## Conclusion

230 people took part in the survey which is considerably more than in 2021. Whilst acknowledging this remains an overall small number, feedback from those who took the time to respond showed clear public

support for all three PSPOs as part of a toolkit of measures to continue to address these issues which are concerns across the Borough with relevant controls and safeguards in place.

Public Health have raised the need for training in addiction for those who can confiscate alcohol from users which is in place and the existing dog PSPO contains exemptions for owners of registered disability dogs. A number of respondees also raised the idea of having designated areas for BBQs with suitable infrastructure in place to reduce risks which will be looked into.
