and understanding implementation delays and their impact.

Project finances

The options appraisal set out the total costs as follows.

Description	Costs 2019/20 to 2023/24 £000
EXPENDITURE	
Implementaiton Costs	
Implementaton Suppprt	1,206
Development sprints	600
Internal project team	386
Ongoing Costs	
SaaS subscriptions	3,240
Managed service support partner	70
Archiving system	140
Total costs	5,642
FUNDING	
Earmarked reserve	2,625
Redirection of budgets for current system costs	2,458
Resources revenue budget	682
Total funding	5,765
Contingency	123

The earmarked reserve of £2.625m was to be used to cover implementation costs and included £600k for post go live activity (development sprints) and £363k as contingency, in addition to the £123k contingency identified via the original funding proposal.

An additional £605k was added to the reserve from COVID-19 emergency funding to fund additional costs incurred due to delays.

A breakdown of the planned allocation of the earmarked reserve is set out below.

Description	£
Oracle Subscriptions	438,000
Inoapps Implementation Contract	1,224,150
Development Sprints (4 x £150k)	600,000
Project Team/Contingency	362,850
Total funded by earmarked reserve	2,625,000
Covid Emergency Funding	605,000
Total Funding	3,230,000

The development sprint, project team / contingency and COVID-19 emergency funding are currently over committed by £7.8k. Additional costs have been incurred in relation to extension to EBS licences, use of additional support due to the delays to going live, and contract variations with Inoapps.

Governance Arrangements

There is a programme board which includes officers from the Council and representatives from Inoapps, and a programme team including representatives from both organisations. The Council has established a programme management office (PMO).

The Board reporting includes risk and issues logs and highlight reports. During the pandemic and when renegotiating the contract position with Inoapps and the subsequent focus securing clarity from Inoapps on their position, these have not always received appropriate focus.

Due to changes in the Council's senior officers there has not been stability with those attending the project board. This includes the chair of the Board, which was originally the then Executive Director of Resources, followed by the then Chief Executive, and is currently chaired by the Director for Strategy and Change.

The contract includes a statement of works which defines key project roles. Whilst the Council has a defined programme lead and programme manger for the project, the changes to senior officers involved in the project have created confusion over who is in the Senior Responsible Officer role, both within the Council and within Inoapps. It is a position which remains unclear.

KLOE A10: Introduction of new ERP System (cont'd)

The purpose of this KLOE was to consider the Council's management of the introduction of Oracle Fusion and understanding implementation delays and their impact.

Governance arrangements (cont'd)

The Cabinet approved the decision to progress the new ERP system and appoint Oracle and Inoapps. There have been limited subsequent updates to Cabinet, with the portfolio holder receiving updates via director briefings.

Contract management

The programme manager and PMO, supported by the programme lead, are responsible for managing the contract with Inoapps. Where a contract variation is proposed by Inoapps the PMO discusses with relevant Council stakeholders and is then passed to the Programme Board for approval. The programme lead then completes the change request which becomes an addendum to the original contract.

The impact of COVID-19 led to a review of the implementation timetable during Summer 2020, given its impact on for example system testing and training activity. At the same time Inoapps identified the need for significant contract variations, believing they had under-scoped the resources requisite to implement the project. The original contract was awarded on a time and materials basis. The Council, in negotiating revised contract terms with Inoapps moved to fixed price terms with payment based on Inoapps meeting specified milestones, which was agreed in November 2020.

The role of Oracle

Inoapps are a platinum implementation partner to Oracle, and Oracle are the provider of the new system being implemented. Having purchased Oracle Fusion the Council has not been able to effectively escalate the implementation issues with Oracle, in order for Oracle to support a resolution.

Organisational involvement

During the majority of the implementation stage of Oracle Fusion there has been ineffective engagement from across directorates and services. This has started to change, with greater Director ownership, but as already noted, there remains a need for greater senior leadership oversight.

The current position

Since the fixed price contract was agreed, with Inoapps taking a greater commercial risk on implementation, and having under-scoped their original bid, there has been increasing tensions between the Council and their implementation partner and frustrations from the Council at the level of support being provided by Inoapps.

This has led to an "us and them" culture rather than a joint implementation focus. At the time of this review relationships between the Council and Inoapps had broken down, further impacting on the progress of the implementation stage.

The go live date for the new system was deferred from October 2019 to April 2019, and subsequently deferred to October 2020. There is currently no go live date pending the Council agreeing a way forward with Inoapps.

Because the go live date will not take place prior to 31 December 2021 when EBS, the current system, becomes unsupported, the Council has approached Oracle, who also provide the EBS, to negotiate temporary support from January 2022. Oracle are seeking a 12-month extension to EBS which the Council would like to reduce due to the impact on unplanned costs, but the lack of a firm go live date is not helpful to these negotiations.

We understand that a report is being prepared for Cabinet on 24 November which will set out the Council's options and include a cost benefit analysis of these options.

Conclusions and recommendations

The risk to the Council of having no ERP system available from the 1 January 2022 is significant.

The Council must prioritise corporate effort to:

- ensure that temporary support is agreed with Oracle for EBS continuity.
- have an honest and frank discussion with Inoapps and urgently agree a clear resolution on the way forward.
- review governance arrangements so that good practice (such as Managing Successful Programmes) is in place and embedded, including clarity on the SRO role and approach to risk management.
- review the resourcing and scope of the implementation to ensure that it is realistic, given current circumstances, focuses on outcomes as well as costs, and there is organisation wide engagement and ownership of the programme.
- confirm a realistic and achievable go live date.
- ensure for future major projects a full business case is developed and approved.

KLOE B1: Chief Officers

The purpose of this KLOE was to consider the Council's compliance with JNC guidance in relation to the recent departure of certain chief officers.

Page 96

Background

The Joint Negotiating Committee (JNC) for Chief Executives of Local Authorities is the national negotiating body for the pay and conditions of service of chief executives in England and Wales.

The JNC sets out the national conditions of service for chief officers of local authorities, which include model procedures in relation to performance management, capability, disciplinary and redundancy.

There is a different negotiating body for pay and conditions for other local government workers, the National Joint Council (NJC) for Local Government Services.

KEY FINDINGS

The Council's former Executive Director of Resources received a complaint in relation to certain actions that were believed to be outside Council policies and procedures. The actions related to matters over 5 years old and appear to have been precipitated by a change in control of the labour group. The then Chief Executive, after undertaking a fact-finding exercise and reviewing the position, invoked the model JNC disciplinary procedure. The Executive Director was suspended in March 2020 and the Council engaged the LGA to undertake an independent investigation. Prior to the conclusion of this investigation the Council finalised its senior management review which created a new structure for the Council's leadership team, resulting in the deletion of all Executive Director roles and the creation of new Director roles. The Executive Director chose not to apply for a new Director role, which led to the officer being made redundant by the Council before the investigation by the LGA was completed.

The Council's former Chief Executive departed the Council very quickly in July 2021 as a result of the breakdown in their working relationship with the new Leader of the Council. A decision was made by the two individuals concerned that the Chief Executive would leave the Council by mutual agreement, before the JNC model procedure could be invoked.

Following the decision being made the Council took external legal advice on employment law and sought advice from the LGA and various options were retrospectively considered, including the Chief Executive remaining in post, the Chief Executive claiming constructive dismissal, early retirement and mutual agreement, with the latter being considered the best value for money option.

The prior to previous Chief Executive also left before the JNC model procedure was invoked. The context was a Standards investigation, and the officer chose to resign rather than progressing to the formal procedure

Conclusions and recommendations

The Chief Executive and Leader are key roles in any Council, and their working relationship is critical to the effective running of the organisation. There are many examples in the local government sector where Chief Executives have left councils by mutual consent and not followed model procedures, for example, when there is a change in Leader.

However, given the context at the Council, the departure of the two previous Chief Executives in a similar manner will have contributed to the lack of trust and uncertainty in the organisation which is highlighted elsewhere in this report. This has been exacerbated by the departure of the Executive Director of Finance through a restructure

We also note that the speed of the decision for the former Chief Executive to leave, and the lack of other senior officer involvement (such as from the Monitoring Officer and Director of HR) and not taking legal advice prior to the decision being made created a risk that each party may have had a different interpretation of the outcome of the discussion and the decision being made.

The Council needs to consider how it can restore trust between officers and members. **The Council should ensure that at the very least, appropriate internal and external advice is sought should the departure of a chief officer by mutual consent is agreed.**

KLOE B2: Senior leadership

The purpose of this KLOE was to consider the background to senior leadership changes and the impact of interim officers in place.

Background

The Council has been through a period of significant change to its leadership, both in terms of senior officers and senior members. Following the local elections in May 2021 a new Leader was elected, who appointed a new Cabinet with effect from June 2021. Many of these Cabinet members had not previously held a Cabinet role, and some were fairly new to the role of councillor.

An interim Chief Executive has been in role since August 2021 and there has been significant changes to chief officers over the past year, with vacancies being filled by either external interims, or Council officers in acting up roles. These changes were driven in large part by a senior management review which concluded in October 2020, although we note that some chief officer departures were caused by unrelated circumstances. The changes are summarised in the table below.

Posts Prior to Senior Management Review	Leaving Date	Posts following Senior Management Review	Interim Status	Interim Start Date	Permanent status	Permanent start date
Chief Executive	Jul-21	Chief Executive	Exernal interim	Aug-21	Vacant	n/a

Post created
Post deleted

Key findings

Other than the Chief Executive there are currently ten chief officer roles, of these four are recent external appointments, and two other external appointments have been made with these officers starting in November 2021. Three officers remain from the previous leadership team, two in the same role and one appointed to one of the new roles created by the review.

Two roles remain vacant: the Chief Executive and the Deputy Chief Executive, with the recruitment of the former recently initiated. The Council has decided to not recruit the Deputy Chief Executive and to review the need for this role.

In addition there is a Director of HR, which is not a permanent role and is being held by an external interim.

The impact of this recent period of change has been instability and uncertainty for the organisation. Whilst external interims are recognised positively for the experience they bring from working with other councils and having a “fresh pair of eyes” on some of the service challenges being faced, the wider organisation considers the use of interims as maintaining a holding pattern before permanent chief officers join. The Council will reach the position of having all roles filled by a permanent officers during November 2021, other than the two vacancies noted above.

The leadership of senior members and senior officers is critical to good governance and decision making, and more generally for the ability for the Council to deliver its services effectively and to progress its medium-to-long-term priorities.

All key stakeholders met during the course of this review recognised that the changes to senior officer and members has led to some immediate and positive changes. However, it was further recognised that the Council is at the start of a necessary improvement journey, and for these “green shoots” to deliver the widespread changes required, the Council’s leadership needs be relentless in its focus in delivering and embedding sustainable change. We note that these 'green shoots' only occurred on appointment of the current interim chief executive and we do not consider that they are embedded in the Council.

Critical to this sustainable change will be the appointment of the right permanent Chief Executive, and the Council must ensure an effective recruitment process, including maximising the chances of attracting a pool of appropriate candidates. Should the appointment of a permanent Chief Executive not be successful the Council should seek to retain the current interim Chief Executive and move this to a full time contract.

KLOE B3: Complaints

The purpose of this KLOE was to consider the appropriateness of complaints made against senior officers and the responses to these complaints.

Background

The Council has arrangements in place setting out how to make a complaint that an elected member has failed to comply with the Council's Code of Conduct. This is in line with the Localism Act 2011 (the Act). The Council's Monitoring Officer, or in their absence or where there is a conflict of interest, the Deputy Monitoring Officer, administers the system for dealing with complaints. The arrangements set out the stages of a complaint should be dealt with: no further action, local resolution or requires investigation.

The Act requires the Council to appoint at least one Independent Person whose views must be sought before it takes a decision on whether an investigation should proceed. The Council has agreed to there being three Independent Persons, who attend the Standards Committee as observers.

There are separate arrangements in place for complaints against senior officers which follow national JNC model procedures, with the Council's Chief Executive (unless conflicted) deciding if the thresholds are met to instigate an investigation.

There are separate procedures for whistleblowing complaints, which do not form part of the scope of this review.

KEY FINDINGS

The Council has had a history of complaints against members, many of which were not found to be circumstances that were in breach of the Code of Conduct. These complaints have been from other members, officers and members of the public.

We note that the Monitoring Officer has been subject to a number of complaints from members which have not met the threshold for investigation, and there is a perception that at least some of these complaints have been spurious and reflect a blame culture. We note that no complaint has been upheld against the monitoring officer. Similarly, in the case of other complaints against officers, rather than complaints relating to breaches of Council policies and procedures, they are based on the dislike of an individual or of an individual's response or actions during meetings.

This forms part of a wider culture and a deterioration in trust and respect between members, and between members and officers. This is arguably also reflected in a culture of written communications in relation to member enquiries. For example, in many instances officers want to have a written record of their response due to the culture of the organisation.

Again, due to the organisational culture, there is a perception that historically for some officer complaints, investigations have been undertaken due to concern of the consequences of deciding no further action was required.

The level complaints at the Council has been described as a "mini industry" which takes up valuable time and resource, should the complaints be spurious.

At its most recent meeting of the Standards Committee on 11 June 2021 an update was provided on live member complaints. There were twelve complaints, which had been received between July 2019 and May 2021, all alleging breaches of the Member Code of Conduct. Investigations had been invoked for all 12 and of these 7 had concluded there had been no breach, 2 had recommended local resolution, 2 could not be progressed (the member was no longer a councillor or the complainant did not engage in the process) with the outcome of one complaint outstanding.

There are signs that the new political administration has moved away from this culture, but this is not yet evident across the wider councillor group.

The Council's senior leadership – both officer and member – must act to change the culture and organisational ethos in relation to complaints, and to restore balance and proportionality.

KLOE B5: Standards Committee

The purpose of this KLOE was to consider the appropriateness of the work undertaken by the Standards Committee.

Background

In 2018, the Committee on Standards in Public Life conducted a review of local government ethical standards and invited the submission of comments and recommendations from local authorities and representative bodies. The Committee published its final report in January 2019, which included a recommendation that the Local Government Association (LGA) should draft a Model Code of Conduct.

The LGA Model Code of Conduct was drafted in consultation with representative bodies of councillors and officers of the local government. The final Code was published in December 2020. The LGA published a supplementary guidance document to support the Code in April 2021.

During the 2020-21 municipal year, the Council's Ethical Standards and Member Development Committee (the Standards Committee) undertook a wide-ranging review of the Members Code of Conduct and associated arrangements. This included the creation of an Ethical Standards Working Group which was established to guide improvement in the Council's Ethical Framework. Engagement with members included five engagement sessions in December 2020. These sessions covered:

- A review of the Member Code of Conduct, and members were supportive of the adoption of the LGA Code of Conduct, subject to an amendment to the interests of family members and close associates.
- The Council's revised social media policy which included ensuring that issues with social media were addressed and appropriate support provided to members.
- Members Interests to ensure that members were confident and clear in understanding disclosure of interests, their obligations, and how to deal with issues if they emerge. Members suggested that greater clarity around the issue of lobbying should be provided. Separately and in line with the recommendations within the LGA Model Code of Conduct, the Council's Gift and Hospitality arrangements were revised, and the limit was lowered from £100 to £50.
- Review of the arrangements for dealing with complaints under the Code of Conduct – these were amended to include an assessment criteria and indicative timescales for monitoring and clarity purposes, including reporting on the progress of the complaint in the case of delays.
- Duty to promote and maintain high standards of conduct, which focused on raising awareness of the role and work of the councillor and promoting high standards, particularly on the specifics relevant to individuals in their respective wards, towns and across the borough

For those members unable to attend these sessions a questionnaire was sent to ensure that all members could contribute. The feedback from the sessions was collated and presented to members at three further sessions held in February 2021.

KEY FINDINGS

March 2021 Standards Committee

At its meeting on 12 March 2021 the Standards Committee recommended the approval of :

- The revised Member Code of Conduct, and that these would be reviewed on an annual basis, alternating between a desk top review and a more detailed review.
- The revised arrangements for dealing with complaints under the Code
- The revised social media policy and that the Monitoring Officer be authorised to make any revisions/updates to the guidance which accompanies the social media policy, in consultation with the Chair of Standards Committee.
- The revised gifts and hospitality guidance
- The protocol for meetings to take place on a regular basis between senior officers, political group leaders and chief whips to talk about standards issues.
- The retention policy for Members' Register of Interests be set for as long as a person remains a Councillor, plus three months which represents the relevant limitation period for disclosure of information.
- A review of the recruitment process for Independent Persons be undertaken, in consultation with the Standards Working Group, and a further report submitted to a future meeting of the Standards Committee.
- a further report be submitted to the Ethical Standards and Member Development Committee/Standards Working Group in respect of DBS Basic Checks for elected Members.
- That a review of the composition of the Ethical Standards and Member Development Committee and operation be undertaken in the new municipal year

These were subsequently approved by full Council with effect from the 2021/22 municipal year

KLOE B5: Standards Committee

The purpose of this KLOE was to consider the appropriateness of actions taken by the Standards Committee.

KEY FINDINGS (Cont'd)

The Standards Committee also agreed that the member development programme be updated to include training on:

- the Code of Conduct;
- members' interests;
- gifts and hospitality;
- lobbying;
- arrangements for dealing with complaints;
- use of social media;
- promoting high standards, and
- that the induction programme for new members to be updated to include the same training, and to incorporate in member Personal Development Plans (PDPs) for any issues on an individual basis.

Progress on actions

The new Code and associated guidance and arrangements have been in place since the start of the 2021/22 municipal year. The Monitoring Officer has not yet needed to update the social media policy.

The training on the Code of Conduct, lobbying, and gifts and hospitality has been completed. A working group of the Standards Committee is updating the member development programme and engaging members on their development needs, including those members who chair committees and are hold appointments to outside bodies.

The Standards Committee working group has completed its review of the recruitment of Independent Persons who attend the Standards Committee as observers. There are currently three Independent Person roles, with one currently vacant.

Changes to how complaints were reported were introduced at the 11 June 2021 meeting of the Standards Committee, to provide assurance that complaints are being dealt with in a timely way and to provide the Committee with updates on progress. Importantly, these updates are reported on the basis of anonymity, and allows the Committee to identify trends and issues based on the nature of complaints raised

A Standards Committee working group has been established to consider the need for DBS checks for members, which has not yet reported to its parent committee

Reopening of old complaints

At its meeting on 11 June 2021 a member of the Standards Committee put forward a resolution to review all previous cases of complaints, to ensure appropriate processes had been followed and to identify any lessons learned. This was not approved due to there being unclear reasons on justifiable cause, and no advice having been sought on the implications of reopening cases which had concluded in line with the Council's policies and procedures.

Conclusions and recommendations

The unsuccessful resolution to reopen closed complaints is an example of the challenge the Council has in moving on from the past, and as highlighted in relation to KLOE B4, in changing the culture and organisational ethos in relation to complaints, to restore balance and proportionality.

More generally, the recent actions being led by the Standards Committee are good practice and are important given the recent history of the Council. More critical than approving the updated Code and related arrangements will be member compliance, and the **member training and development programme must play a key role in ensuring members fully understand the expectations and standards relating to their role**. It will take time for the wider organisation to believe that change is happening and embedded, from observing consistency in member behaviour in line with the Code, and that are all respectful of those they work with and of the Council as a civic institution.

No meetings have yet taken place between senior officers, political group leaders and chief whips. **These meetings should take place to ensure that these stakeholders are able to discuss emerging issues and trends, recognise good behaviours and discuss how to manage behaviours not in line with the Code.**

KLOE B6: Audit Committee

The purpose of this KLOE was to consider the actions undertaken by the Audit Committee during 2021 in relation to the review into the Wragge report.

Background

In Autumn 2014 allegations about the then Deputy Leader were made on social media, which led to police involvement, a standards complaint being made against the Deputy Leader, which in turn led to an internal audit investigation and senior officers commissioning an independent investigation by Wragge and Co Solicitors. During the course of this investigation a complaint was made in relation to the solicitor conducting the review, which led to the Council engaging a QC to review the investigation.

The report from Wragge and Co (the Wragge report) was eventually finalised in April 2016. Following publication further standards complaints, investigation and legal action took place, including a judicial review on behalf of the (by then) former Deputy Leader. A further internal review was undertaken at the request of the then Leader into the circumstances surrounding the Wragge report and issues which subsequently emerged, which reported in June 2020 (the Cox report).

On the 18 March 2021 the Audit and Risk Assurance Committee (the Audit Committee) met to discuss the Cox report, based on a report from Audit and Governance Panel, which had been established by the Audit Committee Chair with the objective to provide a safe space to consider this long-standing governance matter and to make recommendations to the Audit Committee with a view to determine if the matter had been addressed sufficiently to enable closure, or whether there were further steps or actions necessary to enable the matter to be concluded.

The Audit and Governance Panel report recognised:

- that over recent years the Council has dealt with and continues to deal with a number of governance concerns and issues. Whilst some are historic in nature, a number have had a tendency to resurface periodically sometimes due to concerns over how they may have been addressed previously.
- in order to address these issues effectively and enable the council to move on and focus on its ambitious objectives as detailed within its corporate plan, considerable time and resources have been expended to examine the identified governance issues and related concerns.
- a number of matters have reached a point whereby the Council has to either been able to identify and address shortcomings, or despite its endeavours, it is unlikely that the council will be able to fully understand the history, chronology or be able to restore the council to its previous position. This can be for various reasons, such as key individuals no longer employed by the council.

- the Council needs to ensure that its conducts itself legally and consistently with recognised good governance principles and practices. The Council is required to consider serious allegations in respect of its conduct or behaviours which could give rise to action against it, reputational harm, or lost confidence. The Council is obliged to consider relevant arrangements in relation to which their legality or whether their ongoing continuance could expose the Council to harm or claims. However, the consideration of such allegations needs to be proportionate and in the public interest.

KEY FINDINGS

The meeting of the Audit Committee on 18 March 2021 lasted almost six hours and adjourned before considering the matter in its entirety. The meeting was contentious with members being concerned about the late provision of papers and a lack of consensus on decisions (with the Audit Committee Chair taking the casting vote on a number of decisions). Due to the length of the meeting a decision on the final matter under discussion about the Wragge report was deferred. Following the committee meeting a complaint was raised against the monitoring officer. This has not yet been resolved.

Due to the pre-election period relating to the May local elections, the Audit Committee did not reconvene until 24 May 2021, where discussions were able to conclude.

The Chair and a number of other members of the Audit Committee changed in June 2021 for the new municipal year. The Audit Committee met on 24 June of 2021 and the minutes of the March and May meetings were presented for approval. However, members of the Committee did not approve the minutes as a correct record and requested that they be submitted to a future meeting for further consideration, with a potential for a further review to be undertaken.

At the next meeting of the Audit Committee on 16 September 2021 the minutes of the March and May meetings were approved with the central action to arrange for appropriate apologies to be made where this had been agreed as appropriate to individuals involved in the original Wragge review, and that the Monitoring Officer update the Committee when these apologies have been made.

KLOE B6: Audit Committee

The purpose of this KLOE was to consider the actions undertaken by the Audit Committee during 2021 in relation to the review into the Wragge report.

Conclusions and recommendations

The Wragge and Cox reports concerned significant governance related issues and, as the Audit and Governance Panel stated, the Council needs to ensure that it conducts itself legally and consistently with recognised good governance principles and practices. However, we note that:

- The matters relate to events in 2014.
- The matters have been subject to significant scrutiny since 2014 including a judicial review.
- The review in 2020 and the Audit Panel and Committee in 2021 took place when there were significant service issues within the Council and used a significant amount of member and officer capacity.
- The matters continue to divide opinions and have resulted in a further lengthy process to agree a resolution.

Now that the Audit and Risk Assurance Committee has agreed the actions to bring this long-standing matter to resolution, it will be important that – as the Audit and Governance Panel recognised - the Council manages its position so that the matter does not resurface, so that it can move on and focus on its corporate objectives.

KLOE B7: Financial reporting

The purpose of this KLOE was to consider the Council's response to recommendations raised in our 2019/20 audit findings report.

Page 103
Background

Our 2019/20 Audit Findings Report (AFR) highlighted a number of concerns about the Council's financial reporting in relation to the 2019/20 financial statements, including late submission of the draft accounts, incorrect working papers, the basis for provisions, a material error between cash and creditors, a material error on the cashflow forecast, and the basis for some asset valuations in particular in relation to leisure centres and the Public sixth form centre, and the impact of this on the Council's group accounts.

Our 2019/20 AFR noted that at that time we did not consider that these were sufficient to warrant a qualification of the VfM conclusion. However, should these matters reoccur in relation to the 2020/21 financial statements audit, we will issue a qualified VfM conclusion on financial reporting and consider the use of our wider reporting powers.

KEY FINDINGS

Management created an AFR action plan in response to the recommendations made as part of our 2019/20 audit and an associated project team to take forward these actions. As some of the key recommendation related to asset valuations, interim resource has been allocated to the asset management and valuations teams to progress associated actions.

