

RESIDUAL DESIGN HAZARDS
 (The following information has been collected from Preconstruction Information and the Amey CDM Hazard Management Process.)
 1. Hazards identified on site walkover.
 NOTE:
 Residual hazards identified in designs by others not shown on this set of drawings.

- NOTES:**
- Drawings are to be printed in full colour.
 - All dimensions are in metres unless stated otherwise. For drawing key refer to sheet 1.
 - The lane markings shown in the drawings are indicative only. Detailed Road markings will be designed in the upcoming stages.
 - The junction types of cross roads will be assessed in the next stage of the scheme.
 - All the Bus stops along the corridor will have RTPI and CCTV installed.
 - Final design interface between cycle route and minor junctions to be completed following stakeholder comments.
 - All the Bus Stops along the Corridor will have RTPI (Real Time Passenger Information) and CCTV installed.
 - Design based on topo-survey data, therefore some discrepancies with OS Map at tie-ins may occur.

KEY:

- Red Line Boundary
- Proposed pedestrian footway 1.8 - 2.0m. Also to include other areas as shown.
- Cycleway 3.0m / Existing Cycle Facility
- Cycleway 2.5m (unless shown)
- Proposed shared
- Proposed Buffer 1.0 m max
- Proposed Homezone (Low Speed)
- Proposed new kerb
- Sections of route completed or designed by Sandwell MBC/others under separate AFT funded contract
- Review 3rd party landtake option (Refer sheets 8, 12 and 22)
- Proposed mature tree to be removed
- Proposed medium diameter tree to be removed
- Proposed small diameter/staked tree to be removed
- Existing WWII memorial tree to remain
- Proposed alteration to side road priority
- Indicative line showing LTN 1/20 absolute minimum width of segregated footway/cycleway. Shown for information as part of tree loss mitigation review.

**General Arrangement
 Option B - Desirable
 Sheet 23 of 29**

Project Ref. No: COMHA1CWC018 | Scale: 1:500 @ A1
 Stage: Preliminary Design | Dimensions: m

Drawing Number
 Project Number | Originator | Volume
COMHA1CWC018 - AMY - HGN
A4123 -DR-CH-010023
 Location | Type | Role | Number

Suitability	Suitability Description	Revision
S2	Suitable For Information	P03

This map is based upon Ordnance Survey material with the permission of Ordnance Survey on behalf of the Controller of H.M. Majesty's Stationery Office © Crown copyright. Unauthorised reproduction infringes Crown copyright and may lead to prosecution or civil proceedings. (100023119) (2023).

- NOTES:**
1. Drawings are to be printed in full colour.
 2. All dimensions are in metres unless stated otherwise.
 3. For drawing key refer to sheet 1.
 4. The lane markings shown in the drawings are indicative only. Detailed Road markings will be designed in the upcoming stages.
 5. The junction types of cross roads will be assessed in the next stage of the scheme.
 6. All the Bus stops along the corridor will have RTPi and CCTV installed.
 7. Final design interface between cycle route and minor junctions to be completed following stakeholder comments.
 8. All the Bus Stops along the Corridor will have RTPi (Real Time Passenger Information) and CCTV installed.
 9. Design based on topo-survey data, therefore some discrepancies with OS Map at tie-ins may occur.

- KEY:**
- Red Line Boundary
 - Proposed pedestrian footway 1.8 - 2.0m. Also to include other areas as shown.
 - Cycleway 3.0m / Existing Cycle Facility
 - Cycleway 2.5m (unless shown)
 - Proposed shared
 - Proposed Buffer 1.0 m max
 - Proposed Homezone (Low Speed)
 - Proposed new kerb
 - Sections of route completed or designed by Sandwell MBC/others under separate AFT funded contract
 - Review 3rd party landtake option (Refer sheets 8, 12 and 22)
 - Proposed mature tree to be removed
 - Proposed medium diameter tree to be removed
 - Proposed small diameter/staked tree to be removed
 - Existing WWII memorial tree to remain
 - Proposed alteration to side road priority
 - Indicative line showing LTN 1/20 absolute minimum width of segregated footway/cycleway. Shown for information as part of tree loss mitigation review.
