

Expenditure Profile Guidance	
Overarching Guidance: <i>Within Tables A & B, only populate cells that are not shaded grey. Boxes shaded grey will be locked and will autopopulate where necessary. Please cross reference these autopopulated numbers with other tables or cells as requested below to ensure accuracy of numbers presented.</i> <i>Please read the explanation boxes shaded yellow for each table of this document.</i> <i>An example of a completed Table B - Expenditure Profile, has been provided in the Tab titled "Example of Expenditure Profile" for your reference.</i> <i>We acknowledge that you will be able to use up to 4% of your allocation to undertake necessary Fund administration, such as project assessment, contracting, monitoring and evaluation and ongoing stakeholder engagement. Please do not make any deduction for this in completing this spreadsheet.</i>	
Table A: <i>Insert your annual UKSPF allocation in cells C6 to E6. The allocation per year must match the total allocation set out in Table E.</i>	
Table B: <i>All investment priorities and interventions for UKSPF are listed within columns A & B. Please provide detail of any bespoke interventions in the relevant cells in column B under each investment priority. Please delete the 'Insert Bespoke Intervention' text in column B where you wish to insert a bespoke intervention and provide a short description in column B along with the information required in cells C to P per the guidance below. If your investment plan does not include any bespoke interventions, then please leave the cells as they are.</i> <i>Column C should be populated with your planned UKSPF funding allotted to each intervention. We do not require this detail on a project by project basis. Where projects span more than one intervention please provide an approximate split across the relevant interventions. If you have not selected a particular intervention, then the columns should be left blank. The total in cell C72 should match the total in cell F6 in Table A, if there is an error, cell C72 will flag red.</i> <i>We require you to submit the planned yearly breakdown of expenditure across Financial Years 2022/23, 2023/24 & 2024/25 for each intervention you have selected. Totals for each investment priority in cells H29 & O29 should match cell C29. Similarly, H54 & O54 should match C54 and H71 & O71 should match C71. Annual totals by investment priority will autopopulate Table C. H71 should match the total in cell F6 in Table A, if there is an error, cell H72 will flag red.</i> <i>Enter the capital and revenue spend amounts (£) for each intervention by each financial year in columns I to O. Any required minimum capital expenditure stated within the Prospectus will need to be demonstrated within these columns. The total figures shown by intervention and each financial year will autopopulate in Table C. To help you plan and calculate your capital and revenue amounts, below is the annual, minimum % of capital delivery required:</i> <i>2022/23 - 10% minimum Capital Delivery</i> <i>2023/24 - 13% minimum Capital delivery</i> <i>2024/25 - 20% minimum Capital delivery</i> <i>The orange cells relating to the People & Skills investment priority are for completion where local authorities have decided to fund targeted people and skills provision in 2022-23 and 2023-24 where this is a continuing priority for 2024-25 and may be at significant risk of ending due to the tail off of EU funds. This flexibility may only be used where provision is currently delivered by voluntary and community organisations, having regard for the focus of the Fund and available funding.</i> <i>Based on a review at the end of year 1 (FY 22-23), DLUHC will engage with lead local authorities on expenditure profiles for FY 23-24 & FY 24-25 as programmes will develop and the profiles set out in Table B may need to be adapted as delivery develops.</i>	
Table C: <i>If the required minimum capital % is not met, cells V6 - V8 will flag red. If this happens, please amend the allocations in Table B to ensure the minimum annual capital spend is met.</i> <i>Table C is for DLUHC internal use only and will prepopulate to give us an overview of the information you have provided. Please use this to cross reference the figures you have provided correctly match relevant cells in Tables A and B before submitting.</i>	
Table D: <i>The detail you provide in this table is for information purposes only at this stage.</i>	
Table E: <i>Table E contains a detailed breakdown of the allocations per year to Unitary Authorities, Lower/Upper tier authorities and MCAs and the GLA.</i>	

Example Only

Please complete the funding profile for the three years. The funding profile total should correspond with your expenditure profile (Table B) totals.

Funding Profile:				
Funding Sources	2022-23	2023-24	2024-25	Total
UKSPF Allocation	£571,877	£1,143,755	£2,996,637	

The table below should be completed by intervention. Enter the amount of the UKSPF allocation you are assigning to each intervention in column C then provide an annual expenditure profile within columns E to G for each Financial Year. Capital and revenue amounts (£) should be entered for each intervention by financial year in columns I to N (please see minimum capital % for each financial year in the guidance to support your calculations). Interventions must be completed by March 2025 as detailed in Section 7 of the Prospectus. The orange cells relating to the People & Skills investment priority are for completion where local authorities have decided to fund targeted people and skills provision in 2022-23 and 2023-24 where this is a continuing priority for 2024-25 and may be at significant risk of ending due to the tail off of EU funds. This flexibility may only be used where provision is currently delivered by voluntary and community organisations, having regard for the focus of the Fund and available funding.

Match funding is not mandated and will not form part of the assessment of your investment plan, however, we will expect you to report on any match funding/leverage secured over the lifetime of the Fund. If you are in a position to report any now, please complete the table below. If known, please provide details of which investment priority and intervention(s) any match is to be allocated to.