We have reviewed this action plan which includes an owner and finance lead relating to each recommendation. The plan also sets out the actions required, delivery timescale and updates on progress.

In total there were 22 recommendations of which 13 were high priority and 9 medium priority. The latest version of the action plan reviewed confirms that ten associated actions had been completed (five each for high and medium priority) with the remainder in progress, with some of these having an inter dependency with the introduction of the new Oracle Fusion ERP system. As such, the delays in implementing the Council's new ERP system have an impact on successfully completing some actions

Four of the recommendations did not include required actions in the action plan, and 5 had no target date for completion

The Council does not currently have a corporate asset management database, instead relying on spreadsheets. The Council is taking steps to procure an asset management system, with a report planned to the December Cabinet. This system will take 12 to 18 months to procure and implement.

Acting up arrangements due to the vacant Director of Finance role until August 2021 has contributed to capacity constraints in delivering financial reporting responsibilities.

RELATED FINDINGS

Whilst the focus of this KLOE concerned the Council's annual financial statements, we identified the following in relation to other aspects of financial planning and reporting in the Council:

- There is not a comprehensive understanding across services of the make up and profile of individual budgets.
- There has not been a culture of undertaking financial benchmarking to help an understanding of unit costs.
- Budget management has been based on service bottom line rather than individual budgets.
- The Leadership Team has not received regular budget monitoring reports.
- Director and service engagement in the annual budget setting process has been limited

The above has been recognised and changes introduced by the new Director of Finance and interim Chief Executive, such as the introduction of financial benchmarking, "star chambers" for budget setting, and more regular budget monitoring by the Leadership Team.

Recommendations

Management should ensure that the AFR action plan sets out actions and completion dates in relation to all recommendations. It should also identify where the new ERP system implementation and the planned asset management system could cause delays or impacts on planned actions.

Management should ensure that the changes in relation to budget setting and budget management recently introduced are sustained, and take steps to manage any weaknesses not yet addressed.

Management should ensure the Finance team has appropriate skills and capacity to manage the Council's financial reporting responsibilities.

Appendices

Appendix A: Improvement recommendations

This appendix summarises our improvement recommendations by KLOE.

Page #105

	Improvement recommendations	Page #
	KLOE B4: Officer and member relationships	
1.	Embedding the changes that have been made by the Leadership Team and those that are planned will be critical if the Council is to realise its strategic ambition and provide effective governance.	14
2.	Enhancement of the induction programme to new members of Cabinet, including on local government finance and their governance roles is recommended.	14
3.	The Council should ensure that corporate KPIs are agreed so that the implementation of the Corporate Plan can be effectively monitored.	15
4.	The forward plan of the Cabinet should be shared with the Audit Committee and Scrutiny Board to help structure their agenda planning.	15
5.	The Leadership Team should agree key medium-term financial objectives and principles. There should be effective ownership of the principles that underpin the budget setting process, for example the Council's approach to reserves, contingency and Minimum Revenue Provision (MRP).	15
6.	Senior officers and senior members must lead by example to ensure that the "tone from the top" consistently reflects these values and behaviours. This is critical in ensuring that the wider organisation recognises that changes have been made and that all people are confident in adopting these values and behaviours. This should build on recently introduced staff briefings to include a programme of staff engagement including "pulse" checks to benchmark and monitor progress on the organisation's wellbeing.	16
7.	The Council should ensure that the review of the member development programme is appropriate. In particular, thought should be given to how members with special responsibility roles are developed and supported. This should include succession planning for these roles.	16
8.	Further work is required to establish a formal performance management framework and agree a set of key corporate indicators for the Leadership Team to collectively manage, receive appropriate management information to monitor progress, and set out clear lines of accountability, responsibility, and delegated authority.	16
9.	The recent introduction of financial benchmarking will need to be sustained to create a culture of curiosity in services in how nearest statistical neighbours are performing, to support savings identification and to drive improvements	16

Appendix A: Improvement recommendations (cont'd)

This appendix summarises our improvement recommendations by KLOE.

Page 106	Improvement recommendations	Page #
	KLOE B4: Officer and member relationships (cont'd)	
10.	The Council should continue its more outward looking approach is sustained and develop key local and sub-regional relationships.	17
11.	When investing in the communications team, the Council should also use this as an opportunity to ensure more effective internal communications, including with back-bench members.	17
12.	There is a need to ensure that members of scrutiny and audit committees are aware of their governance roles including how to interrogate reports and ask the right questions.	17
	KLOE A1: Sandwell Children's Trust	
13.	<p>The Council's senior leadership – both officer and member – should prioritise corporate effort and develop a clear strategy for working with SCT to ensure it remains on its improvement trajectory. This should include:</p> <ul style="list-style-type: none"> working with SCT to progress a multi-agency early intervention and prevention strategy. ensuring SCT has an appropriately resourced and skilled placements team in place to effectively manage the care market. conducting a review of KPIs to ensure they are effective for current circumstances. undertaking financial benchmarking in relation to children's social care, and take a realistic and pragmatic view on the level of funding required. reviewing the governance roles of officers and members in relation to SCT so that they are clear on their responsibilities, avoid duplication, ensure effective communication and that there is a collective understanding of the performance of SCT and how risks and issues are being managed. 	21
	KLOE A2: Sandwell Leisure Trust	
14.	The Senior Leadership - both officer and member - must take ownership of this issue, prioritise corporate effort and take urgent steps to either resolve the current position with SLT or consider the options for alternative provision should either party decide to terminate the current contract, to ensure the continuity of future leisure service provision and associated reputational impacts.	23
	KLOE A3: Providence Place	
15.	Where the Council considers similar transactions in future, those charged with making decisions must satisfy themselves that they fully understand the detail of the options being proposed. Council officers and their advisors have a responsibility to ensure that members making decisions do so having fully understood these complexities and risks.	25
16.	The Council should ensure that all future property or land acquisitions and disposals are clearly aligned with relevant Council property related strategies.	25

Appendix A: Improvement recommendations (cont'd)

This appendix summarises our improvement recommendations by KLOE.

Page #107

Page #	Improvement recommendations	Page #
	KLOE A4: SEND Transport	
17.	<p>The Council's senior leadership – both officers and members – must place priority on agreeing the outcome of the SEND Transport procurement exercise to ensure a further contract extension is not required. This should include:</p> <ul style="list-style-type: none"> • Not losing the significant progress made on the contract specification's focus on service quality. • Greater support, involvement, dialogue and oversight with the officer teams with responsibility for progressing the procurement. • Ensuring the contract provides the Council with effective management and oversight of the personal transport market. 	28
18.	<p>For the conclusion of the SEND Transport procurement and for all future major procurements, the Council should ensure that:</p> <ul style="list-style-type: none"> • Record keeping and declarations of interest are undertaken in line with Council policies and procedures. • Decision making does not create real or perceived risks in relation to inappropriate procurement decisions. • Procurement timescales provide adequate time for both suppliers to submit high quality bids, and the Council to undertake appropriate evaluation, scrutiny and decision making. This timescale should include appropriate time in advance of the procurement for the council to undertake the necessary strategic thinking and planning required, and mitigate the risk of not making an award in the planned timescale 	29
	KLOE A5: Sandwell Land and Property	
19.	<p>The Council should ensure that when considering establishing an arm's length company in the future there is a clear purpose for doing so and that those officers / members of the Council in company director roles are clear of their role and responsibilities in relation to that company.</p>	31
20.	<p>Where arms length companies already exist the Council should gain assurances that company directors fully understand their company roles and responsibilities, that the company administration is properly resourced and appropriate training is provided to company directors. The purpose of the company should be revisited on a regular basis to determine whether the company continues to be of benefit to the Council.</p>	31
	KLOE A6: MADE Festival	
21.	<p>As part of the planned review of the scheme of delegation the Council should ensure that there is clarity of decision making on hosting events, and that the governance arrangements relating to such decisions are effective and clearly communicated.</p>	32

Appendix A: Improvement recommendations (cont'd)

This appendix summarises our improvement recommendations by KLOE.

Page 108	Improvement recommendations	Page #
	KLOE A7: Waste Service	
22.	The Council should prioritise corporate effort to ensure that the recovery plans are approved and appropriate senior management oversight is given to monitoring their effective delivery.	35
23.	The Council should ensure robust contract management arrangements are in place, and review the Key Output Targets (KOTs) and work with Serco to ensure they are line with Council expectations and the data is available to allow effective monitoring of contract outcomes.	35
24.	The Council should ensure that the investments specified in the contract with Serco are made, such as a new vehicle fleet.	35
	KLOE A9: Lion Farm	
25.	The Council must ensure that the recent re-engagement with the developer results in agreeing a clear way forward, including an action plan and timescale so there is clarity on the responsibilities for the Council and developer in order to progress the finalisation of the secondary option agreement, or to be clear on the legal process for both parties extricating themselves from the agreement and the associated terms.	38
26.	The Council must ensure that it has taken all necessary steps to ensure that arrangements are in place so that all the issues identified in the external review are appropriately mitigated and managed.	38
27.	The Council should review its procurement regulations and consider updating them to include land sales, including options agreements, to ensure that best value can be achieved.	38
	KLOE A10: Introduction of new ERP System	
28.	<p>The Council must prioritise corporate effort to:</p> <ul style="list-style-type: none"> • ensure that temporary support is agreed with Oracle for EBS continuity. • have an honest and frank discussion with Inoapps and urgently agree a clear resolution on the way forward. • review governance arrangements so that good practice (such as Managing Successful Programmes) is in place and embedded, including clarity on the SRO role and approach to risk management. • review the resourcing and scope of the implementation to ensure that it is realistic, given current circumstances, focuses on outcomes as well as costs, and there is organisation wide engagement and ownership of the programme. • confirm a realistic and achievable go live date. • ensure for future major projects a full business case is developed and approved. 	41

Appendix A: Improvement recommendations (cont'd)

This appendix summarises our improvement recommendations by KLOE.

Page	Improvement recommendations	Page #
109	KLOE B1: Chief Officers	
29.	The Council should ensure that at the very least, appropriate internal and external advice is sought should the departure of a chief officer by mutual consent is agreed..	42
	KLOE B2: Senior Leadership	
30.	Critical to this sustainable change will be the appointment of the right permanent Chief Executive, and the Council must ensure an effective recruitment process, including maximising the chances of attracting a pool of appropriate candidates. Should the appointment of a permanent Chief Executive not be successful the Council should seek to retain the current interim Chief Executive and move this to a full time contract.	43
	KLOE B3: Complaints	
31.	The Council's senior leadership – both officer and member – must act to change the culture and organisational ethos in relation to complaints, and to restore balance and proportionality.	44
	KLOE B5: Standards Committee	
32.	Member training and development programme must play a key role in ensuring members fully understand the expectations and standards relating to their role	46
33.	Meetings between senior officers, political group leaders and chief whips should take place to ensure that these stakeholders are able to discuss emerging issues and trends, recognise good behaviours and discuss how to manage behaviours not in line with the Code	46

Appendix A: Improvement recommendations (cont'd)

This appendix summarises our improvement recommendations by KLOE.

Page	Improvement recommendations	Page #
110	KLOE B6: Audit Committee	
34.	Now that the Audit and Risk Assurance Committee has agreed the actions to bring this long-standing matter to resolution, it will be important that – as the Audit and Governance Panel recognised - the Council manages its position so that the matter does not resurface, so that it can move on and focus on its corporate objectives.	48
	KLOE B7: Financial Reporting	
35.	Management should ensure that the AFR action plan sets out actions and completion dates in relation to all recommendations. It should also identify where the new ERP system implementation and the planned asset management system could cause delays or impacts on planned actions	49
36.	Management should ensure that the changes in relation to budget setting and budget management recently introduced are sustained, and take steps to manage any weaknesses not yet addressed.	49
37.	Management should ensure the Finance team has appropriate skills and capacity to manage the Council's financial reporting responsibilities.	49

Appendix B: The scope of the auditor's work on value for money arrangements

Page 111

Revised approach to value for money work for 2020/21

- On 1 April 2020, the National Audit Office introduced a new Code of Audit Practice which comes into effect from audit year 2020/21. The Code introduced a revised approach to the audit of value for money.
- There are three main changes arising from the NAO's new approach:
 - A new set of key criteria, covering financial sustainability, governance and improvements in economy, efficiency and effectiveness
 - More extensive reporting, with a requirement on the auditor to produce a commentary on arrangements across all of the key criteria
 - Auditors undertaking sufficient analysis on the local authority's value for money arrangements to arrive at far more sophisticated judgements on performance, as well as key recommendations on any significant weaknesses in arrangements identified during the audit.
- The Code requires auditors to consider whether the body has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. When reporting on these arrangements, the Code requires auditors to structure their commentary on arrangements under the three specified reporting criteria.

Improving economy, efficiency and effectiveness

Arrangements for improving the way the body delivers its services. This includes arrangements for understanding costs and delivering efficiencies and improving outcomes for service users.

Financial Sustainability

Arrangements for ensuring the body can continue to deliver services. This includes planning resources to ensure adequate finances and maintain sustainable levels of spending over the medium term (3-5 years)

Governance

Arrangements for ensuring that the body makes appropriate decisions in the right way. This includes arrangements for budget setting and management, risk management, and ensuring the body makes decisions based on appropriate information

Potential types of recommendations

A range of different recommendations could be made following the completion of work on the body's arrangements to secure economy, efficiency and effectiveness in its use of resources, which are as follows:

Statutory recommendation

Written recommendations to the body under Section 24 (Schedule 7) of the Local Audit and Accountability Act 2014. A recommendation under schedule 7 requires the body to discuss and respond publicly to the report.

Key recommendation

The Code of Audit Practice requires that where auditors identify significant weaknesses in arrangements to secure value for money they should make recommendations setting out the actions that should be taken by the body. We have defined these recommendations as 'key recommendations'.

Improvement recommendation

These recommendations, if implemented should improve the arrangements in place at the body, but are not made as a result of identifying significant weaknesses in the body's arrangements

1 Executive Summary

1.1 Purpose and scope of the review

CIPFA have been commissioned to undertake a review of the financial management and governance arrangements by Sandwell Metropolitan Borough Council using the Financial Management Model (FM Model).

The review is intended to contribute to the development of the Council's financial management operation and arrangements. It assesses the Council's financial management capability, its internal processes, and operations. It also examines how the Council plans its future financial management. This report summarises the findings from the review, provides analysis of the model's constituent elements, and provides a rating against the CIPFA five-star model.

The report also contains a series of recommendations. These can be developed into an action plan to support an improvement process.

1.2 Approach adopted

The review comprises the financial management model's three constituent elements: a survey, a series of interviews with staff and elected members, and a document review. The findings from each of these are entered into the model's framework. This allows findings to be scored against a standard set of statements and questions representing best practice in financial management and governance.

The statements and questions represent management dimensions and financial management styles. There are over 400 questions in total. The response to each is rated as yes, no, partly or don't know. The collective scores for each statement are then combined to produce the overall rating.

1.3 Findings

The findings from the review are presented as a summary table which gives individual scores against key model headings, and as an overall score.

Sandwell Council – January 2022 Position				
	Management dimensions			
Financial management styles	Leadership	People	Process	Stakeholders
Delivering Accountability	**	**	**	**
Supporting performance	**	*	*	**
Enabling transformation	**	*	*	*****
Overall	**			

The scoring process generates an overall star rating between one and five, five being the highest. Sandwell achieved an overall rating of two stars and would be considered to be a progressive two star authority. In our experience most local authorities are either two or three stars. Sandwell Council has been under extreme pressure due to the COVID pandemic, however this is only a small contributory factor to other underlying issues.

The review and consequent score reflects a point in time. It is evident from the interviews and evidence base that the Authority is on a journey and recognises areas of weakness and those in need of development. The review has concluded that changes have and are being made which will have a positive impact on financial management and governance arrangements at Sandwell. The direction of travel is encouraging. Recent changes in leadership have been noted positively in interviews. While these are in themselves insufficient to overcome longstanding problems immediately, they demonstrate the right improvement intent. The delivery of that ambition will be critical to improving Sandwell's overall five star rating.

At the time of the review CIPFA felt the Authority had an outdated financial management culture, lacked clear engagement and leadership from members on budgeting, and has some poor processes in place, particularly around contract management. The finance function's culture needs to be addressed, especially in the area of business partnering, and there are a few immediate structural steps that can be taken to improve what is a substantial but underperforming team. During the review it became apparent that this was being addressed and improvements were underway. A new draft finance structure has been prepared, removing layers, and providing a greater focus on business partnering. This is due for consultation in early February.

The table above indicates both areas where the Council's performance is positive and those requiring improvement. The body of the report has a detailed analysis of individual scores and findings from the review.

A review of the Authority's published financial statements and the CIPFA resilience index indicate that the authority at present is financially stable and in recent years has been able to contribute towards reserves through achieving a balanced budget or an underspend. Whilst a theme emerged during the review that the authority has lacked ambition and did not previously seek to invest in major regeneration initiatives, there are now 16 Towns Fund projects in progress with final business cases due for submission by the end of March. 'The Sandwell way' was used numerous times to describe given assumptions which restrain ambition and produce a suboptimal budget process, however there is clear indication of a change in both direction and ambition.

This report highlights opportunities to improve and strengthen financial management and governance across the authority which can be achieved through a planned change programme.

1.4 Next steps and action plan

The report includes recommendations aligned to the findings. This initial set of observations and recommendations will be the subject of discussion leading to the agreement of a final report.

The action plan is intended to stimulate debate, suggesting ways to move Sandwell MBC from a two star rating to three stars and beyond.

2 Introduction and Background

2.1 Objectives of the review

The review has the objective of assessing the Council's capability to effectively manage its current finances, internal process, and operations, as well as how it plans future financial management.

The review is required to contribute to the development of the Council's financial management operation and arrangements.

2.2 The current financial position

Sandwell Metropolitan Borough Council is one of the seven local authorities that make up the West Midlands Combined Authority and alone has a population of around 330k. Sandwell is an area of widespread deprivation with a huge and increasing demand for Council services.

A brief review of the finance report to cabinet in March 2021 indicates the forecast level of free balances at the end of 2020/21 is unlikely to reduce from the level of £11.47m which were held at the end of 2019/20. This is equivalent to 4.64% of the Council's net expenditure budget for 2021/22 and is within the prudent parameters set by the Section 151 officer. The estimated General Fund reserve balance as of 31 March 2021 is £74.66m

As indicated earlier a detailed review of the financial position of the authority was outside scope of this review stop. However, given the March 2021 cabinet report, the authority's finances appear to be in a healthy position. This conclusion is supported by conversations during the interview with some commenting that the authority has never struggled to balance budgets and had a 'lazy' approach as 'overspend doesn't matter'.

2.3 Future challenges

Sandwell Council faces numerous future challenges that will have a direct impact on revenue and capital budgets. These include the prospect of further spending cuts, as well as economic uncertainty, the continuing impact of Covid, welfare reform, housing need and an aging population. These will require strategic thinking and innovation.

The general feeling of those interviewed as part of this review was that the authority had, in the recent past, lacked direction and leadership. Its ageing workforce continued to lack appetite for change with some finance officers set in their ways. Significant change had been noticed recently with the introduction of a new s.151 officer and a focus on improvements.

Nearly all interviewees felt the current finance arrangements were not fit for purpose and that the authority would need a new approach, including some structural changes, as well as new personnel to deliver new and innovative finance processes to bring the service up to date. This was being addressed in the preparation of a new structure which is awaiting consultation and should alleviate the feeling that the authority is too reactive and not proactive when it came to financial management and lacked a strategic vision. The reviewers concur with the broad thrust of these comments. They note

however that the structure itself of what is a large finance function is of less immediate concern than certain issues of strategic focus, as well as culture, such as the approach to business partnering.

Member involvement and engagement in budget matters is improving with the recent introduction of budget workshops, designed to build better working relationships, share latest budget positions and to present and discuss savings options. This will help achieve the strategic objectives and vision of portfolio holders in a changing political landscape. Finance must be at the centre of this renewed strategic intent.

3 The Financial management model

3.1 The model purpose

CIPFA's Financial Management Model (FM Model) can be used to support and drive effective performance in financial management and financial governance throughout an authority. It uses an internationally recognised framework and diagnostic tool, enabling authorities to have an independent assessment of their financial management against world class best practices in the public sector to optimise systems, processes, resources, compliance, and reporting.

The FM Model output will identify or substantiate weaknesses (as well as confirm strengths) and then support the development and delivery of a target-driven improvement plan allowing progress to be closely tracked and measured.

The FM Model measures the strengths and weaknesses across the whole of an authority, examining processes, people, leadership, and stakeholders. The model is not just about the finance function. It is about the corporate ownership and accountability for finance.

The model benchmarks the authority's financial management against best practice using a series of statements and principles. It focuses on financial management capability across the whole authority and helps pinpoint priorities for improvement. It can help raise effectiveness and confidence in stewardship, performance, and the ability to implement change.

The framework is fully aligned with today's public sector. It reflects the latest developments and opportunities in business partnering, commercialism, procurement, and governance, and stressed the critical role and prominence of the CFO and the finance team within an authority.

3.2 The model approach

The FM model is based on a series of statements focused on Leadership, Process, People and Stakeholders. Each of these is measured against the pillars of good financial management as follows:

Enabling transformation: the finance team have input into strategic and operational plans taking into account proactive risk management, clear strategic direction, and focus-based outcomes.

Supporting performance: finance teams are actively committed to continuous improvement focused on efficient and effective delivery and authority performance.

Delivering Accountability: financial information is accurate, timely and focusses on controls, probity, compliance, and accountability.

Measurement is based on a series of best practice statements. A score is determined for each statement. Each statement has a number of supporting questions and the response to these is used to assist in the overall scoring process. The process is supported by an Online Diagnostic tool which captures the evidence and is used to undertake the assessment based on the acquired evidence.

Attached at Appendix 3 is a table that indicates the assessment criteria and characteristics of each of the star ratings.

Evidence is collected through three independent methods:

A review of documents. The purpose of considering these is to gain a view on the formal processes, arrangements, reports, and reporting processes in place. They also provide detail on the financial position and on governance in practice. The document review also helps triangulate other evidence, allowing comparison of process and procedure with what happens in practice. The full list of documents reviewed can be found at Appendix 2 of this report.

A series of interviews with staff and stakeholders. The 36 interviews in total included a range of staff across the Council and elected members. The purpose of each interview was to gain an impression and understanding of the individual's thoughts on the financial management and financial governance arrangements in operation.

An online survey. The survey invited a total of 197 recipients to respond to a series of questions within the model that are based around best practice. The response rate was 59%.

Following completion of these steps the model can be used to score statements and arrive at an overall rating.

The three methods of evidence captured are then used to score the Authority against model and in a triangulated fashion that helps eliminate bias.

3.3 The model output

On completion, the FM Model produces a scoring matrix. This captures the assessment and presents findings back against a series of management dimensions and financial management styles. Scores are based on the three sources of evidence outlined above.

This report findings and conclusions are presented against the management dimensions. The report is a snapshot in time. It is recognised that with any authority there is a process of constant change.

The report includes a headline improvement plan. This responds to key areas identified as requiring attention. The improvement plan, areas, actions, and owners will be agreed as part of finalising the report to ensure there is acceptance of the need to take action.

The scoring matrix also presents a star rating within the range 1* to 5*. This is seen as an indicator of where the authority is against the best practice model. In our experience most authorities we review fall into the range 2* to 3*. Using the review and action plan will help support the authority development and a progression to the next level.

4 The review findings

4.1 Introduction

The overall rating for Sandwell against the FM Model is one star. The matrix below summarises the scoring.

Sandwell Council – January 2022 Position				
	Management dimensions			
Financial management styles	Leadership	People	Process	Stakeholders
Delivering Accountability	**	**	**	**
Supporting performance	**	*	*	**
Enabling transformation	**	*	*	****
Overall	**			

Summary ratings in the table are shown for each statement, with an overall final score provided following the use of a conversion and grading metric. For example, 'Leadership / Delivering accountability' shows in summary as **, given the mixed scores against the three underlying headings (set out at the start of section 4.2) while the overall aggregated rating is **.

The sections below will explain in further detail the findings, under the management dimension themes along with conclusions and outline recommendations for improvement.

