

<b>DE-DELEGATED/EDUCATION FUNCTIONS OUTTURN 2021-22</b>	
<b>Impact report</b>	
<b>Title of the Budget</b>	<b>Health and Safety Licences and Subscriptions</b>
<b>Lead Officer:</b>	<b>Andy Timmins</b>
<b>2021-22 Funding:</b>	£5,990
<b>A brief outline on how the funding was used, and the service impact to maintained schools. (E.g. KPI's, service statistics, etc.)</b>	
<p><b>CLEAPSS: subscription to the national school science and design and technology advisory body.</b></p> <p>CLEAPSS guidance documents, chemical data, and example risk assessments are just a few examples of resources available to aid schools in ensuring that activities in the areas of design &amp; technology and science are managed in a safe manner. As a service utilised by schools nationwide, wider guidance on matters such as keeping animals in schools is of relevance and invaluable assistance to schools in the primary phase as well as secondary schools. A helpline run by qualified staff in a variety of disciplines provides additional support to schools as required throughout the school year.</p> <p><a href="#">Schools continue to report that where they have used the CLEAPPSS guidance and documentation, they have found it a useful resource.</a></p>
