Cabinet Report - 10 Year Sandwell Valley Master Plan - Appendix D: Consultation Themes and Responses

Comment Longer options for walking routes, as well as shorter ones for different abilities	Theme Accessibility and Connectivity	Response The walking trails will be updated, with improved signage to designate walking route types.
Improved disability access to sites	Accessibility and Connectivity	As part of the infrastructure investment, we will be improving accessibility to Swan Pool, Forge Mill Farm, and Sandwell Valley Visitor Centre. Further scoping work will be completed to identify improvements to disability access across Sandwell Valley, and potential additional funding sources for this.
Transport between the sites	Accessibility and Connectivity	The land train and cycle hire will provide additional routes between the sites for all abilities. In addition, people are still encourage to walk and enjoy the nature of Sandwell Valley in between the sites.
Improvements to the Swan Pool Car Park, to allow for cash payments	Accessibility and Connectivity	As part of the feedback from this consultation, we will work with parking colleagues to explore options to improve use of this car park.
Support for increase and improvements in signage	Accessibility and Connectivity	Signage and way finding will be improved across Sandwell Valley to enable visitors to find the destination they are heading for, but also discover new elements of Sandwell Valley for the first time. The proposed improvements to the car parks, increasing the number of designated bays through suitable
Concern about entrance and exit options encroaching on green space / woodland Introduction of a park and ride scheme	Accessibility and Connectivity Accessibility and Connectivity	markings, and using an alternative exit for large event days is designed to provide a solution to the traffic on peak days, but also to avoid green space or woodland being used for new exit / entrance options. We will continue to review this option with our transport partners.
Car park and entrance road from Salters Lane needs refurbishment (pot holes)	Accessibility and Connectivity	The proposed infrastructure improvements include repairs to the car parks and entrance from Salters Lane.
More links for public transport to Sandwell Valley	Accessibility and Connectivity	Sandwell Valley benefits from good transport links, unlike other Country Parks. West Bromwich Town Centre, and bus and metro links, are within ten minutes walk of Sandwell Valley Visitor Centre, and bus routes that stop near Forge Mill Farm. We will improve the signposting to these transport links.
Problems with car parking facilities, not enough car parking available	Accessibility and Connectivity	The proposed improvements to the car parks, increasing the number of designated bays through suitable markings, and using an alternative exit for large event days is designed to provide a solution to the traffic on peak days and to provide more car parking spaces.
Parking issues for residents during peak visitor days and major events	Accessibility and Connectivity	For large events which impact local residents, we have worked on off site parking, premium on site parking, and temporary parking restrictions. We will continue to monitor this for large events, and work with residents on sourcing a solution to these issues.
Concern about the use of Europa Estate as an exit during peak days	Accessibility and Connectivity	This is proposed for large events and peak days associated with this. This will be for a limited number of days per year. However, this is currently a proposal and will be subject to further discussion with residents.
Return of pedallos to the lake at Dartmouth Park	Attractions	This will be scoped in the first year of the master plan to establish whether this is a viable option, and to procure a partner if this is the case. The Sandwell Valley Amusements has become a part of Sandwell Valley, and is enjoyed by many families
Concern about the Sandwell Valley Amusements not in keeping with the Country park	Attractions	as an affordable day out. We are currently about to tender for the delivery of this attraction for the next five years. The investment into the King George V pavilion and procurement of a partner for this will provide cylce
Support for the increase in sporting facilities, cycle hire, and adventure golf at King George V Pavilion	Attractions	hire facilities, sporting facilities, and adventure golf for visitors. This is not within scope of the master plan for Sandwell Valley. However, we will work with the Friends of Dartmouth Park and other stakeholders to consider what investment is required to improve the facilities
Refurbishment for 'The Fort' in Dartmouth Park	Attractions	and how best to implement these. The Master Plan includes proposed improvements to the current tennis courts, planned to be a play zone with multi-sports activities. We will also renew the King George V Playing Fields to be bookable for
Improved football and sports facilities Improved watersports facilities	Attractions Attractions	football, during football season. The Master Plan includes a new water sports facility at Swan Pool.
Increase in healthy food offers	Catering	We have recently updated our menus to provide a broad range of offers, including vegan and gluten free options. Healthy options are available on all menus, and we will continue to review this. We are currently planning menu improvements to include locally sourced produce and food, and
Increase in use of locally sourced produce and food in sales	Catering	increasing the offer in our shops for this. This includes food grown at Sandwell Valley (excluding meat produce).
Concerns about charging for entry to the park	Charges	Sandwell Valley Country Park and Dartmouth Park - including all Green Spaces in Sandwell - are free to access. The facilities within the park may incur charges, such as catering and use of attractions. It is intended that Sandwell Valley is an affordable day out, whatever your means. So visitors are able to
Affordable pricing for events and activities at Sandwell Valley	Charges	enjoy the countryside with no spend, but those visitors that do want to spend on attactions, catering, and facilities can do so. Our fees and charges are set and approved by Cabinet and are intended to be affordable. Some events and activities are premium, and targeted at an audience who are more likely to spend this amount.
Concern about costs and the impact on other services	Charges	The Sandwell Valley Master Plan has been tested with financial experts, CIPFA Cco, and a ten financial model produced based on the investment. It is intended to produce a surplus, reducing the current net annual cost to the Council of c£700,000 for Sandwell Valley.
		The Master Plan is focussed on the improvements to the offer at Sandwell Valley, which has a commercial focus to achieve revenue plans as set out in the Medium Term Financial Strategy. Access to Sandwell Valley Country Park is free of charge, although some facilities and offers are charged for.