4.2 Leadership

Delivering accountability

L1	Financial capability is regarded as integral to supporting the delivery of the organisation's objectives. The CFO is an active member of the board, is at the heart of corporate strategy/business decision making and leads a highly visible, influential, and supportive finance team.	***
L2	The organisation has an effective framework of financial accountability that is clearly understood and applied throughout, from the <i>board</i> through executive and non-executive directors to front line service <i>managers</i> .	**
L3	Within an annual budget setting process the organisation's leadership sets income requirements including tax and allocates resources to different activities <u>in order to</u> achieve its objectives. The organisation monitors the organisation's financial and activity performance in delivering planned outcomes.	**
Overall		**

- This is a relatively low score. It indicates that whilst the role of finance is considered integral to supporting authority objectives and has support from senior staff, the framework for financial accountability and budget setting processes required improvement. The budget process for 22/23 is significantly different to previous years in terms of the approach to identifying and agreeing savings and member engagement and is seen as a positive step in the right direction.
- Consistent feedback suggests the budget setting process has historically lacked member engagement and did not focus on key authority objectives within a good governance framework that included an adequate check and challenge process at a political and operational level, however several Cabinet budget workshops have taken place this year, improving member input.
- Survey responses and interview findings suggest there has previously been poor leadership and clarity around roles and responsibilities of senior officers. However, the recent changes have been recognised with complimentary feedback on the interim CEO and new Section 151 officer.
- The structural review has also suggested that while the finance function overall is large, there is perhaps a lack of strategic capacity. The Head of Finance portfolio is substantial and also contains areas of strategic concern. There may need to be extra capacity introduced here.

Supporting performance

L4	The organisation has a developed financial strategy to underpin medium and longer term financial health. The organisation integrates its business and financial planning so that it aligns resources to meet current and future outcome focussed business objectives and priorities.	**
L5	The organisation develops and uses financial/leadership expertise in its strategic decision-making and its performance management based on an appraisal of the financial environment and cost drivers.	**
Overall		**

- Overall, this area has scored two stars. This indicates a significant lack of planning and strategy at the time of the review to support business objectives, however it is noted that the corporate plan is undergoing a refresh and that a new approach to business planning is being adopted moving forward, with plans for earlier budget consultation.
- During interviews there were mainly negative responses across the business about financial decision-making and the degree to which it is adequately informed by a detailed understanding of cost drivers and sensitivities affecting the principal activities. The reliance on information contained within disparate and outdated systems was also noted.
- Interviewees repeatedly highlighted the absence of a defined and iterative process whereby political priorities are translated into spending plans, which in turn are measured as outcomes. Developing members' political mandates into a core set of objectives that are then reflected in resource allocations is the essence of sound budgeting.

Enabling transformation

L6	The organisation's leadership integrates financial management into its strategies to meet future business needs. Its financial management approach supports the change agenda and a culture of customer focus, innovation, improvement, and development.	**
Overall		**

- This section of the model seeks to understand the arrangements in place to meet future business requirements and how the authority adapts and transforms to respond. Sandwell scored two stars in this area, suggesting the authority is unclear on how its operating mode should adapt and evolve.
- The board and senior managers have not used performance and cost measure information, including benchmarking data in the past to identify areas of the business where radical rethinking of delivery is needed. Benchmarking data on unit costs and fees and charges has been used in the 22/23 budget process for the first time and the leadership team now receive monthly budget monitoring information which is seen as a marked improvement.
- The authority provided information on proactive approaches to change management for delivering planned outcomes within budget and realising required service benefits. These included a large upgrade to Oracle Fusion, a system used for HR and Finance that has been under review for approximately two years. The project experienced a number of implementation issues leading to the existing contract to be terminated and a new provider procured. This project included revisiting governance arrangement and reviewing resources of the project board.
- The leadership team has agreed a transformational programme with cross cutting savings projects. Each product has a dedicated leadership team sponsor and embeds cost cutting targets. Business analysts and additional resources have been identified to support each project.

Conclusions

- This section indicates that Sandwell Council has previously had poor financial leadership and accountability, but that recent activity is delivering improvements.
- There is a need to review the current finance culture and make some strategic adjustments. Greater definition around certain roles and responsibilities in strategic and operational finance will be needed to meet future business needs.
- In budgeting, finance's early involvement, especially for new change projects and programmes, will always be critical. Further, there is great value to be derived from using benchmarking and comparative analysis in developing strategies and business cases

Areas for development

- The role of finance and those responsible for strategic leadership should be clearly defined within a new budget culture and arrangements, as well as in the deployment of an Interim Operating Model for finance (see structural review). This will help the authority develop a robust financial strategy to underpin medium and longer term financial health.
- The authority should develop the use of comparative data, benchmarking, and demand management techniques in an increased number of service areas to support building the medium term financial plan.

4.3 People

Delivering accountability

P1	The organisation identifies its financial competency needs and puts arrangements in place to meet them.	*
P2	The organisation has access to sufficient financial skills to meet its business needs.	***
Overall		**

- This section has delivered a two-star rating overall. This indicates the authority has a reasonable understanding of the financial competence required by finance staff and that overall managers consider that finance have a reasonable level of skill.
- Some of those interviewed felt there was too much reliance placed on experienced staff within the core finance function and insufficient manager self-service, to support sustainability and allow finance to assume a properly strategic partnering/challenging role. There is an opportunity in the design of the new finance arrangements to define the respective responsibilities of finance officers – business partners in particular – and relate them to a revised competency framework.
- An authority should indeed have a financial management competency framework; however, respondents were largely unaware of a competency framework and didn't know whether it applied across finance solely or included budget holders. There may be an opportunity to improve the way that financial management skills are assessed against the framework, within finance and corporately, through appraisal and staff development programmes.

Supporting performance

P3	The organisation manages its finance function to ensure efficiency and effectiveness.	*
P4	Finance staff provide business partner support by interpreting and explaining performance as well as advising and supporting on key business decisions.	*
P5	Managers understand they are responsible for delivering services cost effectively and are held accountable for doing so. Financial literacy is diffused throughout the organisation so that decision takers understand and manage the financial implications of their decisions.	*
Overall		*

- The authority achieved an overall score of one star for supporting performance. A key area within this section is the relationship with service directorates. There is an opportunity to consider the use of service level agreements and standards to ensure finance is suitably performance managed and that there is clarity about the mutual obligation of the finance service areas.
- Most respondents were unaware of the existence of a finance function development plan for the authority or believed there wasn't one.
- Business partnering arrangements could be developed and improved. In some areas it is evident that business partners need to provide a stronger advisory challenge and support around budget setting, monitoring, and achieving value for money. This is

being addressed as part of a structure review that is due for consultation at the end of January. The adoption of a consistent definition of the business partner role and function can facilitate staff rotation and the spread of good practice across the authority.

- Survey respondents suggested this area would benefit from a more structured approach. They indicated that finance SLAs only existed with external partners and not for internal clients. This meant that the approach to partnering was ad hoc, rather than consistent across directorates.
- Whilst many respondents suggested that managers have an awareness of their budgetary responsibilities and expected performance, and most take them seriously, this was not universally accepted. Interviewees were unclear about the consequences for managers who did not take their financial management responsibilities seriously or performed poorly.

Enabling transformation

P6	The organisation develops and sustains its financial management capacity to help shape and support its transformational programme.	*
Overall		*

- The final element of the people aspect of the model concentrates on financial managements capacity to help shape change and transformation. The score here again reflects the historic lack of a finance function development plan and consistency of training and development. The service has recently identified training needs on financial reporting and external training has been commissioned to take place during February to improve the accuracy of the 21/22 accounts.
- There is an indication that some finance staff do not have the status and influence to have a transformational impact on the authority as it develops. Consistency is needed in how finance is involved in and challenge strategic planning, policy development and change.
- It is important that Sandwell Council attracts, develops, and retains high quality financial management skills if it is to transform in the future. Again, indications are that the approach is inconsistent. There is an opportunity to consider the knowledge skills and capacity that are required in financial management to support change and transformation, with the finance function tailoring and developing its plans accordingly.
- There were mixed perspectives from interviewees and survey respondents on how the authority learns from best practice, transfers skills and knowledge within the authority and understands learning points. This needs to be improved so the whole authority benefit as it transforms and changes in the future.
- Also related to change and transformation is whether Sandwell Council corporately recognises success in financial management, innovation, and best practice. This doesn't seem to be the case and may be something the Council should consider.

Conclusions

- The people statements within the model seek to assess the finance function and finance environment's skills, capability, and competency, as well as those in the broader authority, particularly among budget holders. It seeks to make sure that there are sufficient skills to meet business needs and support efficient and effective delivery. It also seeks to ensure that there are mutually supportive conditions, in which business

partners support managers and budget holders, while the latter understand their financial management roles and responsibilities clearly. We have suggested that a more unified and comprehensive approach to financial management competency, training and development would be useful in pursuit of this goal. This should be linked to best practice and tested through rigorous performance management, with incentives and sanctions for good and suboptimal financial management achievements.

- Business partnering appears to be ineffective or inconsistent. Finance is seen as a proactive partner in some areas but not in others, where it is considered more transactional. More consistent approaches are needed, related to the mutual responsibility principles set out above and potentially underpinned by SLAs.

Areas for development

- Review, assess, and revise the competency framework, considering the skills and capability necessary for the authority now and in the future.
- Examine arrangements in place to attract and retain high calibre staff. The use of interim staff is always going to be necessary, but this should be limited as far as possible, as it undermines a strong finance environment over time.
- Continue to review and revise the structure and arrangements for business partnering across the authority. This approach should deliver a consistent, standard service in line with business needs. Finance should provide an advisory and challenge function, not, as far as possible, undertake transactional services for directorates. To that end, the responsibilities of budget holders for financial management, including self-management, should be spelt out.

4.4 Process

Delivering accountability

PR1	Budgets are accrual-based and robustly calculated	**
PR2	The organisation operates financial information systems that enable the consistent production of comprehensive, accrual based, accurate and up to date data that fully meets users' needs.	**
PR3	The organisation operates and maintains accurate, timely and efficient transactional financial services (e.g., creditor payments, income collection, payroll, and pensions' administration).	*
PR4	The organisation's treasury management is risk based. It manages its investments and cash flows, its banking, money market and capital market transactions, balancing risk, and financial performance.	*****
PR5	The organisation actively manages budgets, with effective budget monitoring arrangements that ensure 'no surprises' and trigger responsive action.	***
PR6	The organisation maintains processes to ensure that information about key assets and liabilities in its balance sheet is a sound and current platform for management action.	*
PR7	Management understands and addresses its risk management and internal control governance responsibilities.	**
PR8	Management is supported by effective assurance arrangements, including internal audit, and audit and risk committee(s).	***
PR9	The organisation's financial accounting and reporting are accrual based and comply with international standards and meet relevant professional and regulatory standards.	*
Overall		**

- This area of the review produced a two-star rating. There are areas where the Council has scored three or even four stars, however the overall score is brought down by significant weaknesses where only one star was achieved.
- The delivering accountability section seeks to assess some of the basic requirements of good financial management.
- One key area under PR1 that could be developed further is the varying degree to which managers are fully involved with finance in setting their budgets, to ensure ownership and accountability. There is value in considering the budget setting process from an outcome based perspective, and Sandwell have begun to take a zero based budgeting approach to some services in 2022/23. The survey and interviews indicated uneven awareness and use of these budget techniques. Their adoption would help improve the quality and reliability of budgets and forecasting.
- Interviewees reported issues with the financial information system, including the basic accounting and reporting information provided. Members and senior officers commented on a lack of regular reporting for budget monitoring processes, although this has already been addressed. Many officers considered the system out of date, highlighting that the new Oracle implementation project has overrun. This has now been moved forward and a cabinet decision was reached in December 2021 to procure a new delivery partner.
- The systems issue is plainly linked to a question of self-management and budgetary autonomy for budget holders mentioned earlier.

Supporting performance

PR10	The organisation's medium-term financial planning process underpins fiscal discipline, is focussed upon the achievement of strategic priorities, and delivers a dynamic and effective business plan.	**
PR11	Forecasting processes and reporting are well developed and supported by accountable operational management. Forecasting is insightful and leads to optimal decision making.	**
PR12	The organisation systematically pursues opportunities to reduce costs and improve value for money in its operations.	*
PR13	The organisation systematically pursues opportunities for improved value for money and cost savings through its procurement, commissioning, and contract management.	*
Overall		*

- The medium term financial plan and the process it follows should underpin the delivery of strategic objectives and priorities. It should be dynamic and supported by service delivery plans. It is important to ensure that the medium term financial plan therefore has a direct link to other authority strategies such as technology, capital, workforce, assets, and the corporate plan.
- Although the council was able to set the 2020/21 budget without the need for savings by individual directorates or the use of reserves, the Medium-Term Financial Strategy did include some existing planned savings and budget pressures that were due to be addressed during 2020/21. Some of those interviewed felt this did not support service delivery enough and that it was merely 'bottom line budgeting' with 'top slice' savings targets, however this approach has now been changed for 2022/23.
- Forecasting is a fundamental element of building both the annual budget and medium term financial plan. Some survey respondents and interviewees felt the forecasting and reporting process needed developing and that not enough time is available to deal with data quality issues to support the process, mainly due to high workloads.

Enabling transformation

PR14	The organisation continually re-engineers its financial processes to ensure delivery of agreed outcomes is optimised.	*
PR15	The organisation's financial management processes support organisational change.	*
Overall		*

- Enabling transformation focuses on an authority's use of regular end to end reviews of processes to ensure that they are as efficient as possible and provide value for money. It is evident from the review that many of Sandwell Council's processes are out of date. Financial management systems also require radical review. They do not yet promote the self-service environment that would reduce budget manager reliance on finance staff for transactional purposes and allow finance to operate more strategically.

Conclusions

- The review has indicated that some financial management processes are weak, but this has already been recognised. Some issues stem from an historic lack of leadership that is being addressed with significant improvements already being made. Further opportunities to improve and develop the delivery of finance through new financial processes and technology are readily available.
- The Authority should schedule end to end process reviews as part of service transformation programme and zero-basing exercises. These would also improve the control structure and define the role of finance more clearly.
- Finance should always take a prominent role in supporting the authority change and develop. To that end, finance should be versed in the latest methodologies and systems for improvement, such as agile.

Areas for development

- Continued review of finance systems to ensure they are fit for purpose and working as intended.
- Implement a programme of end to end process reviews in key business areas, linked to transformation plans, similar to the recent ZBB work to understand cost drivers and areas of persistent overspend.

4.5 Stakeholders

Delivering accountability

S1	The organisation provides external stakeholders with evidence of the integrity of its financial conduct and performance and demonstrates fiscal discipline including compliance with statutory/legal/regulatory obligations.	**
Overall		**

- This statement concerns Sandwell Council's relationship with external stakeholders and the confidence it can provide them on financial conduct and performance.
- There are some questions within this statement that reduce the score, in particular relating to the statement of accounts being free from material criticism by external auditors.

Supporting performance

S2	The organisation demonstrates that it achieves value for money in the use of its resources.	**
Overall		**

- As highlighted earlier in the report Sandwell has recently introduced the use of benchmarking for 2022/23, helping finance focus savings targets such as a reduced savings target in Children's services because it is a low spend service compared to

nearest neighbours. The use of further benchmarking techniques and available data should be explored

- Interviewees regularly responded that they have had limited opportunity in the past to highlight better ways of working or to discuss innovative ideas for service improvement with senior staff.

Enabling transformation

S3	The organisation is responsive to its operating environment, seeking and responding to customer and stakeholder service and spending priorities that impact on its financial management.	****
Overall		****

- This statement seeks to understand how Sandwell Council works with stakeholders in the community to develop priorities and then feeds back to them on its plans.
- It is good practice to seek the views of customers and stakeholders' such as funding authorities or partner delivery bodies about priorities. This insight should be gained in an accessible way through market research, opinion polls, web based surveys or workshops/focus groups for example. The review found evidence that the Council does this to considerable degree. However, this could be enhanced further. On communications, the Council could do more to engage 'hard-to-reach' groups. It could use some lessons from Covid to improve its own communications, in particular the pandemic's transformational impact on technology and on how communities and interest groups interact. Sandwell should also seek further opportunities for co-creation with partners. Recent peer review work has suggested that the Council needs to clarify both its 'offer' to partners and its 'ask' of them to be more effective. Better prioritisation and a member-led and accountable approach to budget management would promote this complementarity in partnering.

Conclusions

- There has been limited engagement with stakeholders in the past, but this has improved recently with the introduction of new senior finance staff.
- The Council actively seeks stakeholder views, but there are opportunities for improvement.

Areas for development

- There is an opportunity to review how an improved budget process can incorporate stakeholder engagement, partnering and co-creation. Sandwell needs to address the offer/ask issue urgently.
- Sandwell should a review of external engagement with stakeholders and its communications strategy in the light of the lessons of Covid.

4.6 Finance function operation

During interviews with council officers a pattern of negative views on the way finance has operated in the past, and to an extent continues to do so came to light. However, it has been widely acknowledged that the authority now has some strong leadership in place in the form of an interim CEO and new section 151 officer that has a vision on how

finance as a function should operate and what is needed to improve the position of the authority.

The Authority is developing its budgeting process and increasing the use of outcome based reviews, outcome budget setting, zero based budgeting and comparative statistics which will improve financial management and performance monitoring. A zero based budget approach and a focus on outcomes will improve the overall budget process, leading to a more strategic and member-led budget.

We have suggested in the structural review some steps that need to be taken towards an interim operating model, while stressing the more urgent issues of budget process, culture, and clarity around the business partnering role and the role of budget managers. Finance should be a strategic service, providing early, active support and challenge to budget holders, working alongside them and not remotely. Finance should be involved routinely in the development of business cases, change projects and transformation planning. It should not, as far as possible, be a transactional service. It should accordingly develop its service knowledge and understanding of modern business processes and associated financial modelling (for instance for agile).

Budget holders should be sufficiently financially literate to benefit from the finance challenge and to ask the right questions of their finance partners. They should be held accountable for their budget management. Wherever possible in budget monitoring and transactions, they should also self-serve. This may entail the provision of better financial system.

Sandwell Council should develop a financial management culture in which success is rewarded and suitable sanctions are applied to poor performance.

These changes should be led corporately, with clear corporate sponsorship and leadership, with the section 151 officer as the SRO.

5 Action plan and next steps

5.1 Introduction

As part of the financial management model review, we have identified a number of potential areas where action could be taken to improve financial management and governance in general.

This section of the report collates these recommendations This can be used to form the basis of a discussion with the authority on the next steps. In developing a plan there may be other areas highlighted as part of the model that would or should be included and some others that are specific to ongoing activity already underway.

This is the authorities plan and is intended to support ongoing improvement.

5.2 Outline plan

This section will be discussed and agreed with the Authority setting out the key recommendations to improve the financial arrangements:

Recommendation description	Planned Activity	Proposed owner	Timescale
Develop a clear consistent role for finance.			
Develop the use of comparative data, benchmarking and demand management techniques.			
Review, assess, and revise where appropriate the competency framework principle considering the skills and capability necessary for the authority now and in the future.			
Review arrangements and practices that can ensure that it attracts high calibre staff and that these are retained.			
Review and revise the structure and arrangements where appropriate for the delivery of business partnering across the authority.			
Develop the skills and capabilities within services around varying budgetary techniques such as outcomes and base budget reviews.			
Establish what skills gaps there are in finance team and the broader finance environments across the authority. Following this produce and deliver a plan of awareness and training for both staff and elected members.			

Recommendation description	Planned Activity	Proposed owner	Timescale
Ensure that any new asset management system delivers the required information on control to manage assets from both a service perspective and a financial reporting strands.			
Consider a programme of end to end process reviews in key business areas.			
Develop and use benchmarking and statistical data comparison to support the development of budgets and their in year monitoring.			
Resolve issues relating to the completion and sign off of final accounts.			
Consider a review of external engagement with stakeholders and the process to feedback			
That the finance function undertakes a change programme, led by the section 151 officer that looks at the issues raised through the review, best practice principles and considers designing a target operating model that responds to current and future challenges.			
That financial governance and decision making arrangements are reviewed and strengthened from both a political and officer perspective.			

Appendix 1 – List of interviewees

Peter Farrow	Chief Internal Auditor & Risk
Kim Bromley Derry	Chief Executive
Cllr Singh	Councillor – Leader
Cllr Crompton	Councillor – Deputy Leader/Finance Portfolio
Cllr Gill	Councillor – Chair of Audit
Cllr Giles	Councillor – Chair of Finance scrutiny
Surjit Tour	Director of Governance and Monitoring Officer
Neil Cox	Director of Business Strategy & Change
Nick Austin	Director of Borough Economy
Mark Stocks	External Auditor
Charlie Davey	Service Finance Manager
Tony McGovern	Head of Economy & Regeneration
Gillian Douglas	Director of Housing
	Head of Procurement
Chris Hilton	Head of Property Services
Simone Hines	CFO (Section 151 Officer)
Rebecca Maher	Head of Finance
Colin Marsh	Service Manager - Adults
Nigel Collumbell	Service Manager - Housing
Sue Moore	Service Manager - Education
Kate Ashley	Strategic Lead - Service Improvement
Tammy Stokes	Services Manager - Regen

	Framework for establishing relationships with other bodies	46
Stakeholders		
	Customer/stakeholder surveys	47
	Complaint's policy/procedure	48

Appendix 3 – Star rating key criteria and characteristics

Rating	Assessment
*****	The organisation has in place leading edge financial management capability that allows it to anticipate both challenges and key opportunities, driving transformational change in order to optimise its performance and deliver optimal outcomes. Financial strategy is robust and covers medium to longer term and the organisation is fully agile in adapting to unforeseen events without impacting key outcomes. Investment programme management including commercial capabilities are fully integrated with operational requirements and highly effective with significant returns being achieved on improved service delivery. Financial management capability meets global best practice standards.
****	The organisation has in place strong financial management capability which enables it to deliver effective outcomes in challenging times, provides stability through to the medium term, is agile in adapting to unforeseen events, continually identifies opportunities to improve its performance and contributes to organisational transformational change. Most investment programmes are delivered to time and cost. The organisation has strong insight into cost drivers and commercial capabilities are highly evident with strategic and operational planning.
***	The organisation has sound financial management capability and has arrangements in place that are adequate in supporting the organisation under stable conditions and enables it to incrementally develop but is not sufficient for challenging times or driving transformational change. There is a medium term financial strategy and competent investment programme management that ensures that most programmes are implemented although invariably not all projects will come within budget and timescales. Commercial capabilities exist but are only partially developed.
**	The organisation has basic financial management capability. Financial management arrangements are in place that allows the organisation to meet the minimum of practice standards and provides functional capability in the short term, a minimum level of support in the delivery organisational outcomes but does not support organisational transformational change. Financial management style is predominantly stewardship in nature rather than supporting effective decision support. Investment Programme management is rudimentary and there is a disconnect between operational and financial strategies.
*	The organisation has some financial management arrangement in place, but they are inadequate and provide only minimal financial management capability with reactive short term solutions. Basic accountability obligations are minimally covered, and financial management does not meaningfully support effective organisational outcomes of transformational change. Basic stewardship responsibilities are a challenge and financial management capability is not fully embedded within basic decision support.

LGA Corporate Peer Challenge

Sandwell Council

Monday 31st January to Thursday 3rd February 2022

Feedback report

1. Executive summary	3
2. Key recommendations	9
3. Summary of the peer challenge approach	10
4. Feedback	12
5. Next steps	33

1. Executive summary

There is much to be excited about in Sandwell and there is huge potential to be unlocked in the borough. A key part of this is the regeneration agenda and the £1.3bn economic growth and regeneration pipeline. The council, with partners, is seeking to use this as a platform from which to put Sandwell on the map, shaping a borough where people have better paid jobs, increased skills and opportunities. This ambitious agenda can be aided and built upon further by the council becoming much more visible and engaged at the sub-regional and regional level. There is an open door here, with partners indicating they would welcome what the council is intending in terms of much greater senior-level political and officer involvement.

Compared with the situation sub-regionally and regionally, local operational relationships feel better developed. This has been reinforced and strengthened during the pandemic, which the council is largely seen to have responded well to. The positive relationships that now exist at this level can be built upon, with partners indicating they would welcome a greater emphasis on co-production and the council listening to and engaging them more.

The impact the Leader and the Interim Chief Executive have had in a short period of time is absolutely tangible and the style and approaches they have brought provides huge optimism for the future. In a context of the current Chief Executive operating in an interim capacity, it is imperative to ensure continuity of the approach that he has brought at this level of the organisation. Staff, elected members and partners welcomed the increased stability provided by the permanent appointments at Director level and highlighted the opportunities this provides.

In relation to equality, diversity and inclusion, the council has started a journey but there is much more to be done both within the organisation and across the borough. In the council's 'drive for digital', strategy and delivery need to maximise opportunity for local people socially and economically. Within this, it is crucial to ensure that

those not digitally enabled still have ease of access to services, advice and information.

The council's relationships with the Children's Trust and the related governance arrangements are recognised as being strong. The Children's Trust and the council, together with schools and many partners across the borough, are working hard to develop and improve early help and intervention arrangements. The related strategy will be essential in tackling growing demand and successful implementation will require strong governance and the support and engagement of all partners going forward. On a similar theme, addressing health inequalities needs a clear and creative whole system plan founded upon a set of sustained relationships.

We see a clear case for simplifying the governance and partnership arrangements across both the adults' and children's and young people's spheres. A review of these arrangements would need to be undertaken carefully and sensitively but the opportunity exists to establish a revised and streamlined set of arrangements that form a cohesive whole.

The current version of the Corporate Plan is a refreshed version of what went before and reflects a clear overall set of aims at the heart of which sits achieving a 'Fairer Sandwell'. Internal and external communication of the aims and focus within the Plan is at the outset. It will be important to arrive, in due course, at a stage where people across the council and partner organisations can articulate a clear and concise narrative around Sandwell's ambitions through which the council and the borough can be seen to be unashamedly ambitious.

The council financially is in a comparatively resilient position, from which it can progress. To maintain and build upon this, there are changes the council needs to make. There is recognition that the council has had a traditional approach to finance and that many of its procedures and systems need to be reviewed, modernised and improved. Work has been undertaken recently in response to this agenda and what has been delivered thus far means the authority better understands its current financial position.

One of the key activities that is underway is the development of a revised style of Medium-Term Financial Strategy (MTFS). Putting a comprehensive and robust MTFS in place will provide elected members with the context they require in order to make the difficult strategic decisions that are likely to be needed. While the shape of the emerging budget for 2022/23 and the council's level of reserves mean that the organisation is not in imminent financial danger, the next year will be crucial in rebasing the MTFS and moving towards a more resilient financial position. There is a window of opportunity to make the changes needed.

Along with the work to develop a revised MTFS, there is recognition of the need to develop a robust and realistic Capital Strategy which fully forecasts and plans for capital investment. A refreshed approach to the strategy is particularly important in view of the council's ambitious regeneration and economic growth plans.

There is a plan to revise the council's Constitution in the coming months. This appears to be seen by some simply as a refinement of what already exists and representing a relatively straightforward task. However, something much more fundamental needs to be undertaken, which will require experienced external and independent expert input; extensive engagement of all tiers of managers within the council and across the elected membership; and realistic timescales.

Overview and Scrutiny has a valuable contribution to make going forward. Recent progress in the way it operates and where it focuses has been made and can now be built upon. There is frustration on the part of some elected members in relation to levels of responsiveness from within some parts of the organisation in respect of ward and casework issues. Whilst there is something significant that officers need to get right here, it is also crucial that elected members consistently recognise the constraints and the framework that the organisation is working to.

Council staff are very aware of the elected member behavioural issues that have

existed within the council over a long period. People are keen to see these matters confined to the past. It is therefore positive that there is almost universal recognition amongst the staff and elected members that we met that these behaviours are starting to change and exist now only in pockets.

The legacy and impacts of previous behaviours are typical and understandable. With the positive changes in organisational and political leadership seen in recent months, there is now an opportunity for these elements to be considered and addressed further and the related benefits to be realised. Delivering sustained change in organisational culture requires a multi-faceted programme management approach, real investment, and clear whole organisational leadership, and it will take time. However, people spoke of the 'latent capacity' in the organisation which can be freed up through operating in a changed environment.

There is widespread belief amongst people we met both internally and externally that "green shoots" are clearly visible within the culture of the council and the way it operates. There is confidence that with continuity in leadership style and approach these can be sustained and develop further.

There is an increasing organisational self-awareness and current plans for improvement focus largely in the right areas. Inevitably more issues will come to the fore in the months ahead. The emergence of these will place further demands on the organisation and improvement planning will need to adapt accordingly. It is important officers and elected members understand that whilst some improvements can be made relatively quickly, others will take considerably longer. Whole council improvement is a journey and all stakeholders need to be prepared for that.

The council is appropriately planning to consolidate its improvement plans into a single comprehensive plan following our work and that of others recently. This new plan will benefit from being able to be broken down into 'bite-sized chunks' and deliverables sequenced to reflect planned progress over time. Such a plan will be

helpful in informing resource and capacity prioritisation. An effective programme management approach and robust monitoring processes will be key.

There is the opportunity for the council to become a real learning organisation in a context of the changed climate it is operating in. This includes looking outward more and examining constructively what doesn't go to plan. This forms a key part of the wholesale organisational culture change that is required and is predicated upon having a more open environment that is conducive to identifying and highlighting issues as soon as they start to arise in order that they can be collectively understood and constructively responded to.

There is a need for greater join-up across the council. The 'One Council, One Team' message within the Corporate Plan is at the early stages of being heard and understood and can be built on over the coming months. There needs to be greater clarity around the status of 'the restructure'. There are clearly a wide variety of views and interpretations of the intentions and progress of this project. People want to know the definitive position. Existing organisational arrangements need to be reviewed in light of priorities, budgets and organisational ambition. It is essential to ensure the organisation is structured in the right way in order to provide the necessary strategic and operational focus and the capacity and the capability in the right places to deliver against the council's ambitions.

A truly 'enabling corporate core' is essential for taking forward a modernisation agenda for the council. Staff recognise the importance of the 'business essentials' necessary to safeguard the organisation and ensure its smooth and efficient running and good governance but wish to see many of the current approaches made more effective, more enabling of service departments and streamlined.

Clarity is required around the thinking, planning and communication of plans for the 'return to the workplace' as the pandemic enters new phases. Achieving an increased workplace presence at an appropriate point will be important in both

service delivery and cultural change terms. The council's overall philosophy and expectations around the return of its workforce needs to be effectively communicated and understood by all staff. This should, however, provide scope for teams to shape things to ensure that the benefits they have seen from changed ways of working over the last two years are retained whilst ensuring business needs are met.

Staff that we met from the 'middle management' levels are keen for increased senior leadership visibility, enhanced information flow and more engagement – which they would want the Chief Executive and Leadership Team to be central to. The majority of frontline staff we met provided a compelling and very positive picture of the way they have been invested in over recent years. This takes the form both of opportunities for them to develop and to progress their careers within the authority and the pastoral care and support provided to them by their managers.

Whilst training and development is being provided for elected members and managers, this needs to move to a new level, including:

- Further 'top team' development across Cabinet and Leadership Team – both as individual bodies and collectively
- Elected members – related both to existing roles and the ambitions they may hold for the future. A key element here will be placing a greater emphasis upon, and facilitating increased engagement in, learning from across the sector.
- A comprehensive management development programme will be key in supporting the modernisation agenda for the council, but this needs to be supplemented with a real emphasis on leadership development

There is recognition of the need to develop a more proactive approach to the council's communications – both internal and external. However, there needs to be an increased organisational confidence reflected in this, including greater profiling of achievements and key council activity. The authority currently seems to have a reticence to highlight what it is doing well and the key achievements it is delivering.

We would encourage bold leadership on this issue in order to enable people to feel more confident in profiling their successes.

2. Key recommendations

There are a number of observations and suggestions within the main section of the report. The following are the peer team's key recommendations to the council:

- 2.1. It is imperative to ensure continuity of the current approach at Chief Executive level
- 2.2. We see value in a clear and joint message coming from the Leader and Chief Executive regarding officer and elected member relationships – setting clear expectations and providing reassurance
- 2.3. We see a clear case for reviewing partnership structures within the 'People's sphere'
- 2.4. Whilst training and development is being provided for elected members and managers, this needs to move to a new level
- 2.5. We would encourage the introduction of a comprehensive residents' survey
- 2.6. There is a plan to revise the Constitution in the coming months – we see something much more fundamental needing to be undertaken, with the Scheme of Delegation as a key component
- 2.7. The council needs to establish a revised Medium Term Financial Strategy and associated Capital Strategy
- 2.8. It is essential to ensure the organisation is structured in the right way in order to provide the necessary strategic and operational focus and the capacity and the capability in the right places to deliver against the council's ambitions

2.9. The council is appropriately planning to consolidate its improvement plans into a single comprehensive one and it is important that this happens

3. Summary of the peer challenge approach

3.1. The peer team

Peer challenges are delivered by experienced elected member and officer peers. The make-up of the peer team reflected the focus of the peer challenge and peers were selected on the basis of their relevant expertise. The peers were:

- Kath O'Dwyer, Chief Executive, St Helens Borough Council
- Councillor Chris Read, Leader, Rotherham Metropolitan Borough Council
- Viv Geary, LGA Associate – with a background in governance and as a Monitoring Officer
- Kevin Hall, LGA Associate – with a background as a Director of Children's Services
- Mike Poulter, LGA Associate – with a background in both Place and transformation
- Chris West, LGA Associate – with a background in local government finance
- Helen Murray, Principal Adviser (West Midlands and the North-West), LGA
- Alan Finch, Principal Adviser (Finance), LGA
- James Millington, Adviser (West Midlands), LGA
- Chris Bowron, Peer Challenge Manager, LGA

3.2. Scope and focus

The peer team considered the following five themes which form the core components of all corporate peer challenges. These areas are critical to councils' performance and improvement.

1. **Local priorities and outcomes** - Are the council's priorities clear and

informed by the local context? Is the council delivering effectively on its priorities?

2. **Organisational and place leadership** - Does the council provide effective local leadership? Are there good relationships with partner organisations and local communities?
3. **Governance and culture** - Are there clear and robust governance arrangements? Is there a culture of challenge and scrutiny?
4. **Financial planning and management** - Does the council have a grip on its current financial position? Does the council have a strategy and a plan to address its financial challenges?
5. **Capacity for improvement** - Is the organisation able to support delivery of local priorities? Does the council have the capacity to improve?

3.3. The peer challenge process

Peer challenges are improvement focused; it is important to stress that this was not an inspection. The process is not designed to provide an in-depth or technical assessment of plans and proposals. The peer team used their experience and knowledge of local government to reflect on the information presented to them by people they met, things they saw and material that they read.

The peer team prepared by reviewing a range of documents and information in order to ensure that they were familiar with the council and the challenges it is facing. The team then spent three and a half days onsite in Sandwell, during which they:

- Gathered information and views from more than 50 meetings, in addition to further research and reading.
- Spoke to more than 100 people including a range of council staff, elected members and external stakeholders.

This report provides a summary of the peer team's findings. In presenting feedback, they have done so as fellow local government officers and members.

4. Feedback

4.1. Organisational and Place Leadership

There is much to be excited about in Sandwell and there is huge potential to be unlocked. The borough is the third largest in the West Midlands and is located right in the heart of the region, with a population of almost 330,000 and a £6.3 billion economy – which is the largest in the Black Country. The borough is well connected both regionally and nationally. There are around 8,775 businesses employing in the region of 136,000 people. It retains a significant manufacturing sector and has strengths in logistics, health and social care, retail and wholesale. However, employment growth in recent years has generally been in low-skill and low pay occupations.

It is an increasingly ethnically diverse borough, with an estimated 37% Black and Minority Ethnic (BAME) population in 2019. There is a young age profile, with 40% of people aged under 30 in 2019, although some neighbourhoods are rapidly ageing. The number of localities in the most deprived 1% nationally has reduced in recent years but Sandwell remains the eighth most deprived borough nationally. Key challenges in the borough include low skills and educational attainment leading to labour market exclusion; child and family poverty; and poor health and life expectancy.

A key part of the Sandwell regeneration agenda is the £1.3bn economic growth and regeneration pipeline, with key projects underway or planned including the new Midland Metropolitan University Hospital, the Wednesbury to Brierley Hill Metro Extension and the Sandwell Aquatics Centre which will host all of the swimming and diving events for the 2022 Commonwealth Games. The pipeline identified 4,300 new homes to be delivered in the five year period to 2027 through a combination of both council house building and delivery through housing providers and the private sector. The council, with partners, is seeking to use projects such as these and others it has in a 'pipeline', as a platform from which to put Sandwell on the map, shaping a

borough where people have better paid jobs, increased skills and opportunities. Ambitions for the borough which this pipeline seeks to support include:

- Making Sandwell the home of the successful start-up, bringing new businesses into town centres and high streets
- Accelerating growth in higher value businesses, tapping into the growth of the West Midlands economy, to stimulate wider investment and opportunity
- Delivering net zero carbon emissions in Sandwell by 2041, supporting businesses to become more energy efficient, reducing costs and encouraging the growth of 'circular economies'
- Creating more good jobs by increasing both inward investment and investment from existing businesses – capitalising upon a young population and relatively cheap land
- Working with employers to increase demand for higher level skills and create jobs with good pay and conditions and engaging with education providers to train pupils and students in the skills to meet workforce demands
- Increasing the proportion of the council's expenditure, plus that of local businesses, spent in the local economy, involving revising procurement practices, developing an increased focus on social value and embedding community wealth building
- Supporting the rollout of high-quality digital infrastructure to all parts of the borough, including working with partners to ensure Sandwell maximises opportunities for 5G infrastructure

This ambitious agenda can be aided and built upon further by Sandwell Council becoming much more visible and engaged at the sub-regional and regional level with partners across the Black Country and the West Midlands. Whilst the council is becoming more active at this level, having been described as a previously "absent partner" from certain forums and not having "punched at its weight" at this level for a number of years, this is just at the outset. This can be built upon with the Leader and

Interim Chief Executive increasingly being able to look upwards and outwards and permanent post-holders largely now in place at Director level. There is an open door here for the authority, with partners indicating they would welcome what the council is intending in terms of much greater senior-level political and officer involvement.

Compared with the situation sub-regionally and regionally, local operational relationships feel better developed. This has been reinforced and strengthened during the pandemic, which the council is largely seen to have responded well to.

Examples include:

- The development of a £1m programme designed to meet increasing emotional well-being and mental health needs of children and young people by expanding capacity in the voluntary sector
- Redeploying council staff to support the Food Hub and vaccination programme
- Pioneering local contact tracing, linking into the national test and trace system, in order to improve engagement rates
- Its contribution to infection prevention and control within care homes, with the death rate in Sandwell being significantly lower than national averages – work that was acclaimed by the Royal College of Nursing
- Work to reduce health inequalities resulting from the pandemic through working with the NHS and voluntary and faith sector organisations to support vaccination uptake in the borough, with a particular focus on black, Asian and minority ethnic groups – leading to the award of ‘Public Health Team of 2021’ by the Local Government Chronicle
- The council’s overall response to the pandemic was identified as an example of best practice by the Department of Health and Social Care

The positive relationships that now exist at the local level can be built upon, with partners indicating they would welcome a greater emphasis on co-production and the council listening to and engaging them more. As a key part of this, we see real value

in the authority and voluntary and community sector undertaking a joint piece of work to develop a clear strategic view of the role of that sector going forward and mutual expectations within this. This should include consideration of the approach to future resourcing and funding arrangements, as there is a lack of clarity currently as to why certain services are commissioned from this sector relative to the grant funding arrangements that are applied to others and an overall grant funding pot that hasn't been reviewed for a number of years.

In summary, the overall message from partners at all levels is that they would like greater 'stability, visibility and engagement' from the council. The conditions for this are right now and the council is working to capitalise upon that.

Sandwell is comprised of the six towns of Oldbury, Rowley Regis, Smethwick, Tipton, Wednesbury and West Bromwich, each with its distinctive identity. The council is very cognisant of these differing identities and seeks to respond appropriately, recognising the pride that exists within each and the way in which their communities identify with the specific locality. The council's 'towns focus' is being emphasised and reinforced even more now, reflected in both elected member roles, with a councillor appointed as 'Town Chair' for each and a Cabinet Member also now aligned to each place. Further investment in some localities will be extended through the £67.5m Towns Fund monies recently secured for Smethwick, West Bromwich and Rowley Regis (including parts of Oldbury) for which business cases are in the final stages of development for submission to Government.

Positive reflections regarding the Leader have featured in many of our discussions. The inclusive and collegiate approach she demonstrates, reflected for example in her engagement with Chairs of Overview and Scrutiny and the reaching out she has done across the elected membership in an effort to identify ways in which councillors can become more fulfilled in their roles. The impact she and the Interim Chief Executive have had in a short period of time is absolutely tangible and the style and approaches they have both brought provides huge optimism for the future amongst the people we spoke to internally and externally.

In relation to equality, diversity and inclusion, the council has started a journey but there is much more to be done both within the organisation and across the borough. It has stated that it recognises it is time to have a fundamental look at what equality and diversity means to Sandwell – from how inequalities and discrimination are addressed to where improvements can be made for the benefit of all the borough’s residents, particularly in light of recent events such as the ‘Me Too’ and ‘Black Lives Matter’ movements. As a specific issue, both the council and partner organisations that we spoke to are aware of the limited diversity in terms of ethnicity at the senior-most levels of the organisation. There is also recognition of the need to review the council’s equality policy, which was last done in 2016.

The authority has established an Equalities Commission with an aim to:

- “Promote equality and challenge discrimination and intolerances in all its forms. To break down barriers prohibiting an inclusive society by confidently tackling unfairness caused by inequality and encouraging community cohesion through increased understanding and awareness.”

Also, Council last year agreed to the funding of an Equalities Team, comprising seven posts. Certain equality initiatives have been instigated following these developments as the council seeks to help the borough realise a vision of being an open, fair and inclusive place that embraces and celebrates Sandwell’s rich and diverse communities, cultures, and traditions. However, these initiatives are limited in number and scope and are currently largely internally focused. An Equality and Diversity Workforce Action Plan was approved politically and managerially in 2020. Disability staff, LGBTQ+ and ethnic minority staff networks have since been established within the council and there is a plan to engage these groups in a review of the Action Plan.

Black Employees from the Ethnic Minority Network formed a project team to lead on the Black History Month celebrations in October. They were instrumental in creating a website and liaising with local speakers to deliver live or pre-recorded events. In

addition, a powerful short video was created of Black councillors describing what Black History Month meant to them. There was also a celebration of LGBT History Month in February this year with various social media messages and internal communications to staff. An 'inclusion calendar' has been developed to help plan and celebrate further such events in an inclusive way. The Equality Commission is leading work for Sandwell to become recognised as a 'Borough of Sanctuary' but the council recognises there is much more to do.

In the council's 'drive for digital', in terms of customer service and access, strategy and delivery need to maximise opportunity for local people socially and economically. Within this, it is crucial to ensure that those not digitally enabled still have ease of access to services, advice and information. This point was emphasised by both council staff and voluntary and community sector partners, with the latter feeling they are being left to 'pick up the pieces' within communities where digital exclusion levels are seen to be comparatively high. The council will need to be mindful going forward of the commitment in the Corporate Plan to ensure such exclusion is addressed when designing services and making key council decisions.

The council's relationships with the Children's Trust and the related governance arrangements, centred on the Sandwell Children's Trust Board and the under-pinning Operational Partnership Board and Strategic Partnership Board, are recognised as being strong. The contract review at the mid-point of the 10-year contract is currently being embarked upon and will run, as a joint initiative, through the early part of the new financial year. At the heart of this is a revised set of performance indicators that have been developed in recent months and are currently being considered.

The Children's Trust and the council, together with schools and many partners across the borough, are working hard to develop and improve early help and intervention arrangements. The Early Help Strategy will be essential in tackling growing demand and successful implementation will require strong governance and the support and engagement of all partners going forward.

A new procurement process is being run in relation to Special Educational Needs transport provision, with an officer project board within the council overseeing this. Given the legacy issues here, this is a piece of work of significance for the authority which needs to be run very effectively.

We see a clear case for simplifying the governance and partnership arrangements across both the adults' and children's and young people's spheres. Whilst some of the related infrastructure is statutory in nature, such as the Children's Safeguarding Partnership and the Safeguarding Adults Board, other parts of the arrangements seem overly complex and extensive in comparison to other places. A review of these arrangements would need to be undertaken carefully and sensitively but the permanent Director-level appointments within the council provide the opportunity both to undertake this work and establish a revised and streamlined set of arrangements that form a cohesive whole.

On a similar theme, addressing health inequalities needs a clear and creative whole system plan founded upon a set of sustained relationships. Developing the Health and Well-Being Board and a Health and Well-Being Strategy, linked to evolving Integrated Care Systems (ICS) arrangements, will be important steps but these represent pieces of the architecture. Other critically important components will be effective partnerships and relationships and effective delivery will be the key test.

4.2. Local Priorities and Outcomes

The current version of the Corporate Plan – 'Big Plans for a Great Place: The Sandwell Plan' – is a refreshed version of what went before and reflects a clear overall set of aims at the heart of which sits achieving a 'Fairer Sandwell'. Key strands underpinning this are:

- Local investment
- Doing things with the community
- No one gets left behind

- Green in everything we do

Internal and external communication of the aims and focus within the Plan is at the outset. It will be important to arrive, in due course, at a stage where people across the council and partner organisations can articulate a clear and concise narrative around Sandwell's ambitions, comprising both the aims above and the exciting agenda and potential that we outlined earlier. This needs to come together as a shared narrative providing a compelling picture and through which the council and the borough can be seen to be unashamedly ambitious.

The council recognises the underpinning framework to the Corporate Plan – the 'golden thread' – now needs to be developed across and throughout the organisation. Work is underway in relation to this, including the development of performance management arrangements that enable what success looks like and progress towards attaining that to be fully understood and responded to by elected members and officers. A key strand of this will be Directorate business plans and it is really positive that some of the staff we met are already translating how their services and functions relate to the Corporate Plan, meaning they will have a really valuable contribution to make as the performance management framework is developed.

The following paragraphs outline performance information drawn from the LG Inform system that the Local Government Association hosts for the sector. The data is the latest available and has been used to benchmark Sandwell with the other 14 single tier and county councils in the West Midlands region in order to outline the relative performance strengths and challenges of some of the council's services.

- Sandwell was judged inadequate by Ofsted (one of two authorities judged to be inadequate across the region). The most recent monitoring visit, in November 2021, found tangible progress in improvements for services to children looked after but notes there is more to do. The appointment of the new Chief Executive to the Children's Trust in April and the appointment of the new Director of

Children's Services in November are seen as very positive steps in the improvement journey.

- Sandwell is performing better than the regional average for the percentage of child protection cases reviewed within the required timescale (95.5%), despite the council receiving the third highest level of referrals in the region.
- The percentage of care leavers in suitable accommodation is the lowest regionally, at 81%, and Sandwell records the lowest percentage of care leavers in education, employment or training.
- Within Adult Social care, the council has an excellent record on minimising delayed discharges – with the second lowest level in the region and being significantly lower than the average.
- The proportion of 16 and 17 year olds who are not in education, employment or training (NEET) is the lowest in the region.
- The proportion of the population aged 16-64 qualified to at least Level 2 or higher is the lowest in the region at 56.9%, compared with an average of 74%.
- The number of households on the housing waiting list is under the average for the region.
- In processing housing benefit claims, Sandwell is better than the average for the councils in the region with claims being processed in 8 days on average.
- The percentage of roads that require maintenance is below the average for the region. This is despite the total revenue spending on the highways and transport service being the lowest per head of population.
- The council is collecting the third highest annual amount of residual waste per household across the region. The percentage of waste sent for reuse, recycling and composting, at just over 30%, is below the average in the West Midlands and places the council as second lowest.

- Physical visits to libraries are the third highest in the region and the number of enquiries to the library service are the highest.

The corporate peer challenge analysis of Sandwell's Corporate Plan suggests the council is aware of its areas of strength and those areas which require improvement and is putting capacity and resources into improving the below average metrics.

4.3. Governance and Culture

We met staff at different levels from across the organisation and they are very aware of the elected member behavioural issues that have existed within the council over a long period and the negative experiences and “bad press” this has entailed. Some of them have experienced such behaviours directly whilst others have observed things from a distance but been very aware of the climate they have created around the council. People are keen to see these matters confined to the past. It is therefore positive that there is almost universal recognition amongst the staff and elected members that we met that these behaviours are starting to change and exist now only in pockets. There is much more to do to embed a wholesale change in the organisational culture but this change represents a key part of what people describe as “green shoots” within the council. To help to cement and advance progress, we see value in a clear and joint message coming over the next few weeks from the Leader and Chief Executive regarding officer and elected member relationships – setting clear expectations and providing reassurance that any matters that arise will be appropriately addressed.

The legacy and impacts of previous behaviours are typical and understandable, including people ‘keeping their heads down’; processes having been established that reflect risk aversion – plus a linked issue of the escalation of decision-making within managerial and governance structures; and a reduced staff pride in the organisation. With the positive changes in organisational and political leadership seen in recent months, there is now an opportunity for these elements to be considered and addressed further and the related benefits to be realised. Delivering sustained

change in organisational culture requires a multi-faceted programme management approach, real investment, and clear whole organisational leadership, and it will take time. However, people spoke of the 'latent capacity' in the organisation which can be freed up through operating in a changed environment. As one individual said in describing the changed atmosphere: "the council now has a chance of making a difference" – with local communities deriving the benefit.

Those people we met very much value the experience, style and reassurance the Interim Chief Executive provides. This has generated confidence across the organisation and amongst external stakeholders. As we noted earlier, the impact that both he and the Leader have had in a short period of time is absolutely tangible and provides huge optimism for the future. In a context of the current Chief Executive operating in an interim capacity, it is imperative to ensure continuity of the approach that he has brought at this level of the organisation. He and the Leader have been central to new relationships being formed between Cabinet and the individuals forming the Leadership Team as new permanent appointments at Director level. Mutual trust and confidence is building within these relationships but this needs to extend further and become embedded over the coming months.