Concern about the commercialisation of Sandwell Valley Removal of parking charges	Charges	Charges are set annually by Council. We do not propose removing the parking charges at Sandwell Valley. The parking charges help to maintain the sites and car parking facilities.
Improved gardens at Dartmouth Park	Conservation and Land Management	The Master Plan addresses improvements to Sandwell Valley, and Dartmouth Park is considered in the plan as a gateway to Sandwell Valley. We will continue to work closely with the Friends fo Dartmouth Park and other stakeholders to maintain and improve Dartmouth Park.
Better litter management across Sandwell Valley	Conservation and Land Management	As part of the infrastructure investment, we will explore the use of bins and whether smart bins can be trialled in some locations. We will also use signage and interpretation to promote people picking up their litter and the impacts of littering to nature and wildlife.
Introduce safe BBQ Areas	Conservation and Land Management	We do not currently plan on introducing BBQ areas, but will consider this further in the development of a conservation and heritage management plan for Sandwell Valley.
Ensuring Sandwell Valley is maintained for the benefit of birds and wildlife	Conservation and Land Management	We will work with stakeholders, such as SANDNATS, RSPB, and BBC Wildlife, to develop a Conservation Plan for Sandwell Valley which will look at how best to support the birds and wildlife in Sandwell Valley. We will review the resources required for the conservation and heritage management when developing
Increase in park rangers and general security of the sites Ensure the bee hives are retained	Conservation and Land Management Conservation and Land Management	this plan. The bee hives at Sandwell Valley Visitor Centre will be maintained, but may move location. This will be considered as part of the design plans, ensuring the bees can be maintained.
Concerns about the land train impacting on wildlife	Conservation and Land Management	The land train will be operated in a way as to not impact the wildlife of Sandwell Valley. We are currently exploring sustainable ways of operating the land train and this will be a key factor in the procurement of the land train.
Concern about additional lighting and the impact on the environment and nature	Conservation and Land Management	There are no plans to introduce artificial lighting to Sandwell Valley Country Park, beyond that already exists. We will work with stakeholders, such as SANDNATS, RSPB, and BBC Wildlife, to develop a Conservation
Impact of increased cycling across the site on nature and conservation	Conservation and Land Management	Plan for Sandwell Valley which will look at how best to support the birds and wildlife in Sandwell Valley, whilst allowing cycling to be a positive impact. In developing a Conservation and Heritage Management Plan, we will consider the security and anti-
Increase in CCTV and monitoring of antisocial behaviour	Conservation and Land Management	social behaviour impacts and how these can be addressed. The investment includes an increase in CCTV at the three main sites of Forge Mill Farm, Swan Pool, and Sandwell Valley Visitor Centre. We will work with stakeholders, such as SANDNATS, RSPB, and BBC Wildlife, to develop a Conservation
Increase in wildflowers, dedicated areas for natural habitat	Conservation and Land Management	Plan for Sandwell Valley which will look at how best to support the birds and wildlife in Sandwell Valley, and to increase natural habitat where possible. The final plans for Swan Pool Watersports Centre will be subject to planning permission, including
Potential ecological impacts on wildlife and birds of the Swan Pool proposals	Conservation and Land Management	ecological impact assesments. We will increase the interpretation of wildlife and nature across Sandwell Valley, and create a space to
More education around wildlife and conservation across Sandwell Valley	Conservation and Land Management	showcase the ecology and conservation of Sandwell Valley at Sandwell Valley Visitor Centre. We will work with stakeholders, such as SANDNATS, RSPB, and BBC Wildlife, to develop a Conservation Plan for Sandwell Valley which will look at how best to support the birds and wildlife in Sandwell Valley,
Increase in bird nesting boxes	Conservation and Land Management	and to increase natural habitat where possible. We will work with stakeholders, such as SANDNATS, RSPB, and BBC Wildlife, to develop a Conservation Plan for Sandwell Valley which will look at how best to support the birds and wildlife in Sandwell Valley,
Look at the sustainability of the new buildings / refurbishments	Conservation and Land Management	and to increase natural habitat where possible. We will work with stakeholders, such as SANDNATS, RSPB, and BBC Wildlife, to develop a Conservation Plan for Sandwell Valley which will look at how best to support the birds and wildlife in Sandwell Valley,
Work with SANDNATS, RSPB, BBC Wildlife and other stakeholders to maintain conservation and promote this for education Ecological surveys and impact assessments will need to be completed for the proposed developments	n Conservation and Land Management Conservation and Land Management	and to increase natural habitat where possible. As part of the design and planning permission process, ecological impact assessments will be completed for all proposals.
Reopening of the cycle hire facility Bike washing facilities	Cycling	As part of the Master Plan, it is proposed to invest in the King George V Pavilion and to seek a partner to
	Cycling	deliver Cycle Hire fromt this location. We will consider this as part of the infrastructure spend, and the viability of this idea.
Concerns about E-Bike Charging Points and the use of E-Bikes in pedestian areas	Cycling	
Introduction of dog friendly café access	Cycling Dog Facilities	We will consider this as part of the infrastructure spend, and the viability of this idea. We will consider this as part of the infrastructure spend, and the viability of this proposal. We will work with colleagues and stakeholders to fully assess the potential impacts and risks associated with this proposal, as well as the benefits. As part of the Master Plan, a new and expanded café is proposed for Sandwell Valley Visitor Centre. We are planning to have dog friendly access to at least parts of this café.
Introduction of dog friendly café access Introduction of dog washing facilities	Cycling	We will consider this as part of the infrastructure spend, and the viability of this idea.