There is a plan to revise the Constitution in the coming months. This appears to be seen by some simply as a refinement of what already exists and representing a relatively straightforward task. However, something much more fundamental needs to be undertaken, which will require experienced external and independent expert input; extensive engagement of all tiers of managers within the council and across the elected membership; and realistic timescales.

The Scheme of Delegation will form a vital component of this work and is key to more effective financial management. It has been cited as an issue in its current form, both in terms of a lack of clarity over the financial accountabilities devolved to managers and the degree of flexibility senior managers can exercise. This acts as a good example of the way in which something that sounds relatively simple in terms of Constitutional change will actually involve exploring fundamental aspects of how the

authority operates, with matters of trust and confidence and respective roles and responsibilities, at the heart of that. Another example would be the opportunity to change procedures for Council meetings in order to simplify decision-making and debate and so engage elected members, plus those observing, more effectively. The significance and scale of the task of changing the Constitution in a meaningful way, via a process of co-production, should not be under-estimated.

Overview and Scrutiny has a valuable contribution to make going forward. Committee chairs are committed to, and enthusiastic about, forging a new direction and the engagement they have had with the Leader around this is positive. Recent progress in the way it operates and where it focuses has been made and can now be built upon, including through wider training and development. One example here is the work undertaken considering the contract with SERCO, whilst another is a study of the impact of the pandemic on children in the borough. There is a sense of an increasing appetite for undertaking meaningful scrutiny as a council, founded upon corporate endeavour and collaborative effort and in a climate that is much more conducive, which would help both to inform policy and hold the Executive to account. A full review of the Constitution provides an opportunity to capture this and embed a reinvigorated scrutiny function linked to the provision of appropriate corporate capacity.

There is frustration on the part of some of the elected members that we spoke to in relation to levels of responsiveness from within some parts of the organisation in respect of ward and casework issues. This is not unique to Sandwell but it is important to identify where such matters exist and then address the underlying causes. Establishing clarity around how this will be achieved will be important. We heard, for example, of the existence of a portal for councillors to use in raising casework matters, which in theory should enable the effective tracking of progress. However, there is clearly a lack of confidence on the part of councillors in this system and work arounds have been developed. Whilst there is something significant that officers need to get right here in terms of responsiveness, it is also crucial that elected members consistently recognise the constraints (in terms of resources) and

the framework (in terms of agreed policy) that the organisation is working to. Inappropriate 'work arounds' could inhibit the necessary progress required in resetting a positive and appropriate relationship between officers and members.

4.4. Financial Planning and Management

The council is not in imminent financial danger, with the draft 2020/21 accounts reflecting a comparatively resilient position from which the authority can progress. To maintain and build upon this, there are changes the council needs to make.

There is recognition that the council has had a traditional approach to finance and that many of its procedures and systems need to be reviewed, modernised and improved. Work has been undertaken recently in response to this agenda and, whilst such activity is essentially at the outset, what has been delivered thus far means the authority better understands its current financial position.

One of the key activities that is underway is the development of a revised style of Medium-Term Financial Strategy (MTFS). Integral to this needs to be realistic forecasts of the likely resources required over the coming years, moving away from focusing heavily, as has been the case to date, on the year ahead. The MTFS needs to contain summary information on the national and local financial and economic picture and how that will impact on Sandwell's position. Putting a comprehensive and robust MTFS in place will provide elected members with the context they require in order to make the difficult strategic decisions that are likely to be needed. As the council's thinking on its approaches to its finances shapes up, there needs to be greater clarity of the authority's risk appetite in relation to, for example, borrowing, investments, commercial thinking and capitalisation and how this is reflected in the MTFS.

The council is working towards a budget in 2022/23 that makes around £13m of savings, which balance off a roughly equivalent amount of spending pressures. A

balanced budget has been made possible, at least in part, through the new Services Grant in the government settlement, equating to around £7m, but the future of this grant is unclear. While the shape of the emerging budget for 2022/23 and the council's level of reserves mean that the organisation is not in imminent financial danger, the next year will be crucial in rebasing the MTFS and moving towards a more resilient financial position. There is a window of opportunity to make the changes needed.

In the last two years, the impact of the pandemic and the complex range of government support grants has made budgetary control complex and untypical. It is vital that a high standard of budgetary management and discipline is maintained as the pandemic works through and a steadier state hopefully returns. As with other councils, Sandwell needs to ensure that, as temporary funding streams relating to the pandemic tail off, the costs of the services it is supporting are also subject to review.

Along with the work to develop a revised MTFS, there is recognition of the need to develop a robust and realistic Capital Strategy which fully forecasts and plans for capital investment. The current strategy, approved in February 2021, set out detailed plans for the two years ahead but this horizon needs to be extended. A refreshed approach to the strategy is particularly important in view of the council's ambitious regeneration and economic growth plans, which could be vital to the organisation's future financial sustainability and the future of the borough.

In relation to both revenue and capital, the forecasting of resource and spending pressures needs to be enhanced. Benchmarking assumptions and sharing intelligence with other authorities and sector bodies will be essential in informing this. Also, the revised MTFS needs to factor in the full revenue costs of the Capital Strategy and both the MTFS and Capital Strategy need to be closely aligned with the Corporate Plan and whole organisation improvement planning. Ensuring the correct organisational structure exists and the capacity is in place to deliver both the improvement agenda and the ambitions that exist for the borough will require appropriate investment. The council also needs a better understanding of its asset

base and to develop an acquisitions and disposals protocol to guide its management of those assets.

Managing the council's finances needs to become more of a shared endeavour between the Finance function and managers across the council, with the latter needing to be appropriately skilled and supported for the task. Central to this will be managers having access to, and being able to utilise effectively, up to date systems that provide reliable information in an easily accessible way. The council has restarted the process to review and upgrade its Enterprise Resource Planning (ERP) system and this presents an opportunity for the council to raise the expectations it has upon managers to control and manage their finances whilst improving the support they receive from an appropriately organised and skilled Finance team. Managers that we spoke to would welcome increased information sharing regarding the council's financial situation and greater insight to some of the decisions made, especially in relation to savings plans. This is key and will help form the basis for involving managers and budget holders more fully in realistic and effective budget setting.

4.5. Capacity for Improvement

There is widespread belief amongst people we met both internally and externally that “green shoots” are clearly visible within the culture of the council and the way it operates. There are a number of dimensions to this, including the style and approaches the Leader and the Chief Executive have brought; the organisation starting to look outwards more; behaviours being seen to be changing and less positive ones being seen only in pockets now; the better understanding that exists of the council's financial position; the work being undertaken to develop a revised MTFs; and the latent capacity that stands to be freed up through staff operating in a changed environment. There is confidence that with continuity in leadership style and approach these, and other elements, can be sustained and develop further.

There is an increasing organisational self-awareness and current plans for improvement focus largely in the right areas. Inevitably more issues will come to the fore in the months ahead, as a result of the climate becoming more conducive to being open about issues and the new Directors getting to grips with their areas of responsibility. The emergence of these will place further demands on the organisation and improvement planning will need to adapt accordingly. It is important officers and elected members understand that whilst some improvements can be made relatively quickly, others will take considerably longer. The experience within the local government sector is that whole council improvement is a journey and all stakeholders need to be prepared for that.

The council is appropriately planning to consolidate its improvement plans into a single comprehensive plan following our work and that of others recently. This new plan will benefit from being able to be broken down into 'bite-sized chunks' and deliverables sequenced to reflect planned progress over time. Such a plan will be helpful in informing resource and capacity prioritisation. The council's plans generally needing to translate more consistently into tangible action and delivery and this must be the case with the improvement plan. An effective programme management approach and robust monitoring processes will be key.

Staff, elected members and partners we met welcomed the increased stability provided by the permanent appointments at Director level and highlighted the opportunities this provides, including:

- Increased managerial capacity
- Relationships being able to be developed both internally and with partner organisations that are sustainable over time
- Increased longer-term thinking and planning
- Greater external focus and linking into sub-regional, regional and national agendas
- Drawing in and exchanging learning – both through the experiences that those appointed from elsewhere bring with them and through the external forums

and activities that it is important they are encouraged and attach value to participating in

There is a wider theme around learning too, with the opportunity for the council to become a real learning organisation in a context of the changed climate it is operating in. This includes looking outward more, actively learning from customer feedback and examining constructively what doesn't go to plan. This forms a key part of the wholesale organisational culture change that is required and is predicated upon having a more open environment that is conducive to identifying and highlighting issues as soon as they start to arise in order that they can be collectively understood and constructively responded to. This represents the exact opposite of a 'blame culture'.

There is a need for greater join-up across the council. People spoke of an organisation with a tendency to operate still in silos – which, again, is not unique to Sandwell. Opportunities exist around an enhanced 'neighbourhoods' focus and locality working – with us assuming when we first heard of neighbourhood teams that these were cross-organisational but subsequently coming to realise they were comprised only of staff within housing-related roles. At Director level there was an expressed need and a desire to adopt more cross-cutting approaches to addressing budget challenges in the months and years ahead – recognising not only the financial and service delivery benefits of this but also what stands to be gained from the relationship-building and enhanced shared understanding that would be derived. There is also much to be gained through ensuring the range of organisational plans and strategies that are being developed are aligned and co-ordinated across the organisation. The 'One Council, One Team' message within the Corporate Plan is at the early stages of being heard and understood and can be built on over the coming months.

There needs to be greater clarity around the status of 'the restructure'. There are clearly a wide variety of views and interpretations of the intentions and progress of this project. This ranges from it having been completed following the recruitment

undertaken at Director level through to there being the intention to look at every level of the organisation following a commitment made more than two years ago to do so. People want to know the definitive position.

Existing organisational arrangements need to be reviewed in light of priorities, budgets and organisational ambition. It is essential to ensure the organisation is structured in the right way in order to provide the necessary strategic and operational focus and the capacity and the capability in the right places to deliver against the council's ambitions – which may require additional investment. A key strand to date in delivering the savings challenge has related to 'planned leavers' i.e. those indicating they would consider leaving the organisation under the right circumstances, including early retirement or voluntary redundancy. This has left key gaps in organisational structures and arrangements. This is not a sustainable approach either organisationally or financially and has led to a 'skewing' of structures and what certain roles entail. Role titles and functions need to do 'what they say on the tin' and there needs to be consistency in terminology, spans of control and levels of responsibility. As examples, certain Director titles bear very little relationship with what people are actually responsible for delivering and even people within the organisation struggle to differentiate between roles such as 'Team Manager' and 'Service Manager' given the differentiation across the organisation in how these roles are structured.

A truly 'enabling corporate core' is essential for taking forward a modernisation agenda for the council – there is a need for a move away from the 'red tape' and bureaucracy and old systems and approaches which staff at all levels highlighted to us. As one individual described it: "We are at the start of the journey around transformation". The corporate functions that will be central to this – both in modernising their own approaches and systems and enabling the rest of the organisation to transform too – include IT, HR and OD, finance, procurement and contract management. Capacity to deliver change and improvement, plus project and programme management expertise will also be required. Staff recognise the importance of the 'business essentials' necessary to safeguard the organisation and

ensure its smooth and efficient running and good governance but wish to see many of the current approaches made more effective, more enabling of service departments and streamlined. There is a link here to the culture of risk aversion and the escalation of decision-making highlighted earlier, including, for example, multiple signatories being required for relatively minor actions and a lack of proper investment over years in key IT systems.

Clarity is required around the thinking, planning and communication of plans for the 'return to the workplace' as the pandemic enters new phases. Our discussions with staff highlighted individual teams developing their own thinking on arrangements to take effect around March. Achieving an increased workplace presence at an appropriate point will be important in both service delivery and cultural change terms. During the period of the pandemic, investment has been made in the office accommodation in the Council House in Oldbury. This acts as a base for many council staff and the changes have been designed to support new ways of working. The council's overall philosophy and expectations around the return of its workforce needs to be effectively communicated and understood by all staff. This should, however, provide scope for teams to shape things to ensure that the benefits they have seen from changed ways of working over the last two years are retained whilst also ensuring business needs are met.

Staff that we met from the 'middle management' levels are keen for increased senior leadership visibility, enhanced information flow and more engagement – which they would want the Chief Executive and Leadership Team to be central to. There is a desire for increased information sharing regarding the council's financial situation and the potential for involving managers and budget holders more fully in budget setting. They are also a key audience for the message we are encouraging from the Leader and Chief Executive around officer and elected member relationships. Ensuring middle managers are sighted on, and made integral to the taking forward of, the aims within the Corporate Plan, including the 'One Council, One Team' philosophy, and that they are positioned to convey the narrative of the council and the borough, will aid the fulfilment of Sandwell's ambitions. Much of the suggested latent capacity is

likely to sit at this level of the organisation.

The majority of frontline staff we met provided a compelling and very positive picture of the way they have been invested in over recent years. This takes the form both of opportunities for them to develop and to progress their careers within the authority and the pastoral care and support provided to them by their managers. A straw poll revealed the impressive extent to which annual performance and development appraisals are undertaken, whilst staff also attached major importance to the much more regular and informal 'catch-ups' they have with their managers. A few highlighted the way in which flexible working arrangements had been developed in order to support them with other key considerations in their lives and this had delivered major benefits for them whilst simultaneously ensuring service requirements were met.

Whilst training and development is being provided for elected members and managers, this needs to move to a new level, including:

- Further 'top team' development across Cabinet and Leadership Team – both as individual bodies and collectively
- Elected members – related both to existing specific roles, for example as committee chairs, and the ambitions they may hold for the future. A key element here will be placing a greater emphasis upon, and facilitating increased engagement in, learning from across the sector. This will need to be a programme delivered across the electoral cycle so as to provide for both new councillors and those taking on new roles.
- A comprehensive management development programme will be key in supporting the modernisation agenda for the council, but this needs to be supplemented with a real emphasis on leadership development

There is recognition of the need to develop a more proactive approach to the council's communications – both internal and external. However, there needs to be an increased organisational confidence reflected in this, including greater profiling of

achievements and key council activity. The authority currently seems to have a reticence to highlight what it is doing well and the key achievements it is delivering. We understand that this stems from a history of criticism from some quarters but we would encourage bold leadership on this issue in order to enable people to feel more confident in profiling their successes. The benefits to be accrued around developing a better shared understanding and narrative around what the council and the borough is achieving and an increased pride in the organisation are likely to be significant.

Developing a clear rhythm of effective communication and updating of key stakeholders on a regular basis will be important. What is being achieved will form a central element of this, but this is also a key opportunity to share information in relation to future plans and emerging projects. This links to the development of a narrative providing a compelling picture of the ambitions of the council and the borough and the potential that exists. Within this, of course, is the once in a generation opportunity to capitalise upon the borough's Commonwealth Games involvement to 'relaunch' Sandwell.

It is positive that the council is launching a comprehensive staff survey in the coming weeks and the findings from this will be key in identifying well-being issues; pin-pointing pockets where behavioural issues continue to be experienced; obtaining perspectives on how to enhance internal communications; and further informing improvement planning generally.

We would encourage the council to complement the introduction of the staff survey with the commissioning of a comprehensive residents' survey to be undertaken at regular intervals. We recognise the work that has already been delivered to establish a Residents' Panel but feel this can usefully be supplemented with a mechanism to glean a wider range of perceptions and insights to inform plans and prioritisation.

5. Next steps

It is recognised that the council's senior political and managerial leadership will want to consider, discuss and reflect on these findings.

Both the peer team and LGA are keen to build on the relationships formed through the peer challenge. The CPC process includes a 'check-in' session a few months on from the initial activity, with this providing the opportunity for the council's senior leadership to update peers on its progress against the related improvement planning and discuss next steps.

In the meantime, Helen Murray, Principal Adviser for the West Midlands region, is the main contact between your authority and the Local Government Association. She is available to discuss any further support the council requires – helen.murray@local.gov.uk.

DIRECTIONS UNDER SECTION 15(5) AND (6) OF THE LOCAL GOVERNMENT ACT 1999

1. The Secretary of State for Levelling Up, Housing and Communities (“the Secretary of State”) has carefully considered the following in respect of Sandwell Metropolitan Borough Council (“the Authority”):
 - i. The Value for Money Governance Review produced by the Authority’s auditor Grant Thornton (“the Report”), given to the Authority on 3 December 2021 and published on gov.uk on 18 January 2022;
 - ii. The representation made on 10 February 2022 by the Authority on the Report and on the proposed Directions;
 - iii. A representation from the Authority’s Conservative Councillor Group dated 11 February 2022;
 - iv. A representation from a Sandwell Councillor dated 10 February 2022.
 - v. Representations from Shaun Bailey, MP for West Bromwich West, Nicola Richards, MP for West Bromwich East, and John Spellar, MP for Warley, each dated 10 February 2022;
 - vi. Representations from eight members of the public and one residents’ group received during the representation period (18 January 2022 to 11 February 2022).
2. The Secretary of State is satisfied that the Authority is failing to comply with the requirements of Part I of the Local Government Act 1999 (“the 1999 Act”).
3. The Secretary of State, having considered the representations made by the Authority as required by section 15(9) of the 1999 Act, and those listed above, considers it necessary and expedient, in accordance with his powers under section 15(5) and (6) of the 1999 Act, to direct the Authority as set out below in order to secure the Authority’s compliance with the requirements of Part I of the 1999 Act, in particular:
 - To continue to rebuild the governance capacity of the Authority, addressing the deep-seated culture of poor governance and leadership;
 - To restore public trust and confidence in the Authority by putting an end to any of the Authority’s activities, practices, and omissions which are, or risk being, not compatible with the best value duty.
4. Pursuant to his powers under section 15(5) and (6) of the 1999 Act, the Secretary of State directs:
 - i. The Authority to take the actions set out in Annex A to these Directions;
 - ii. That the functions of the Authority specified in Annex B to these Directions shall be exercised from the date of these Directions by the Commissioners acting jointly or severally; the Commissioners being persons nominated by the Secretary of State for the purposes of these Directions as long as those nominations are in force;

iii. That, from the date of these Directions, the Authority shall comply with any instructions of the Commissioners in relation to the exercise of the functions specified in Annex B, and shall provide such information and assistance as the Commissioners may require for the purpose of exercising the functions specified in Annex B.

5. These Directions shall remain in force until 22 March 2024 unless the Secretary of State considers it appropriate to amend or revoke them at an earlier date.

Signed on behalf of the Secretary of State for Levelling Up, Housing and Communities.

Maxwell Soule
Senior Civil Servant in the Department for Levelling Up, Housing and Communities
Date: 22 March 2022

ACTION THE AUTHORITY IS REQUIRED TO TAKE

In this Annex “the Authority” includes the Leader of the Council, Cabinet Members, any committee or sub-committee; and any other person who has responsibility for the matter in question.

The actions to be taken by the Authority are:

1. In the first three months prepare, agree and implement an Improvement Plan, to the satisfaction of the Commissioners (which may include or draw upon improvement or action plans prepared before the date of these Directions), with resource allocated accordingly, activities to implement all the recommendations of the Report, and as a minimum, the following components:
 - a) Actions to deliver rapid and sustainable improvements in governance, leadership and culture in the Authority.
 - b) Actions to secure improvement in relation to the proper functioning of the scrutiny and associated audit functions.
 - c) Actions to secure continuous improvement in all services.
2. To report to the Secretary of State on the delivery of the Improvement Plan at six monthly intervals, or at such intervals as the Commissioners may direct, and adopt any recommendations of the Commissioners with respect to the Improvement Plan and its implementation.
3. To undertake in the exercise of any of its functions any action that the Commissioners may reasonably require to avoid so far as practicable incidents of poor governance that would, in the reasonable opinion of the Commissioners, give rise to the risk of further failures by the Authority to comply with the best value duty.
4. To allow the Commissioners at all reasonable times, such access as appears to the Commissioners to be necessary:
 - a) To any premises of the Authority.
 - b) To any document relating to the Authority.
 - c) To any employee or member of the Authority.
5. To provide the Commissioners, at the expense of the Authority, with such reasonable amenities and services and administrative support as the Commissioners may reasonably require from time to time to carry out their functions and responsibilities under these Directions.

6. To pay the Commissioners' reasonable expenses, and such fees as the Secretary of State determines are to be paid to them.
7. To provide the Commissioners with such assistance and information, including any views of the Authority on any matter, as the Commissioners may reasonably request.
8. To co-operate with the Secretary of State for Levelling Up, Housing and Communities in relation to implementing the terms of these Directions.

FUNCTIONS OF THE AUTHORITY TO BE EXERCISED BY THE COMMISSIONERS

In this Annex –

“statutory officer” means any of: the head of paid service designated under section 4(1) of the Local Government and Housing Act 1989; the chief financial officer designated as having responsibility for the administration of the Authority’s financial affairs under section 151 of the Local Government Act 1972; the monitoring officer designated under section 5(1) of the Local Government and Housing Act 1989; and

“the Authority” includes the Leader, Cabinet Members, any committee or sub-committee; and any other person who has responsibility for the matter in question.

The Commissioners shall exercise:

1. All functions associated with the governance and scrutiny of strategic decision making by the Authority.
2. All functions relating to the appointment and dismissal of persons to positions the holders of which are to be designated as statutory officers, and the designation of those persons as statutory officers, to include:
 - a) The functions of designating a person as a statutory officer and removing a person from a statutory office.
 - b) The functions under section 112 of the Local Government Act 1972 of -
 - i) appointing and determining the terms and conditions of employment of an officer of the Authority, insofar as those functions are exercised for the purpose of appointing a person as an officer of the Authority principally in order for that person to be designated as a statutory officer; and
 - ii) dismissing any person who has been designated as a statutory officer from his or her position as an officer of the Authority.

SANDWELL METROPOLITAN BOROUGH COUNCIL DIRECTIONS UNDER SECTION 15(5) AND (6) OF THE LOCAL GOVERNMENT ACT 1999

EXPLANATORY MEMORANDUM

1. The Secretary of State for Levelling Up, Housing and Communities (“the Secretary of State”) has exercised his powers under section 15(5) and (6) of the Local Government Act 1999 (“the 1999 Act”) in relation to Sandwell Metropolitan Borough Council (“the Authority”) to secure its compliance with the best value duty.
2. This Memorandum is intended as a companion document to the Directions issued on 22 March 2022. It summarises the circumstances in which the Secretary of State has made the Directions, his reasons for this exercise of his powers, and the implications of the Directions for the Authority.

The Context for the Directions

3. The Authority has struggled for many years to resolve a variety of governance issues, including allegations of serious misconduct by both members and officers. The Authority has had six different Leaders in six years and three Chief Executives over the past three years. This instability has led to a breakdown in trust, respect and confidence between those holding governance roles at the Authority.
4. In August 2021 the Authority’s external auditors, Grant Thornton, initiated a Value for Money Governance Review into the Authority’s arrangements for securing economy, efficiency and effectiveness in its use of resources. This comprehensive Governance Review (“the Report”), based on evidence gathered from 75 interviews over a period of three months, was issued to the Authority on 3 December 2021. The Report makes 45 wide-ranging recommendations, three of which are Statutory Recommendations, and provides a picture of the Authority of the utmost seriousness. Given the extensive nature of this Report and the evidence contained in it, the Secretary of State was satisfied that there was no need to commission an additional Best Value Inspection into the challenges facing the Authority.
5. The Report paints a deeply troubling picture of mismanagement, of ineffective scrutiny and accountability arrangements, and identifies considerable evidence that the Authority has failed to comply with its best value duty under Part I of the 1999 Act over a number of years. In particular, the Report notes how a breakdown in trust between those holding governance roles at the Authority over an extended period has significantly limited the Authority’s ability to move away from the past and to manage the challenges and opportunities it faces. While the conclusion of the external auditor is that the Authority is now at the beginning of a fragile improvement journey, it is the Secretary of State’s view that the risk of progress stalling or slowing is significant. In his view the proposed intervention is both necessary and expedient to secure compliance with the best value duty.
6. Having considered the findings of the Report, on 18 January 2022 the Secretary of State published the Report and a letter from senior officials to the Authority setting out a proposed intervention package to secure the Authority’s compliance with its

best value duty (“the minded to letter”). Representations about the Report and the proposed intervention package were invited from the Authority and any other interested parties on or before 11 February 2022.

7. The minded to letter explained that the proposed intervention package reflected the recommendations of the Report, and contained two key elements:
 - a. Proposals to put in place Commissioners to take over functions associated with the governance and scrutiny of strategic decision-making, and functions relating to the appointment and dismissal of statutory officers, and the designation of those persons as statutory officers; and
 - b. Actions which the Authority must undertake in order to implement all 45 recommendations of the Report, as well as supporting and facilitating the work of the Commissioners.
8. The minded to letter included a detailed description of the Directions that the Secretary of State proposed to make under section 15 of the 1999 Act. The proposed Directions provided for the Commissioners to exercise, for a time, certain functions of the Authority, gave to the Commissioners certain responsibilities and reserved powers, and required the Authority to take certain actions. This Memorandum explains the content of the Directions as finalised in the light of representations received from the Authority and other interested parties.

Representations

9. Before making Directions, the Secretary of State is required under section 15(9) of the 1999 Act to give the Authority an opportunity to make representations about the proposed Directions, as well as on the Report which served as the basis for them.
10. Representations were received on behalf of the Authority, dated 10 February 2022, from the Interim Chief Executive Officer, Kim Bromley-Derry CBE DL. While the Authority expressed disappointment with the Secretary of State’s proposed decision to intervene, the Authority welcomed the Department’s support for its improvement journey and confirmed that they look forward to working with the Commissioners. The Authority noted that they have already developed an Improvement Plan in response to the Report. They intend to bring together the findings of this Report with those of a recent Financial Management Review, conducted by the Chartered Institute for Public Finance and Accountancy, and a Corporate Peer Challenge conducted by the Local Government Association, into one overarching Improvement Plan for the Authority. With regards to moving to a four-yearly election cycle, the Authority confirmed that they are in the process of preparing an action plan to progress this matter, which includes details of its consultation and engagement activity, so that an informed decision can be made at Full Council as soon as it is practicable to do so.
11. Representations were also received from:
 - a. The Authority’s Conservative Councillor Group, led by Cllr Archer Williams (Leader of the Opposition). The Group welcomed the intervention proposals, believing that progress at the Authority to date is inadequate and lacks scrutiny. The representation welcomed the intervention package’s focus on strengthening scrutiny and decision-making processes at the Authority, as the

Group believe that the current culture, processes and lack of internal controls are negatively impacting service delivery.

- b. One Councillor from the Authority who welcomed the proposed intervention and raised doubts on the current scrutiny and audit functions of the Authority, including the 'green shoots' conclusion in the Report.
- c. Shaun Bailey, MP for West Bromwich West, welcomed the proposed intervention, noting that the Government's intervention is the first step needed to right the past failings of the Authority, which have severely impacted on the lives of many local residents.
- d. Nicola Richards, MP for West Bromwich East, welcomed the proposed intervention, noting that it is needed to ensure 'green shoots' of improvement are sustained, following long-term disfunction within the Authority and its service delivery for local residents.
- e. John Spellar, MP for Warley, opposed the intervention, noting the risks it poses to the continuity of progress made by the Authority's senior leaders and their ability to successfully appoint a new permanent Chief Executive. He made specific reference to the 'green shoots' conclusion of the Report as reasoning for the Authority being allowed to continue to manage its own affairs.
- f. Eight members of the public and one residents' group, who welcomed the proposed intervention package. Key themes were a perceived lack of scrutiny or consequences for contract and financial mismanagement, organisational instability and poor-quality customer service. One resident requested an independent inquiry into the legality of certain past practices of the Authority. One expressed doubts in the 'green shoots' conclusion of the Report.

12. This Memorandum, together with the Directions and related material, is published at www.gov.uk.

The Intervention Package

13. Having carefully considered afresh the Report, together with letters from the Authority (10 February 2022), Members of Parliament Shaun Bailey (West Bromwich West, letter dated 10 February 2022), Nicola Richards (West Bromwich East, letter dated 10 February 2022) and John Spellar (Warley, letter dated 10 February 2022), the Authority's Conservative Councillor Group (11 February 2022), one Councillor (dated 10 February 2022), members of the public (various dates) and a residents' group, the Secretary of State is confident that there is a sound basis on which to found his considerations and, accordingly, is satisfied that the Authority is failing to comply with its best value duty.

14. The Secretary of State, having considered the representations made by the Authority as required under section 15(9) of the 1999 Act, considers it necessary and expedient, in accordance with his powers under section 15(5) and (6) of the same Act, to put in place an intervention package to secure the Authority's future and sustainable compliance with its best value duty. This intervention package is in line with his proposals as described in paragraph 7 of this Memorandum.

15. The Secretary of State considers that this package will address the failings identified in the Report. For the avoidance of doubt, the Secretary of State believes that each

individual element of the intervention that he has implemented is individually justified.

Commissioners

16. The package that the Secretary of State has put in place centres on an Authority-led Improvement Plan and a Managing Director Commissioner and Assistant Commissioner to make sure that the Authority meets its duty under Part I of the 1999 Act (anticipated to be in place until March 2024). The Secretary of State has made Directions in relation to the Commissioners, including providing for them to perform certain functions, if necessary, and to have a role in overseeing other functions or actions which the Authority is to perform. The Commissioners are accountable to the Secretary of State in that they have been nominated by him and can have their nomination withdrawn by him. The Commissioners will report to the Secretary of State on the progress of the intervention.
17. The skills and experience of the Commissioners mean that it is both possible and sensible to give them considerable levels of discretion over how they implement their roles and responsibilities under the Directions, in order that they can find the solutions most likely to lead to sustainable improvement in the Authority.
18. The Commissioners are to act jointly or severally, and it will be for them to decide how best to exercise their functions. However, the Secretary of State envisages complementary roles:
 - a. a Managing Director Commissioner, whose responsibilities include, but are not limited to, giving direction and leadership to the delivery of the improvements which the Authority is required to make.
 - b. an Assistant Commissioner whose responsibilities include, but are not limited to, overseeing the cultural change necessary at the Authority.
19. The Secretary of State has nominated Commissioners with a proven record in leadership, governance and scrutiny, delivering cultural change and transformation. The Commissioners are:
 - **Kim Bromley-Derry CBE CL (Managing Director Commissioner)** – Kim has more than 35 years of public sector experience, including eight years as Chief Executive of the London Borough of Newham. He was also Director of Children’s Services at both South Tyneside and Leicester City Councils. Kim was appointed Interim Chief Executive of Sandwell Council in August 2021 after being temporarily released from his role as Group Director for Strategic Partnerships at McLaren Construction Group. Kim has been President of the Association of Directors of Children’s Services. He has also chaired the Government’s Libraries Taskforce, been a Non-Executive Board Member of both the National College of Creative Industries, the National Creative and Cultural Skills Agency and a member of the London 2017 World Athletics and Para Athletics Championships Board.
 - **Jim Taylor (Assistant Commissioner)** – Jim Taylor served for six years as Chief Executive of Salford City Council prior to his retirement in 2021. He also fulfilled the role of Interim Chief Executive of Trafford Borough Council simultaneously from July 2018 to February 2019. Prior to this Jim was the Chief

Executive of Rochdale Council having also served as Director for Children's Services at Tameside MBC. In June 2021 Jim was appointed by the Secretary of State to undertake an external assurance review of governance at Slough Borough Council.

The Commissioners are nominated for the period from 22 March 2022 to 22 March 2024 or such earlier or later time as the Secretary of State determines.

20. It is expected that the Commissioners will oversee the appointment of a permanent Chief Executive Officer within 18 months and then step back from the Council. In the interim period the Managing Director Commissioner will make appropriate delegations or arrangements in relation to their existing statutory roles as Interim Chief Executive of the Council, and work with the Council as they consider their Constitution and what amendments are necessary. The Commissioners are accountable to the Secretary of State.
21. The Directions provide that the Commissioners' reasonable expenses and such fees as the Secretary of State determines are to be paid to them by the Authority. The Secretary of State is mindful of the need for Commissioner remuneration to represent value for money for local taxpayers. In recognition of the nature and scale of the intervention, he has determined fees of £1200 a day for the Managing Director Commissioner and £1100 a day for the Assistant Commissioner.

Powers to be exercised by the Commissioners

22. The Report highlight failures in three key areas – the administration of corporate governance, democratic services and scrutiny, and service reform. Alongside this the Report refers to the concerted efforts made by the Authority over recent months, particularly since the appointment of the Interim Chief Executive.
23. For these reasons, the Directions enable the Commissioners to exercise functions in two areas:
 - a. All functions associated with the governance and scrutiny of strategic decision making by the Authority. The Report concluded that, until recently, the Authority has failed to take an effective grip of the key issues it faces, and that the Authority's Scrutiny Boards and the Audit and Risk Assurance Committee need improvement. The Report noted how a lack of a clear performance management framework and agreed key corporate indicators has impacted on the ability of the Leadership Team and Cabinet to take an effective grip of the key issues. It also noted how the Leadership Team has not effectively engaged strategic financial planning and budget monitoring, and that a perceived blame culture had contributed to silo working, resulting in a lack of ownership and grip on key challenges. In practice, most decisions are expected to be taken by the Authority; however, the Directions are designed to give Commissioners the power to tackle the weaknesses the Report identified to make sure that the Authority is better equipped to meet the requirements of Part I of the 1999 Act.
 - b. All functions relating to the appointment and dismissal of statutory officers (the Chief Executive, Chief Financial Officer (and section 151 officer) and Monitoring Officer), and the designation of those persons as statutory officers.

24. The Secretary of State considers that most decisions should continue to be made by the Authority. Commissioners will uphold proper standards and due process and recommend action to the Authority. The Secretary of State's intention is that the powers he is providing to the Commissioners be used as a last resort should the Authority not satisfy the Commissioners in their improvement processes. This approach reflects the work commenced by the Authority and the confidence the Secretary of State has in the continuation of this work with the support of the Commissioners.
25. The exercise of these functions should enable the Commissioners to make sure that the Authority has made sufficient improvement within the next two years to be able to comply with its best value duty on a sustainable basis.

Directions to the Authority

26. To achieve and facilitate the objectives of the intervention, the Secretary of State has also directed the Authority to take the following actions:
 - a) In the first three months prepare, agree and implement an Improvement Plan to the satisfaction of the Commissioners (which may include or draw upon improvement or action plans prepared before the date of these Directions), with resource allocated accordingly, activities to implement all 45 recommendations of the Report, and as a minimum, the following components:
 - i. Actions to deliver rapid and sustainable improvements in governance, leadership and culture in the Authority. It is expected that the required programme of cultural change will rebuild trust between Members and Officers by making sure that both Members and Officers understand the scale of the challenge and their respective roles in driving improvement, the way in which the Authority and its activities are regulated and governed, and the way in which this is monitored and breaches rectified.
 - ii. Actions to secure improvements in relation to the proper functioning of the scrutiny and associated audit functions.
 - iii. Actions to secure continuous improvement in all services.
 - b) To report to the Secretary of State on the delivery of the Improvement Plan at six monthly intervals, or at such intervals as the Commissioners may direct, and adopt any recommendations of the Commissioners with respect to the Improvement Plan and its implementation.
 - c) To undertake, in the exercise of any of its functions, any action that the Commissioners may reasonably require to avoid, so far as practicable, incidents of poor governance or financial mismanagement that would, in the reasonable opinion of the Commissioners, give rise to the risk of further failures by the Authority to comply with the best value duty.
27. The Directions require the Authority to fully cooperate with the Commissioners in order to facilitate their work:
 - a) To allow the Commissioners at all reasonable times, such access as appears to the Commissioners to be necessary:
 - i. to any premises of the Authority;
 - ii. to any document relating to the Authority; and
 - iii. to any employee or member of the Authority;

- b) To provide the Commissioners, at the expense of the Authority, with such reasonable amenities and services and administrative support as the Commissioners may reasonably require from time to time to carry out their functions and responsibilities;
- c) To pay the Commissioners' reasonable expenses, and such fees as the Secretary of State determines are to be paid to them;
- d) To provide the Commissioners with such assistance and information, including any views of the Authority on any matter, as the Commissioners may reasonably request; and
- e) To co-operate with the Secretary of State for Levelling Up, Communities and Housing in relation to implementing the terms of the Directions.

Duration of the intervention

28. The Secretary of State considers that any aspect of the Directions should only be in place long enough to achieve the stated objectives of the intervention. The Directions will remain in force until 22 March 2024 unless the Secretary of State considers it appropriate to amend or revoke them at an earlier date. The Secretary of State may decide to extend Directions beyond this date, or it may be appropriate to return functions before this time.
29. The Secretary of State has asked for six monthly reports from the Commissioners, or at such other times as he might agree with the Commissioners, which allows for a process for regular review of whether it would be appropriate to expand the functions of the Commissioners or for any function exercisable by the Commissioners to be returned to the Authority. The first report is expected as soon as is practicable within the first three months of the intervention.
30. Where the Authority and Commissioners agree that it would be appropriate for the exercise of a function to be returned to the Authority, Commissioners will report this to the Secretary of State, setting out reasons, including clear evidence as to why the public could be expected to have confidence in the Authority exercising this function in compliance with the best value duty. The Secretary of State will carefully consider any such reports and, if agreed to, further Directions will be issued to this effect amending these Directions made on 22 March 2022. The Secretary of State has not ruled out the possibility that further functions might be brought under the control of the Commissioners.

SANDWELL COUNCIL IMPROVEMENT PLAN

Foreword

Leader of Sandwell Council - Cllr Kerrie Carmichael

My vision for Sandwell is a borough that is totally focussed on the needs of our residents, where everyone can fulfil their potential and be proud to live here.

The council has been through significant changes and challenges over the past couple of years. I am immensely proud of the way the council, our partners, residents and businesses have worked together to rise to the challenge of the pandemic crisis. Sandwell has been nationally recognised for our community-based response:

- ▶ We pioneered local contact tracing and data to aid the early identification of cases of new COVID variants
- ▶ Our care home COVID response was a finalist in the Royal College of Nursing award for outstanding contribution to infection prevention and control
- ▶ We won the Local Government Chronicle's Public Health Team of 2021 for our work on reducing health inequalities from the pandemic through the COVID Vaccination Champions Project.

- ▶ We supported thousands of our most vulnerable residents to access vital support through our Food Hub and by adapting our services to keep children and adults safe
- ▶ Nearly £60m of grants and hardship payments distributed to businesses and residents when they needed it most
- ▶ We were the lead authority that successfully established, managed and operated a regional mortuary at Birmingham Airport on behalf of seven other councils
- ▶ We developed a £1.1m programme to meet increasing emotional wellbeing and mental health needs of children and young people.

While we were supporting our community through the pandemic, we delivered other key achievements including:

- ▶ Completing the Sandwell Aquatics Centre in time for the 2022 Commonwealth Games

- ▶ Gaining national recognition for drug and alcohol services, and our partnership working around modern day slavery
- ▶ Raising physical activity in children to the highest rate in the region
- ▶ Helping raise £8.7m in welfare benefits
- ▶ Completing external improvements to 3,500 houses
- ▶ Progressing the £30m Birchley Island Transport scheme and £67.5m Towns Fund programme.

The council has been hindered by ongoing governance issues, but we have been making changes. I was pleased that the progress has been recognised in external reviews.

We know there is much for us still to do and we will work very closely with the Government and all our partners to continue to progress and maintain our focus on delivering high-quality services our residents can rely on. I am delighted that Kim Bromley-Derry

will continue to work with us in his role as Managing Director Commissioner. He has been so important in the positive changes we've been making and will provide the continuity we need to carry on with the improvements we have already begun putting in place.

I want to thank the council's staff. They have gone above and beyond and have worked tirelessly for Sandwell's residents, and I am immensely proud to work with such dedicated people on a daily basis.

This Improvement Plan sets out our next steps on our improvement journey and I'm looking forward to continuing to progress and maintain our focus on delivering high-quality services our residents can rely on.

Managing Director Commissioner - Kim Bromley-Derry

I am delighted to stay on at Sandwell as the Managing Director Commissioner. This is a different arrangement to Government intervention in local authorities in other parts of the country, in that the 'Managing Director' part of my role means I am retaining many of the same functions I held as Interim Chief Executive. This is recognition that we have already started to make the required improvements.

The leadership team, together with the support from my Commissioner colleague, Jim Taylor, and staff team are all committed to the council's improvement.

This plan is a clear map of the journey the council needs to take and sets out how we will hold ourselves accountable for delivering what is required.

Whilst our improvement journey is about changing the way we work, and our organisational culture, we will not lose sight of the underlying purpose of all this – to provide high quality services to our residents and businesses.

Section 1 - Introduction

Sandwell, a borough of vibrant towns, great opportunities and significant challenges...

Sandwell is a large metropolitan borough in the heart of the West Midlands. Home to a diverse population, Sandwell is made up of six historic towns and a patchwork of urban villages and localities that developed with industrialisation, each with a distinctive identity. People are very proud of, and very much identify with, their local community and although the borough is well known as an important part of the wider West Midlands region, it is also at the proud heart of the Black Country.

Looking forward, there are a significant number of exciting opportunities in the borough, including the new Midland Metropolitan University Hospital, a 5G pilot, town centre regeneration, the new Sandwell Aquatics Centre - which will host the swimming and

diving events for the 2022 Commonwealth Games, the extension to the Midlands Metro line, and many planned new homes. The council is using these new developments as a platform from which to put Sandwell on the map, shaping a borough where people are proud of their local area, have better paid jobs, increased skills and plenty of opportunities.

We acknowledge that, for a number of years, the Council has experienced ongoing governance issues that have hindered the organisation from both moving forward and seizing opportunities, despite the desire and ambition to do so. Historically, the Council's inconsistent strategic approach and decision-making discipline, along with an unhealthy culture and inappropriate behaviours particularly at senior officer and senior member level, have been central causes of these governance issues. This has been compounded by the turnover of staff at senior management level and political instability at the senior level.

Governance and service issues have been stubborn to resolve, and a significant amount of time has been spent responding to allegations and complaints, distracting the Council from robust forward planning of its business.

At the same time, we have been responding to a global pandemic to provide the fourth emergency service locally. Council staff have been working round the clock to provide vital services, supporting local action and bringing partners together to respond rapidly in the crisis. It is important to acknowledge that throughout both the pandemic and organisational change, we have continued to deliver for our residents and that is something we are immensely proud of.

Our Improvement Journey

Since May 2021, a number of key changes have moved us forward. We have refreshed our strategic framework in the light of the pandemic and our corporate plan reflects the needs of our community and provides a compelling vision for taking the borough forward. The appointment of an interim Chief Executive in August 2021, a new Leader in November 2021, and a new permanent leadership team is now resulting in tangible strides forward and greater stability.

A series of external reviews conducted between August 2021 and February 2022 have helped us prioritise the actions within this Improvement Plan, namely:

- ▶ Grant Thornton Value for Money Governance Review (December 2021)
- ▶ CIPFA Review of Financial Management and Governance (January 2022)
- ▶ LGA Corporate Peer Challenge (February 2022)

Grant Thornton Value for Money Governance Review – December 2021

In December 2021, Grant Thornton issued their report following a Value for Money Review of the council's governance arrangements. Within the report, three statutory and five key recommendations were made that relate to the overarching governance of the organisation. The report also identifies 37 further improvement recommendations which relate to the individual key lines of enquiry of the review.

The Grant Thornton report highlighted that there were 'green shoots' of recovery in a number of areas, showing a commitment on the part of the council's leadership to move the organisation forward.

A Governance Improvement Plan has been in place since January 2022 setting out the actions to address all the recommendations made by Grant Thornton. These actions have been incorporated within this Improvement Plan.

CIPFA Review of Financial Management and Governance – January 2022

CIPFA were commissioned by the council to undertake a review of the financial management and governance arrangements using the Financial Management Model. The intention of the review was to contribute to the development of the Council's financial management operation and arrangements. It assesses the Council's financial management capability, its internal processes, and operations. It also examines how the Council plans its future financial management.

The report, received in January 2022 set out that the council at present is financially stable and in recent years has been able to contribute towards reserves through achieving a balanced budget or an underspend, but that the authority has previously lacked ambition and innovation and has a very traditional approach to financial management.

The scoring process generates an overall star rating between one and five, five being the highest. Sandwell achieved an overall rating of two stars and is considered to be a progressive two-star authority with an encouraging direction of travel.

CIPFA made 14 recommendations and the actions to address these are contained within this Improvement Plan.

LGA Corporate Peer Challenge – February 2022

The council invited the LGA to conduct a Corporate Peer Challenge focused around five areas which are recognised as critical to councils' performance and improvement:

- ▶ Local priorities and outcomes
- ▶ Organisational and place leadership
- ▶ Governance and culture
- ▶ Financial planning and management; and
- ▶ Capacity for improvement

The Peer Challenge Team also took an in-depth look at children's services and the place agenda.

The review found that there is much to be excited about in Sandwell. It recognised that our local operational relationships are well developed, and that these have been reinforced and strengthened during our response to the pandemic. The review also emphasised the positive changes that had already been achieved.

The Peer Challenge report included nine recommendations, and raised a series of improvement points for longer term consideration which are addressed within this Improvement Plan.

Statutory Notice – March 2022

In March 2022, Sandwell Council received Statutory Directions from the Secretary of State for Levelling Up, Housing and Communities.

The Directions set out the requirement of the council to develop, agree and deliver an Improvement Plan that addresses:

- ▶ All the recommendations in the Grant Thornton Review
- ▶ Actions to deliver rapid and sustainable improvements in governance, leadership and culture in the Authority
- ▶ Actions to secure improvement in relation to the proper functioning of the scrutiny and associated audit functions
- ▶ Actions to secure continuous improvement in all services

As part of the intervention package a Managing Director Commissioner – Kim Bromley-Derry and an Assistant Commissioner – Jim Taylor have been appointed.

While the council was disappointed with the Secretary of State's decision to intervene, the council has welcomed the Department's support for its improvement journey and that Kim Bromley-Derry will be staying on as part of this work providing a continuity of approach.

Structure of Improvement Plan - Phased Approach

Building on the recommendations from all three external reviews, and in line with the Minister's Statutory Direction, the council has built this Improvement Plan around six key themes that prevail throughout all of the reports:

- ▶ Organisational Culture
- ▶ Corporate Oversight
- ▶ Strategic Direction
- ▶ Decision Making
- ▶ Procurement and Commercial
- ▶ Partnership and Relationships

Each theme has a clear set of deliverables and milestones – these will be used to track our progress against expected timescales and achievements.

We recognise that there are elements of activity that require more design before confirming our approach, and that there will be other issues arising that will feed into the Improvement Plan. For example, the council conducted an Employee Engagement Survey in February 2022, the results of which were not due until mid-May. The results of this survey need to be shared with staff to develop a collective approach to addressing the key issues. The local elections in early May has also meant that we have not had time to work

with all members, particularly those newly elected, in the development of this Plan.

Consequently, the council has taken a phased approach to developing this Improvement Plan. This is Phase One – capturing the known actions that can be addressed and delivered at this point. The Phase 2 Plan will identify additional areas for improvement that arise through Phase 1 activity.

Section 2 - Communication and Engagement

Our ambition

As the council continues its improvement journey, we will communicate our progress to our residents, staff, partners, businesses and stakeholders.

The council developed a communications strategy in 2021, and both the Grant Thornton Review, and the LGA Corporate Peer Challenge Team have recommended that this strategy is implemented. Work is now underway to deliver this, and a restructure has been completed to align the communications team to five areas that will best support the ambitions of the council: news, marketing, digital and creative services, internal communications and corporate affairs.

If we are to cultivate trust and effectively engage our residents, staff and all other stakeholders it is vital that we provide high-quality communication in the right format and at the right time. We want to proactively inform our community about the range of services provided by the council, both to connect people to services they may need, and to build confidence in the council's ability to support residents.

We are also determined to put Sandwell on the map and create new opportunities for our residents and businesses. Sandwell doesn't currently punch its weight – we're the 34th largest authority by population, but the 8th most deprived and only 72nd for gross value added to the economy.

We now have an opportunity to change this. Working with our construction partner, the Sandwell Aquatics Centre has been delivered on time and on budget for the upcoming Commonwealth Games and will then be turned into a state of the art leisure facility for local residents.

New infrastructure developments like the Midland Metropolitan University Hospital in Smethwick and the new Midland Metro line provide potentially massive catalysts for wider regeneration. Building relationships and communicating effectively, both at the local and regional level will be key to making the most of these opportunities.

Our approach

We will regularly report on the progress in delivering our Improvement Plan and will complement this with a communications plan to keep our staff, residents, partners, businesses and stakeholders informed.

Staff and Members

It is vital that we effectively engage our staff and members in our improvement journey to create and drive organisational cultural change. We want to have an open conversation with our staff and members about the values we need to adopt and embed to take the council forward.

The council has more than 4,000 members of staff, many of whom work on the frontline, and our internal communications must support our staff to understand the relevance of our Improvement Plan to their day-to-day work, and the connection it has to our Corporate Plan and priorities for our residents.

We will communicate with staff in a variety of ways, including regular video and email messages, staff Q&A

sessions, manager briefings and staff panels. This will be a two-way conversation with the intelligence gained from staff throughout the organisation used to inform our Improvement Plan.

Residents

We are committed to becoming a listening, responsive council that enables our residents to influence the design of services. We are conducting a residents' survey that will inform our priorities and our future communications with our community, to ensure that we are focussed on the issues our residents care about.

Partners and stakeholders

We are changing the way we work as a council, and in some cases reviewing our partnership arrangements as we continually strive to provide the best possible services. We want to build on the operational relationships with our partners that have been strengthened during the pandemic, and it is crucial that we keep them informed of our progress throughout our improvement journey.

Engagement in Phase 1

In developing this Improvement Plan, we have engaged with staff and members, ahead of a more extensive engagement programme as we develop our plan further. We have held two events with staff (one with our co-production network and one with our staff panel), and a third event with members. We have also discussed the developing plan with Sandwell's MPs.

Organisation culture has been identified as a key theme from engagement sessions and polls. Staff feel the implementation plan needs to be steered in the right direction and that the correct foundations should be created to develop a better organisational culture. Staff want to create a safe place to be heard, to generate a better understanding on what needs to change and the way in which it can be done, taking us away from silo working.

Staff felt there needs to be strong representation with our local partnerships and welcomed the directorate and corporate planning that is in place as a way forward to horizon scan, encouraging directors to share their

plans on what each service area will be working on over the next three years.

Feedback from MP's is that they are happy with the approach and that customer experience should be a key priority.

In relation to the engagement approach for phase two, staff emphasised that they are aware there is a lot of work to be done. However, welcome the opportunity to engage and for their thoughts and ideas to be taken on board, but also be able to share and review ongoing improvement to acknowledge the change Sandwell deserves.

Engagement Approach for Phase 2

Through a series of engagement sessions, Members and staff will help shape the development of the Phase 2 Improvement Plan.

The main strand of engagement will focus on the organisational change programme through wide-ranging engagement to determine the desired culture of the council. We will use a blended approach of face to face and virtual methods, taking the conversations to where staff are.

Our staff panel and Equality, Diversity and Inclusion networks will play a central role in testing the progress of our improvement journey and guiding the overall engagement approach with staff.

Initial Communication and Engagement Milestones

Staff Survey Results	May 2022
All staff live event	26th May 2022
All Member briefing	26th May 2022
Engagement programme part 1: Starting the Conversation	June – July 2022
Engagement programme part 2: Developing the Desired Organisational Culture	August – December 2022

Section 3 - Governance and Assurance

Effective programme management arrangements and robust monitoring processes will be key to Sandwell's successful delivery of this Improvement Plan and achievement of sustainable change. This was highlighted as a gap in all three external reviews, and the council has taken steps to develop a corporate and consistent approach to programme management.

For the council to have oversight of the delivery of this Improvement Plan and achievement of the deliverables, we have established the following comprehensive governance arrangements. This will provide elected members and officers the mechanisms to manage the delivery of the plan, as well as ensuring that the desired impacts are being achieved.

Role of the Commissioners

In his Directions to the council, the Secretary of State for Levelling Up, Housing and Communities appointed two Commissioners with powers to make sure that the council "has made sufficient improvement within the next two years to be able to comply with its best value duty on a sustainable basis". These roles are:

- ▶ Managing Director Commissioner, whose responsibilities include giving direction and leadership to deliver improvements that the council is required to take; and
- ▶ Assistant Commissioner, one of whose responsibilities is overseeing the cultural change necessary at the council.

The Commissioners will be providing six-monthly reports to the Secretary of State on the council's progress in addressing the matters highlighted by the external reviews. There are several factors that will inform any decision by the Secretary of State to end the period of government intervention at Sandwell Council, and this decision will be based on reports received from the Commissioners. Some of these factors include:

- ▶ That the council can demonstrate sustainable improvements in governance and scrutiny of decision making
- ▶ That a permanent Chief Executive has been successfully appointed
- ▶ The Council has reached a decision on implementing a four-yearly election cycle

Ownership and Accountability

This Improvement Plan has six themes, each with clear objectives, milestones and deliverables. Supporting each theme is a detailed delivery plan setting out activity to achieve the deliverables, identify responsible officer, timescales, and measures of success. The delivery plan also sets out how specific actions address recommendations in the various external reviews, thereby enabling direct reporting for different audiences as required.

It is vitally important to the success of this Improvement Plan to establish collective ownership and responsibility across senior political and officer leadership. This will contribute to the cultural change necessary for sustainable improvement, as set out elsewhere in this document. It is intended to establish a simple matrix mechanism across directors and Cabinet Members that will set out accountability and the ability for peer challenge. Due to the development of this Improvement Plan coinciding with local elections, these arrangements will be agreed at the earliest opportunity following the approval of this Plan.

Reporting Mechanisms

Ensuring that senior officers and members have oversight of delivery against this Improvement Plan is integral to the success of Sandwell's improvement journey.

Progress will be monitored by Leadership Team on a monthly basis. The Managing Director Commissioner will chair this meeting, with the Assistant Commissioner in attendance as an observer. In this way, both Commissioners will have up-to-date insight into the council's progress in achieving the milestones and deliverables set out in this Plan.

Members will have oversight of progress through monthly informal reporting and formal reporting to Cabinet quarterly. This will continue until all actions have been completed and government intervention has been lifted. Member-led committees will be used for decision making and to maintain oversight of implementation of the actions within the Improvement Plan. These will include Governance and Constitution Review Committee, Audit & Risk Assurance Committee and Scrutiny Committees.

Whilst this Improvement Plan has been developed to address specific recommendations, it is recognised that the Plan will need to evolve over time to address areas of improvement that are yet to be identified. Additions to the Improvement Plan will be monitored through the internal monthly monitoring and approved by Cabinet.

As set out in the Communications Section, we recognise the need to improve how the council communicates progress with its staff, members, partners and residents. Not only does this communication need to be in the right format for the various audiences, it also needs to be at the appropriate time to provide meaningful information. Therefore, we will be sharing progress against the key milestones, deliverables and outcomes in this Improvement Plan on a regular basis.

Corporate Plan 2021-2025

This Improvement Plan sets out what the council must do to improve its governance arrangements and embed that improvement to continue to deliver positive outcomes for residents. It does not cover everything that Sandwell Council is doing to deliver day-to-day services and service transformation required to improve outcomes for people living and working in the borough. Therefore, this Plan must be read in tandem with Sandwell's Corporate Plan 2021-2025. The ultimate test of whether the improvements in how the council functions, as set out in this Improvement Plan, have succeeded will be the delivery of the improved outcomes within the Corporate Plan.

Sandwell Children's Improvement Board

Sandwell Council has in place an existing Statutory Direction from the Department for Education (DfE). This Statutory Direction included the establishment of an independently chaired Improvement Board, the role of which is to ensure sustainable improvements to quality of practice with the aim of improving outcomes for the borough's most vulnerable children and young people. There exists a clear governance structure in place to facilitate reporting up to the DfE, and they will continue to run alongside the council-wide interventions. There will be scheduled updates between Sandwell Children's Trust and the Commissioners through quarterly meetings with the independently appointed Chair of the Trust Improvement Board.

External Assurance

Member-led committees will receive progress reports on the Improvement Plan as part of their normal business. In order to provide the council, the Commissioners, the Secretary of State, and our residents with a further level of assurance on our progress in achieving the objectives of this Improvement Plan, Grant Thornton, CIPFA and the LGA Corporate Peer Challenge Team will be invited back to Sandwell Council to monitor our progress on addressing the recommendations of their reviews. These will provide a check point on our improvement journey and provide a steer on future areas of focus.

The first review update is scheduled for Autumn 2022, and further reviews may be arranged at agreed points throughout Sandwell's improvement journey as required. It is noted that as the council's external auditor, Grant Thornton may increase monitoring activity should they identify any concerns through their normal business activity.

Programme Management Approach

A dedicated team has been established to manage the development and delivery of the plan. The programme management office will provide assurance that the Plan is being delivered, identify variances to the agreed deliverables at the earliest opportunity and work with lead officers to ensure mitigating action is designed and implemented as appropriate.

It will pull on key skills and expertise available across the organisation as necessary, such as communications, organisational development, employee engagement, risk management, democratic services, financial management and internal audit. By engaging with and involving staff across the council in the development and delivery of this plan, we will build the necessary skills and experience to ensure improvements are sustainable.

Section 4 - Risk Management

Risk approach

A risk register will be maintained for the duration of the Improvement Plan. This risk register will underpin the entry on the strategic risk register relating to the council's Improvement Plan (59a 02/22)

An initial risk register has been populated with key risks and an assessment of their impact and severity. This will guide the development of action plans to provide further mitigation, where required.

Risk monitoring

Monthly report of the risk register will be made to the Improvement Review Meeting and quarterly to Cabinet.

Key Risks

The main risks are associated with:

- ▶ Resources – for delivery of key components of the plan including the performance management framework, asset management system implementation and culture change programme. The financial resources required have been identified and will be put in place, subject to Council's approval.
- ▶ Organisational Culture – if the organisational culture doesn't change, this will limit the improvements that can be made. A theme within the Improvement Plan focuses on organisational culture. It includes our plans for a comprehensive engagement programme with staff and members to define a collectively owned culture. We will then embed the conditions for this culture to thrive.
- ▶ Communication – our communications approach is set out within this Improvement Plan and a detailed communication plan will be developed to ensure effective and timely communication with stakeholders.
- ▶ Governance Policies and Procedures – Key corporate governance documents are being reviewed and once approved, will provide an important foundation for improvement.
- ▶ Performance Management Framework – to ensure that we can effectively monitor progress and evidence improvement. Each theme includes an outline of how success will be evidenced. Processes for monitoring progress and evaluating evidence of improvement will be developed within the governance arrangements.
- ▶ Historic Issues – if there is continued focus and resource directed to historic issues this will hinder progress on the improvement plan and corporate plan. This Improvement Plan contains actions to bring historic issues to a conclusion and embed lessons learnt.
- ▶ Progress Monitoring and Risk Management approach – if assessment of progress and risk assessment contains optimism-bias this will prevent an accurate and realistic view of progress. Assurance mechanisms will help manage this risk.

Section 5 - Resourcing the Plan

Without directing the right resources to delivering this Improvement Plan, the council will not successfully achieve the necessary changes or embed the improvements made.

In developing the delivery plans for each theme, an assessment has been made on whether existing resources and budgets can be redirected or reshaped to carry out the activity required. In most areas, existing resources have been allocated where available.

The council recognises that in order to ensure rapid and sustainable improvement, investment is required in core areas including; performance management, transformation and organisational development. These areas will enable the council to build on the improvements made over the life of this Improvement Plan and take advantage of opportunities to make the organisation more efficient and effective in the future.

Plans have been developed to address the resource gaps with appropriate levels of funding identified. Following Council approval of the allocation of these resources, these resource plans will be implemented.

Theme 1 – Organisational Culture

Introduction

Effective organisational culture is the collection of values, expectations and practices that guide and enable people to perform well and deliver improved outcomes for residents. The culture of the organisation, from member level through to front-line staff, affects the ability of the council to make the necessary changes across the whole of this Improvement Plan and succeed on its improvement journey.

In their Value for Money Governance Review in Autumn 2021, Grant Thornton identified poor working relationships, lack of trust between officers and members, a culture of silo working and focusing on dealing with historical matters. Grant Thornton highlighted these challenges as central to the governance issues identified in their report and preventing the council from moving forward.

However, the Grant Thornton Review also recognised the 'green shoots' of progress made since the appointment of the Interim Chief Executive in August 2021. The permanent appointment of the senior management team has brought stability, skills and experience to tackle key issues. These 'green shoots'

were further recognised by the LGA Corporate Peer Challenge as being clearly visible within the culture of the council and the way it operates. The LGA commented on the tangible strength of leadership being provided by the current Leader and Chief Executive and the importance of maintaining this continuity of style and approach. Enabling the right organisational culture to thrive will be a key part of the recruitment process for the permanent Chief Executive.

The CIPFA Financial Management Review also highlighted the need for clarity on roles and responsibilities in relation to leadership, budget holders and finance specialists to ensure a modern financial management approach was taken.

We recognise that changes to structures and performance management arrangements will not in themselves lead to organisational change without the right culture and individual behaviours in place. The plans we put in place can only succeed when everybody is determined to adopt the behaviours required and to live the new culture. This will require identifying and communicating clear roles and responsibilities and ensuring a consistent use of policies and procedures. To drive this change, we will improve the

way we engage with our staff, members and residents by providing high-quality communications in the right way and in a timely manner.

Embedding this culture change will take time to achieve. We have the opportunity at this point in our improvement journey to pause, reflect and collectively determine what culture and behaviours we want to nurture as a whole organisation. Therefore, we will conduct a comprehensive engagement programme with staff and members to define a collectively owned culture and conditions for the right culture to thrive. This programme will be led from the top, maintaining stability and demonstrating the behaviours we expect to see.

A healthy, inclusive culture underpins the successful delivery of the whole Improvement Plan. The work on embedding a positive culture has informed the sequencing of actions across the other themes of this plan. Without appropriate engagement and relationship building being the first step, there is a risk that the council will fail to successfully embed the necessary changes to policy and process. In turn, this will prevent the council making those improvements sustainable.

Objectives

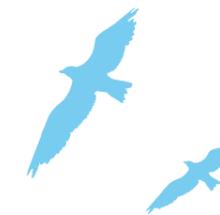

The overall objectives of this theme are:

- ▶ For Senior Leadership (Officers and Members) to work together effectively
- ▶ That officers receive appropriate support and direction from Senior Leaders
- ▶ For the council's organisational culture to change, ensuring sustainable improvement through a focus on improving outcomes for residents, empowering staff to make decisions at the right levels, learning lessons and embedding customer focus throughout the organisation.

Workstreams and Aims

- ▶ **Establishing Organisational Culture** – to collaboratively develop the desired organisational culture for Sandwell Council and create the right environment for it to thrive
- ▶ **Officer and Member Relationship** – to improve the relationship between officers and members, particularly within the council's senior leadership, enabling increased confidence and appreciation of each other.

- ▶ **Officer Learning and Development** – to provide clarity of expectations on officers, particularly leadership and managers, ensuring they have the appropriate skills to perform their roles effectively
- ▶ **Member Learning and Development** – to provide clarity of expectations on members, particularly those with roles of special responsibility, ensuring they have the appropriate skills to perform their roles effectively
- ▶ **Internal Communication** – setting out a clear vision for and tone of the organisation from the top, and improving internal communication across staff and members
- ▶ **Employee Engagement** – to identify actions in response to the findings of the Employee Engagement Survey
- ▶ **Chief Executive Recruitment** - To recruit a permanent Chief Executive and provide continuity of approach

Key Milestones:

Budget Holder Role Profile Approved	May 2022
Employee Engagement Survey Report	
New Member Induction	
Employee Engagement Survey Results	
Meeting structures to support regular dialogue between Senior Leadership (Officer and Member) confirmed for new Municipal Year	June 2022
Part 1 Engagement – Starting the Conversation	June-July 2022
Scope of Corporate Governance Training approved	June 2022
Member Development Programme approved	July 2022
Part 2 engagement – determining desired culture	August – December 2022
Corporate Governance Training – Procurement for delivery partner	August 2022
Corporate Governance Training Delivery	Autumn 2022
Approval of document / statement setting out desired organisational culture – ‘Our Values: Our Behaviours’	
Organisational Development Strategy and Plan Approved	End 2022
Recruitment process for Permanent Chief Executive commences	By early 2023
Appointment of Permanent Chief Executive	By September 2023

Key Deliverables:

- ▶ Employee Engagement Survey
- ▶ Member Development Programme
- ▶ Document or statement setting out the desired organisational culture - ‘Our Values: Our Behaviours’
- ▶ Organisational Development Strategy
- ▶ Corporate Governance Training Programme
- ▶ Communications Strategy
- ▶ Permanent Chief Executive in place

Evidence of Success

When we have made progress towards embedding an effective organisational culture, there will be evidence of:

- ▶ Employee engagement results improving
- ▶ Managers demonstrating expected behaviours (via employee engagement survey results)
- ▶ Members demonstrating expected behaviours
- ▶ Officers and Members have confidence in their decisions
- ▶ Healthy and regular dialogue between Senior Leaders (Member and Officer)
- ▶ Numerous examples of Members and Officers working effectively together
- ▶ Improved take-up of Member development programme opportunities
- ▶ Improvements in external review outcomes

Theme 2 – Corporate Oversight

Introduction

The leadership of the council needs effective corporate oversight of the business to enable it to meet its overall objectives and to encourage a positive culture to thrive. This requires the council to work effectively together to respond to key issues and have the right tools in place to enable this to happen.

The Grant Thornton Review identified a weakness in the council's overall 'corporate grip' on a number of specific service issues. This has resulted in poor practices such as silo working, lack of corporate ownership and accountability, and an absence of intervention and decision making. The review particularly highlighted the lack of a clear performance management framework to provide strategic management and oversight.

All the external reviews have highlighted the lack of a performance management culture being a contributing factor to the council's ability to make effective decisions and moving forward. Having no framework that provides a single version of the truth has led to silo working and a lack of corporate ownership and accountability.

A corporate performance management framework has been approved by Council as the starting point for the culture change required. This framework will now be used to drive collective conversations around performance and accountability at all levels of the organisation.

The LGA Corporate Peer Challenge highlighted the positive style and approach of the Leader and Chief Executive but also the need for greater joining up across the council, the opportunity for the council to be more

outward looking, to actively learn when things don't go to plan, and the importance of the corporate core in enabling modernisation.

The CIPFA Financial Management Review' also raised considerations to strengthen the corporate core of the organisation, including the delivery of a finance business partner approach and a programme of end to end finance process reviews.

The council is already implementing strategies to address the service issues highlighted by the Grant Thornton Review, with decisions on a number of these already being taken by Cabinet.

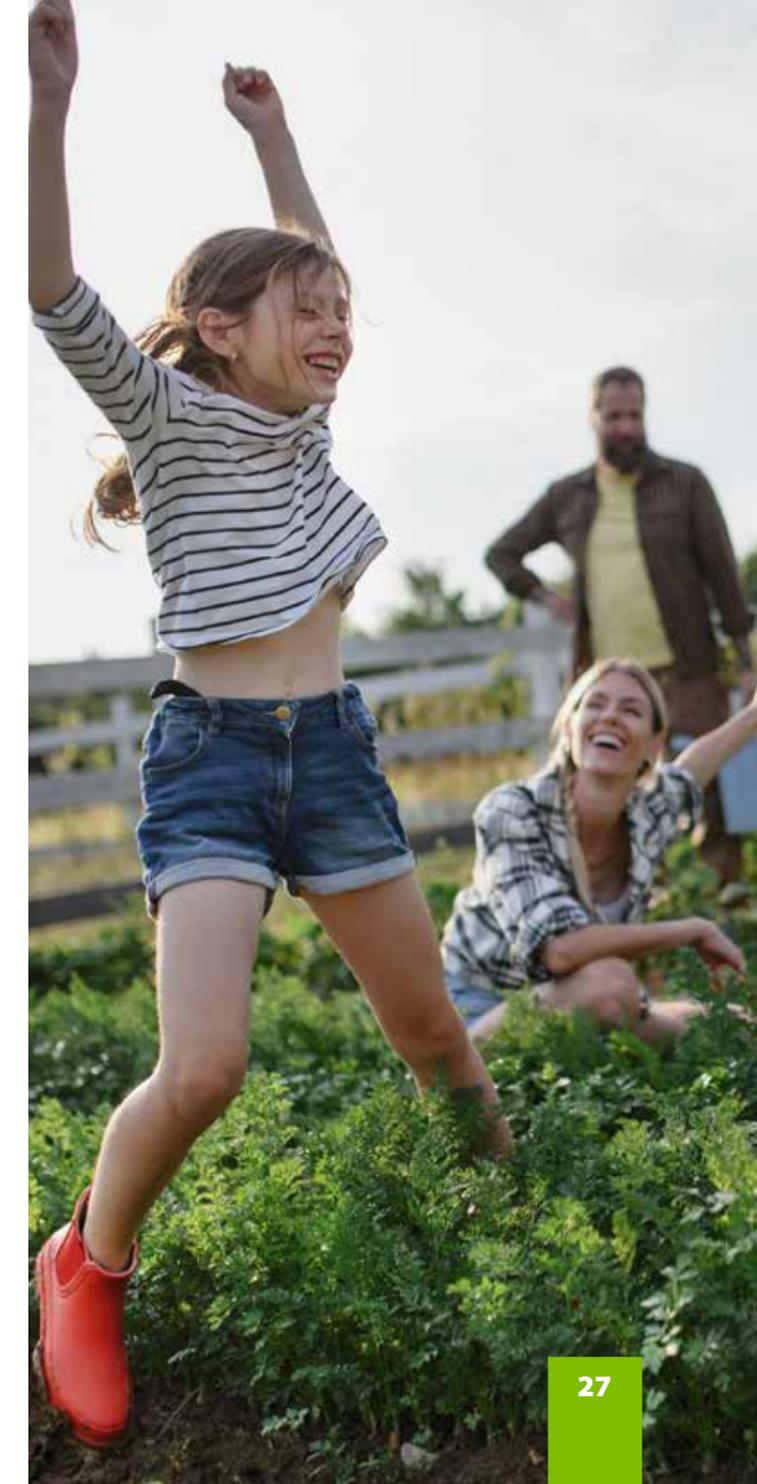

Objectives

The overall objectives of this theme are to:

- ▶ Take effective corporate oversight of long-standing service issues and the council's overall improvement journey
- ▶ Embed learning from service issues identified in external reviews
- ▶ Provide a corporate approach to performance management and the delivery of programmes and projects
- ▶ Ensure the role of the corporate core is strengthened to enable front line services and staff to focus on outcomes for residents

Workstreams and Aims

- ▶ **Improvement Planning, Monitoring and Learning** - To design, implement and monitor delivery of the Improvement Plan and a continuous improvement plan for the council
- ▶ **Performance Management** - To implement the Performance Management Framework and ensure that it is utilised to support the council's improvement journey
- ▶ **Organisational Structure and an Enabling Corporate Core** – to complete Directorate level restructuring, and strengthen the enabling role of the corporate core
- ▶ **ERP** - To implement Oracle Fusion within agreed timescales and budget
- ▶ **Programme and Project Management** - To adopt a Corporate approach to programme and project management that will ensure effective information flow and decision making from Senior Leadership

Key Milestones:

Establish Performance Management Framework	Achieved April 2022
Improvement Plan approved	June 2022
Procure new support provider to deliver Oracle Fusion	July 2022
First Performance Management Report	August 2022
All Directorate-level restructuring completed	December 2022
Oracle Fusion Implemented	April 2023

Key Deliverables

- ▶ Oracle Fusion
- ▶ Performance management framework
- ▶ Performance management reports
- ▶ Single Improvement Plan
- ▶ Continuous Improvement Plan

Evidence of Success

When demonstrating effective corporate oversight, we will see evidence of:

- ▶ Performance information being used by Leadership Team and Members to set strategic direction and respond to issues
- ▶ Improvement in performance measures relating to One Council One Team
- ▶ Improvement in employee engagement score
- ▶ Improvement in views of external reviews

Theme 3 – Strategic Direction

Introduction

The objective of this theme is to build processes and mechanisms that help the council to stay focused on our longer-term goals and implement principles within the Corporate Plan. This is especially important during this period of rapid organisational change.

The Grant Thornton Review identified the disproportionate amount of time spent in recent years on 'fire-fighting' which has limited the space to think clearly about the long-term plans and undertake the strategic thinking required. The Corporate Peer Challenge remarked on the huge potential to be unlocked in the Borough commenting that a key part of this is the regeneration agenda. The Regeneration Strategy and Pipeline received approval in March 2022 setting out how future needs across housing, transport, education and skills will be achieved.

Effective long-term planning across all areas of council business is essential. The refresh of the Corporate Plan

was a significant milestone achieved in 2021 which provides a clear overall set of aims for the council. Central to achieving this is the review of the Medium-Term Financial Plan which will ensure that resources are in place to enable us to meet our priorities, and a set of key strategies which will help to set out the route map to achieve our longer-term goals.

This theme also includes actions to ensure that the budget setting process and our understanding of how we are performing considers the results from public consultation and engagement. The commitment to run a regular Resident Survey will provide a means to maintain ongoing engagement with the community in order to inform key decision making.

Good progress has already been made, with a series of key strategies approved in early 2022 which have now moved into the delivery phase.

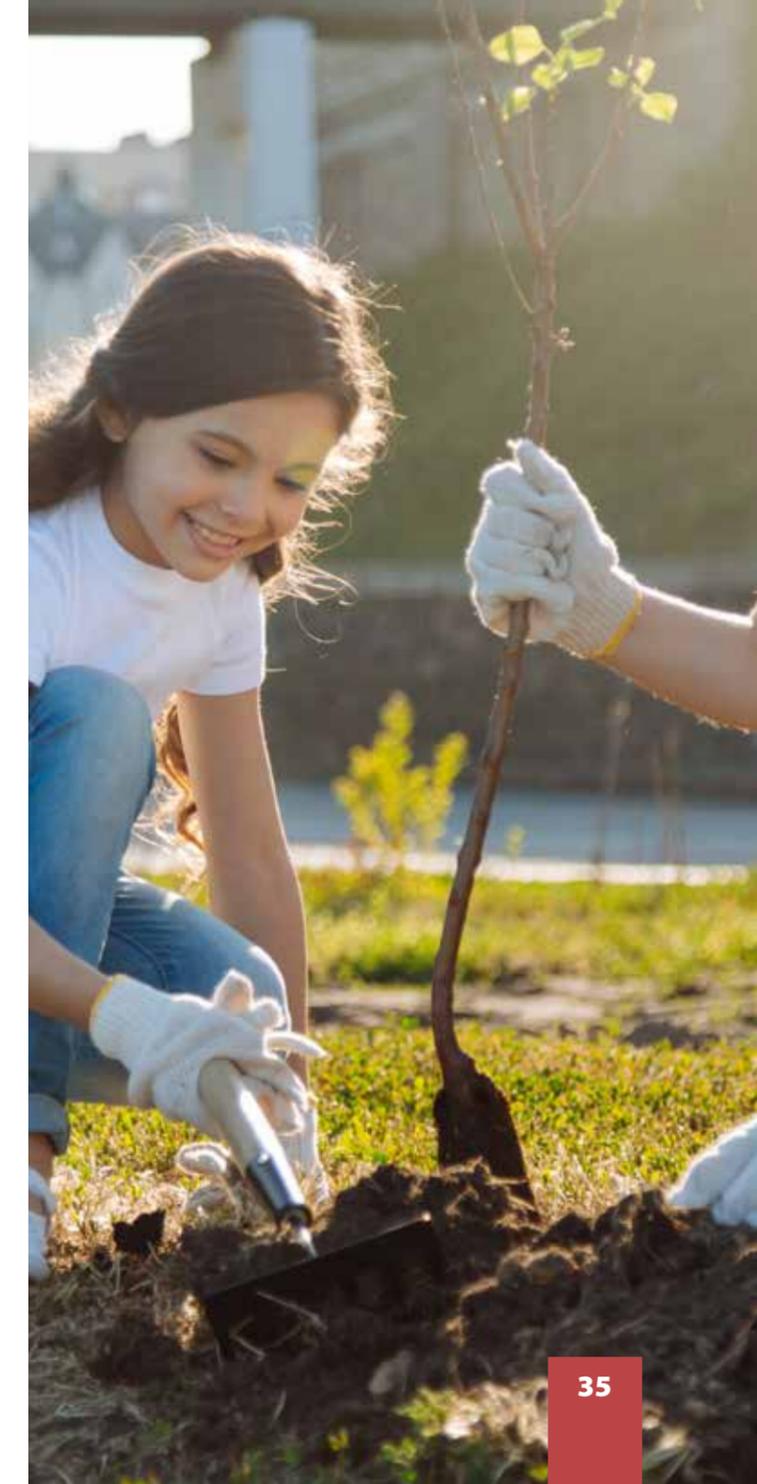

Objectives

The overall objectives of this theme are to:

- ▶ Ensure that focus is maintained on longer-term direction through effective strategies being in place to support our Corporate Plan outcomes
- ▶ Ensure that sustainable financial planning is in place that is aligned to our priorities
- ▶ Conduct consultation and use the findings to inform budget setting and our understanding of how the council is performing.

Workstreams and Aims

- ▶ **Medium Term Financial Plan and Capital Strategy** – to put in place a sustainable financial plan aligned to priorities
- ▶ **Strategy development and refresh** – to develop or refresh key strategies in response to service issues and opportunities identified by the external reviews
- ▶ **Locality Working** – to develop a model for locality working
- ▶ **Consultation and engagement** – to utilise public consultation outcomes to shape the budget setting process, and inform our intelligence around how the organisation is performing

Key Milestones:

Approval of Communications and Corporate Affairs Strategy	Achieved March 2022
Approval of Regeneration Strategy and Pipeline	
Early Help Strategy approved and launched	
Review of Medium Term Financial Plan completed	July 2022
Corporate Procurement Strategy approved	
Commercial Strategy Approved	
Regular Resident Survey in place	
Equalities Policy approved	
Public Consultation to be carried out as part of budget process	Autumn 2022
Approval of Medium-Term Financial Plan and Capital Strategy	
Equality, Diversity and Inclusion Strategy approved	
Corporate Asset Management Strategy Approved	September 2022
Corporate Parenting Strategy Refresh Approved	
HRA 30 Year Business Plan approved	Spring 2023
Model for Locality Working Approved	Spring 2023

Key Deliverables

- ▶ Strategies:
 - Regeneration Strategy and Pipeline
 - Early Help Strategy
 - Corporate Parenting Strategy
 - Corporate Asset Management Strategy
 - HRA 30 Year Business Plan
 - Corporate Procurement Strategy
 - Communications and Corporate Affairs Strategy
 - Commercial Strategy
 - Equality Policy
 - Equality, Diversity and Inclusion Strategy
- ▶ Medium Term Financial Plan
- ▶ Resident's Survey
- ▶ Public Consultation outcomes around budget setting
- ▶ Model for locality working

Evidence of Success

When we are maintaining focus on our long-term plans, we will see evidence of:

- ▶ Improvements to the Corporate Plan outcome measures
- ▶ Sustainable financial planning in place, aligned to priorities
- ▶ Consultation and engagement, shaping strategic direction and financial planning
- ▶ Examples of Sandwell's national profile showcasing the good work of the council

Theme 4 – Decision Making

Introduction

Effective decision making covers many strands and impacts on every aspect of the council's business. Fundamentally, our structure and how we are governed and managed needs to be transparent and fit for purpose and we must be clear how our communities inform the decisions we take. Delivering improvements to our decision making processes will ensure that the right checks, balances and internal challenge is in place whilst at the same time ensuring that the systems in place do not hinder or stifle progress.

The Grant Thornton Review highlighted a perception of poor progress in resolving service and governance issues, a lack of trust between key individuals charged with governance and of reviews being reopened, such as the reopening of previous standards reviews. The Review stated that these issues had clearly impacted upon the council's ability to focus on service improvement. It went on to suggest that the scheme of delegation and the involvement of senior members

in key decision making had resulted in a lack of empowerment of officers and a lack of agility to enable the council to make prompt decisions when required.

The LGA Corporate Peer Challenge stated that a review of the Constitution was required and stressed that this must be fundamental in nature, drawing on experienced external input with extensive engagement of managers across the council and elected members. They also recommended that the Scheme of Delegation should be a key component of this review. In addition, the Corporate Peer Challenge identified the valuable contributions to be gained from an effective scrutiny function.

The CIPFA Financial Management Review identified that the budget setting process had historically lacked member engagement and did not focus on key authority objectives within a good governance framework that included an adequate check and challenge process at a political and operational level. They also recommended that financial governance

and decision-making arrangements are reviewed and strengthened from both a political and officer perspective.

Work is already underway to address the issues highlighted by these external reviews. For instance, a Governance Review Project is being delivered which looks to review decision making structures and constitutional arrangements. This includes the review of corporate governance documents policy and procedures to ensure alignment with national best practice and the Council's Corporate Governance Framework. Our approach to this project has been strengthened by taking on board the comments in these external reviews. Recognising the need to develop a good organisational culture, we will engage with members on roles and expectations so that our decision making framework reflects the new culture. We are also exploring moving to a four-yearly election cycle with options due to be considered by Leadership Team in June 2022.

Objectives

The overall objectives of this theme are to:

- ▶ Review and refresh key corporate governance documents laying the foundations for robust decision-making audit and scrutiny and culture change
- ▶ Create a clear and strong role for scrutiny and audit and embed in practice
- ▶ Explore options around a four yearly electoral cycle

Workstreams and Aims

- ▶ **4 yearly election cycle**- Explore options around a four yearly electoral cycle
- ▶ **Constitution and Governance Framework** - Review and revise corporate governance documents
- ▶ **Role and Function of Scrutiny and Audit** - Refresh the roles of scrutiny and audit bringing them to the fore of the council's governance assurance, and policy development framework

Key Milestones:

Review of scrutiny arrangements	April 2022
Approval of any changes to scrutiny (if required following review)	May 2022
Options Paper to Leadership Team for 4 yearly election cycle	June 2022
Scrutiny work planning event	
Council Decision on options for alternative election cycle	Date TBC following options paper to Leadership Team in June 2022
Revised Procurement and Contract Procedure Rules agreed	
Revised Financial Regulations agreed	July 2022
Revised Council Procedure Rules	
Revised Sale of Land and Buildings Protocol	August 2022
Implementation of Scrutiny Recommendations for SEND (Special Educational Needs and Disability) Transport and Waste	September 2022
Completion of ARAC report and recommendations in relation to governance issues raised (SEND Transport, Waste Contract)	
Revised scheme of Delegations agreed	October 2022

Key Deliverables

- ▶ Decision on election cycle
- ▶ Updated Key Governance Documents
- ▶ Revised Procurement and Contract Procedure Rules
- ▶ Revised Financial Regs
- ▶ Revised scheme of Delegations
- ▶ Revised Council Procedure Rules
- ▶ Revised Sale of Land and Buildings Protocol
- ▶ Scrutiny Work Programme

Evidence of Success

- When demonstrating clear and effective decision-making, we will see evidence of:
- ▶ Decision reports written which set out options and an assessment of their impact on outcomes for residents
 - ▶ Evidence of effective scrutiny work through robust scrutiny review / input into priority areas
 - ▶ Audit input driving assurance and improvement
 - ▶ Commissioners' role embedded and understood across the Council

Theme 5 – Procurement and Commercial

Introduction

Effective procurement, commercial decisions and contract management are important to the council to make sure that value for money is achieved and that our commercial decisions focus on outcomes for residents.

Procurement and commercial decisions have been a factor identified in many of the key issues facing the council - in relation to major contracts (such as Sandwell Leisure Trust, Serco and Sandwell Children's Trust), procurements (including SEND Transport) and property related-issues (including Lion Farm).

The Grant Thornton Review identified common themes around procurements that had been either poorly specified, had insufficient timescales, or decision-makers had not been fully aware of context and detail. In addition, key contracts were found to have been impacted by:

- ▶ A lack of clear contract management responsibility
- ▶ Poorly defined approaches to contract management
- ▶ A lack of appropriate focus on performance indicators, service quality or outcomes.

Immediate steps have been taken following the Grant Thornton Review and decisions have already been made by Cabinet to resolve the specific procurement and contract issues raised. This includes decisions being made around Lion Farm, SEND Transport, Sandwell Leisure Trust and the Oracle Fusion delivery contract.

Actions now need to focus on concluding delivery of some of these issues, embedding changes, and conducting effective procurement around systems that will support delivery of the Improvement Plan.

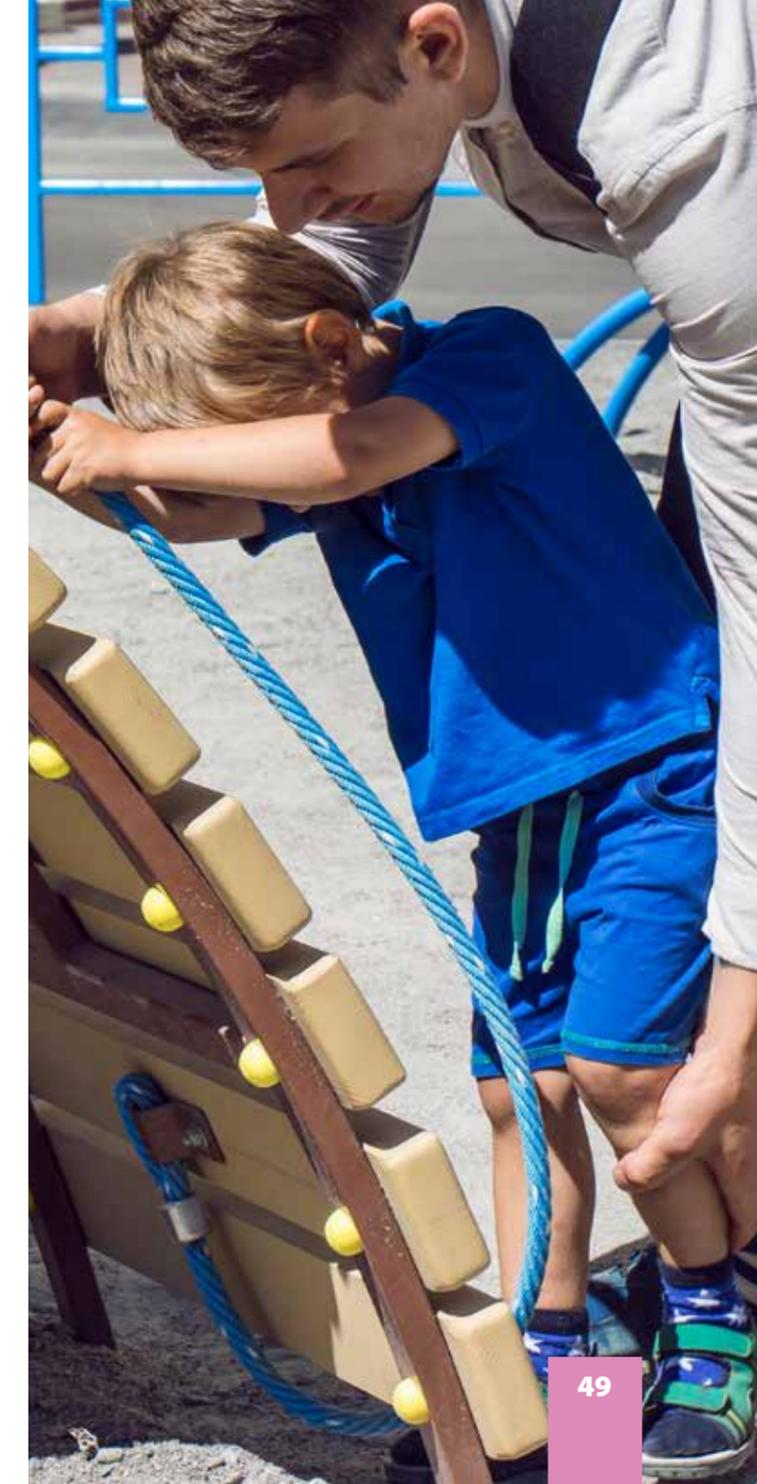

Objectives

The overall objectives of this theme are to:

- ▶ Conclude procurement and commercial matters in relation to key legacy issues
- ▶ Ensure that learning in relation to issues around commercial decisions, procurement and contract management are understood across the council
- ▶ Ensure corporate ownership and effective contract management of major contracts
- ▶ Ensure that major contracts have an effective focus on service quality and outcomes
- ▶ Conduct effective procurement for the new systems that are needed to support the delivery of the council's improvement plan

Workstreams and Aims

- ▶ **Leisure Contract** - to plan for the future delivery of leisure facilities that will enable increased participation in leisure activities
- ▶ **SEND Transport** – to award the contract within timescales to ensure focus on service quality and flexibility of provision meets the needs of children and young people
- ▶ **Lion Farm** – to implement agreed action plan to provide a future for the site
- ▶ **Waste Contract** – to implement effective contract management arrangements that enable improvements in street cleansing and bin collections
- ▶ **Performance Management System** – to assess options and procure, as appropriate, a Performance Management System that supports the council to manage performance effectively
- ▶ **Asset Management System** – to procure and implement a system that delivers the required information to improve asset management and financial reporting

Key Milestones:

Termination notice for SLT contract approved by Cabinet	February 2022
Revised contract governance arrangements in place for Serco contract	March 2022
Asset Management System Procured	
SEND Transport procurement published	May 2022
Waste and Recycling recovery plan – Implementation complete	June 2022
Option appraisal for future leisure management options	Summer 2022
Street Cleansing Recovery Plan: • Approved; and • implemented	July 2022 March 2023
Serco contract performance reporting embedded in PMF	August 2022
Review of Serco contract completed	September 2022
New SEND Transport contract in place	
SEND Transport Contract Monitoring arrangements in place	
Implementation of Asset Management System	Dec 2022
Lion Farm report to Cabinet on determination of position of developer	
Arrangement in place for future delivery of leisure services	May 2023
Fleet replacement complete	Mid 2023

Key Deliverables

- ▶ Options appraisal for future delivery of Leisure Services
- ▶ Contract Governance Arrangements for Serco contract
- ▶ Review of Serco Contract
- ▶ SEND Transport Contract
- ▶ Asset Management System
- ▶ Performance Management System
- ▶ Lessons learnt around procurement, commercial and contract issues documented

Evidence of Success

When we have robust systems and processes around procurement, commercial matters and contracts, we will see evidence of:

- ▶ Key contracts being effectively managed
- ▶ Improved outcomes from key contracts and commercial decisions as demonstrated by performance indicators for leisure, and waste
- ▶ Lessons learnt documented

Theme 6 – Partnerships and Relationships

Introduction

The council needs strong effective working relationships with all its partners in Sandwell and the region to deliver the best possible outcomes for residents and the whole borough. This theme is seeking to further develop our connections and strengthen our relationships so that they are sustainable over time and are built on mutual respect and trust.

The LGA Corporate Peer Challenge praised the council's relationships at a local level stating that these had been consolidated and strengthened during the pandemic. The review also recognised that the council's relationships and related governance arrangements with Sandwell Children's Trust were strong and that the council was working hard with schools and many partners across the Borough to improve early intervention arrangements.

The LGA recommended simplifying the governance and partnership arrangements across both the children's and adults' spheres along with a "clear and creative whole-system plan" to address health inequalities. In regard to the voluntary sector, the LGA suggested that

the authority and the voluntary and community sector undertake a joint project to develop a clear strategic view of the role of that sector going forward and mutual expectations within this.

Sandwell has made good progress on its improvement journey in respect of partnerships and relationships so far. The council has now established joint strategic planning meetings with Sandwell Children's Trust which is strengthening the constructive working relationship. The Sandwell Health and Social Care Partnership (SHCP) has been established for agencies to come together and agree practical approaches to delivering services. There is a clear relationship in place between the SHCP and the Health & Wellbeing Board to ensure that these two partnerships work in tandem to focus on improving outcomes for Sandwell's residents.

In terms of Sandwell's ambitious economic agenda, the Sandwell Aquatics Centre has been delivered on time and on budget for the upcoming Commonwealth Games. New infrastructure developments such as the Midland Metropolitan University Hospital and the new Midland Metro line provide catalysts for wider regeneration.

The LGA stated that the council needed to become much more "visible and engaged at the sub-regional and regional level with partners across the Black Country and the West Midlands" but recognised that the council is becoming more active at this level. The CIPFA Financial Management Review suggested that the council needed to clarify its offer to and ask of partners to be more effective.

The council will re-establish itself as an active partner in key regional and sub regional partnerships such as West Midlands Combined Authority, West Midlands Growth Company and Black Country Local Enterprise Partnership. Sandwell is actively participating in the trailblazer devolution deal with a clear set of 'asks' now in place so that Sandwell can benefit from the devolution of powers, responsibilities and resources from central government especially in relation to achieving net carbon zero.

The council is taking staff, residents, partners and members with it on this improvement journey and this will build trust and confidence in its joint ability to deliver.

Objectives

The overall objectives of this theme are to:

- ▶ Improve Sandwell Council's standing with key partners and professional bodies at national, regional and local level
- ▶ Improve corporate approach to partner relationships
- ▶ Determine the future relationship between Sandwell Council and the VCS and the approach to funding

Workstreams and Aims

- ▶ **Sandwell Children's Trust** – to establish a corporate approach to working with SCT on shared issues and continue with robust governance arrangements ensuring accountability of SCT to deliver improved outcomes for children and young people.
- ▶ **Regional and Sub-regional presence** – continue to develop relationships with regional and sub regional bodies in order to raise Sandwell Council's profile.
- ▶ **Effective Local Structures** – to review partnership structures within the 'People's sphere' and use a whole-system approach to working on shared issues with partners.
- ▶ **VCS relationship** – to review the relationship with VCS including the funding approach

Key Milestones:

Regular cross-SMBC/SCT Leadership meetings in place	Achieved Feb 2022
City Region Sustainable Transport Scheme approved by CA Board	Achieved March 2022
Sandwell asks of trailblazer devolution deal agreed	
Officer representation agreed to key regional and sub-regional meetings and clear	
VCS Grants review update report to Leadership Team	May 2022
Member representation to key regional and sub-regional meetings agreed	June 2022
Health and Wellbeing Strategy	July 2022
SCT Contract performance reporting embedded within Council PMF	August 2022
Review of SCT Contract concludes	Summer 2022
Quarterly system-wide deep dives conducted for health inequality	March 2023
VCS Strategy formation commences	2023

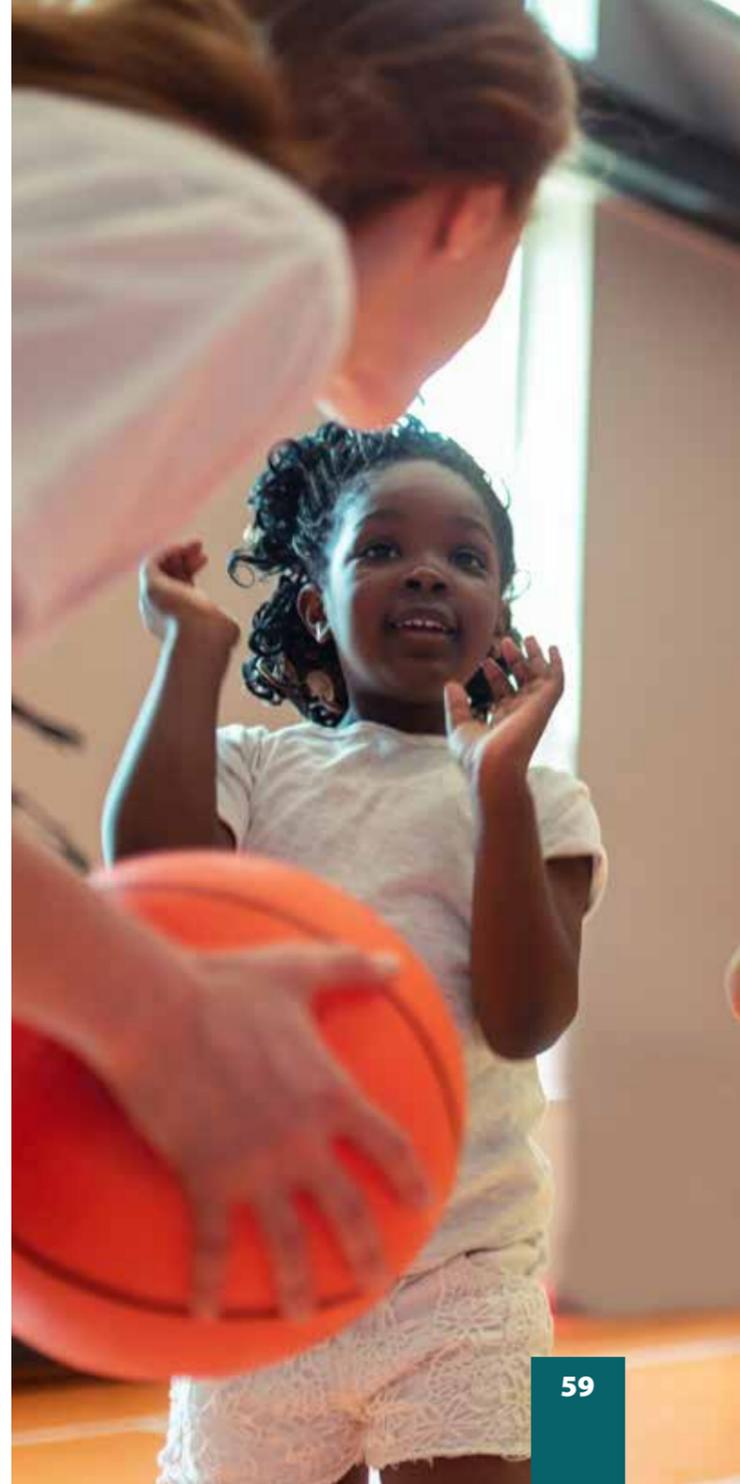

Key Deliverables

- ▶ Revised KPI suite for SCT contract
- ▶ SCT contract review
- ▶ CRSTS allocation
- ▶ Trailblazer devolution deal
- ▶ Health and Wellbeing strategy
- ▶ VCS Strategy
- ▶ Revised partnership structures in children's area of People's sphere

Evidence of Success

When we have effective partnerships and relationships at all levels, we will see evidence of:

- ▶ Improved outcomes for children and young people in Sandwell evidenced in KPIs
- ▶ Improved external review outcomes
- ▶ Regular and active presence at regional and sub regional meetings resulting in more opportunities linked to Sandwell's priorities (e.g. Sandwell's financial asks realised)
- ▶ Improved performance in outcomes on the impact of health inequalities on individuals
- ▶ Clear understanding of the relationship between the Council and the VCS that is embedded in practice – evidenced by feedback from VCS
